

## Koleverii's LOST ARK English Guide

*Disclaimer: This guide is far from complete. I wrote this guide based my **first time** experience (blundering though more like it) of playing Lost Ark in Final CBT (23 May ~ 3<sup>rd</sup> June 2018) and what I learned from watching other streamers vods / YouTube videos. Do refer to other sources of English info on Lost Ark in the web, to have a more comprehensive understanding/knowledge about this awesome game. Still you're gonna find all kindz of useful info here... all kindz! (Reference to comedians HodgeTwins in YouTube).*

**SUBSCRIBE/  
DONATE/  
CHEER/** - if you find the information here useful and if you have the resources, kindly consider becoming a sub/donate/cheer to the channel. It will help support my dream to be able to do this full time. This guide did take a lot of time to prepare.

[www.twitch.tv/koleverii](http://www.twitch.tv/koleverii)

## 1. THIS GUIDE

(한국어) These Korean text are reference for you see if it is displayed on game window. This sometimes has important implication as you need to do some action [Y] or play a song/music, talk to a particular person, buy a particular item from a vendor, etc.

[Keyboard] These are keys you need to press on the keyboard

**Information** About certain things in the game window

**Note** My personal observations and thoughts about the game

Confirm (확인), you will see this button a lot throughout the game

(pg.no) page number for further reference

## 2. SOFTWARE INSTALLTION

**Mudfish** as at the time of writing this guide, the game will only be in Korean servers so you'll need a VPN client to get into the servers, and I used Mudfish.

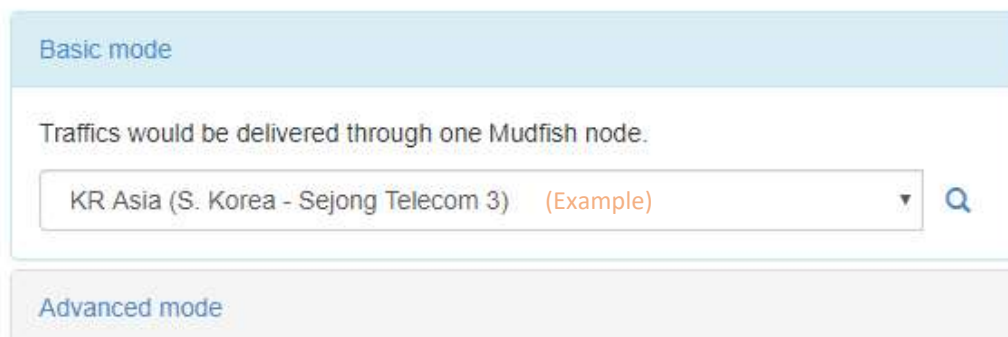

Download URL: <http://mudfish.net/download>

Sign up for Mudfish and buy some credit at their website, USD3.00 was enough to play 12 days of Final CBT. Add Lost Ark as item and left-click on it.

Then under Setup -> Nodes -> Basic mode -> select one of the KR Asia (S. Korea – name) node, and click Save. You may not see the Korean servers if you have not bought some credit.

**Nodes** Select Mudfish node.

**STOVE Client** you will need to install the STOVE client first, and that will download install Lost Ark later. However, I will try to provide the installation files to download via my OneDrive, so that you don't have to use the VPN data credit. Please find the latest info in the Twitch channel.

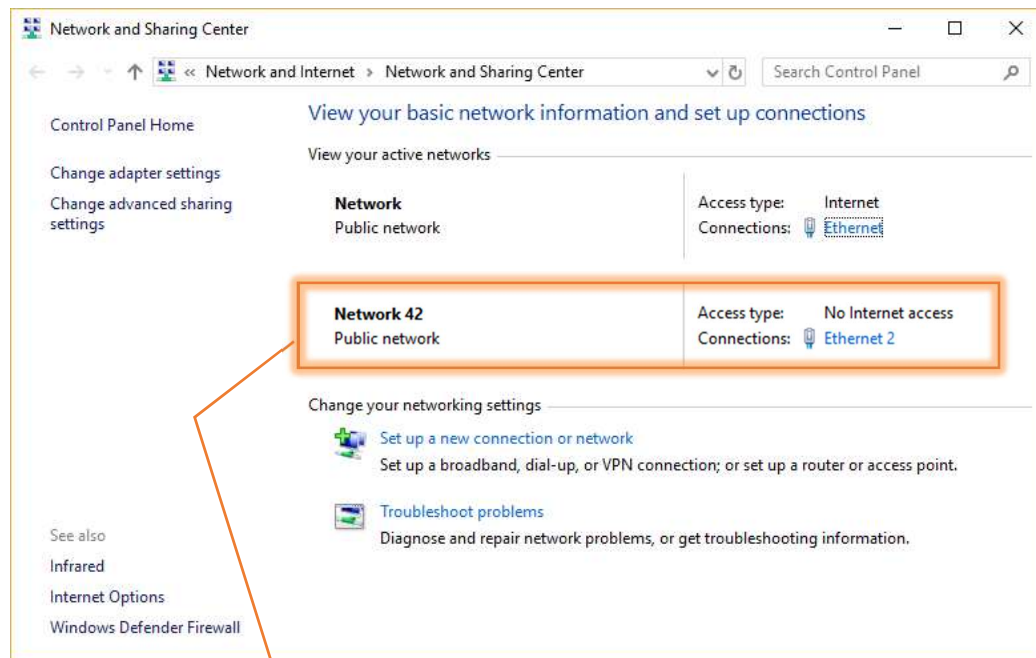

**STOVE** *Note: I highly recommend you install the game into a Solid State Drive (SSD), instead of HDD, to cut down the loading time between scene changes.*

Download URL: <http://www.onstove.com/>

*Note: This is just to download the client only, it doesn't not mean you'll be able to access the server. That will happen during OBT or when the game has been released.*

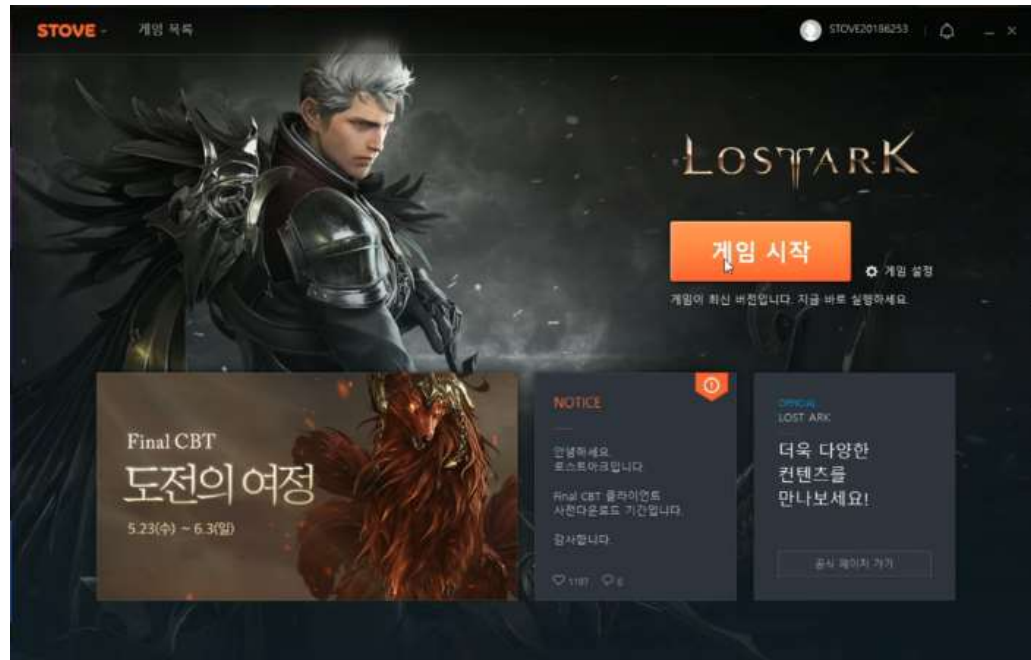

Start-up sequence to launch the game:

- Right-click on Mudfish icon and select "Run as administrator"
- Login page will open in browser, go ahead and login with your username and password
- Check "Network Status" in your computer and make sure the VPN has connected!

If you can see this, then it means your VPN has connected, it should say "Network some number"

- d. Then login to STOVE client with userid and password to get this game login screen, this was the screen we saw in Final CBT, might be different in OBT.

- e. These are some of the messages you might see on the orange (sometimes blue) button
- i. 게임 설치 – game installation
  - ii. 점검 중 – checking (if service is available)
  - iii. 업데이트 – update (is required)
  - iv. 게임 시작 – start game
- f. If all goes well and you click on 게임 시작, you should hear a thud sound and see nProtect GameGuard Engine start in the background to make sure you have Korean IP address.

- g. If you get error message, close everything and start the launch sequence again. If all goes well, you'll soon start hearing seagull sound... all your dreams and months of waiting have come true... cuz you can get ready to play Lost Ark!!!

### 3. KEYBOARD SHORTCUTS [ ]

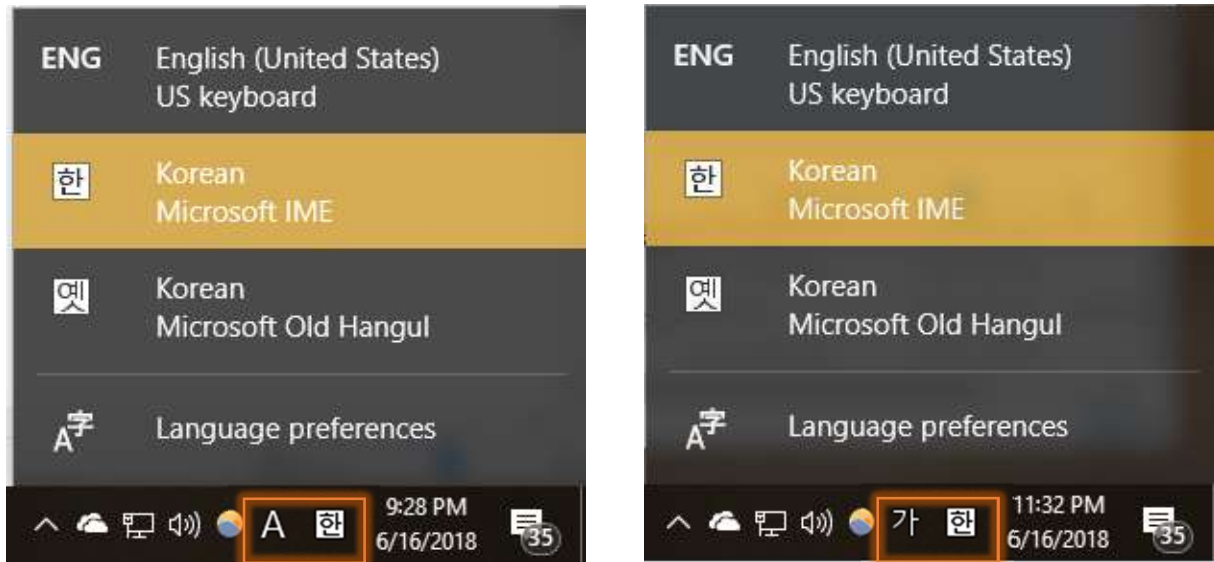

I – Inventory	main inventory, decompose & quest items section
P – Character Profile	displays your character’s profile
K – Combat Skills	Brings up Tripod system/combat skill
L – Life Skills	brings up Like Skill system
B – Combat/Life skill	to switch between combat and life skill
G – Interaction	main key to interact with people/items/events
J – Quest Journal	brings up the quest journal with details information on where to go, what to do and what are the rewards for completion of quests
Y – Social Action	various social actions our character need/can/have to do
M – World Map	check where we are/need to go
TAB – Current Map	shows an overlay of the current map
N – Adventure’s Book	continent specific objectives that needs to be completed for various rewards
O – Expedition	bring up expedition journal where we can get rewards for experience level achieved by completing certain tasks in the game
F1 – Life potions	drink equipped potion to regain life over time
F2 – Teleport/Music	either to travel or play learned music for NPC
F3 – Mount	use equipped mount to move to where you want to go faster
F5/F6 – Quest Item	certain quests will require you to press this, refer to the quest indicator
Alt+G – Milestone System	gives guidance on what activity to do to get next level equipment
Alt+L – Item Dictionary	use this to find where and what you need to do to get crafting materials
<u>Under Crafting</u>	
Alt+I – Engraving/Imprint	add additional effects on rings
<u>Under Other Activities</u>	
Alt+J – Epona’s Requests	daily quest to get materials, runes, etc.
<u>Under UI</u>	
U – Manage friends	add/remove friends, whisper, check profile
Alt+U – Manage guild	join/leave guild

## Korean Language & Keyboard Stickers

I highly recommend installing the Korean Language pack in Windows, as you'll need to type in Korean characters when you use the Item Dictionary [Alt+L] (pg.16).

Step: Start – Setting – Time & Language – Region & Language – Add language – 한국어

Set your keyboard to Microsoft Korean IME, before you launch the game. In game, to change language type between English & Korean, press **[Right-Alt]** button beside the Spacebar.

Also get some Korean keyboard stickers to help identifying the Korean alphabets on your keyboard. You can get them cheap from online stores.

**Amazon's Choice**

**PRINTED IN KOREA!  
BEST QUALITY GUARANTEED!  
Non Glossy-Anti reflection**

**Korean Black Opaque Sticker**

**Korean- English**  
by keyboardsticker

\$4.99 **prime**

Get it by  
FREE Shipping on orde

## Inventory [I]

We get 100 free slots to keep all kindz of junk we collect in the game... all kindz!

The screenshot shows the '소지품' (Inventory) window with various items. Callouts provide the following information:

- Can be displayed by various categories:** Points to the top toolbar icons for filtering items.
- These delicious looking things can be consumed for buffs/de-buffs, one at a time only:** Points to the row of food items like cupcakes and beer.
- These items with frame around them are Battle Items that can be equipped on slot 1,2,3,4:** Points to items like a sword and a shield.
- These items with small bag icon on them are complete garbage, sell for some shillings:** Points to items like a small bag and a scroll.
- This opens up the decompose windows where you can breakdown unused equipment to scrap parts to sell later, saving inventory space. More on the use of this on page 41:** Points to the '분해' (Decompose) button at the bottom.

Below the inventory is a screenshot of the player's hotbar, showing a '분해' button and various items in slots 1-4.

*Note: This Strawberry Cupcakes (딸기 컵케이크) gives 5% increased chance to get magical/legendary items for 20 mins, so consume it before killing bosses that drop immediate loot or opening treasure chests.*

## Combat Skills [K] (more on pg.27)

Q,W,E,R,A,S,D,F	main combat skills, channeling/charging skills requires you to hold down the key for the amount of time the skill is channel, you can cancel it by releasing the key press, some skills require multiple taps
C	activates Awakening skill which you can get after you reach Character Level 50 and completing a quest. You'll also need an item to use this skill which you can get from some vendors
Spacebar	Quick dash/dodge
X, Z	Activates your character identity energy/resources
1,2,3,4	Use equipped battle items
F1	Use equipped healing potion
F2	Brings up the Teleportation/Music window
F3	Equip mount / dismount

*Note: You need this item Piece of Chaos (혼돈의 조각) to use the Awakening (각성) skill. You can just purchase this item from certain vendors.*

## Life Skills [L] (more on pg.31)

Q,W,E,R,D,F	use equipped life skill, this gets automatically activated when you right-click or press [G] on interact able life skill item i.e. flower/tree/rock/etc.
-------------	--

*Note: You can quickly change between Combat and Life skill by pressing [B].*

## Sheet Music (악보) [F2]

This music is to teleport us out of dungeons after completion of quest, or from an island back into our ship at sea

There are music sheets we can learn; we perform it to some NPC as part of quest or to increase "favorability" with certain NPC

This music is to teleport us Tricion, to meet Beatrice, to pass her the Arks when we complete main quests, also to test our Tripod system (pg.30)

Yet to be discovered music sheet (more on pg.85)

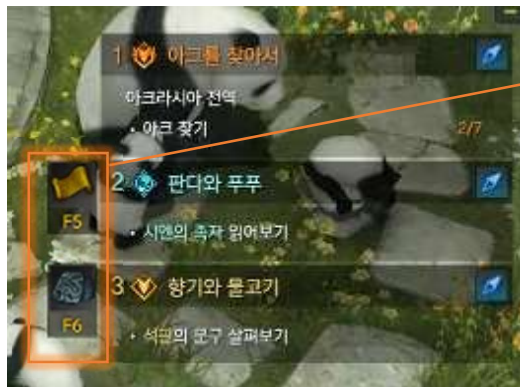

Click this 연주 to play the music

## Mount [F3]

You'll be riding all kindz of mounts in this game... all kindz! Collect them all!

## Quest Items [F5] /[F6]

You need to press this immediately or sometimes when you reach a certain area or on something for certain quests, keep an eye for it

## Quest Journal (퀘스트 저널) [J]

This brings up our current quest journal that shows what we need to do and what are the rewards.

You can check/uncheck what quest(s) you want to be displayed on the UI (pg.33)

Possible rewards from completing the quest

Clicking this will bring up the world map and show you where you might need to go to do this quest

## Social Actions (소셜 액션) [Y]

Clicking on these will make your character do the required social actions for some quests. If you have Korean input enabled, you can just type /춤 (for example) at the chat window for your character to perform the social action of dancing

## Character Profile (캐릭터 정보) [P]

This bring up your main character profile that shows the equipment you are wearing.

The screenshot shows a character named Koleverii at level 40. The interface includes a central character model, a list of equipped items (armor, weapons, accessories), and a stats panel. Callouts provide the following information:

- Armor and Weapon:** Points to the equipped armor and weapon slots.
- Life Skill tools:** Points to the Life Skill tools slot.
- Accessories: necklace, earrings & rings:** Points to the equipped necklace, earrings, and rings.
- Polished Ability Stone:** Points to the Polished Ability Stone slot.
- This Item Level is an average score of Armor, Weapon and Accessories:** Points to the '196.91' item level value.
- For other classes, this might be:** Points to the 'Strength' stat, with a note: '지능 - Intellect Or 민첩 - Agility'.
- In OBT, this have been changed to:** Points to the 'Harmony' stat, with a note: '제압 = Weakening (more on pg.28)'.
- Ring Engraving Effects:** Points to the '약물 중독' (Drug Resistance) effect on a ring.

Item Level determines what level of Contents you can explore sometimes, like Chaos Gate, Guardian Raids and Field Boss raids (pg.58).

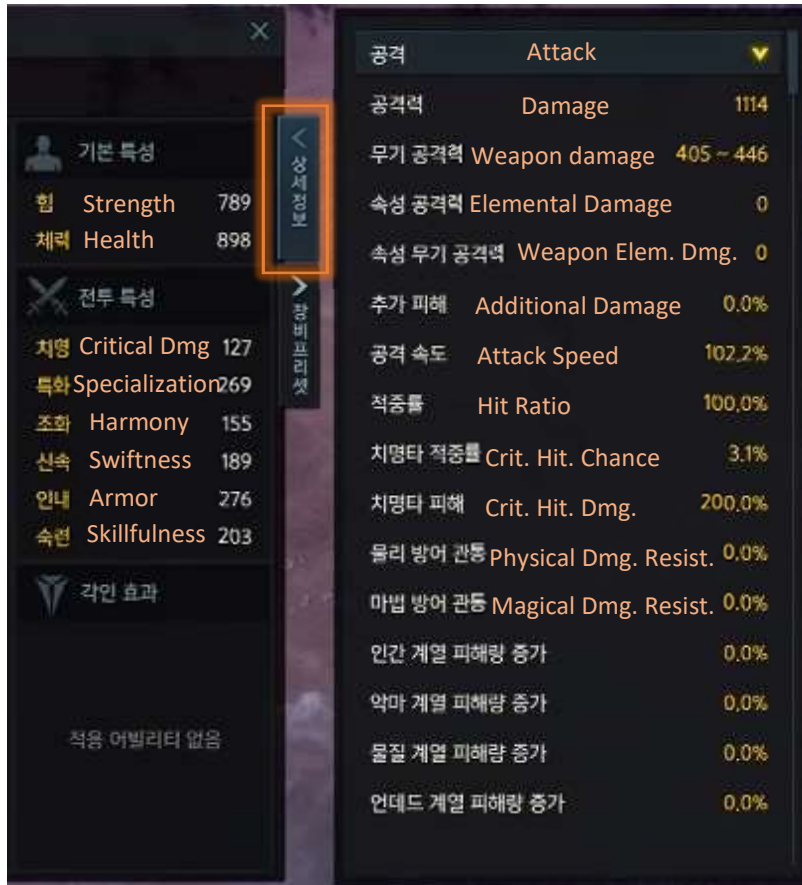

*Note: If a better equipment than what you currently equip drops, it will automatically be indicated with a blue up arrow. For rings and earrings, since you can equip two of each, make sure you press [Alt] to check both of them.*

*Note: Rainbow colored potion permanently increases your character's main stat like Strength, Intellect or Agility by 10 points. Red potion permanently increases Health. You can get these by doing quests and even Card Battles... so go get some!*

Detailed Information (상세정보) on offence power:

Note: the list is long, I have covered the top most important stats only.

These are the main 4 categories. You can refer to the Rune word quick reference (pg.51). We will explore more of this is OBT.

There is an option to pre-set equipment as well, so that we can exchange equipment based on the content we are doing at that time, like PvE or PvP, Guardian Raids, etc.

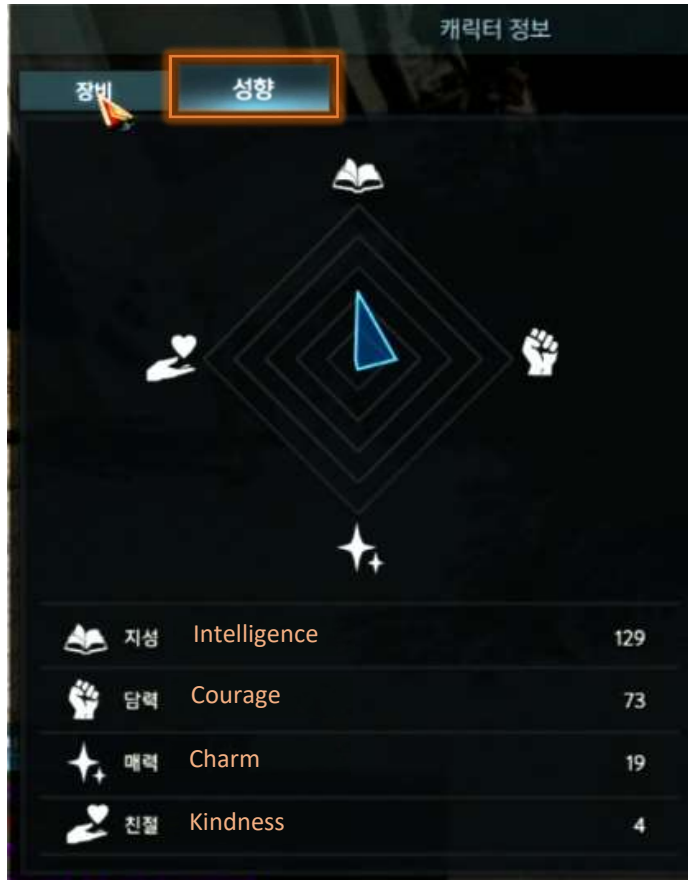

Click this to apply this pre-set

Store current equipment as preset

## Tendency (성향)

The Tendency tab in the Character Profile window will show your current tendency towards NPCs in the game. You can get certain quests only if you have sufficient Tendency attribute points.

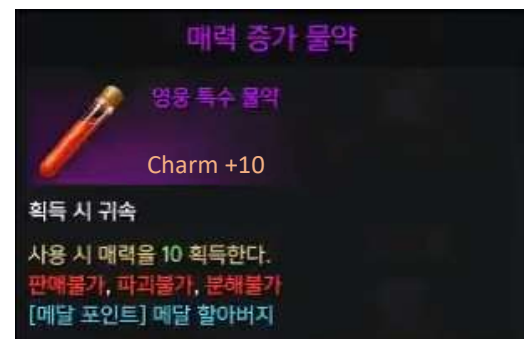

These are potion in the game that will give you permanent Tendency attributes increase, you get them by doing quests and even Card Battles (pg.81).

If you run into multiple choice answers with some NPC and have red Tendency requirement for some answer selection, don't continue, by clicking on Cancel (나가기), on the bottom right. Then use the Item Dictionary feature (pg.16) to find the quests that you need to do to get more of those potion and then go back and select this answer, so that you don't miss out on legendary gift items! More on Favorability on page 84.

Koleverii's Lost Ark Guide – [www.twitch.tv/koleverii](http://www.twitch.tv/koleverii)

## World Map [M]

Brings up the map of the world of Lost Ark and the six continents. Each basic character class will start from one of these continents and eventually explore all continents in the quest to find the Lost Arks.

Here are the main areas and some things of interest for quick reference as of Final CBT:

아르테미스	Artemis	- start of main quest
유디아	Eudia	- Song of Temptation (music sheet – Adventurer’s Book [N])
루테란 서부	Lutheran West	- Lutheran City*, map exchange
루테란 동부	Lutheran East	- port**, Twilight Requiem (music sheet– Adv. Book [N])
애니츠	Anich	- port**
베른	Bern	- Bern city*, port**, Medal Quest, Milestone System, Engraving, Rune, Raid & Chaos Dungeons, Crafting, Reroll, all starts here.
아르체타인	Arthetine	- Suteran city*, port**
토토이크	Tortoyk	- Mokoko Seed exchange
슈샤이아	Shushire	- (winter is coming)
로헨델	Rohendel	- (floating avatar rocks)
트리시언	Tricion	- test Tripod system, awakening skill quest

\* city - Chaos Dungeon, Guardian Raids, Sillian’s Command, auction house, crafting, engraving

\*\* port - repair ship, upgrade ship and crew rotation

Note: You can only teleport to activated gates within the same continent. If you need to go to another continent, you need to either sail with your own ship or take a liner (pg.93)

Use this to find location you want to teleport to  
 대륙 = continent  
 지역 = area

Activate this Square Hall (스퀘홀) portal to enable teleport to this location

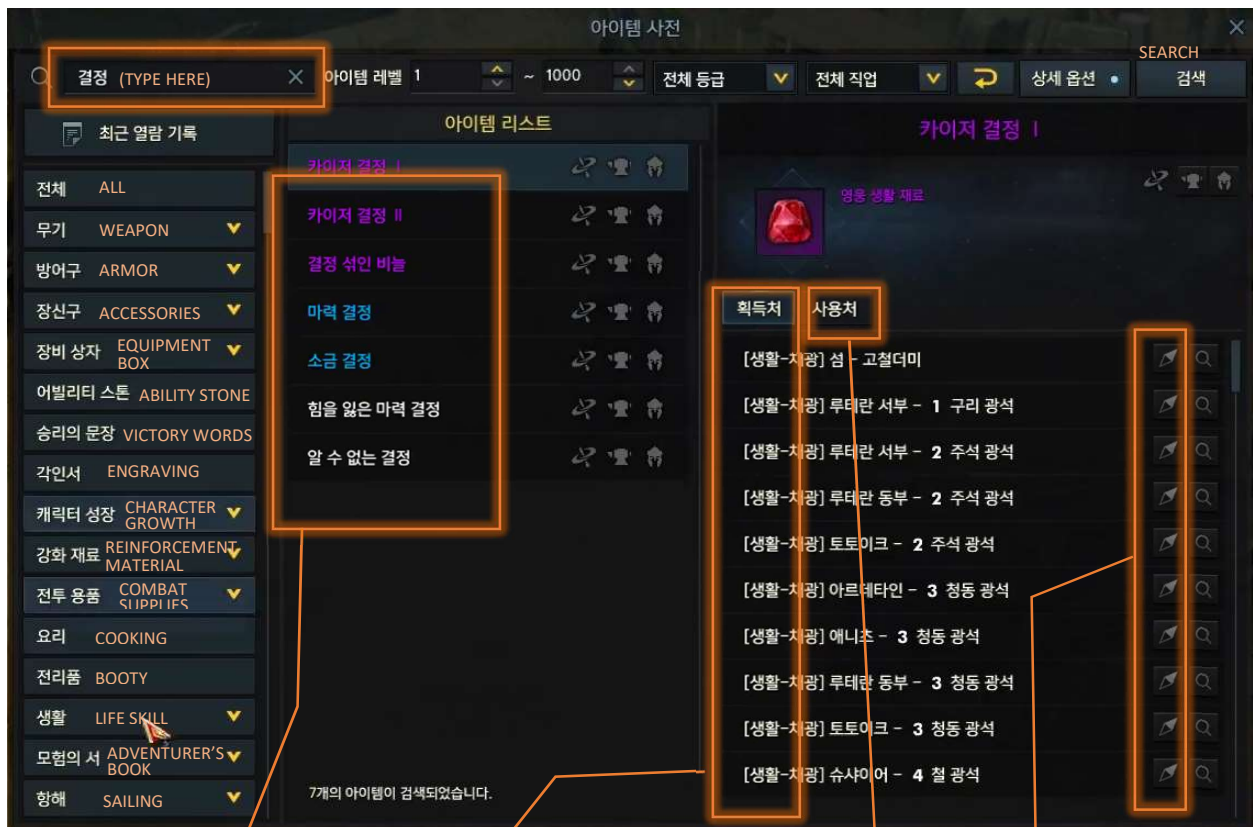

Search for specific NPC, profession or structure name using this, Korean characters only

Click on this and drop a red pin on the world map to indicate to party members where to go

This means there are several floors in this area which you can explore using the stairs

## Item Dictionary (아이템 사전) [Alt+N]

This brings up the awesome Items Dictionary where you can look for a particular item that you need, by browsing through categories or search it, and find out where to get or where to use it. You need to have Korean language pack in Windows installed in order to use this (pg.6). Type the name of the item you want to search and click Search (검색).

The list of items with similar name

This tab **획득처** shows where this item can be obtained

This tab **사용처** shows where this item can be used

Clicking this will show us in map exactly where we need to go

## Adventurer's Book (모험가의 서) [N]

In inventory [I], right click on items with “pages” mark, to complete item collection requirements. You get these items by killing **continent specific** monsters. Once completed, based on the percentage of quest completion, you get those stated rewards. Right-click on the reward once you get it to send it to your inventory. You also get progression for killing unique monsters with special marking on their head, view viewpoints, completing continent specific dungeons in Hard (하드) mode, Field Bosses in that continent, hidden stories, side story quests with yellow exclamation, Favorability with the continent specific NPCs and also activating the Square Hall (스퀘어홀) “waypoint” portals in that continent.

The screenshot shows the 'Adventurer's Book' interface with several callouts:

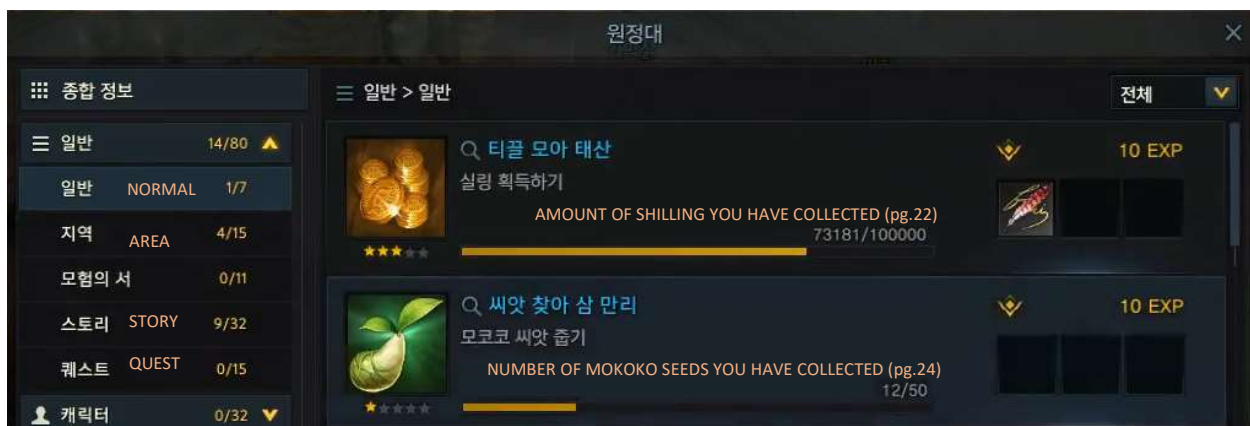

- Top Row:** A row of various items, some with a 'pages' mark, representing unique items found in the continent.
- Callout 1:** "These are some unique items found somewhere in this continent" pointing to the top row of items.
- Callout 2:** "These monsters have this sign above their head" pointing to a yellow exclamation mark icon above a monster's head.
- Completion %:** A progress bar showing 39.4% completion with a list of rewards (gold, items, etc.) and their respective completion percentages (30%, 40%, 50%, 60%, 70%, 80%, 90%, 100%).
- Callout 3:** "Completion % rewards from this continent" pointing to the completion percentage bar.
- Dungeons:** A section for 'VIEWPOINTS' and 'Dungeons' with question marks, indicating continent-specific dungeons.
- Callout 4:** "Continent specific dungeons, make sure you do them in Hard mode with a party" pointing to the 'VIEWPOINTS' section.
- Field Bosses:** A section for 'FIELD BOSSES' with question marks, indicating unique monsters.
- Callout 5:** "Hidden stories scattered around this continent, click Investigate (조사하기) when you see this magnifying glass" pointing to a magnifying glass icon.
- Investigate Icon:** A magnifying glass icon labeled '조사하기' (Investigate).
- Side Story Quests:** A section for 'SIDE STORY QUESTS' with yellow exclamation marks, indicating hidden stories.
- Favorability:** A section for 'FAVORABILITY (pg.82)' showing 0% completion.
- Square Halls:** A section for 'SQUARE HALLS' with a progress bar.

## Expedition (원정대) [O]

These are rewards we can collect by completing certain task and gaining Expedition level.

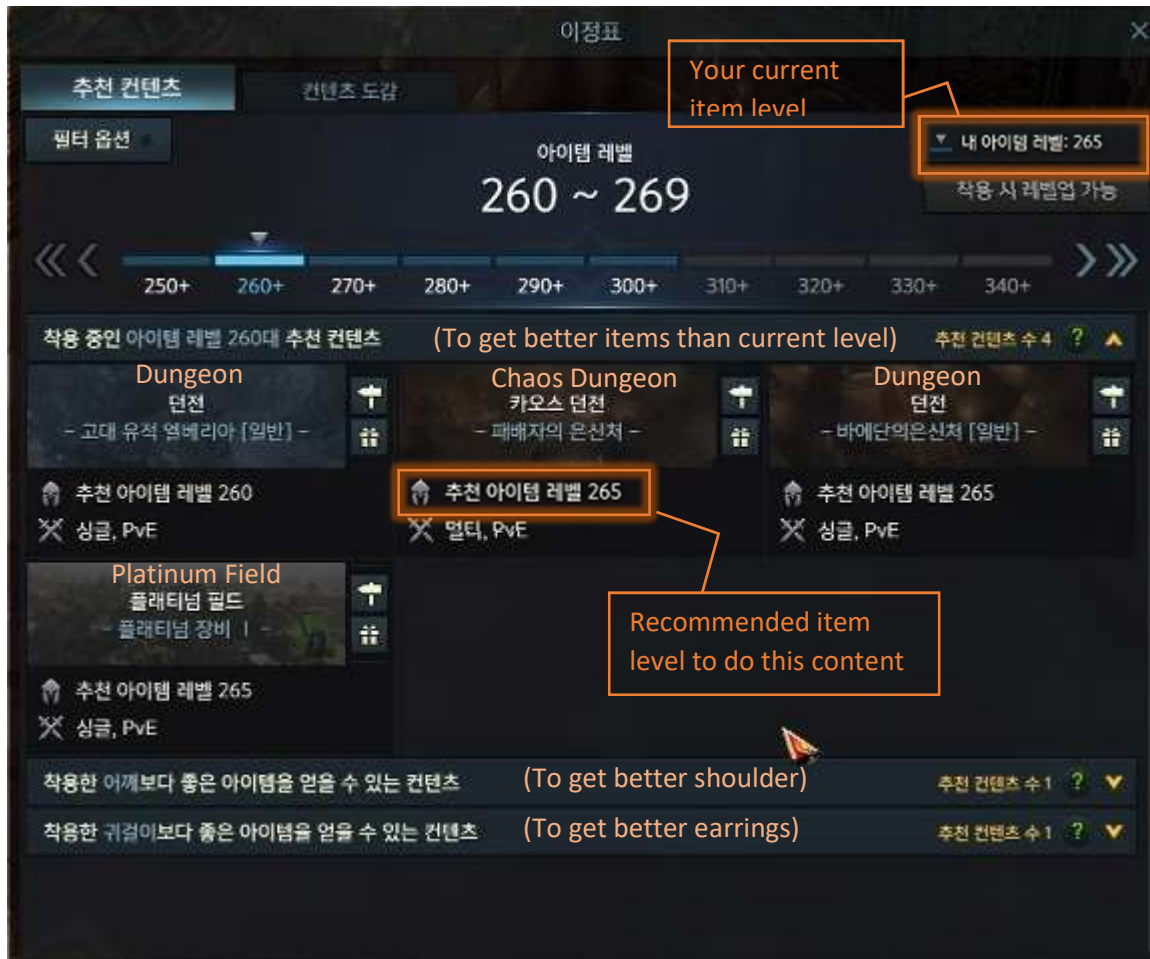

For example, these are some of the categories under Normal (일반).

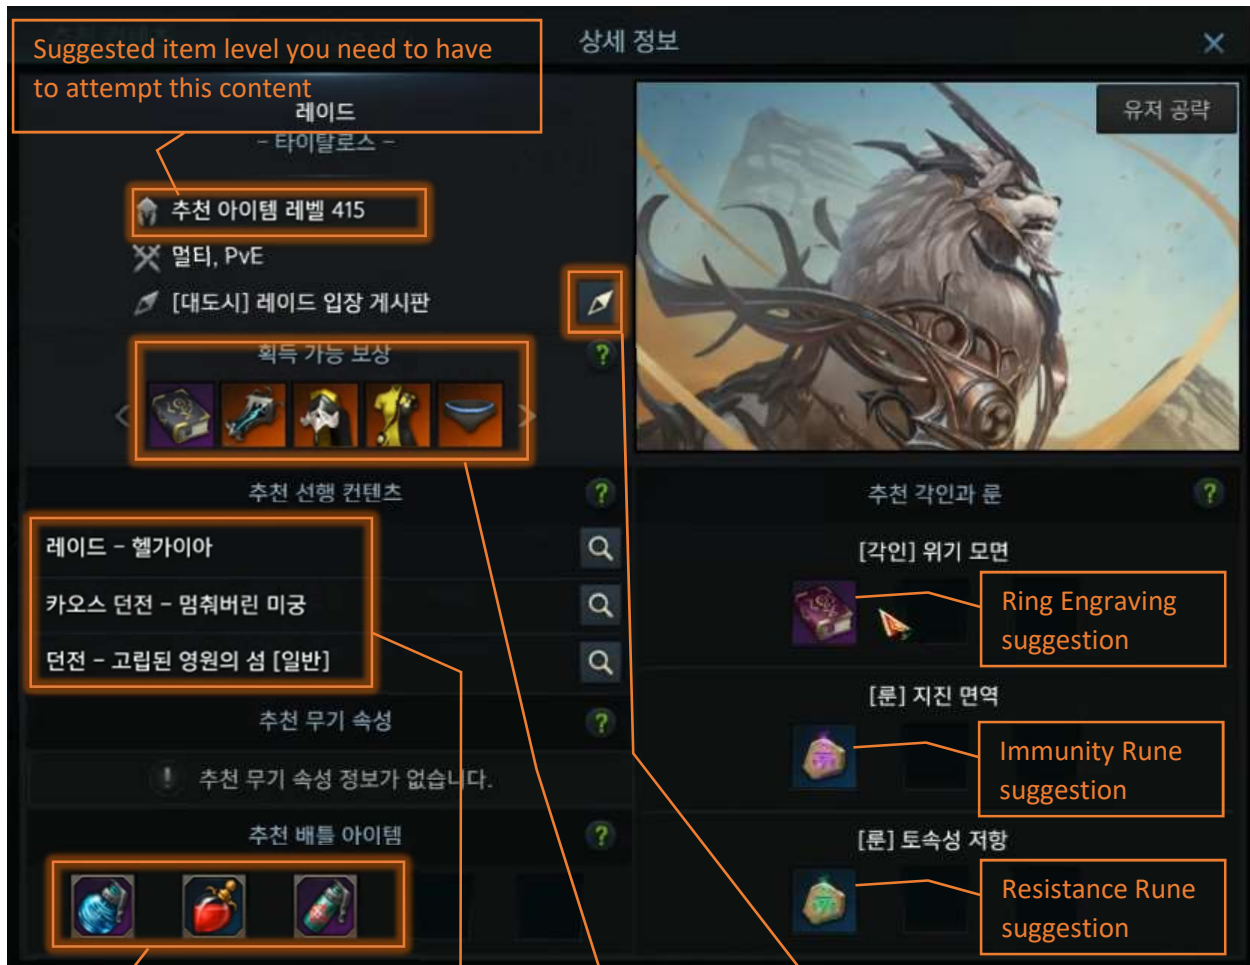

## Milestone (이정표) [Alt+G]

This is the amazing Milestone system that will suggest to you what content you need to do at your current item level to get to the next item level. This will be unlocked when we reach Bern. We will be using this all the time!

The system will automatically suggest to you prior contents that you should do before a particular higher level content. Also what kind of battle gears you should carry, along with Runes (pg.47) and ring Engravings (pg.55).

Suggested battle items to equip for this content

Suggested prior content, as this might be too hard for your current item level

Possible rewards if successful

Click this to show location on map where you can do this content

You can also sort the Milestone system to show the entire list of contents, sorted by content type. Look at it... we are going to have all kindz of adventures for years to come guys!

## 4. CURRENCY

There are some main currencies, continent specific currencies and quest specific currencies. I'll cover some of the main ones that's displayed on the top right hand corner of the game window.

*Note: You could click on the yellow chest looking icon and choose what 4 main currencies you want the system to display at all times, as there are a few you can choose from.*

1. Crystal  
크리스탈      this is used to when we want to reset our Tripod combat skill points [K] (pg.27) or Life Skill points [L] (pg.31)
2. Shilling  
실링            main currency that is paid to us for completing quests, we use this to pay for equipment repairs, teleport, charter ship, crafting fees, etc.,  
*Note: do NOT use it to buy weapon or armor as we need it for other things*
3. Gold  
골드            another currency paid to us for some quests, we use this at auction house and most importantly to bid for legendary equipment after Field Boss fights (pg.72)
4. Lupeon Seal  
루페온 인장    alternate currency used in the world of Lost Ark to exchange for equipment at some vendors and also as fee for polishing ability stones (pg.52)

*Note: The channel currency at [www.twitch.tv/koleverii](http://www.twitch.tv/koleverii) is called Lupeons. You get one(1) Lupeons for every 10 minutes you are in the channel. You can exchange your Lupeons from the channel for in-game GOLD at the rate of 1:1 from me whenever there is a random Gold Giveaway. Since Gold is the most precious currency in-game, feel free to watch/lurk in the channel and earn Lupeons 24/7.*

*Once you collect 1,000 Lupeons, you will become a Regular in the channel, which will qualify you to join my guild, if you are interested. More on pg.37.*

## Pirate Coins (해적 주화)

We get this from collecting stuffs from sea and helping out stranded sailors, use it to buy ship upgrade parts and/or new crews from ship merchants. Some quests specifically need these pirate coins, so don't spend it all in one place! More on sailing on page 91.

Merchant ships in mini map, scattered all over the continents

You can catch and sell things from the sea to the merchants to get even more Pirate Coins.

Each of these green pouch contain 5 Pirate Coins, the blue one contains 10

You'll be catching all kinds of seafood from the sea... all kindz!  
So catch 'em all, ye pirate scumbag!

## MOKOKO Seeds (모코코 씨앗)

You'll find these Mokoko Seeds all over the Lost Ark continents, collect as much as you can and exchange them for rewards from Tatama (타타마) at Tortoyk.

This shows how many seeds are available at different continents, they spawn at specific locations, keep a sharp eye out for 'em

1 아르데마스	2/51										
2 유디아	4/37										
3 루테란 서부	6/71										
4 루테란 동부	4/127										
5 에니츠	0/72										
6 아르데타인	0/88										

### 외로운 섬 오페르

44 5

Note: You'll be reminded how many Mokoko Seeds and Heart of Islands you have collected in between scene changes.

## Heart of the Island (섬의 마음)

There are estimated to be 200 islands in the final release of Lost Ark. Each of these islands will have a “heart”, which you can collect by completing that island’s quest (*the grind is real!*). Once you have collected enough, you can exchange it for awesome items.

Note: You need the blessing of this deity on the island before you can exchange your

Heart of Islands for the cool items.

If you see this red Not Acquired (미획득) on some island info, it means you have not collected the Heart of the Island from that island yet. Once collected it will show Acquired (획득).

## Adventurer's Guild Mark (모험가 길드 증표)

This coin is only used in Bern, at Lania Village (라니아 마을) from an NPC, to buy the best life potion in the game. It restores 3600 health over 8 seconds.

This is where you buy the potion, from the NPC 라피네  
Buy 'em all!

## 5. COMBAT SKILLS [K]

MAIN COMBAT SKILLS – CLASS SPECIFIC, 18 CLASSES!

For complete description for various class skills and Tripod settings, there are various translations by community members in the Web. Personally I prefer to use [www.lostarktree.ru](http://www.lostarktree.ru), made by Ask1n.

### TRIPOD SYSTEM

You get combat skill points as you level up your character to level 50. Each level up gives you 4 points, which means by the time you hit level 50, you should have at least **200** points, in FCBT.

Certain quests that will give you this Skill Point (스킬 포인트) potion, which will permanently give you 4 points when you drink it, so make sure you do all the quests that gives you these!

Note: You will also get this bottle, this is the combat skill RESET potion, when you want to reset the skill point allocation, which can also be done with crystals (pg.22), and maybe even Shillings in OBT.

I had 216 at end of Final CBT from levelling up to character level 50, plus 4 potions from quests that I drank

Tripod System:  
Three level of awesomeness!

Number of points you need, to level up to the next Rank

Skill Rank from 1 to max 10. Higher Rank, more damage

Click this to confirm your allocation of points

Note: Test them all out at max setting at Tricion before you select your 8 skills. You can change skills and Tripod system anytime when not in combat. Only if you want to RESET the point allocation that you need either the potion or enough crystals.

To max Tripod a particular skill, you need **48** points. So if we take the 216 skill points from the earlier page and divide  $216/48 = 4.5...$  which means, you cannot max Tripod all 8 combat skills, as per FCBT.

*Note: At Character Level 14, all 8 skill slots will be unlocked.*

My general recommendation is:

- i. Max out your 4 channeling/holding skills and/or big damage skill first, full Tripod
- ii. Give 4 point for balance of the 4 skills to open first tier of the Tripod
- iii. Additional points to skills where the second tier Tripod gives armor/damage reduction
- iv. Whatever left over to skill that gives more mobility to escape danger/movement speed  
(For example: for Soul Master is [A] ...dash up to 3 times)
- v. Set at least two Skill Preset (next page),
  - a. one for regular monster clearing – AoE damage, movement speed, grouping mechanics, increase damage to normal monsters
  - b. one for boss/field boss/guardian with more “weakening” mechanics
  - c. you can switch preset skills without any cost

## Skill Additional Effects (Mechanics) Quick Reference (부가 효과)

관통 레벨	Penetration Level	하	Low
무력화	Weakening	중	Medium
백어택	Back Attack (up to 40% more damage)	중상	Medium High
파괴 레벨	Destruction Level	상	High
피격이상 면역	Damage Immunity	최상	Very High
상태이상면역	Abnormal Status Immunity (CC)		

*Note: The purple bar below the red health bar is the weakening gauge. When this weakening bar has been reduced to zero, the elite/boss will be stunned for a while and take additional damage.*

You can save sets of skill for different contents using Skill Preset (스킬 프리셋).

Click this to check the presets you have set

Click this to Apply (적용) the present you want to use

Use 트리스온의 노래[F2] to teleport to Tricion, talk to Beatrice and select this option to test all your skills at the highest setting.

Training Menu

Training Skill Book

Type: (select different kinds of monsters)

Rating: (strength of the monsters)

Summon Monster

Unsummon Monsters (make them go away)

Resource recovery (fill resource back to full)

Reset cool down time

End Training

Maxed out all skills at level 10 and unlock full Tripod to test out all the skills

## 6. LIFE SKILLS [L]

There are 6 Life Skills that you can gain experience points (생활 포인트) and level up. You get the experience either by performing the life skills or from quests, even after you reach Character Level 50.

<u>Life Skill</u>	<u>what you get</u>	<u>equipment you need</u>
1. Plant Collection (식물채집)	flowers, mushrooms, etc.	gloves
2. Woodcutting (벌목)	wood	axe / saw
3. Mining (채광)	rocks, minerals, etc.	pick axe
4. Hunting (수렵)	animal skin, meat, etc.	hunting knife/trap
5. Fishing (낚시)	fish	fishing pole
6. Archeology (고고학)	relics	shovel

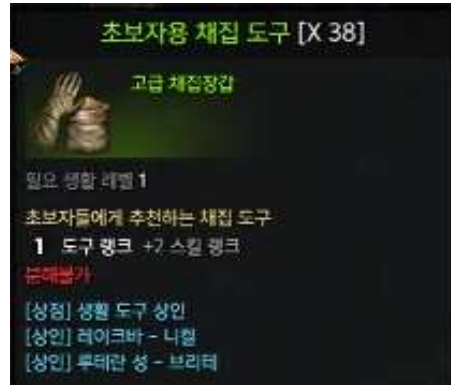

Note: Equip items in the Character Profile window [P].

Life Skill have a ranking from 0 to 4. The items you equip will give you additional ranking points: green item give 1 point, blue items give 2 points.

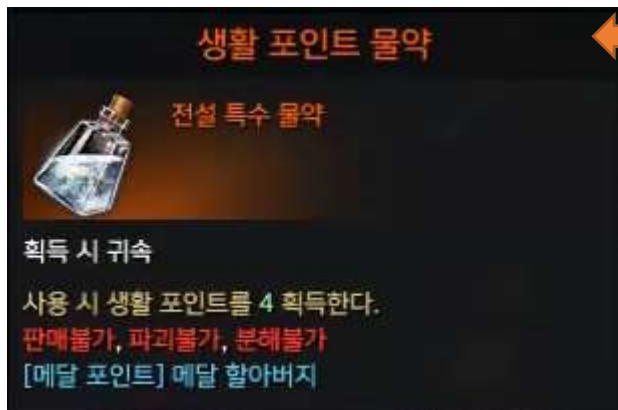

The screenshot shows the '생활 스킬' (Life Skill) window for '벌목' (Woodcutting). On the left, a list of skills is shown with their current levels: 식물채집 (4), 벌목 (3), 채광 (2), 수렵 (1), 낚시 (1), and 고고학 (1). The main area shows a skill tree for '벌목' with a current level of 20 and a requirement of 20 points. The tree includes items like '나무베기' (1 point), '톱 전문가' (1 point), '정신 집중' (5 points), '벌목꾼' (10 points), '협동의 대가' (20 points), and '역티브 나무차기' (30 points). On the right, a '마스터리 스킬' (Mastery Skill) section shows '기술 4랭크 달성 필요' (Need to reach skill rank 4). At the bottom, a summary shows '2 기술 랭크' (Skill Rank 2) plus '1 도구 랭크 초보자용 벌목 도구(도끼)' (Tool Rank 1 Beginner Woodcutting Tool (Axe)) resulting in a '3 벌목 최종 랭크' (Woodcutting Final Rank 3). Callouts indicate: 'Life Skill points 생활 포인트 14/14', 'Life Skill ranking from item, in this example, green item 1 point', and 'Final Life Skill Ranking'.

To be successful, your Final Life Skill ranking should match the item you are trying to get. For example, to successfully harvest this flower ranking 3, you can either set

- 2 points from Life Skill + 1 point from green gloves, or
- 1 point from Life Skill + 2 points from blue glove

The highest ranking items you will find are in Platinum Fields (pg.68), which are level 5. Some items, for example mushroom, needs you to activate special abilities, which basically means you need a lot of Life Skill experience points (*the grind is real!*). So it is better to be specialized in one main Life Skill, meaning allocate all the Life Skill points to one skill, instead of multiple skills.

This items gives 4 more Life Skill points per bottle. You can get more from doing various contents.

This item allows you to reset Life Skill points, you can get it by completing quests.

Note: If you reset, remember to drag and drop the Active (**액티브**) skills back into action bar on the center bottom of the screen.

Note: If you want to reset life skill points, make sure to remove all the equipped Life Skill items, like gloves, shovel, etc. from the Character Profile [P] windows **first**, before pressing the reset button (**초기화**).

Note: If you have Archeology Skill at highest level, go to Island of Outlaws(**무법자의 섬**) for some awesome treasure.

## 7. UI (User Interface)

! – means this NPC has a quest

? – means this NPC has quest completion reward you can collect

There are also other signs like chain, which means the quest still continues.

Mini map on the top right shows the area you need to look into to complete the quests with the quest number.

Click this to find out where you need to go in the map for that particular quest

There red quests are sudden quests in the area that you are in for some extra EXP

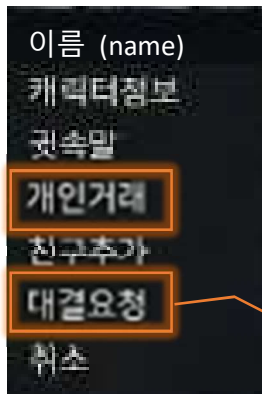

This blue one is the main storyline quest

This yellow ones are side quests which you can do anytime you want. They are however important to complete for the rewards from the Adventurer's Book (pg.17). Purple quests are the awesome ones, leads to Heart of Islands (pg.25)

There are various ways to chat in-game:

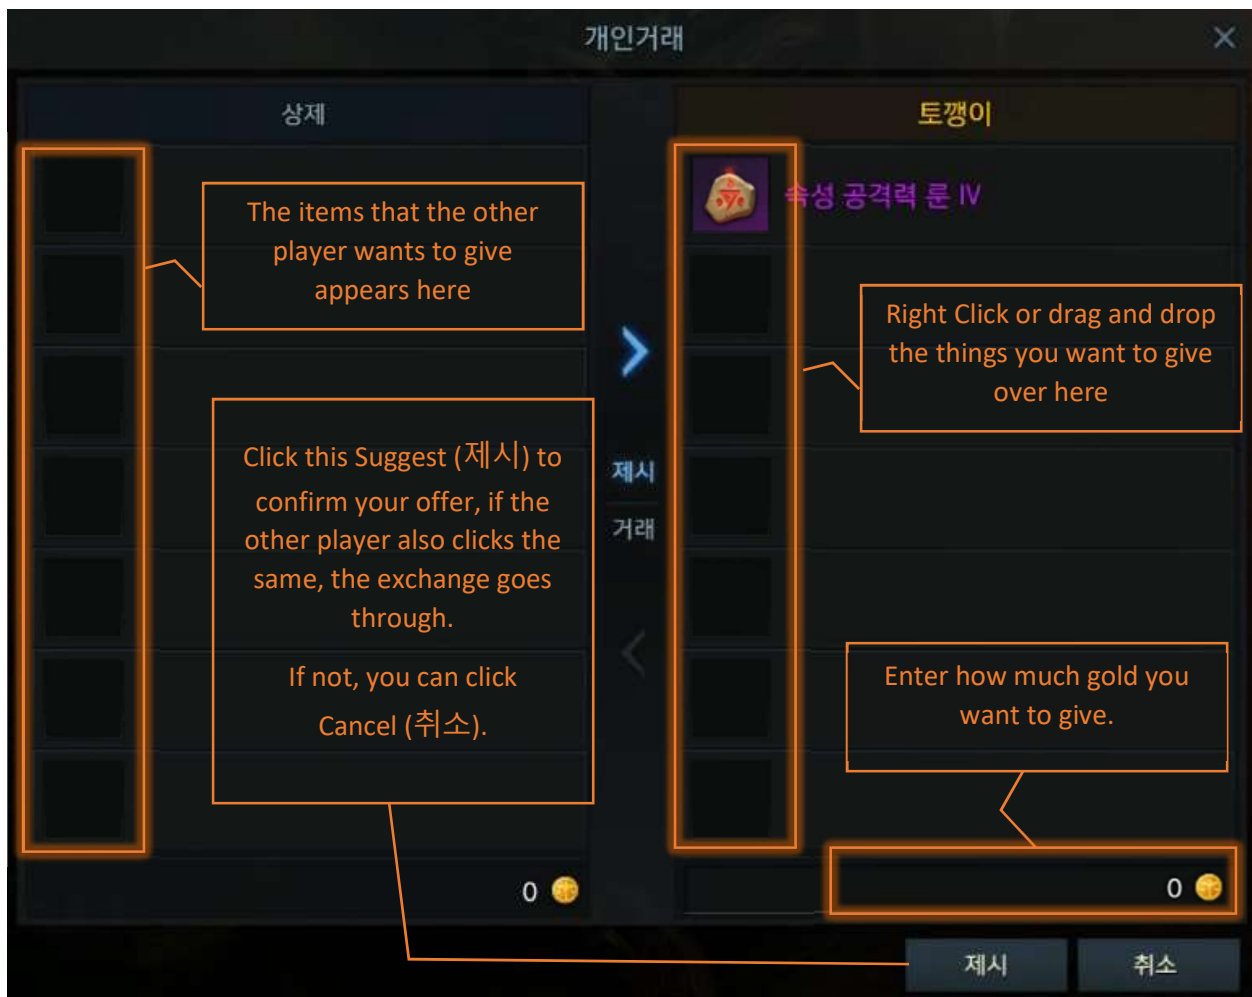

일반	Normal (일반) - your chat can be seen by everyone in the server
지역	Area (지역) - your chat can be seen by everyone in the area you are in
길드	Guild (길드) - your chat can be seen by everyone in your guild
파티	Party (파티) - your chat can be seen by the other current party members
귓속말	Whisper (귓속말)- your chat can be seen by the person you are chatting with only

이름 (name)	When you right-click on a player's name, these are the actions you can do:
캐릭터정보	캐릭터정보 - view that player's character profile
귓속말	귓속말 - whisper chat with the player
파티초대	파티초대 - invite the player to party up
친구추가	친구추가 - add friend
플레이어 차단	플레이어 차단 - block player
취소	취소 - cancel

You can also trade items and gold with others ONLY when you stand next to each other. When you press Shift + Right Click on the other player's avatar, this menu will appear. Click on Individual Transactions (개인거래) and the window below will open for trade.

This option, Request Confrontation (대결 요청), will also appear if you are out in the open world, for 1-to-1 fun PvP with no rewards. Does not appear if you are in city.

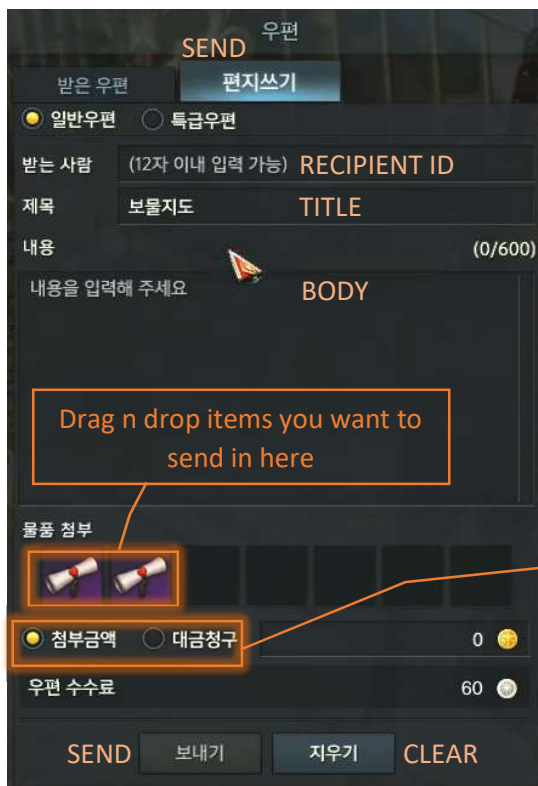

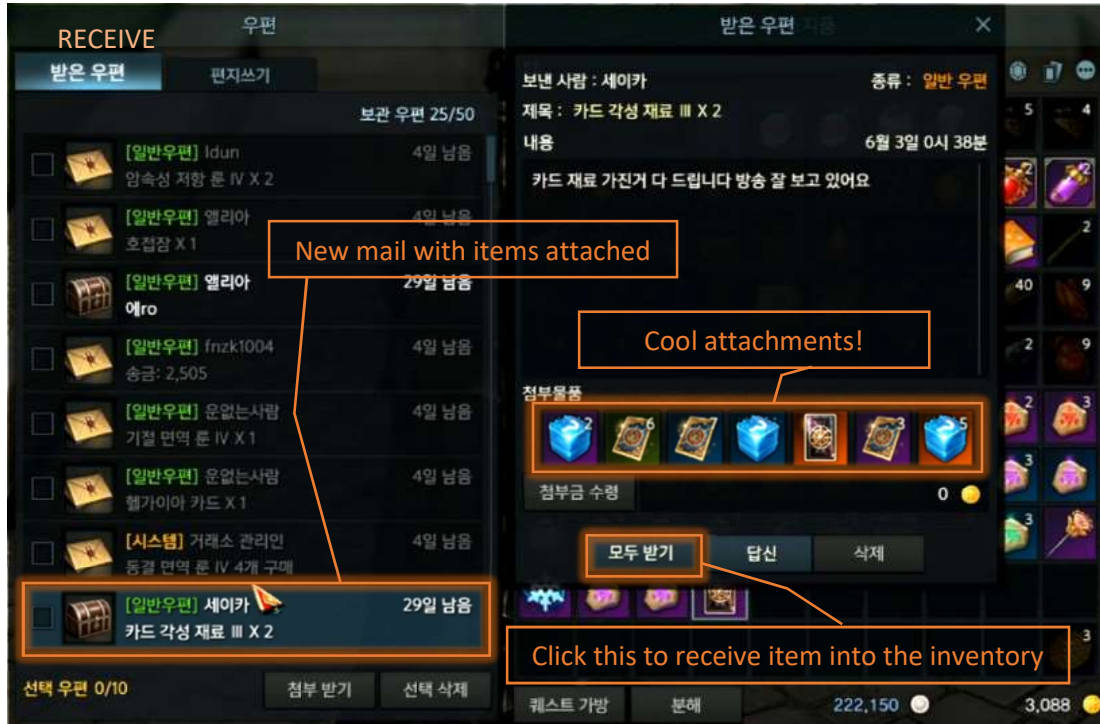

*Note: This is only if you are both standing next to each other. If you want to give the item or gold to the player when they are offline or not nearby, you can use the Mail feature in the next page.*

Another option you may want to toggle on and off is the skill effects of party members and other players around you if the game stutters. Press ESC then select Preference (환경 설정), check click to add or remove check mark on Display Battle Effects (전투 이펙트 표시). Then click either Apply (적용) or Confirm (확인).

## Receiving and Sending Mail (우편)

Whenever you see red mailbox in the map, you can check your mails. It is a convenient way to send and receive items and gold from our in-game friends online/offline.

*Note: some equipment is account bound once you have equipped it; you can't send those.*

첨부금액 – select this if you want to send some gold with the mail

대금청구 – select this if you want to ask for X amount of gold for the item that you are sending, if the receiver can't pay the amount you are asking, then they won't be able to open the mail and collect the items attached in the mail

## Joining Guild (길드) [Alt+U]

In OBT and final release, I am going to setup the **English Speaking Players (ESP)** guild.

Since membership is limited to only 30 members per guild, admissions will follow these rule:

- ESP guild spots will be reserved for channel SUBscribers and Regulars only
- All Followers will still be able to play with the guild members and other Followers via our channel Discord server, including full use of channel emotes!
- SUBscribers will have permanent membership, Regulars will have guaranteed active spots
- Become a Regular when you accumulate 1,000 Lupeons by watching/lurking in the channel or donate 3,000 in-game gold to the channel for random Gold Giveaways
- Other condition : 18+, friendly, helpful, no Kpop dramaz, kick if afk for 7 days without notice

*Note: When there are more than 30 members, I will play another character and setup ESP II guild, then ESP III and so on. Each character can setup a new guild. So 180 spots will be eventually available.*

Press ALT+U to bring up this Guild window and type “ESP” in the search area and click Search (검색).

## 8. EQUIPMENT CRAFTING/GRINDING/UPGRADE

Once we hit level 50, we can easily increase our item level to 260 just by crafting a set of armor and a weapon with normal materials that we can harvest with three Life Skills – Plant Gathering, Hunting and Mining, and use those materials at a craftsman.

The screenshot shows the '제조 의뢰' (Crafting Request) window. The central panel displays the recipe for '가이스트 제식 투구' (Ghost Spirit Helm) at item level 260. The materials listed are: 청동 주괴 (Copper Ingot), 청동 광석 (Copper Ore), 몽유꽃 (Mongyu Flower), and 몽유꽃 옷감 (Mongyu Flower Cloth). Callouts point to these materials in the recipe and to their respective sources: Hunting (브룬디 캐투스), Mining (청동 광석), and Plant Gathering (몽유꽃). A text box notes that these items can be bought from a vendor.

Note: Your Life Skill (pg.31) Rank level need to be minimum 3 in order to be able to harvest these items.

Or you can craft Life Skill looking combat equipment level 270 in the Platinum Field series, where once you have crafted the basic level 270 weapon, helm, chest armor, pants, gloves and shoulder armor; you can upgrade all these six equipment **one shot**, using crafting material you find in the Platinum Fields (플래티넘 필드) content (pg.68).

Craftsmen's Mark (장인의 증표)  
 Mysterious Ancient Ore (신비한 고대 광석)  
 (pg. 70)

You can then keep upgrading these set by doing more Platinum Field runs to collect the necessary upgrade materials.

You can also craft legendary gear when you do the Raid Guardians and Field Bosses contents.

Raid Guardian series from the various guardians

Crafting material from Like Skill. The magnifying glass icon on this material means you need to craft this material first as well. Click on it to find out what you need.

Crafting material from successful raid on the particular Guardian

Field Boss series from the various Field Bosses

To grind/upgrade equipment, you'll need Akeracium (아크라시움). You get them from killing monsters in Chaos Dungeon, Guardian Raids, Epona's Requests, etc. and salvage 300+ level purple equipment.

You can find craftsmen to upgrade equipment at Lutheran, Arhetine and Bern. First you have to remove the equipped item by opening Character Profile [P], move it into the inventory [I], then place it on the slot to upgrade. The upgrade window then will show the required materials, then click Commission (의뢰하기) to start the grind. Up to max 5 tier of grind is possible and I have shown them in the examples below.

Tier number 3 and 5 unlocks additional damage bonus to one random combat skill.

The image displays four screenshots of the '연마' (Grinding) interface in a game, showing the progression from tier 2 to tier 5. Each screenshot includes a callout box with specific information.

**Top Left Screenshot (Tier 2 to 3):**

- Current tier: 2 등급 (Level 2)
- Materials: 10 / 8, 290 / 8, 1 / 1 (highlighted with a callout: "Extra material needed for tier 3 & 5")
- Cost: 5,100
- Callout: "3<sup>rd</sup> tier bonus unlocked"

**Top Right Screenshot (Tier 3):**

- Current tier: 3 등급 달성! (Level 3 achieved)
- Stat increases:
 

아이템 레벨	355	>	360
무기 공격력	523 ~ 578	>	531 ~ 586
힘	+110	>	+112
체력	+132	>	+135
- Bonus: 3 연마 마운틴 크래쉬스킬 대미지 4.0% 증가
- Cost: 0
- Callout: "3<sup>rd</sup> tier bonus unlocked"

**Bottom Left Screenshot (Tier 4 to 5):**

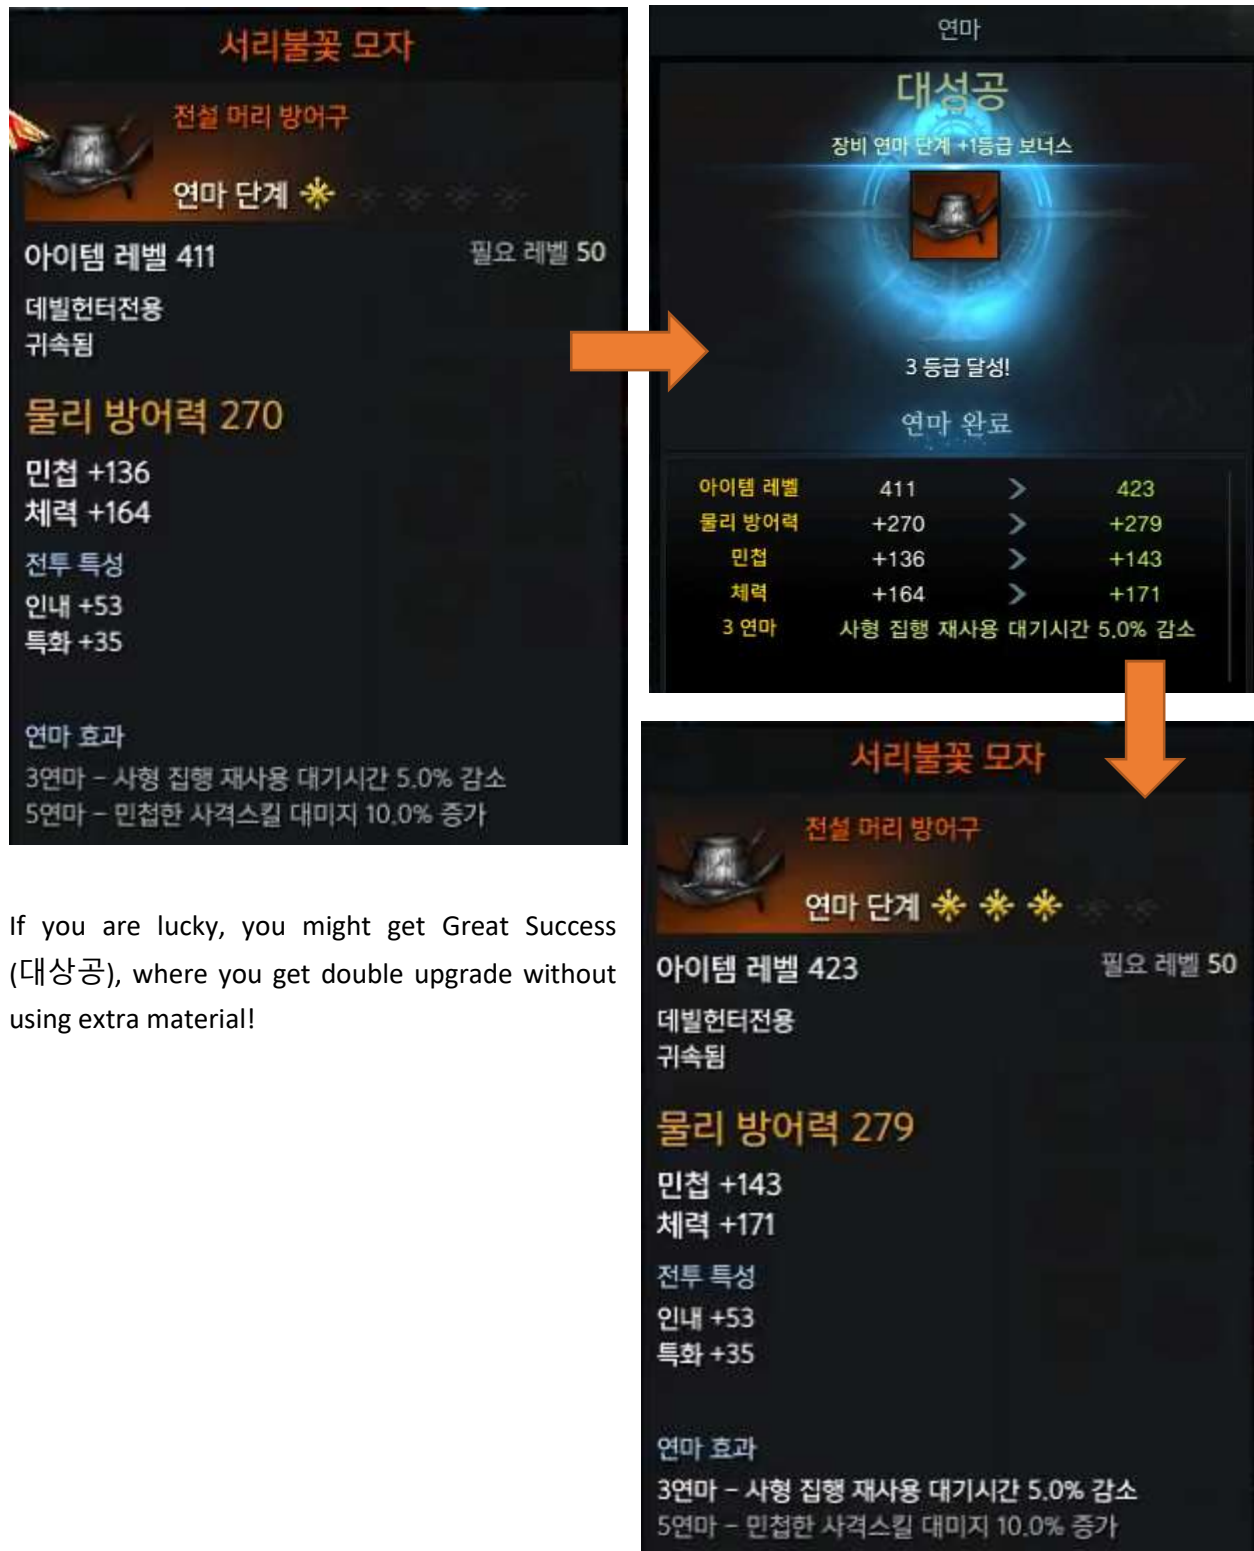

- Current tier: 4 등급 (Level 4)
- Materials: 96 / 10, 442 / 10, 2 / 1
- Cost: 6,000
- Callout: "5<sup>th</sup> tier bonus unlocked"

**Bottom Right Screenshot (Tier 5):**

- Current tier: 5 등급 달성! (Level 5 achieved)
- Stat increases:
 

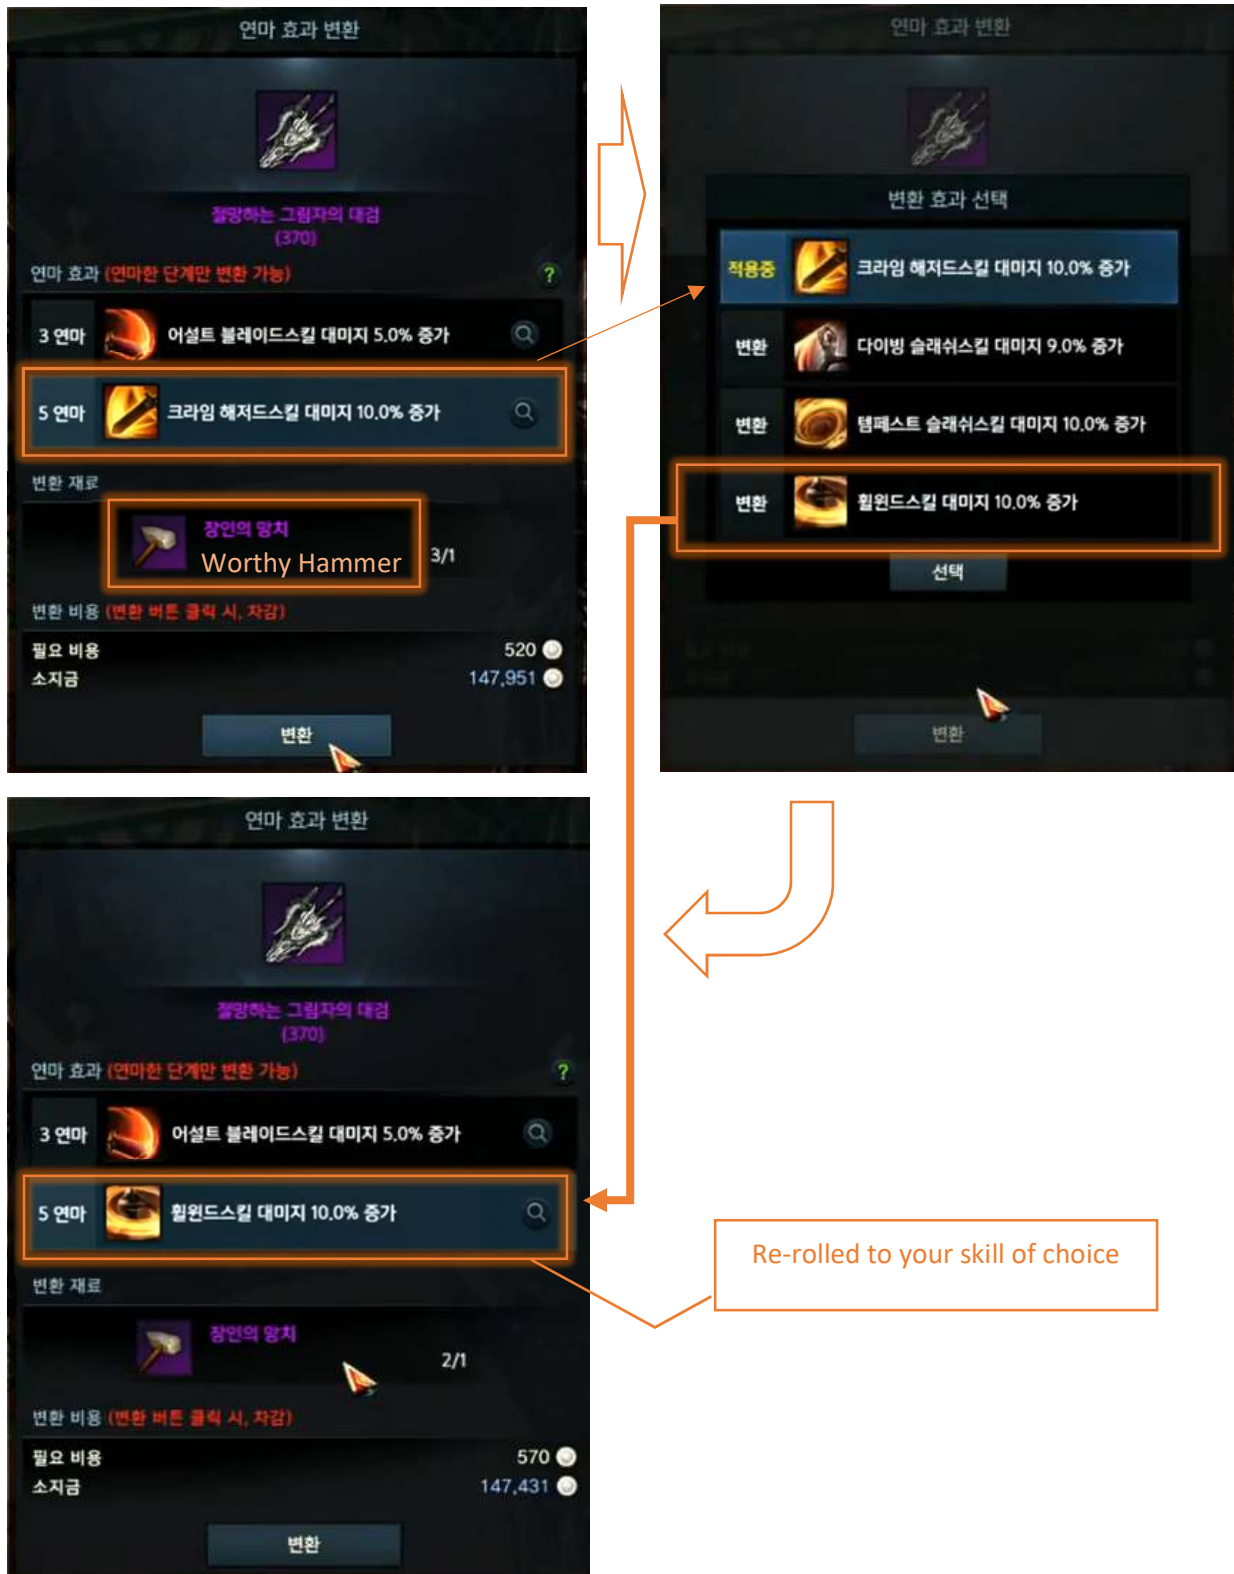

아이템 레벨	365	>	370
무기 공격력	537 ~ 594	>	545 ~ 602
힘	+115	>	+116
체력	+138	>	+140
- Bonus: 5 연마 크라이م 해저드스킬 대미지 10.0% 증가
- Cost: 0
- Callout: "5<sup>th</sup> tier bonus unlocked"

Note: If you decompose these "grinded" equipment, you will get back some Akeracium as well.

If you are lucky, you might get Great Success (대성공), where you get double upgrade without using extra material!

You can re-roll the tier 3 & 5 bonus to the skill you want to use. You'll need the Worthy Hammer (장인의 망치), which you can get from quests, vendors and even some Card Battles (pg.81).

You can also reroll the **secondary** stats on the items at some vendors. Notice that the total stat points remains the same.

Note: Although item level for the amulet below is same as the chest armor above (370), but the secondary stat is so much more. So get yourself a really nice amulet!

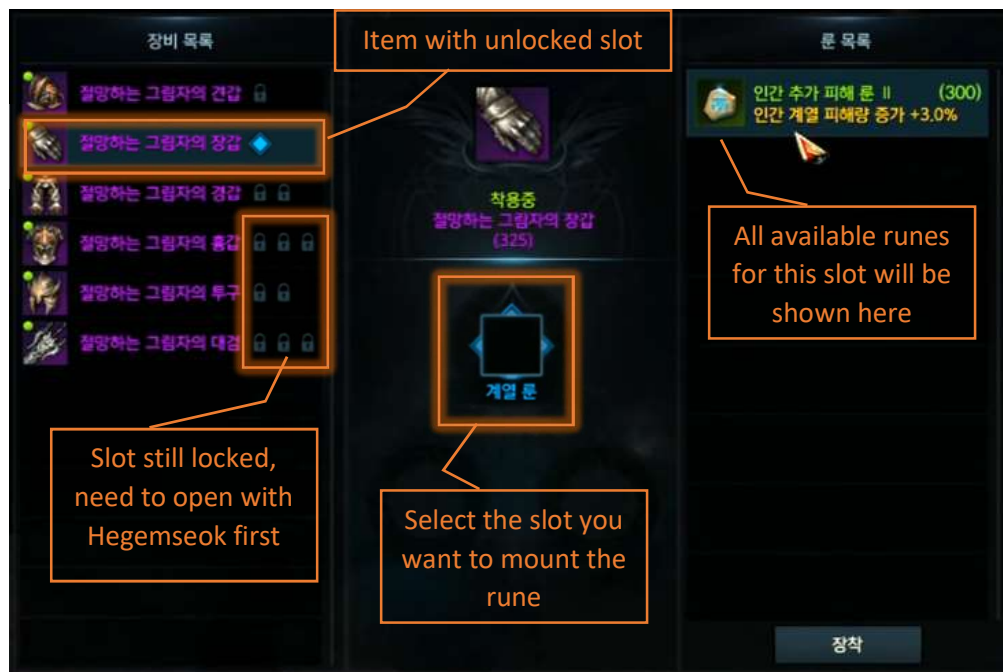

## Runes (룬)

Runes are items that can further increase our equipment potentials as per this table:

Slot color	Mounting Rune	Explanation
 스텡 룬 빨강 슬롯	Stat Rune Red Slot	Increase damages by increasing combat stats like strength, agility, intelligence, etc.
 속성 룬 녹색 슬롯	Property Rune Green Slot	Resistance/damages reduction to elemental properties like fire, water, ice, etc.
 계열 룬 파랑 슬롯	Line Rune Blue Slot	Increase damage to monster type like human, monster, undead, etc.
 면역 룬 보라 슬롯	Immunity Rune Purple Slot	Resistance state abnormality like stun, slow, poison, etc.
 모든 룬 흰색 슬롯	All Rune White Slot	All Runes are usable (possible)

Note: There is an advance (증폭) version of each of this slot which can roll only once per item and provides double effects, for example if Rune gives Strength +10, then the advance slot will give +20.

Runes can be slotted into their corresponding color slots only, red to red, green to green, etc. Remove the equipment from your Character Profile [P] and move it to your Inventory [I] first before you can mount runes in it. Find the Rune Smith and right-click on the items with unlocked slots, then click on the slot you want to mount rune. If you have runes that can be mounted in your inventory, it will be shown on the right window.

If an equipment has locked rune slots, you need an item called Haegeumseok (해금석) to unlock it.

You can get Haegeumseok from some vendors who will exchange it for the Stone of Madness (광기의 마석) that you get from doing Red Chaos Gate event (pg.59). You might get it from some Chaos Dungeon bosses, Guardian Raid bosses and also Field Bosses as well.

Locked slot. Up to 3 socket might be available on some items

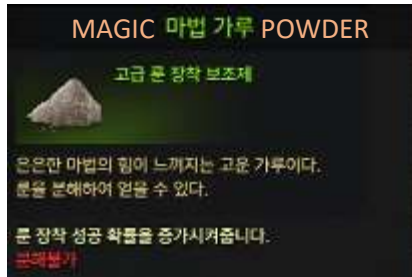

Chance of unlocking a slot depends on the Rank of the Haegeumseok and the item level it is used on. In this example, since the item is 400, we need to use Haegeumseok IV (purple) to have 100% chance of unlocking the slot

Slot unlocked with a random slot color

Note: Always unlock slots in an equipment BEFORE you grind it to higher level.

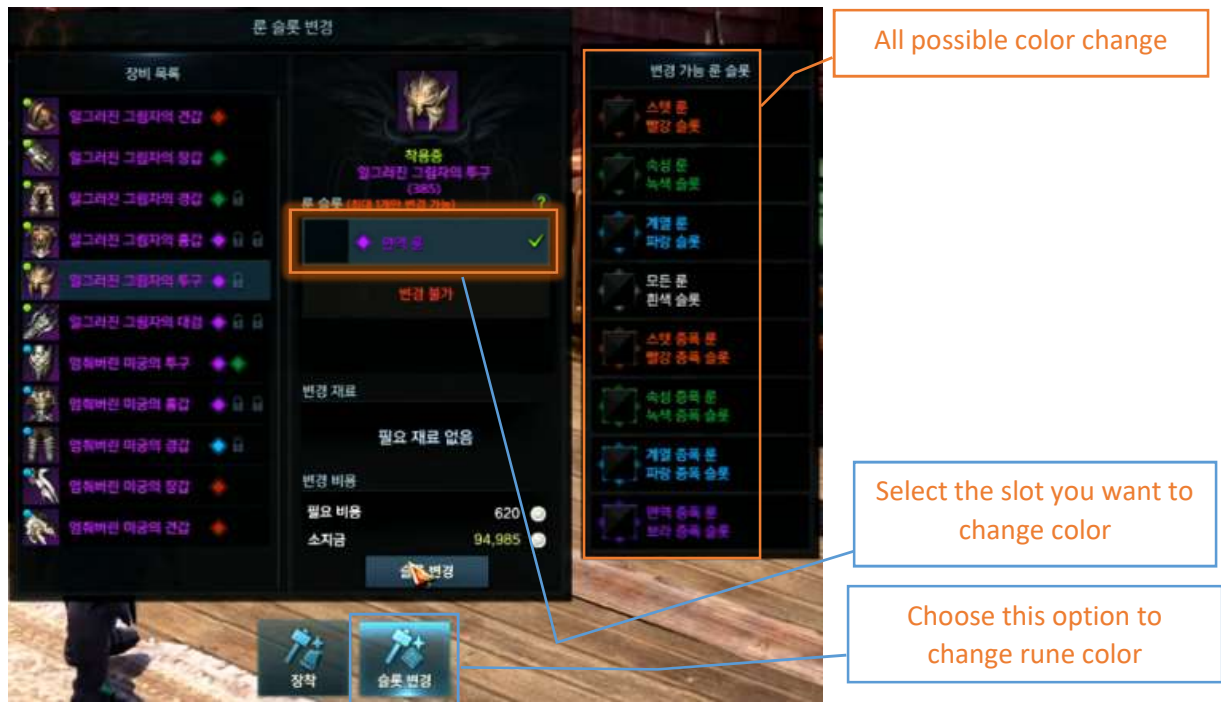

In order for a rune to be mounted with 100% success, the Rune should be equal or higher Rank than the item. If you are trying to mount a lower Rank Rune into a higher level Item, then you need to use the Magic Power (마법 가루) to increase the chance of a successful mount. You get the Magic Power by salvaging any unused runes.

Note: If the mount is unsuccessful, the rune will be destroyed but you will get some magic powder in return. The equipment will be unchanged.

You can also change the color of the slot if you want to insert a different color rune into the equipment, instead of the one that came with the equipment originally. The result is random, so may need to do it more than once to get the color slot that you wanted.

## Rune Words Quick Reference

Purple (Immunity) %	Red (Combat) +	Green (Resistance) %	Blue (Amplify Dmg) %
지진 Earthquake	공격력 Damage	화속성 Fire	악마 Devil
감금 Incarceration	생명력 Health	토속성 Earth/Soil	물질 Material
중독 Poison	속성공격력	수속성 Water	언데드 Undead
침묵 Silence	Elemental Damage	뇌속성 Lighting	식물 Plant
감전 Lighting	물리 방어력	암속성 Darkness	곤충 Insect
석화 Petrify	Physical Defense	성속성 Holy	정령 Demon/Spirit
저주 Curse	마법 방어력		야수 Beast
동결 Freeze	Magical Defense		기계 Machine
암흑 Blind			고대 Ancient
공포 Fear			신 God
기절 Stun			인간 Human
출혈 Bleeding			대악마 Great Demon
해충 Pest			
화상 Burn			
방어파괴 Defense Reduction			
이동속도감소 Movement Speed Reduction			

## Ability Stones Polishing (아빌리티 스톤 세공)

Ability Stones needs to be polished before it can be used. They provide combat stat plus (+) points for two attributes and stat minus (-) points for one attribute, and a bonus based on the number of plus (+) stats. I recommend paying for this with Lupeon Seals, as we need the Shillings to pay for other things.

When you click empty slots on empty slot stat, you will get either:

- HIT – Blue stone on the plus (+) stat, chance goes down ↓  
– Red stone on the minus (-) stat, chance goes down ↓
- MISS – black stone, on either stat, no plus or minus points, chance goes up ↑

You start with max 75% chance of getting a HIT, so first use it on either one of the plus(+) stat. If you get a HIT, the chance of getting HIT goes down by 10%, and becomes 65% for the next attempt. If you MISS, the chance goes up again by 10%. Minimum chance it can do down to is 25%.

You will get these ability stones from doing quests and also purchasable from some vendors, there is one on the Ship of Paradise (해상낙원 페이터) named 행운: 사치품. You can also craft it if you have Archeology as your Life Skill (pg.31) with the artifacts that you find.

You need to complete the polishing by clicking on all the available slots and then only equip it in your Character Profile [P] (pg.11).

If you get a certain number of plus HITs, it will also unlock the Polish-work Step Bonus (세공 단계 보너스), which is a % of certain stats.

In this example, 9 successful plus HITs opened up Attack Speed(공격 속도) for this legendary ability stone.

Note: Legendary Ability Stones have more slots for stats... so get some!

Common stats on ability stones for quick reference:

효과	Effects	효과	Effects
공격력	Damage	물리 방어력	Physical Defense
속성 공격력	Elemental Damage	최대 생명력	Maximum Health
이동 속도	Movement Speed		

Polish-work Step Bonus (세공 단계 보너스):

공격 속도	Attack Speed	마법 피해 감소	Magical damage reduction
회피율	Evasion rate	물리 피해 감소	Physical damage reduction
공격속도	Attack Speed	적중률	Hit ratio
스킬 재사용 대기시간	Skill cool down time		

## Engraving on Rings (각인)

Early in the adventure, we may find these ring Engraving (각인) knowledge books, but nothing happens when you (frustratingly!) right-click on them. It turns out, this option only becomes available after we talk to an NPC named Rai (라이) at Bern. Then just right-click on the books, and open the Engraving Effect (각인 효과) [Alt+I] window, and then click Confirm (확인) to accept it. Sometimes you'll need more than 1 unit of the same book to fully activate the Engraving option. You can find all the locations and what to do to get them from the Item Dictionary [Alt+L], you need to type the book titles in Korean.

[상자] 연승용 각인 상자

This first Engraving book will be given to us by Rai (라이) when we talk to her at Bern... FOC!

모험가 김트윈 라이

Note: For full description of each of these Engraving effects, please refer to a spreadsheet prepared by a community member named Meldas. You can obtain the document at <https://www.reddit.com/u/meldas>

You can find ring Engravers at Lutheran, Bern and Arthetine. You will need an item called Engraving Tool (각인 도구) which you can get from doing quests and even buy from some unique vendors. There is one on the basement level of Syuteren (슈테른) at Arthetine named Andy (앤디).

## 9. MAIN CONTENTS (콘텐츠)

There are so many contents to do in Lost Ark, so many ways to grind for equipment and have adventures, let's look at them all! All these opens up only after you reach Character Level 50 and when you reach Bern (in the Final CBT at least).

### Quest Dungeons (퀘스트 던전)

Quest Dungeons are scattered around the continents in Lost Ark. You will do them as part of the main quest to find the Lost Arks. Best done in a party of 4 in Hard (하드) mode for extra loot.

*Note: Player matching system is available if you're not in a party, the system will automatically select 4 players based on the sequence they active the dungeon.*

## Chaos Gate (카오스게이트)

Chaos Gate dungeons starts randomly from time to time, and only 30 people can take part in it at a time. When you get this message displayed, open World Map [M] and look for the gate symbol and rush to it to make sure you're one of the 30 people to get in. You have only 20 mins to kill all things inside!

Chaos Gate color

Chaos Gate location

물물교환			
행운		사용 / 착용 가능	
행운의 수수께끼 상자 X 1	균열의 조각 7	보유량 0	교환
해금식 상자 X 1	광기의 마석	보유량 X 50	교환
룬 상자 X 1	어둠의 마석	보유량 X 65	교환
자연 도구 X 1	침범의 마석	보유량 X 75	교환
이블리타스톤 상자 X 1	공허의 마석	보유량 X 50	교환

There are 5 different colors of Chaos Gate that gives Hearthstones (마석) of that gate's color that you can exchange for cool items from certain NPCs.

Note: Vendor at 그블린 섬 will exchange a Legendary Mystery Box (수수께끼 상자) for 균열의 조각.

## Chaos Dungeons (카오스 던전)

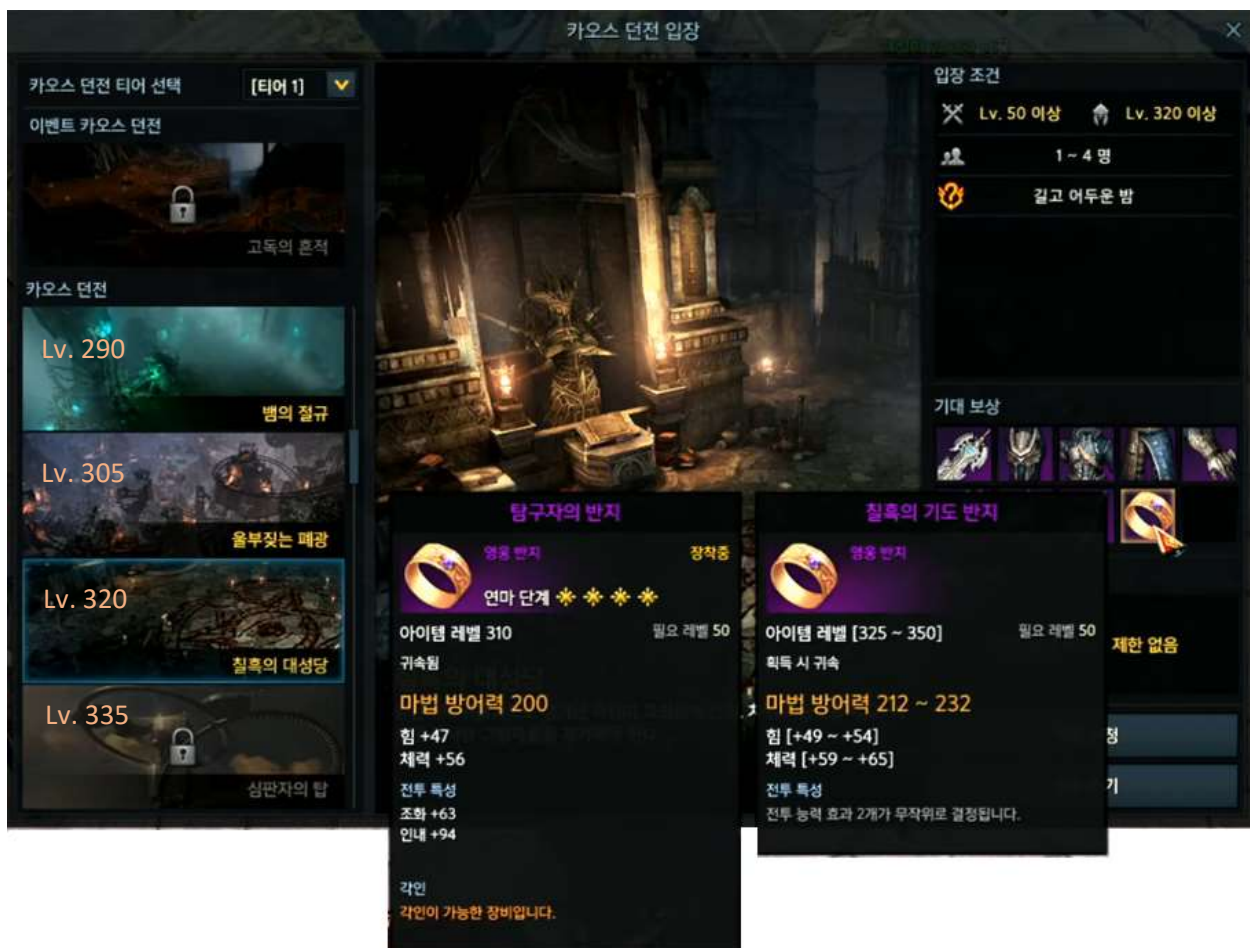

You can do Chaos Dungeons at Luteran, Arthetine and Bern, as at Final CBT.

Approach this status and press [G].

Conditions:

- Best done in a group of 4
- Life potions are allowed
- If you die during boss right, have to wait for others complete the kill, or all die and restart the fight.

Chaos Dungeons are the initial way for us to upgrade up to higher item level as they are guaranteed to give better equipment when successful. Repeat the same dungeon a few times until your Item Level reaches the next Chaos Dungeon item level requirement.

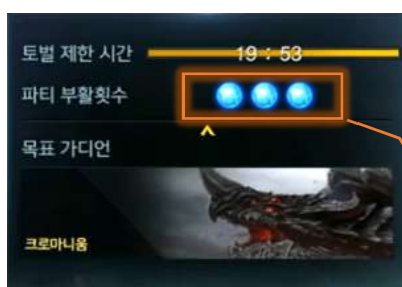

*Note: Player matching system is available if you're not in a party, the system will automatically select 4 players based on the sequence they activate the dungeon.*

## Guardian Raids & Weekly Guardian Raids

Guardian Raids are best done in party of 4 and need to be completed with these conditions:

- Must be completed in 20 minutes
- Max 3 death per party is only
- 4<sup>th</sup> death will fail the raid
- Health potion NOT allowed
- Battle items are allowed with certain limit

Health potion  
NOT allowed

Number of  
deaths allowed

Guardian Raids are unique in that you will not know how much health the Guardian has until you kill it. If the quest fails, the fail message will show how much balance health the Guardian has left.

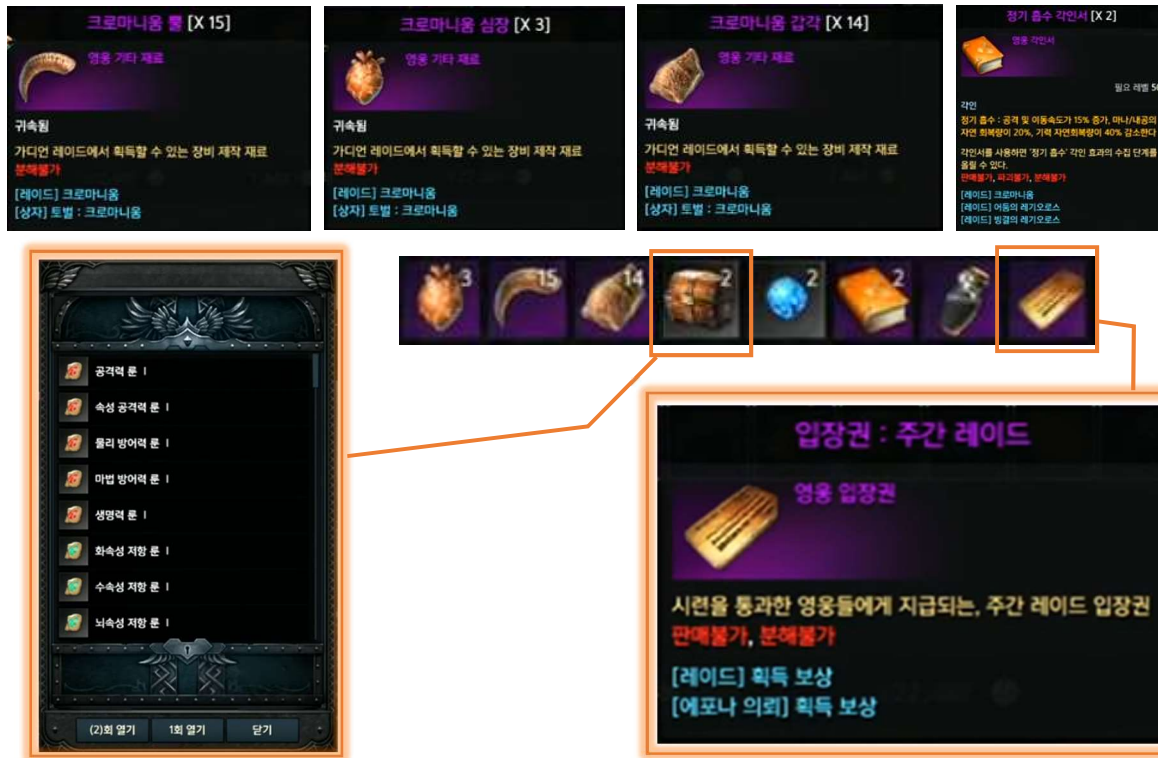

One we can defeat the first set of four guardians, the second set of four guardians becomes available, and so on, increasing in difficulty, needing higher level of battle equipment.

Can you see the Item Requirement level for the final four set? 680?? I've only seen legendary crafting equipment up to level 525! *The grind is real!*

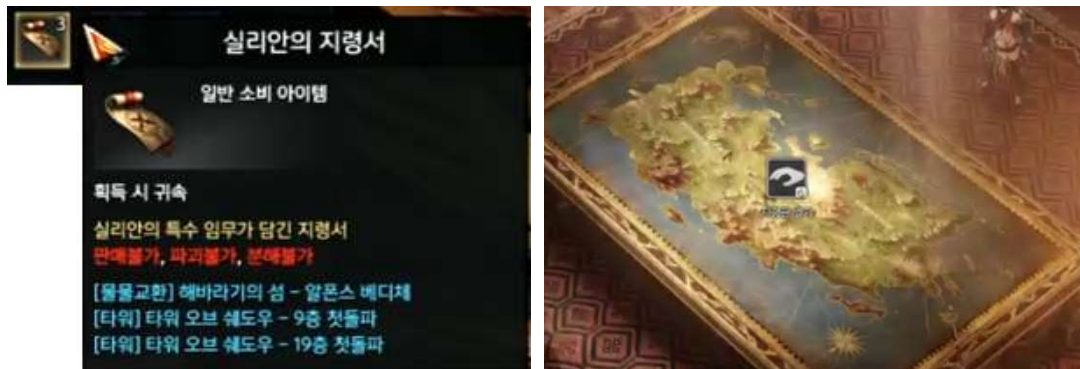

Reward from successful Guardian Raid can be legendary equipment, crafting materials, runes and engraving books. You will also get the Admission Ticket item ( 입장권 : 주간 레이드), which is a required item to enter the Weekly Guardian Raid, which you can get from regular Guardian raid.

Note: Since Health Potions are not allowed, make sure you party load up on First Aid Medicine and having a Bard in the party will really help as well.

## Sillian's Command (실리안의 지령서)

Sillian's Command is another awesome content you can enjoy to challenge yourself alone or with a party of 4. You will need Sillian's Command item, right-click on it to keep it when you get it. You can display how many you have at any time on the Currency tab (pg.22). You can get Sillian's Command from various quests including Card Battles (pg.81)! To participate, find this table map at either Lutheran, Arthetine or Bern, and activate it with [G].

## Tower of Shadow (타워 오브 쉐도우)

Fight your way up a 50 floor tower... alone. Each floor you complete gives guaranteed reward.

Min item level: 130

Restrictions: No Life Potion. No changing of equipment, skill and battle items.

*Note: If you cannot complete a floor, you can come back later and start from that floor, as long as you have some Sillian's Command item. You can re-do the earlier floors to improve time, but only get some sellable junk for some shilling.*

**CAUTION: Don't read the information below if you want the suspense / surprise of playing the Tower of Shadow, because there are many spoilers here. If you really get stuck, then come and check this section. Otherwise skip this page. You have been warned.**

Some useful info on clearing certain floors in Tower of Shadow:

- 5 - kill the spider only, don't break the eggs
- 10 - kill the boss only, don't break the glass containers
- 12 - pull one of the levers, correct one will complete the floor
- 14 - kill the elite in the middle only
- 15 - kill all the bowmen first, don't touch the robot in the middle, kill it last
- 18 - avoid the fire breath, instant death
- 19 - hard, avoid rolling fireball, instant death
- 20 - il280, hard, focus on killing Diablo!
- 23 - wait for the elite's attack animation to complete, then only attack
- 24 - break the stone in the middle to release an angel who will help kill everything!
- 25 - hard, avoid flying swords, get level 305 weapon as reward when completed
- 29 - don't fight, just avoid exploding kamikazes!
- 30 - il320, hard, double boss, x4 battle medicines (bm) allowed
- 33 - hard, kill only boss in middle, x5 bm
- 34 - you get painfully slowed, avoid exploding kamikazes
- 35 - il340, very hard, slowed, focus on killing boss, only 1 battle medicine allowed!
- 38 - hard, fast moving ads, focus on killing the dragon, x5 bm
- 39 - survive for 6:15 min, angel will come again to help kill everything, avoid boss attacks
- 40 - il360, hard, our angel gets murdered by boss (no!!!), you have to take revenge! x5 bm
- 41 - fast moving ads, focus on killing the boss in the middle, stand close to boss, x5 bm
- 42 - hard, avoid boss jump and charge attacks, x3 bm
- 43 - focus on killing elite in the middle, x3 bm
- 44 - avoid a lot of exploding kamikazes for 2:40, equip additional dash skill, x3 bm
- 45 - il380, hard, limited view, x2 bm
- 46 - fast moving ads, keep moving, boss after boss, x3 bm
- 47 - hard, limited view, boss multiplies, focus on killing boss, x3 bm
- 48 - all skills locked, kill the elite only with Darkness Bomb (암흑 폭탄) (battle item), x3 bm
- 49 - surprisingly not that difficult, x3 bm
- 50 - il400, very hard, keep moving into safe area and deal damage, x3 bm

*Note: Floors that I did not mention here are relatively straight forward fight without weird events.*

*\*il = item level*

## Tower of Fate (토워 오브 페이트)

Tower of Fate will unlock once you have completed Tower of Shadow Level 50.

## Cube (큐브)

Fight your way from one “cube” to another, with random “lucky” and “unlucky” conditions. Need to clear each cube before time runs out. This is the best content to get a lot of shilling and gold.

Conditions to complete the Cube:

- Each clearing gives points, once points accumulate to 250, everyone in party gets a Bronze Chest
- Your party then have to decide whether to continue to accumulate more points towards Silver Chest worth 800 points, and so on until the final Diamond Chest: 50k Shilling + 500 Gold reward!
- If your party decided abort (중단하기), everyone will still get the Bronze Chest
- If your party choose to continue but then fail, party lose everything, you don't get any chest!

## Elite Cube (엘리트 큐브)

Unlocks after you complete Diamond Chest in normal Cube. Each cube has elite monsters.

*Note: Look at the item level requirement!*

Conditions to complete the Elite Cube is same as normal Cube.

## Corridors of Trial (시련의 회랑)

Fight waves (단계) after waves of elites and bosses at fixed time lengths to collect Antares Coins (안타레스 주화).

Antares Coins can be exchange for the following cool stuffs from Diana (다이애나) whom you can find standing near the map table.

플래티넘 필드		시련의 회랑		상점		사용 / 착용 가능	
	장인의 망치	X 1	↔		안타레스 주화	X 50	교환
	영웅의 어빌리티 스톤 상자	X 1	↔		안타레스 주화	X 150	교환
	각인 도구	X 1	↔		안타레스 주화	X 900	교환
	해금석 상자	X 1	↔		안타레스 주화	X 700	교환
	광기 각인서	X 1	↔		안타레스 주화	X 4200	교환
	초심 각인서	X 1	↔		안타레스 주화	X 4200	교환

Diana...  
oh Diana...  
I luv u luv u so..  
:D

## Platinum Fields (플래티넘 필드)

Put your Like Skills [L] (pg.31) to the ultimate test and harvest cool stuffs before time runs out. Many of these are crafting materials for legendary equipment.

In Ronaun Fortress (로나운 영지), you do Harvesting, Mining and Tree Cutting.

You need find level 5 plants, rocks and trees to harvest a bag of Gold Bullions (금괴조의 둥지), Soil of Life (생명의 토양) and Black Crystal (검은 크리스탈), and bring them back to the starting point safely. There will be some pesky monsters disturbing your journey back, remember to put down the harvest, kill off those buggers and continue.

*Note: For best result, reset your Like Skill points so that you have at least level 3 in your basic Life Skill, and use blue equipment that gives 2 bonus point, so that your Harvesting, Mining and Tree Cutting rank are all at max level 5.*

Also engrave one of your rings with Chores (마당쇠) which gives 30% extra movement speed when you lift items. You can get the Engraving book by doing Medal Quests and collect 2000 Medal Points and exchange it from Medal Grandpa. (pg.75)

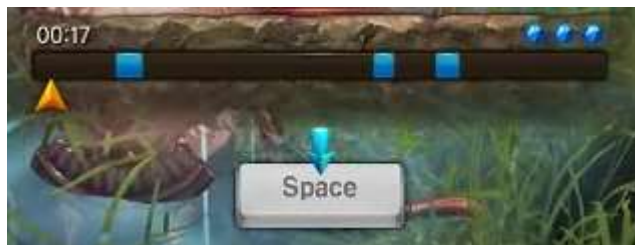

In Yudia Ancient Waterway (유디아 고대수로), you do Fishing, Hunting and Archeology.

You need find level 5 dig location to get a platinum ammonite sample (백금 암모나이트 표본), Golden rabbit specimen (황금 토끼 표본) and Shiny remains samples (빛나는 유물 흔적 표본), and bring them back to the starting point safely. There will be some pesky monsters disturbing your journey back again, remember to put down the harvest, kill off those buggers and continue.

*Note: For Archeology, engrave one of your rings with Careful Brush Strokes (섬세한 붓질) which reduces the difficulty of the mini-game below and 50% chance to get additional materials. You get this mini-game in the next dig, after digging for 5 times and get Archaeologist's Sense (고고학자의 감), make sure you have allocated points to this ability in your Life Skill [L] (pg.37).*

You will get these Platinum Coins (플래티넘 주화) after each run, amount depends on how successful you brought back the items. You can exchange these for cool stuffs from the same Diana.

## Field Bosses (필드 보스)

One of the most awesome content: 30 people need to kill one field boss within 30 mins, or get one shot wiped out! You can find out the location of the field bosses from Milestone System [Alt+G]. The 30 players will be put in a “channel”. Channel is an automatic game system, whereas if more than 30 players are in that area, the system automatically creates another instance of the field in a different “channel”. For example, say you’re the 40<sup>th</sup> person to arrive at the field boss location, you’ll be automatically put into the 2nd channel, with 9 other people. The 10 of you in channel 2, will not see the other 30 people in channel 1, even though all of you are in the same area. This is a way for the game system to prevent overcrowding of players in the same area.

*Note: Although this is not confirmed, I think only the top 3 of the players whom did the most DPS will get legendary item drops, with some luck involved as well. As for the rest of the players whom took part, everyone will get Lupeon Seals and immediately an auction starts!*

There will always be 4 item in the auctions:

- one ring engraving book
- one legendary crafting material
- one legendary equipment
- one rune

Different channels, at top right of game window

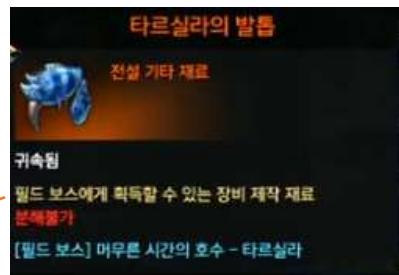

For example, in this Tarsilla (타르실라) fields boss run, these are items that could be offered in auction.

Legendary crafting material

Legendary amulet

Auction starts in 10 seconds after boss kill

Note: Personally I think this is an awesome game design, because even if you did NOT do the most DPS, but the fact that you took part in the raid and did some damage, qualifies you to take part in the auction, where if you have enough gold with you, you still stand a chance to get a legendary item. This is the reason you don't spend your gold on junks! Keep them all for this auction!

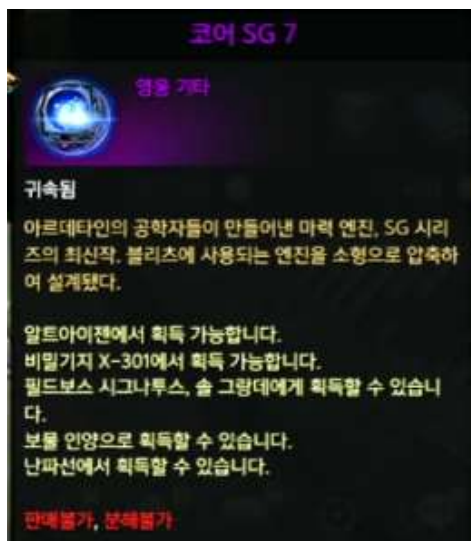

Even if you did not win, you get a share of gold from the winning bid!

Current highest bid

Next bid amount if you want to go in

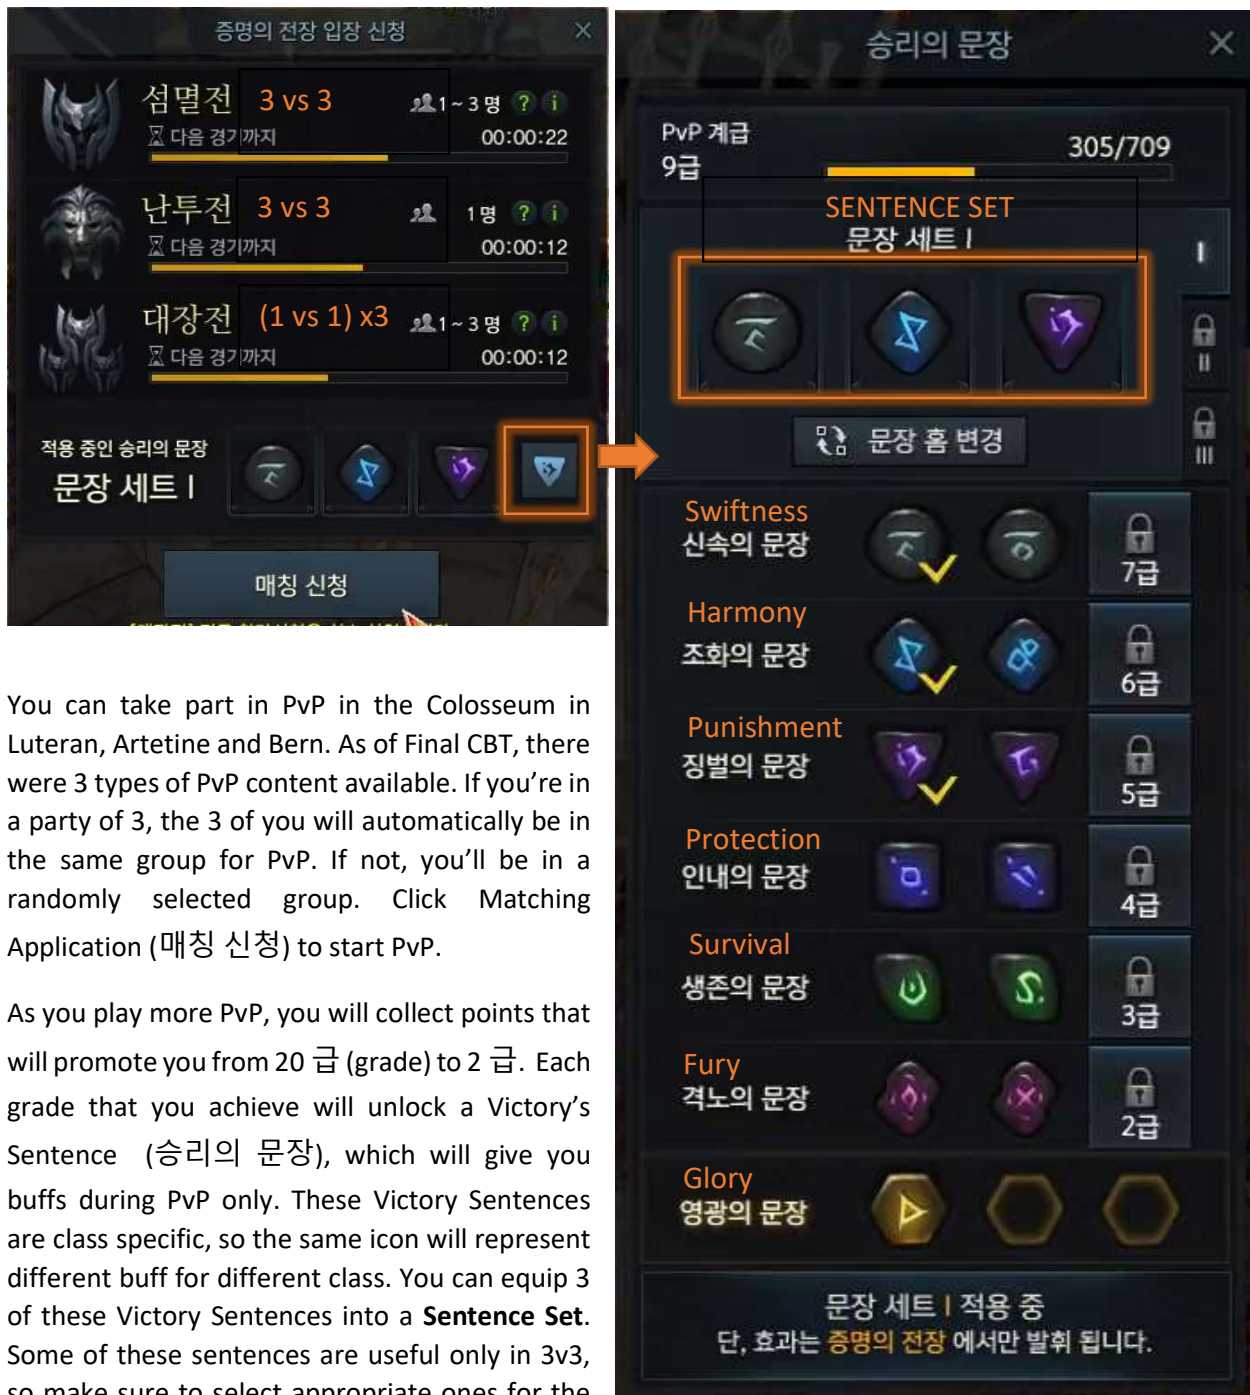

You can put your highest bid here to scare off everyone else! :D

Note: You might sometimes get this item “코어 SG 7” from Sol Grande (솔 그랑데) fight, which you can exchange for cool stuffs from Sasya (사샤) at Arthetine.

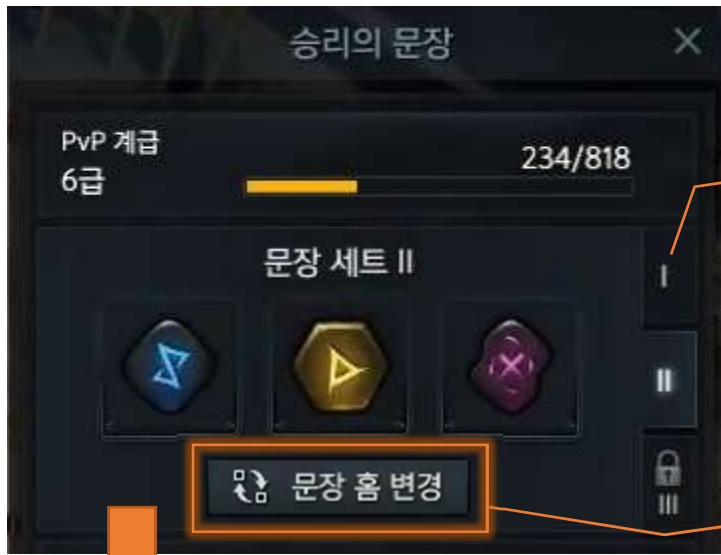

## PvP (증명의 전장)

You can take part in PvP in the Colosseum in Luteran, Artetine and Bern. As of Final CBT, there were 3 types of PvP content available. If you're in a party of 3, the 3 of you will automatically be in the same group for PvP. If not, you'll be in a randomly selected group. Click Matching Application (매칭 신청) to start PvP.

As you play more PvP, you will collect points that will promote you from 20 급 (grade) to 2 급. Each grade that you achieve will unlock a Victory's Sentence (승리의 문장), which will give you buffs during PvP only. These Victory Sentences are class specific, so the same icon will represent different buff for different class. You can equip 3 of these Victory Sentences into a **Sentence Set**. Some of these sentences are useful only in 3v3, so make sure to select appropriate ones for the kind of PvP you're doing.

There are 7 different categories of these Victory Sentences in different shapes. If the Sentence Set Slot does not contain the shape that you want, you can re-roll it.

You can unlock up to 3 different sets of Sentence Set Slot by keep accumulating PvP points

Click this Change Sentence Slot (문장 홈 변경) to begin the process

You will need one of these item each time you want to use Change Sentence Slot

Click this Change (변역 하기) to get a new random slot

Click this Save (저장) to save the new set

Click this Cancel (최소) to cancel and keep the earlier set

You can click Once More (한번 더) to try once again

Winning PvP matches will enable you to collect PvP Tokens (투지의 증표), which you can exchange for cool stuffs, including a 395 item-level PvP themed legendary set equipment.

 문장 홈 새김석 X 1	 투지의 증표 보유 204 X 1
 PVP : 투지의 증표 장비 ... 구매 제한 1/1 X 1	 투지의 증표 보유 204 X 250
 강화 방패 각인서 X 1	 투지의 증표 보유 204 X 300
 PVP : 투지의 증표 장비 ... 구매 제한 1/1 X 1	 투지의 증표 보유 204 X 900
 어빌리티 스톤 상자 X 1	 투지의 증표 보유 204 X 3
 입장권 : 이벤트 카오스 ... X 1	 투지의 증표 보유 204 X 5

## 10. OTHER ACTIVITIES

### Medal Quests (메달 퀘스트)

This can be unlocked at Bern. You can find the locations of the Medal Quests all over the continents of Lost Ark in the list below. Pick a quest then click Accept (수락), for the quest to be listed on the quest log. Quest will only start when you arrive on the location of the quest. Time based quests, try to complete it as fast as possible.

1. Talk to Medal Grandpa (메달 할아버지)
2. Select answer 1, then 1, then run to center of Bern
3. Talk to Delightful Adventurer (기뻐하는 모험가)
4. Select answer 4, 3, 2, then run in the direction of 2 o'clock
5. Talk to Medal Grandpa again and quest will be unlocked!
6. Do this all within 1 min 20 seconds
7. If you fail, you can re-try again

최초 수행 보상

고대의 금화

Once you have selected a particular quest by clicking Accept (수락), you will get this notification on the quest log, but the quest has not started yet. You will need to find in the Map ([M]) where to go to start the quest. Once you step into the yellow circle indicator on the ground, that's when the quest starts. Each quest needs to be done individually, doesn't work for parties. But party members can help kill pesky monsters that will try to hinder your progress, then repeat and take turn to complete the quest.

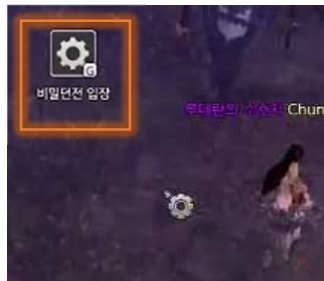

Once the quest is complete, run over to Medal Grandpa to collect your medal. You can keep repeating the same quest until you get Platinum achievement, with maximum 50 Medal Points. Once you have collected enough medal points, you can exchange it for these stuffs from the Medal Grandpa. The points are accumulative.

## Secret Maps/Treasure Map (비밀 지도/보물 지도)

Secret maps are another great way to find equipment upgrades and fun to do with a party of 4. When you have reached the exact spot for the secret map entrance, press [G] to open it. When the entrance opens, right-click on it and click **입장**, to enter. The secret map will be consumed upon entry.

When you get a secret map, press [M] to open world map, and search for the secret location. On lower item level maps, X will mark the spot for the entrance. For higher item level maps, you just have to run around in the general area shown in the map until you find the entrance. Legendary treasure maps may even be rotated, so keep a sharp eye on it.

Click this to share map information with party members

Note: You will get this window when party members are sharing a map with you, click **수락** to accept and view the map.

Some maps have 2 floors, so make way to Last Floor (**마지막 층**) to find the treasure chest / final boss.

## Epona's Requests (에포나 의뢰) [Alt+J]

You can do 3 of these quests per day, and is reset at 6am every day.

For example, if you really wanted some Akeracium (pg.41), then you can check what quests offers it for that day and go do that. You can do limited number of these daily quest only, so make sure you do the ones that you need to do only. If you do additional quests, you may not be able to collect rewards!

*Note: unlike main quests, these daily quest might not indicate where and what to do, you just have to run around nearby to see flash of light on some items and/or break stuffs and and/or kill things, but all in just the area around the place where you get the quest.*

As you do various Epona's Requests, you will also be accumulating reputation. Once you collect enough Reputation Status (평판 현황) points, you will get additional items! Including Combat Skill potions!

Reputation points complete

New horsey mount!

If there are more than one item offered, you can only choose one and need to do more quests to get the other item.

Click this to find out exactly which Epona's Requests you need to do to get complete the specific reputation points to get the item you want

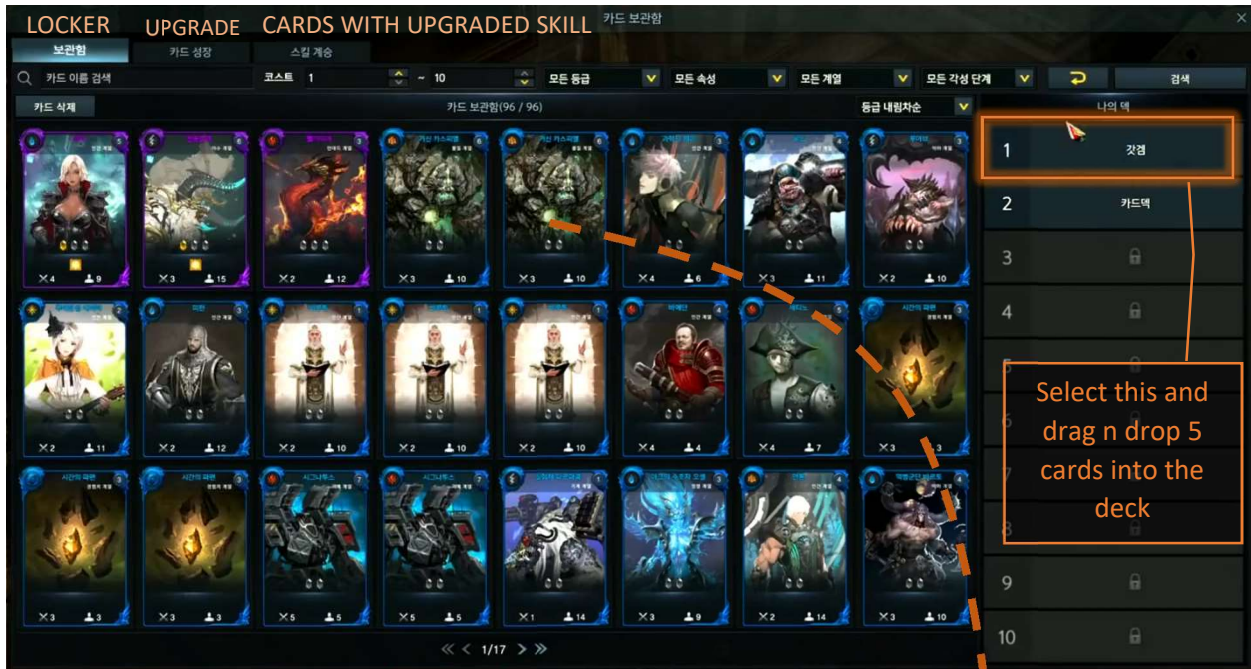

## Card Battle (카드 베틀) [Ctrl+C]

Whenever you see this icon with some NPC, you can do Card Battle with them. Apart from being fun, we can also get all kindz of cool item from them... all kindz! Including more cards, permanent stat increase potions, tools, resurrection feathers, raptor mount, Sillian's Command, etc.

There are 4 levels of battle and each time you win, it unlocks the next level.

The battle itself is automated and there is nothing for us to do mid-battle, other than just to watch it.

You need to remember this chart to win.

The NPCs will not change their card sequence, so if you lose, you can remember their sequence and counter it in the next battle.

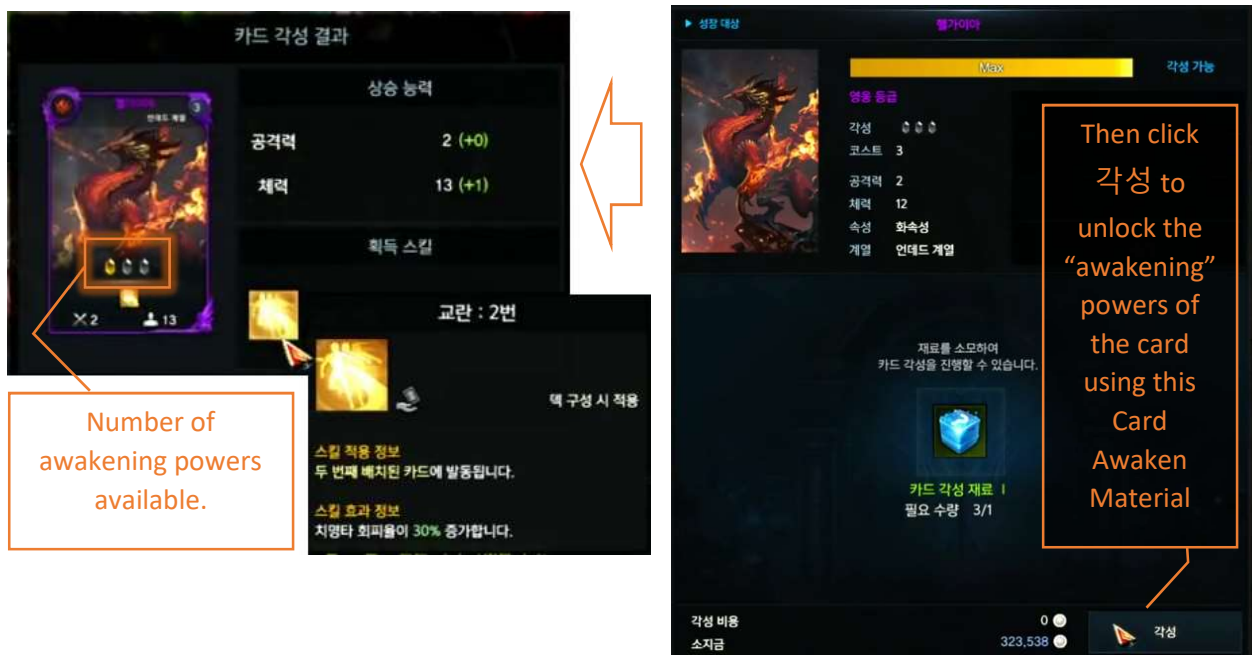

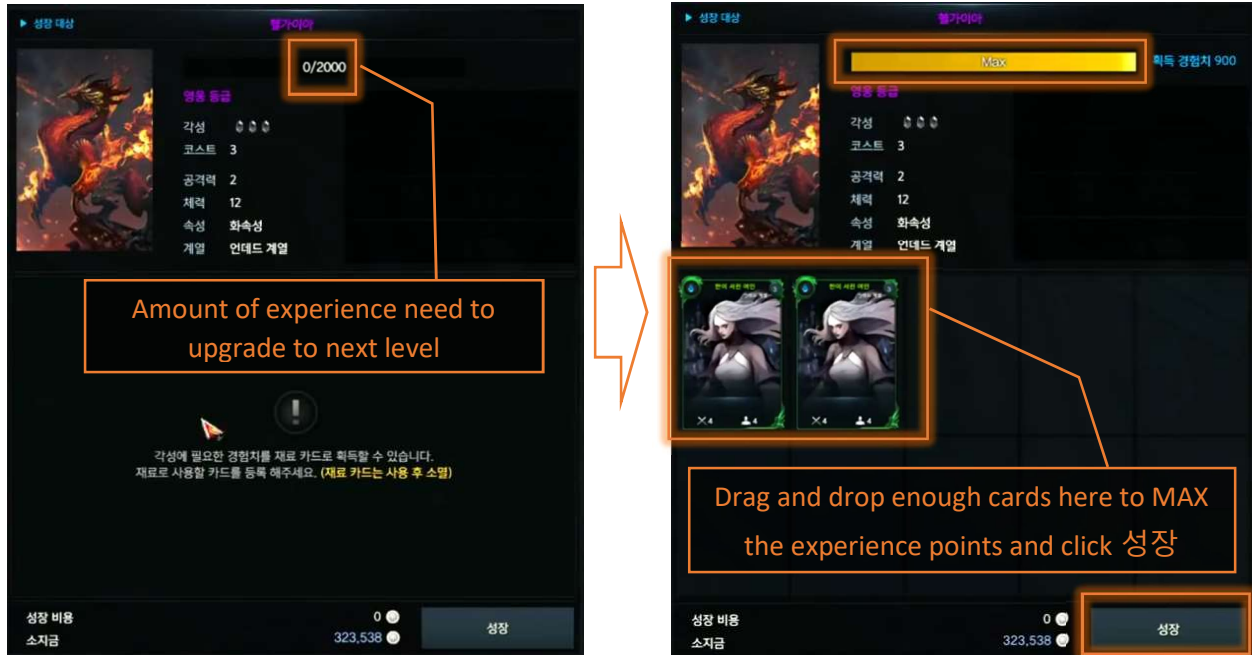

Some places to get extra cards:

1. There is a guy at Arthetine, 사제 모로, whom will exchange Lupeon Seals for cards.
2. Merchant in the Ship of Paradise sells lucky box of cards for shillings.

*Note: All unique NPC, will only play 1 card against your 5 cards, but stronger and stronger versions of their card with more HP, with each higher round. When you beat them, you get their card!*  
 Example below, Sillian's Card.

You need to keep upgrading your cards and unlock the “awakening” powers of your stronger cards. Click on Card Upgrade (카드 성장) tab and drag the card you want to upgrade on the right panel. You will then need to drag and drop cards that you are not using, to be consumed and give “experience” to the card you want to upgrade.

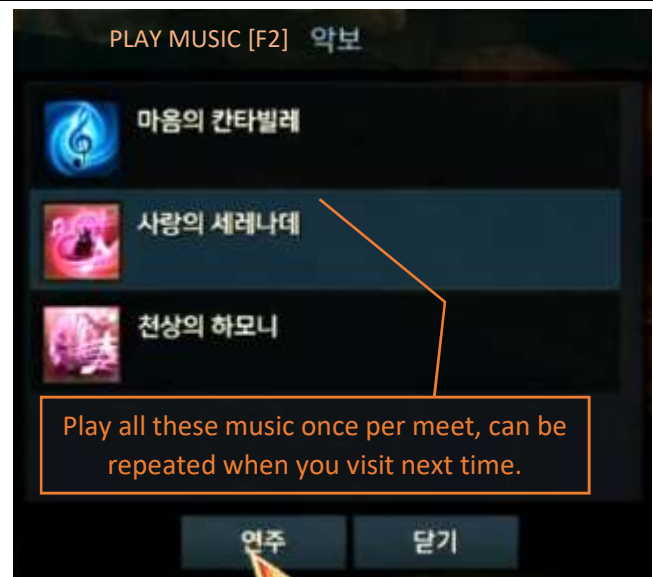

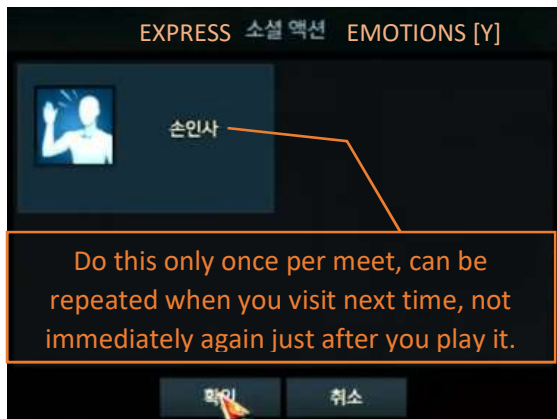

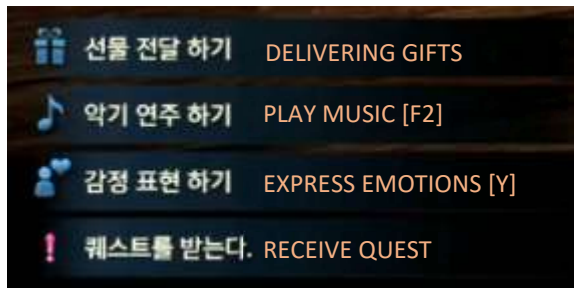

You will get more of this Card Awaken Material (카드 각성 재료) from winning card battles. There are 4 levels of material, used for different awakening levels of the cards.

## Favorability (호감도)

There are a certain number of NPCs throughout the world of Lost Ark that will give us additional quests once they find us “favorable”. You can identify them when you see the red heart shape in the mini map. Clicking on them brings this menu on the bottom left hand of the game screen. When we do these actions, the favorability increases. Once the bar is full, we will get a special quest. There are 4 levels of Favorability.

Once quest is complete, the gift that the NPCs will give us appears here. Don't forget to click this to receive it!

*Note: Sometimes there is a dialog session with the NPC before they give the gift and there may be certain Tendency level requirement before you can pick the best choice of reply, which will make them give you better gifts. (pg.13)*

## Songs / Music Collection

Music : Elegy of Silence (고요의 엘리지)

From : Mathias (마티아스)

Location : Ship of Paradise (해상낙원 페이터)

Note : Beautiful quest, you also get Heart of Island together with the music without additional task

x`

Music : Song of Starlight (별빛의 노래)

From : Lena (레나)

Location : Island of Starlight Lighthouse(별빛 등대의 섬)

Note : Long quest that spans a few continents to unlock this NPC. You can exchange the sheet music from the NPC with some Drifting Spirits (떠도는 영혼), which you can get by killing ghost shop bosses (*the grind is real!*)

Music : Song of Resonance (공명의 노래)

From : Black Tooth (검은아빨)

Location: Isle of Liberty (자유의 섬)

Note : You can exchange Black Tooth Token (검은아빨 증표) for this item from her. You get this by doing some quests for her starting at an island called Black Tooth's Post (검은아빨의 주둔지).

Music : Heavenly Harmony (천상의 하모니)

From : Garden Manager (정원 관리사)

Location: Harmony Island (하모니 섬)

Note : You have to be at this location exactly at the time stated to be able to enter the island. You will also get an easy permanent life increase potion.

Then go to the west of the island. When there are enough players there, a group quest will start.

Once the group quest is complete, the Garden Manager will give you some sheet music piece (악보 조각), which you can exchange for a purple chest from her, and you'll get the Heavenly Harmony music sheet inside, with a few other goodies.

Music : Minuet of the Forest (숲의 미뉴에트)

From : Eclipse the Traveler (여행자 이클립스)

Location: Island of Sleeping Song (잠자는 노래의 섬)

Note : You need to be here at exactly at the time stated. This music is important to open up secret passage on many islands.

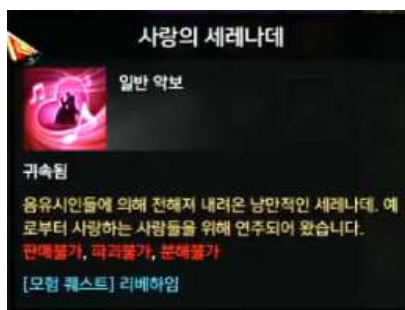

Then go here, you will hear la la la la, then here, complete the quest by pressing [G] several times.

Note: You can continue this quest to get Heart of the Island, you need to hunt for the clues are hidden around the island.

There is also a secret entrance on the west of this island to get some cool stuff on this island. Need 4 people with Songs of Resonance to open the entrance. Stay on this spot on the island and play Song of Resonance (공명의 노래) inside the yellow circle when it appears.

Music : Serenade of Love (사랑의 세레나데)

From : Henry in Love (사랑에 빠진 헨리)

Location : Ribeheim Island (리베하임)

Note : Henry will also give us permanent Life increase potion and gold when we continue the quest after getting the music sheet.

Music : A Song of Temptation (유혹의 노래)

From : 80% complete of Eudia (유디아) quests in the Adventurer's Book (pg.17)

Note : For now we know it's for Favorability.

Music : Twilight Requiem (황혼의 레퀴엠)

From : 60% completion of Lutheran East (루테란 동부) quests in the Adventurer's Book (pg.17)

Note : For now we know it's for Favorability.

*Note: These are the music sheets that we need to do adventures to obtain. I have excluded some that we will get by default by doing the main quest. There are a few more music sheets that we will need to hunt for in OBT and release.*

## AUCTION HOUSE

You can bid for items and sell items in the Auction House when you see this icon map in the map, in Luteran, Arthetine and Bern.

To sell item:

Click **물품 등록** to register item to sell (on the bottom right), which will open up Inventory.

Example: Selling Battle Medicine

Right-click on the item you want to sell, which opens up this window on the left. Then enter then number of items you want to sell and price per unit. The total sales (총 판매가) amount will be shown below. By default, the duration of sell time is 8 hours, but you can change it if you want. Click Enrollment (등록) button to place it for sell.

Once people buy your stuff, the payment will be delivered to your mail box (pg.36).

To buy an item:

**물품 구매** X

전기 폭탄

최근 거래가 99

구매 가능 수량 44

현재 가격		남은 수량
최저가	98	3
	99	41

구매 수량 Number of item to purchase 3

평균 단가(근사치) 98

구매 도중 거래소에 등록된 수량이 변동된 경우,  
위의 평균단가에 맞춘 수량만 구매합니다.

최대 지불 금액보다 실제 구매 금액이 적으면  
차액이 반환됩니다.

**최대 지불 금액 : 294**

소지금 : 4,061

**구매**

Simply select the item listed in the auction house and enter the number of item you want to purchase, based on the amount of gold you have, and click 구매.

The item will be delivered to you in the mail (pg.36).

## 11. SAILING (항해)

Three main things we do in sailing are ship selection, crew rotation and ship repair. All of these can only be done at major ports like at Lutheran, Bern, Arthetine, Anich or Shushire. If your ship gets damage till zero health, you can't continue adventure and have to sail to a major port to be restored.

Click this to restore damaged ship

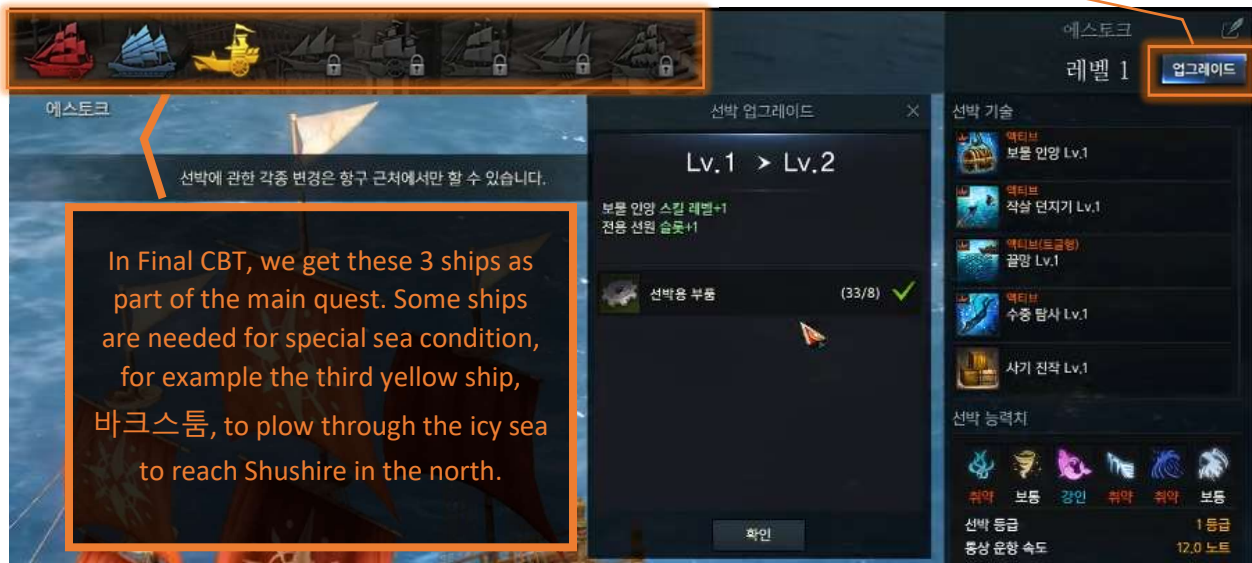

As you sail, you need to collect ship parts, supplies and help stranded sailors scattered all over the sea by pressing [G]. There are some dangers as well and some can damage the ship.

Click this to upgrade ship when it becomes available

Ship parts will be used to upgrade ship when you reach major ports.

In Final CBT, we get these 3 ships as part of the main quest. Some ships are needed for special sea condition, for example the third yellow ship, 바크스툼, to plow through the icy sea to reach Shushire in the north.

Note: There will be various activities you can do on sea like digging up treasure, send crew to dive for treasure, hunting sea animals, etc. all you can easily learn as you play, so not covered here.

Once ship is upgraded, additional crew slots gets unlocked. We can then take in more crews to upgrade ships ability to do sea activities like treasure digging, diving and sea creature hunting, and also to resist bad sailing conditions like storm, sand storm, siren (bad mermaids!), etc. Notice that some crews are “dedicated” to a certain type of ship only.

A faster way to travel to other continents are by using the “liner”, big ship like a passenger cruise ship, by paying some shilling. Once you paid the fare, wait for a while before the ship set sails. This is the time you can practice your character’s dance moves with Social Actions [Y]!

Find Rip (리프) by the dockside and select the destination of travel.

*Note: this is one of the reason why you don't spend shillings on weapon and armor, we need it for this expensive, but faster way to travel between continents.*

Location of Rip (리프)  
in mini map

*Note: You can only use this option AFTER you have travelled to that continent once with you own ship.*

*Note: Community member Meldas has prepared an awesome guide to Crew in his guide, please refer to that for more info on Crews. Get it from [reddit.com/u/meldas](https://www.reddit.com/u/meldas)*

---

## Final Words

Thank you for going through this guide. If there are some errors, please inform me via the channel or discord. Hope this guide will help you to enjoy this amazing game.

**FOLLOW** - kindly give me a Follow in my Twitch channel.

**SUBSCRIBE/  
DONATE/  
CHEER/** - if you find the information here useful and if you have the resources, kindly consider becoming a sub or donate to the channel. It will help support my dream to be able to do this full time. This guide did take a lot of time to prepare.
