

Introducing your first Affiliate  
Funnel

# Day 8

## Introducing your First Affiliate Funnel

Checklist for Today:

- Watch Geraldo's Video
- Fill out the worksheet below

Now that you've know the benefits of having a salesfunnel it's time for you to get your first Funnel builder. (It's finally time for some action!).

For your first funnel builder you have 100s of not 1000s of options really. 😊

Currently I have two favorites:

1. Wordpress
2. Clickfunnels

For starters I'd recommend using Clickfunnels.com as it's very user friendly and made for those without any programming or developing skills.

Also Clickfunnels is a software especially tailored around the creation and marketing of Salesfunnels and comes with a LOT of valuable training opportunities, coaches and guidance.

Clickfunnels has an amazing platform, very easy to use and an even better community.

1. Go to Clickfunnels.com or use my Affiliate link to get yourself a 14 day Trial for the Clickfunnels software (I thank you greatly!) 😊 - [https://clickfunnels.com/?cf\\_affiliate\\_id=578549&affiliate\\_id=578549](https://clickfunnels.com/?cf_affiliate_id=578549&affiliate_id=578549)
2. Browse your funnel builder backoffice and Join the Clickfunnels community on Facebook (This will help greatly!)
3. Complete the Welcome challenges you find on your dashboard (This will help you get familiar with the software).
