

WE RECOGNIZE

the value of the **cultural heritage of each territory** as the central element for sustainable and digital development to favor its transmission.

WE MODEL

Our social commitment on the concepts stated in the **Faro Convention**, in the **Ventotene Digital Manifesto** and on the sustainable development goals of the United Nations **2030 Agenda** (SDGs UN2030).

Our manifesto

FOUR PILLARS

WE ACT

to foster the evolution of the **creative knowledge** of a community (such as “artists”, “artisanal food producers”) and **transfer it to future generations** through the use of IT solutions accessible for everyone.

WE BELIEVE

that the building of resilient **communities -aware and responsible** for their own heritage - can allow everyone to carry out their work in an effective, dignified and rewarding way.
