### **Three Rivers Public Health Department COVID-19 Update**

Three Rivers Public Health Department (3RPHD), which serves the counties of Dodge, Saunders and Washington counties, is continuing to see cases within the health district. “We continue to see increases in cases and we need everyone to do their part—stay home if you are sick, get tested if you have had an exposure and wear a mask when out in the public”, said Terra Uhing, Executive Director at Three Rivers Public Health Department. As a reminder there is testing available through Test Nebraska all over the state of Nebraska. Visit <https://www.testnebraska.com/en> to get scheduled for a COVID-19 test. **There is no cost for this test through Test Nebraska.**

Sadly, we are reporting three new COVID-19 related deaths. A Dodge County man in his 50s with underlying health conditions. A Washington County man in his 80s with underlying health conditions. A Saunders County woman in her 80s with underlying health conditions. This brings our total death count to 14 deaths in Dodge County, 4 deaths in Saunders and 5 deaths in Washington County for a total of 23 deaths in the 3RPHD health district.

As a reminder 3RPHD updates the community risk dials each Wednesday, and the 3RPHD Data Dashboard is updated each weekday. Please visit our website to learn more.

For questions or more information about COVID-19, please call Three Rivers at 402-727-5396, email [info@3rphd.org](mailto:info@3rphd.org) or visit [www.threeriverspublichealth.org](http://www.threeriverspublichealth.org)
