WELCOME

I have been learning my craft as an upholsterer since the age of eight years old, when I worked alongside my Grandfather, he taught me how to be patient, passionate and love my craft. Along my journey I met Nikki Paige who complimented me with her soft furnishings skills and attention to detail. Today, craftsmanship, passion, pride, and promise are the heart and soul of what we do.

Keeping your furniture in good condition is one of the many responsibilities that come with managing a hotel or public space. You need to create an atmosphere of comfort, relaxation and luxury for you and your guests from sofas, chairs and footstools to headboards, curtains, and soft furnishings. Put simply, quality décor means higher room rates and more repeat business.

Priding ourselves on our in-depth product knowledge and sound advice, we believe our experience is invaluable in helping you achieve maximum customer satisfaction for you, your clients and guests.

We have a great team of passionate people, who are:

- Qualified enough to offer a bespoke, traditional, specialist upholstery service
- Experienced enough to 'feel' your furniture and listen to what it needs
- Talented enough to put that feeling into action through their craft
- Committed enough to not stop till the restoration is 100% perfect

All led by me, so you can be confident the Richardson & Paige team will deliver deliver your work on time with our 100% satisfaction guarantee.

For the last ten years we have been giving all our private, hotel & commercial upholstery work to Richardson and Paige. As a lot of our interior design work is for private clients, we find that Richardson and Paige are able to provide us with a totally professional, and individual bespoke service for each piece of furniture we give them. We are able to discuss each project with them, and we do like their advice on what can be achieved with the furniture we wish to have upholstered, and the fabrics we wish to use as to suitability etc. We have always received top class work from them, and the most important aspect is that our clients are always delighted with the results.

RECOVER & RE-UPHOLSTERY

You may have a clear vision of what you want your finished piece to look like or you may be finding it difficult to visualise what your piece of furniture could look like once restored. Our aim is to make the re-upholstery and rebuild of your furniture an easy and enjoyable process for you. The first thing we do is to remove all top coverings and check the frame, repair any damages and French polish show wood if required. Then, it is a look under the covers to see what work needs to be done to make the piece comfortable again, using traditional skills or modern methods depending on the age and style of the piece. Then it is onto the top fabric, quite often you will know what finished look you want and which fabric to use, if not we work with many fabric and trim suppliers and can work with you to guide you through the process.

We all love comfort and quality, so you will be glad to know our services include the re-upholstery of not only the outside of your furniture, but also the frames, springs, paddings and filling of any item.

Make your furniture both beautiful and functional once again with a full re-upholstery service from Richardson & Paige. For a no obligation quote give us a call to discuss your project needs.

BESPOKE DESIGN TO YOUR SPECIFICATION...

Whatley Manor Hotel, Wiltshire.

“

We have just completed a refurbishment program of 22 bedrooms. I reached out to Richardson & Paige without hesitation, I have worked with them on 2 previous hotel projects. Each hotel was a 5 Star property with high quality furniture that had become a little shabby with use and required sprucing up. Having discovered Richardson & Paige in the first instance (approximately 12 years ago) there can be no doubt in my mind that they are the right people for the job. They are immensely reliable, skilled, conscientious and always deliver on time.

FABRIC WALLING

Fabric walling is a luxury wall covering that can transform a space with its beautifully tactile finish. It's soft and springy to the touch and has an incredible intensity of colour. It also provides an unparalleled warmth and acoustic quality thanks to the thick cotton 'bump' that is stretched over the walls beneath the surface fabric.

Another thrilling aspect of fabric walling is that you can use any fabric, from traditional damasks to inspiring contemporary designs. There are infinite possibilities, and today it is seen by many interior designers as a contemporary and opulent alternative to wallpaper. It can create a hushed and intimate space in a room even with high ceilings.

If you are considering fabric walling for an upcoming residential or commercial interior design project, we'd love to find out more and provide you with a no obligation quote.

You have one incredibly happy customer, the sofa, armchairs, and cushions all completed on schedule. The workmanship is incredibly skilled, with a difficult pattern perfectly aligned to the millimetre. Not many upholsterers could do this, so professional.

TRADITIONAL SKILLS
CRAFTING BESPOKE FURNITURE...

“

Having inherited a house full of good but badly damaged furniture, we tried several upholsterers before discovering Richardson & Paige. They have now completed two years of work and we can honestly say that they have proved to be the Rolls Royce of upholsterers. Their response to problems is practical and non-nonsense; they work quickly; they are extremely pleasant and easy to deal with; their prices are reasonable, but above all their craftsmanship is superb. We have no hesitation in recommending the Richardson & Paige.
