

Your Top Plumber in Pasadena, CA

LeadingEdge Plumbing & Rooter is the top plumber in Pasadena, CA that provides a wide range of services. We also work on many types of appliances and can come in even at the last moment. When it comes to any plumbing issue, entrust the job to our team that consists of industry experts who use cutting-edge equipment.

Our Plumbing Services in Pasadena

Our plumbing services in Pasadena, CA, range from fixture installations to complete repairs. Rest assured that we have the experience and the tools to get the job done right the first time and on time.

- **Faucets** - Whether you need to install a new faucet in your bathroom for a remodel or you're building a new home, we can help you with your faucet installation.
- **Tubs** - There are numerous kinds of tubs, and there are many ways that your tub might need service. If you have leaking piping in your wall near the tub or a clog in the drain that you can't get out yourself, we're here to help.
- **Toilets** - You don't want to go too long without a working toilet, and we can diagnose and fix the problem on the toilet and the plumbing.
- **Dishwater** - Clogs in the filter system or drain hose are both common problems with dishwashers. Otherwise, it's also possible to have a leak in the hose that supplies water to the dishwasher, which will lead to a puddle of water on the floor if you try to run the dishwasher.
- **Backflow** - If you're getting backflow from the sewer in your basement, you need to take care of it immediately. You might have a septic system that just too small to accommodate your needs. You should also have a plumber install a backflow valve even if you haven't had a problem, yet. Septic water is too hazardous to your health to not have a plan in place.
- **Garbage Disposals** - Garbage disposals need to be installed correctly, and we can fix your garbage disposal if the blades aren't turning correctly. Otherwise, if the motor is dead, we can also replace it for you.
- **Re-piping** - Whether you need the entire house piped because you're doing major renovations on an older home or you need just one bathroom fitted with new piping, we can help.
- **Water Filtration** - As clean water is a priority, you might either have a water filtration system in your home or want one. We would love to install a water filtration system for you so that you can have water that is safe for use.
- **Plumbing Repairs** - We can provide you with almost any kind of plumbing repair that you can imagine. Whether one of your pipes bursts or you need your faucet fixed, we can help.

- **Water Leak Detection** - Catching small leaks in your plumbing early can save you thousands of dollars in replacement and renovation costs. We can perform a leak detection to make sure that you know about leaks as soon as possible.
- **Kitchen Plumbing** - Remodeling and regular kitchen plumbing upgrades often require that you work with an experienced plumber. LeadingEdge Plumbing & Rooter can help you with a wide range of plumbing jobs.
- **Emergency Plumbing** - If you need someone to come out to your house in the middle of the night to take care of a broken pipe or some other emergency, we are the right plumbing company to call.

Why DIY Is Not a Reliable Option

There are some jobs that you might consider doing a DIY job but many plumbing jobs are best left to the professionals. If you have someone working on your plumbing that doesn't know what they're doing, you might experience some negative consequences, such as further damage to your pipes and fixtures. In addition, it's just a headache to spend more time on a project than necessary.
