- Build Flat, Responsive, Wordpress Sites From Scratch.
- Learn web design, photoshop, illustrator via tutorials and design inspiration.
- Absolute Cross is a place to learn about web design and refine your creative skills.
- Art Tutorials.
- Teach yourself to code. Everything you need to be a self-taught expert developer.
- Learn how to code games, apps and websites with fun and effective interactive games. HTML, CSS and JavaScript tutorials are for beginners.
- Interactive courses on how to program. Courses are created by community and cover CSS, Java, HTML.
- Code Fellows is a world-class code school training web and mobile developers in industry best practices, in-demand frameworks and technologies, and more.
- Learn PHP Website Development at CodersCult.com
- Learn to code in the comfort of your browser with video tutorials, programming challenges, and screencasts.
- Teacher Features, Progress Graphs, Exp Progress Graphs, author your own pages and problems. (Java, Python)
- Take free online classes from 120+ top universities and educational organizations.
- Put your coding skills to the test with these programming challenges.
- (Glitch Tutorials) Daniel Temkin collaborates with machines, exploring the collision between human thought and computer logic.
- Learn about music from the DataDragon Information Services.
- DevDocs is a fast, offline API documentation browser with 60+ docs including HTML, CSS, JavaScript, PHP, Ruby, Python, Go, C, C++, jQuery, and more.
- EdX offers free online courses and classes.
- Some free basic content, and offers a short course in HTML and CSS (for \$29.99).
- A resource for developers looking to put HTML5 to use today, including information on specific features and when to use them in your apps.
- Tuts+ helps you learn creative skills and shape the life you want.
- IAMPETH is an international, non-profit association over 700 members strong dedicated to practicing and preserving the beautiful arts of calligraphy. Founded in 1949.
- Computer tutorials based on pictures, not words.
- JRuby is a high performance, stable, fully threaded Java implementation of the Ruby programming language.
- Learn for free about math, art, computer programming, economics, physics, chemistry, biology, medicine, finance, history, and more.
- Learn how to build beautiful and intuitive websites. A Beginner and advanced guide, covering from HTML, CSS, JavaScript and related tech.
- Web Design Tutorials.
- Articles on PHP, WordPress, HTML and CSS, and videos on design and coding.
- Quality Tutorials for Many Tools.
- Media Arts and Technology at UC Santa Barbara.
- We strive to educate you on more efficient, creative, and engaging ways to create your design. You'll be able to learn through Articles, Interviews, Videos, and Notes.
- Microsoft Virtual Academy provides free, online training to help Developers, IT and Data Professionals, and students.
- New Masters Academy is an online, subscription-based, fine art institution for artists around the world providing video lessons by top artists and 3d reference.
- MIT OpenCourseWare is a web-based publication of virtually all MIT course content. OCW is open and available to the world and is a permanent MIT activity.
- Books to learn Processing.
- Explore how the principles behind open source--collaboration, transparency, and rapid prototyping--are proven catalysts for innovation.
- An easy-to-read, quick reference for PHP best practices, accepted coding standards, and links to authoritative PHP tutorials around the Web.
- Processing Libraries.
- Become a Programmer, Motherfucker.
- Your Online Code Lab. Coding Contest & Image Gallery.
- Welcome to RSC Publishing. Access journals, books and databases from the Royal Society of Chemistry.
- Squarespace is the easiest way for anyone to create an exceptional website.
- Learn special effects & character creation from the world's greatest monster makers.
- School of Visual Storytelling
- Learn Web Design, Web Development, and More.
- Teknik is dedicated to the advancement of technology and ideas, and we provide these services to help those who try to innovate.
- TheCodePlayer plays code like a video helping people to learn front end technologies like HTML5, CSS3, Javascript, JQuery easily, quickly and interactively.
- The Odin Project empowers aspiring web developers to learn together.
- Directory of tutorials for software programs such as MS Excel and Macromedia Dreamweaver.
- The largest Tutorials Library on the web.
- UArts: The Online Art School. Take any of our on-demand courses.
- Classical art atelier of Jeffrey R. Watts.
- W3Schools is optimized for learning, testing, and training. Examples might be simplified to improve reading and basic understanding.
- TutsPlus is a network of related tutorials sites. Their web design channel has a wealth of good free articles.
- A guide on essential skills for designing effective web sites.
- Become a Web Designer Lets you browse for real-world institutions that offer web design courses. USA & Canada only.
- Web Pages That Suck is a web resource where you can learn good web design by looking at bad web design.
- The #1 marketplace for graphic design, including logo design, web design and other design contests.
- Hiive is the professional network for creative people.
- CafePress has the best selection of custom t-shirts, personalized gifts, posters & art, mugs, and much more.

- <http://colormunki.com/munsell/> - ColorMunki is the industry's hottest all-in-one color solution that delivers unparalleled color control and color creation tools for photo and design digital workflows
- <http://colorshemesdesigner.com/> - A designer tool for creating color combinations that work together well.
- <http://colourco.de/> - colourco.de is an online designer tool, which allows you to easily and intuitively combine colours.
- <http://colourlovers.com/> - COLOURlovers is a creative community where people from around the world create and share colors, palettes and patterns.
- <http://colourlovers.com/palettes/> - Color palettes to inspire your ideas.
- <http://colors.co/> - Generate infinite color palettes for your designs and share, export or save it in your profile.
- <http://flatuicolorpicker.com/> - Flatuicolorpicker is a project digging the Flat Color Picker which gives you the perfect colors for flat designs.
- <http://flatuicolors.com/> - Flat UI Colors: the best color scheme for you flat designs.
- <http://gridpak.com/> - A Responsive Web Design tool for creating grids by Erskine, a Good Work company.
- <http://ilovetypography.com/fontgame/> - The Rather Difficult Font Game.
- <http://labs.foxtype.com/> - Foxtype helps you write in a more polite, friendly tone. We rate the politeness of your sentences. We also help re-write your sentences to sound more polite.
- <http://labs.foxtype.com/thesaurus/> - Foxtype has a culturally-aware thesaurus, powered by 'natural language processing' and not hardcoded lists.
- <http://lavishbootstrap.com/> - Generate your own Bootstrap color scheme from an image and customize to your taste.
- <http://lokeshdhakar.com/projects/color-thief/> - Get the dominant color or color palette from an image.
- <http://method.ac/> - Method of Action is a collection of tools, games and articles to help you learn design.
- <http://modulargrid.org/> - The tool for quick design modular grid in Adobe Photoshop, Adobe Fireworks, GIMP, Microsoft Expression Design and other.
- <http://shape.method.ac/> - Shape Type, the letter shaping game.
- <http://thegrid.io/> - This is not a website builder. This is your personal AI web developer. Its first masterpiece is the website you're looking at right now.
- <http://type.method.ac/> - Kern Type, the kerning game.
- <http://xrite.com/> - Color Management System.
- <http://1secondclub.com/resources/>
- <http://3d.sk/> - Monthly character animation competition using a set dialog from a movie. Public critique and voting.
- <http://3dbuzz.com/vbforum/> - 3D.sk is the biggest online source of hi-res human and animal photo references for 3D artists and game developers. You will find here more than 250000 photos.
- <http://3dcreativemag.com/> - 3D Buzz is a company dedicated to providing the world with quality technical education over 3D animation, programming, game design, and much more.
- <http://3dk.org/tutorials/> - 3DCreativeMag - monthly magazine full of tutorials and great resources for cg artists from 3DTotal.com, UK.
- <http://3dtotal.com/> - 3DK.org is computer graphics community for helping young artists to expand their knowledge in 3ds max, cinema 4d, lightwave 3d, softimage xsi, maya, etc.
- <http://3dtotal.com/ffa/tutorials/max/joanofarc/joanmenu.php> - 3DTotal.com: premier 3d and CG art website in the world, offering a variety of training products, an inspirational gallery, a free texture library and tutorials.
- <http://3dtotal.com/ffa/tutorials/max/joanofarc/joanmenu.php> - 3DS Max Character Modeling tutorial (Best you'll find)
- <http://allanmckay.com/> - 3ds max tutorials for destruction and dynamics. Let's blow some shit up! From the Master himself: Allan Mckay.
- <http://animationbuffet.blogspot.com/> - Animation Buffet is one of the best places to go for free rigs for animation students working in Maya.
- <http://area.autodesk.com/> - AREA is Autodesk's official CG community. Explore and share your work
- <http://artstation.com/> - ArtStation is the leading showcase platform for games, film, media & entertainment artists.
- <http://autodesk.com/> - Autodesk builds software that helps people imagine, design, and create a better world.
- <http://avcg360.com/> - avcg360 are focused on to providing the best support for CG Artist with this Online and provide all latest trends about Animation, VFX, Comics and Games.
- <http://badking.com.au/> - A FREE ZBrush Development and CG Resource for both novice and professional artists throughout the world.
- <http://blender.org/> - Home of the open source 3D graphics and animation software. Official Blender downloads, galleries, conferences, tutorials, and links.
- <http://blendernation.com/> - Daily news, art and tutorials for Blender, the open source 3D content creation suite.
- http://bodiesinmotion_photo/ - If you are an artist looking for high quality figure reference and a community to develop your skills with, visit now!
- <http://cgchannel.com/> - CG Channel is an online destination for entertainment artists. Our mission is to inform, inspire and empower our viewers.
- <http://cgi.tutsplus.com/> - Free Tutorials - Design & Illustration - Code - Web Design - Photo & Video - Music & Audio - 3D & Motion Graphics - Game Development
- <http://cgsociety.org/> - CGSociety's homepage brings you EXCLUSIVE Features, the LATEST News, and the hottest images from movies, games CGSociety members.
- <http://cgtextures.com/> - Best free texture resource.
- <http://creativecow.net/> - CreativeCOW.net is an online support community for media professionals in the film, video and broadcast industry.
- <http://creativecrash.com/> - CreativeCrash is an entirely new platform that has many new focus areas.
- <http://digitaltutors.com/> - Learn proven creative skills, software, techniques & workflows with tutorials & training for 3D animation, Game dev, Design, VFX, Web, CAD and more.
- <http://evermotion.org/tutorials> - EVERMOTION VFX is a visual effect, CG environment and character animation company based in Bialystok, Poland.
- <http://free3dtutorials.com/> - Free 3D tutorials: the largest 3D tutorials and 3d modeling tutorials collection on the web. Come and join us!
- <http://gamasutra.com/> - The online free version of Game Developer Magazine. Weekly articles on game design and threads for discussion.
- <http://gameartisans.org/> - An Art Challenge based community dedicated to 3D and Concept Art for Games.
- <http://gamebanana.com/> - GameBanana is a community of PC gamers who love to discuss, download, and share user-created game content.
- <http://gamebanana.com/> - Cinema 4D Tutorials and Tools for Motion Graphic Designers.
- <http://gamebanana.com/> - Joe Gunn is a senior freelance 3D artist based in New York City and has been involved in the 3D animation industry for more than 10 years.
- <http://grevscalegonilla.com/> - Academic software discounts at up to 85% off retail prices for students, teachers, faculty and schools.
- <http://joegunn3d.com/Tutorials.html> - CMU Graphics Lab - motion capture library
- <http://journeyed.com/> - The MocapClub was founded in 2007 to share information about motion capture with the world.
- <http://mocap.cs.cmu.edu/search.php> - Free Lightwave 3D training videos.
- <http://mocapclub.com/Pages/Library.htm> - OsiriX is an image processing software dedicated to DICOM images (.dcm)
- <http://newtek.com/lightwave/training.php> - The ZClassroom is your online resource for learning ZBrush, with hundreds of free videos tutorials that teach you step by step everything ZBrush.
- <http://osirix-viewer.com/> - Ben Mathis personal portfolio site and online teaching resource.
- <http://paxologic.com/zclassroom/> - Portfolio of evan "racer445" Herbert, freelance 3d artist for games. (Intro to texture concepts and normal mapping).
- <http://poopinmymouth.com/> - For over twenty years Side Effects has been providing artists with procedural 3D animation and visual effects tools designed to create the highest-quality cinematic results.
- <http://racer445.com/> - A language-independent collaboratively edited question and answer site for programmers.
- <http://sidedfx.com/> - Academic software discounts for students, teachers, schools. Educational pricing on 3D Printers, STEM Education solutions.
- <http://stackoverflow.com/> - Free high resolution, high quality textures for personal and commercial use from TextureKing.
- <http://studica.com/>
- <http://textureking.com/>

- <http://thefoundry.co.uk/> - The Foundry is a global developer of computer graphics, visual effects (VFX) and 3D design.
- <http://thegnomonworkshop.com/> - The Gnomon Workshop provides training that both educates and inspires for visual effects artists, concept designers, sculptors and comic book illustrators.
- <http://thepixelab.net/> - My name is Joren Kandel and I am a full time freelance motion designer/video editor. C4D and After Effects are my tools of choice, and I do most of my editing in Premiere Pro.
- <http://udk.com/> - Unreal Engine 3 is a complete game development framework that operates across 10 platforms.
- <http://unity3d.com/> - Unity is the ultimate game development platform. Use Unity to build high-quality 3D and 2D games.
- <http://videocopilot.net/> - High quality After Effects Video Tutorials for motion graphics and visual effects presented by Andrew Kramer.
- <http://vterrain.org/Packages/Artificial/> - Artificial Terrain Tools & Software Packages.
- <http://wings3d.com/> - Wings 3D is an advanced subdivision modeler that is both powerful and easy to use.
- <http://xsibase.com/tools/skeletons.php> - Perfekte Dinge lassen sich kaum verbessern, so etwa die Angebote für Neukunden bei Sky Deutschland.
- <http://zbrushcentral.com/> - ZBrush and Sculpttris Discussion Forums, by Pixologic.

- <http://audioreact-lab.blogspot.it/> - Audio React Lab
- <http://bighistoryproject.com/home/> - The Big History Project facilitates independent, critical cross-disciplinary thinking, which is what the real world is all about.
- <http://cadnano.org/> - CAD for DNA Origami.
- <http://choosealicense.com/> - A site to provide non-judgmental guidance on choosing a license for your open source project.
- <http://codeshare.io/> - Developers use Codeshare to collaborate, teach, troubleshoot, pair program and more.
- <http://cyark.org/> - A prototype project to test the concept of a digital archive of 3D survey information of endangered world heritage sites.
- <http://eternagame.org/> - EteRNA is a browser-based "game with a purpose" that engages users to solve puzzles related to the folding of RNA molecules.
- <http://fold.it/portal/> - Foldit is an online puzzle video game about protein folding.
- <http://froknowspphoto.com/> - Get tips for taking photos as well and learn how to take amazing photos. Check out Fro Knows Photo online today.
- <http://github.com/christiannaths/Redacted-Font> - Keep your wireframes free of distracting Lorem Ipsum.
- <http://google.com/culturalinstitute/project/art-project> - Google Art Project.
- <http://hvdffonts.com/> - HVD Fonts is a type foundry from Berlin/Germany, founded by Hannes von Döhren. They produce high quality typefaces as much for display as for text use.
- <http://jsfiddle.net/> - Test your JavaScript, CSS, HTML or CoffeeScript online with JSFiddle code
- <http://linkeddata.org/> - Linked Data is about using the Web to connect related data that wasn't previously linked, or using the Web to lower the barriers to linking data currently linked.
- <http://futurescope.com/eng/index.php> - Parc d'attractions et de spectacles.
- <http://makeascii.com/> - Take any image and create a really cool ASCII version, where letters replace the pixels, of the image. Give it a try.
- <http://photosynth.net/> - Capture places, share them with your friends, publish them to Bing.
- <http://resizemybrowser.com/> - A simple, useful and beautiful browser window resize app for Web designers and developers.
- <http://ryuurui.com/great-masters.html/> - Calligraphy, research and learning, photography, body art, boudoir, and commercial photo services.
- <http://smashingmagazine.com/typography-guidelines-and-references/> - Typography Guidelines.
- <http://thewhalehunt.org/> - An experiment in human storytelling, using a photographic heartbeat of 3214 images to document an Eskimo whale hunt in Barrow, Alaska.
- <http://typing.io/> - Typing.io is a typing tutor for programmers. Practice typing the hard-to-reach symbols in code.
- <http://unodos.jp/> - 個人でやっているブログ。
- <http://validator.w3.org/> - W3C's easy-to-use markup validation service, based on SGML and XML parsers.
- <http://vimawesome.com/> - VimAwesome. Awesome Vim plugins.
- <http://wearerebuild.com/> - Build is an award-winning creative agency. We work with creative, design-led clients, to produce work they are justifiably proud of.
- <http://wefeelfine.org/> - An exploration of human emotion, in six movements by Jonathan Harris and Sep Kamvar.
- <http://wwwwwwwww.jodi.org/> - jodi.org, is a collective of two internet artists: Joan Heemskerk and Dirk Paesmans.

- <http://opengameart.org/content/chapter-1-the-right-tools> - Open Game Art is a media repository intended for use with free software game projects.
- <http://purloux.com/artwork/tutorials/run-down> - The official Studio Purloux site, home of games and pixel art resources, tutorials, and software.
- http://derekyyu.com/?page_id=218 - Derek Yu is an independent video game designer, game artist, and blogger.
- <http://hongkiat.com/blog/pixel-art-tutorials/> - Design weblog for designers, bloggers and tech users. Covering useful tools, tutorials, tips and inspirational artworks.
- <http://qarmahis.com/tutorials/pixel-art-tutorials/> - Sharing tutorials on digital image transformation. Presenting interviews of graphic designers and reviews of digital art tools.
- <http://andysowards.com/blog/2012/30-epic-pixel-art-tutorials/> - The home, blog, and portfolio of professional web designer, developer, and programmer Andy Sowards based in Lynchburg, VA who specializes in Wordpress.
- http://pixeljoint.com/forum/forum_posts.asp?TID=14527 - <http://pixeljoint.com/> - Welcome to Pixel Joint: home of the world's largest pixel art community.
- <http://lesforges.org/> - Les Forges éditent de nombreux articles destinés aux créateurs de jeux. Game design, dessin, pixel-art, level design et autres.
- <http://wayofthepixel.net/pixelation/index.php> - Pixel Art
- <http://ipc.opengameart.org/static/ipc-style-guide/index.html> - Open Game Art is a media repository intended for use with free software game projects.
- <http://wildbunny.co.uk/blog/2012/03/01/designing-a-retro-pixel-art-tile-set> - Wildbunny is dedicated to helping the game development community, with articles which cover topics across all skill levels
- http://flashgamedojo.com/wiki/index.php?title=2D_Tile_Art_Basics - Flash Game Dojo is an ad-free, not-for-profit enterprise for game design education.
- <http://brandontrub.com/10-great-pixel-art-tutorial-and-free-resource-sites-for-your-games> - Software Consulting Tips And iPhone Development Tutorials.

- Notepad++ - Code editor which supports several programming languages running under the MS Windows environment.
- Notepad2 - Notepad2 is a free and open-source text editor for Microsoft Windows, released under a BSD software license.
- Notepad2-mod - A Notepad2 fork, a fast and light-weight Notepad-like text editor with syntax highlighting
- Coda - Panic Software offers a sleek, trimmed-down alternative to expensive Web design suites. (Mac Only)
- TextMate - General-purpose GUI text editor for Mac OS X.
- Sublime Text - Sophisticated text editor for code, markup and prose.
- Vim - Designed for use both from a command-line interface and as a standalone application in a graphical user interface.
- CodeIgniter - Rapid development web application framework, for use in building dynamic web sites with PHP.
- Titanium SDK - The Titanium SDK helps you to build native cross-platform mobile application using JavaScript and the Titanium API, which abstracts the native APIs of the mobile platforms
- PhoneGap - Easily create apps using web technologies: HTML, CSS, and JavaScript.
- Laravel - PHP web application framework intended for the development of web applications following the model-view-controller (MVC).
- phpMyAdmin - A tool written in PHP intended to handle the administration of MySQL over the WWW.
- Symfony - Symfony is a PHP web application framework for MVC applications.
- Slim - PHP micro framework that helps you quickly write simple yet powerful web applications and APIs.
- Phalcon - High-performance web application framework for PHP based on the model-view-controller (MVC) pattern.
- CakePHP - Web application framework. It follows the Model-View-Controller (MVC) approach and is written in PHP,
- Zend - Zend Framework (ZF) is an open source, object-oriented web application framework implemented in PHP 5.
- Clojure - Clojure is a general-purpose programming language with an emphasis on functional programming.
- Light Table - (IDE) for software engineering. Features real-time feedback allowing instant execution, debugging and access to documentation.
- Qt - Cross-platform application framework that is widely used for developing applications.
- Aurelia - Next gen JavaScript client framework for mobile, desktop and web that leverages simple conventions to empower your creativity.
- Adobe Brackets - Free open-source editor written in HTML, CSS, and JavaScript with a primary focus on Web Development.
- Elixir - Dynamic, functional language designed for building scalable and maintainable applications.
- Code::Blocks - C, C++ and Fortran IDE built to meet the most demanding needs of its users.
- Android Studio - Android Studio is the official IDE for Android application developing on the Android platform.
- Bloodshed Dev-C++ - Full-featured Integrated Development Environment (IDE) for the C/C++ programming language.
- ASP.NET - Open-source server-side Web application framework designed for Web development to produce dynamic Web pages.
- Visual Studio - Collection of developer tools and services to help you create apps for the Microsoft platform and beyond.
- .NET Framework - Microsoft Software framework intended to be used by most new applications created for the Windows platform.
- Microsoft Visual Studio - (IDE) It is used to develop computer programs for Microsoft Windows, as well as web sites, web applications and web services.
- Visual Studio Code - Source code editor. It includes support for debugging, embedded Git Control, rich development experiences, and other features.
- JavaFX - Software platform for creating desktop applications, and rich internet applications (RIAs).
- Java SE - Java Platform that lets you develop and deploy Java applications on desktops and servers.
- Apache Flex - Software development kit (SDK) for development and deployment of cross-platform rich Internet applications.
- Joomla - Content management system (CMS) for publishing web content. Estimated to be the second most used CMS on the Internet.
- Ruby on Rails - Rails is a model-view-controller (MVC) framework, providing default structures for a database, a web service, and web pages.
- Ruby Version Manager - Command-line tool which allows easily install, manage and work with multiple ruby environments from interpreters to sets of gems.
- Web Developer - Extension for Mozilla-based web browsers that adds editing and debugging tools for web developers.
- Firebug - Extension for Firefox that facilitates the live debugging, editing, and monitoring of any website's CSS, HTML, DOM, XHR, and JS.
- HTML Tidy - Tool for checking and cleaning up HTML source files. It is useful for finding and correcting errors in deeply nested HTML.
- CodeKit - CodeKit helps you build websites faster and better. (Mac Only)
- WordPress - A semantic personal publishing platform with a focus on aesthetics, web standards, and usability.
- LibreJS - Add-on for GNU IceCat and Mozilla-based browsers. It blocks nonfree nontrivial JavaScript.
- libgdx - Desktop/Android/iOS Java game development framework.
- Ngrok - Secure introspectable tunnels to localhost webhook development tool and debugging tool.
- IntelliJ IDEA - Java integrated development environment (IDE) for developing computer software.
- Kivy - Python framework for development of applications that make use of innovative user interfaces, such as multi-touch apps.
- Pycharm - PyCharm is an Integrated Development Environment (IDE) used for programming in Python.
- MATLAB - High-level technical computing language. Develop and share applications as code, executables, or software components.
- PowerShell - Windows PowerShell is a task automation and configuration management framework built on the .NET Framework.
- GTK+ - GTK+ Gimp Tool Kit, is the GUI toolkit used in Gnome applications. GTK+ is a cross-platform widget toolkit for creating graphical user interfaces.
- Leafpad - Leafpad is a simple GTK+ text editor that emphasizes simplicity.
- Pragha - Pragha is a Lightweight Music Player for GNU/Linux, based on Gtk, sqlite, and completely written in C.
- Mopidy - Mopidy plays music from local disk, Spotify, SoundCloud, Google Play Music, and ... that runs in a terminal or in the background on Linux computers or Macs
- Parcellite - Parcellite is a lightweight GTK+ clipboard manager.
- UIKit - A lightweight and modular front-end framework for developing fast and powerful web interfaces.
- Bitwise SSH - Provides you with the capability of connecting to SFTP servers using your regular FTP client.
- CyberDuck - Offers secure transfers, multiple connections, drag-and-drop, queue-based transfers, rendezvous and AppleScript
- WampServer - WampServer is a Windows web development environment.
- Double Commander - Double Commander is an open source orthodox file manager that is inspired by Total Commander.
- tmux - Software application that can be used to multiplex several virtual consoles.

AtoM	-	Web-based application for standards-based archival description and access in a multilingual, multi-repository environment.
MATLAB	-	Matrix Laboratory is a multi-paradigm numerical computing environment and fourth-generation programming language.
HxD	-	Hex editor which, additionally to raw disk editing and modifying of main memory (RAM), handles files of any size.
Chicken Scheme	-	CHICKEN is a compiler for the Scheme programming language.
Bash	-	Is a Unix shell and command language for the GNU Project.
MiKTeX	-	MiKTeX is a distribution of the typesetting system LaTeX for Microsoft Windows
XNA/MonoGame	-	One framework for creating powerful cross-platform games.
SFML	-	SFML Provides a simple interface to the various components of your PC, to ease the development of games and multimedia apps.
Love2d	-	Lightweight gamedev platform developed by a vibrant community, enabling everyone to create 2D games.
Processing	-	(IDE) Software sketchbook and a language for learning how to code within the context of the visual arts.
Toxiclibs	-	Independent, open source library collection for computational design tasks with Java & Processing
Plethora-Project	-	Is an initiative to accelerate computational literacy in the frame of architecture and design.
Peasycam	-	Library for the programming environment processing.
ControlP5	-	ControlP5 is a GUI and controller library for Processing.
Hemesh	-	3D mesh library for Processing.
Minim	-	Audio library that uses the JavaSound API, Tritonus, and Javazoom's MP3SPI for people developing in the Processing environment.
vvvv	-	v4 is a general purpose toolkit with a special focus on real-time motion graphics, audio and video synthesis.
vvvv.js	-	Toolkit for prototyping and developing rich data visualisation, advanced user interfaces, games, and more.
Inkscape	-	Professional quality vector graphics software which runs on Windows, Mac OS X and Linux.
Paint.NET	-	Full-featured image and photo editing software for computers that run Windows.
GIMP	-	GNU Image Manipulation Software.
Krita	-	Raster graphics editor based on the KDE Platform. Krita is designed to be a digital painting application.
Corel Painter	-	Raster-based digital art application created to simulate the appearance and behavior of traditional Media.
Pyxel Edit	-	Pixel art drawing application especially designed for working with tiles. This feature is inspired by the awesome Pixothello and Cosmigo Pro Motion, but taken one step further.
DoubleCAD XT	-	AutoCAD LT work-alike. But free. With so many new, innovative features.
FreeCAD	-	FreeCAD is a free and open-source general-purpose parametric 3D CAD modeler.
DaVinci Resolve	-	The free DaVinci Resolve 12 is a full professional editing and color grading system that is suitable for independent users working on SD, HD and Ultra HD projects.
Toon Boom Studio	-	Easy-to-use animation software. Toon Boom Studio is the best 2D animation software available.
Pixologic Zbrush	-	Digital sculpting tool that combines 3D/2.5D modeling, texturing and painting.
ZAdjustor	-	Adjust Draw Size, Focal Shift (and Z/RGB Intensity) by simply moving the mouse/stylus on X and Y axis while holding down a hotkey.
Yeti	-	Peregrine Labs Yeti is the industry's leading product to produce fur, feathers and generate a large number of items via a procedural node graph within Autodesk's Maya.
Cinema 4D	-	3D modeling, animation and rendering application developed by MAXON Computer.
BodyPaint 3D	-	MAXON's BodyPaint 3D is the ultimate tool for creating high-end textures and unique sculptures.
Blender	-	3D computer graphics software used for creating animated films, art, models, interactive 3D applications and video games.
Marvelous Designer	-	3D design tool for clothes and fabrics, used in animated films and video game development.
SketchUp	-	(Formerly Google Sketchup) 3D modeling computer program for a wide range of drawing applications.
Autodesk AutoCAD	-	Architecture, engineering, and construction software to create precise 2D and 3D drawings.
Autodesk 3ds Max	-	3D computer graphics program for making 3D animations, models, games and images.
Autodesk Softimage	-	Softimage is a 3D computer graphics application, for producing 3D computer graphics, 3D modeling, and computer animation.
Autodesk Maya	-	3D computer graphics software for making interactive 3D applications, including video games, animated films, or visual effects.
Autodesk Sketchbook Pro	-	Drawing and painting software with professional-grade perspective tools and an intuitive user interface.
Autodesk Mudbox	-	Mudbox is a proprietary computer-based 3D sculpting and painting tool. Currently developed by Autodesk,
NUKE	-	Node-based digital compositing application used for film and television post-production.
MODO	-	The Foundry brings you the next generation of 3D modeling, animation, sculpting, effects and rendering in a powerful integrated software package.
RealFlow	-	Fluid and dynamics simulation tool for the 3D and visual effects industry.
KeyShot	-	Luxion KeyShot - Fast, affordable 3D rendering and animation software for creating visuals of your models.
Quixel 3DO	-	Quixel 3DO is a light-weight model and material previewer directly fused with both Photoshop and the full set of Quixel tools, 3DO is always there when you need it.
Quixel DDO	-	DDO enables you to rapidly create incredible textures, letting you focus on polish and offloading the rest.
Mari 3D	-	The Foundry's cutting-edge 3D paint tool, MARI gives you a fluid & flexible way to paint directly onto 3D models.
Unity 3D	-	Unity is the ultimate game development platform. Unity is a cross-platform game engine.
Substance Designer	-	Allegorithmic Substance Designer 5 is a node based texturing tool. Tired of messy layers? Fit everything you need in a few compact and handy nodes.
Pixar RenderMan Studio	-	Proprietary photorealistic 3D rendering addons to Autodesk Maya based on their own RenderMan Interface Specification.
Moi3D	-	3D Modeling for designers and artists. Moi is a new 3D Modeling/CAD application for designers and artists. Offering a blend of precision and freeform NURBS drawing tools.
MakeHuman	-	Open source tool for making 3d characters.
Rhinoceros	-	Rhino3D is a commercial 3D computer graphics and computer-aided design (CAD) application software.
Grasshopper	-	Graphical algorithm editor tightly integrated with Rhino's 3-D modeling tools.
Wings 3D	-	3D computer graphics open-source subdivision modeler inspired by Nendo and Mirai from Izware.
Endorphin	-	Dynamic motion synthesis software package developed by NaturalMotion.
V-Ray	-	Rendering plug-in for 3D computer graphics software applications.
OctaneRender	-	OctaneRender is the world's first and fastest GPU-accelerated, unbiased, physically correct renderer.
xNormal	-	Bakes down high-res sculpts/geometry meshes to low-res and game-ready mesh, maintaining the detail from high sculpt/geometry.
TurbulenceFD	-	Voxel-Based Gaseous Fluid Dynamics.
Krakrao MX	-	Volumetric Particle Rendering, Manipulation and Management Toolkit Plug-in for Autodesk 3ds Max.
FumeFX	-	Fluid dynamics engine designed for simulation and rendering of realistic fire, smoke, explosion and other gaseous phenomena.
Houdini	-	Houdini, procedural 3D animation and special effects tools for film, broadcast, entertainment and visualization production.
Headus UV Layout	-	Stand-alone application for the creation and editing of UV coordinates for 3D polymeshes and subdivision surfaces.
SynthEyes	-	Standalone application optimized for camera, object, geometry, and planar tracking, stabilization, and motion capture, with high performance and a huge feature list.
Mental Ray	-	Production-quality rendering application developed by Mental Images. Mental Images was bought in December 2007 by NVIDIA. It supports ray tracing to generate images.
Vicon Boujou	-	Software and systems for motion capture in the animation market, biomechanics and ergonomics.
Guitar Pro	-	Tablature editor software for music instruments.
LMMS	-	Free digital audio workstation. Music can be produced by synthesizing sounds, arranging samples and MIDI keyboard.
Ardour	-	Hard disk recorder and digital audio workstation application suitable for professional use. (Linux, OS X and FreeBSD).
Max/MSP	-	Visual programming language and Digital signal processing environment.
Pure Data	-	Visual programming language. real-time graphical programming environment for audio, video, and graphical processing.
GEM	-	GEM (Graphics Environment for Multimedia) is a tool for visuals. Generate and manipulate 2D and 3D graphics and animations.
Framestein	-	Software for processing images and video with Pure Data.
reactIVision	-	Computer vision framework for tangible interactive surfaces.
Gridflow	-	A multidimensional dataflow processing library for PureData, designed for interactive multimedia.
SuperCollider	-	SuperCollider is an environment and programming language for real-time audio synthesis and algorithmic composition.
Structure Synth	-	Cross-platform application for generating 3D structures by specifying a design grammar. Even simple systems may generate surprising and complex structures.
Context Free	-	Context Free generates images from written instructions called a grammar. The program follows the instructions in a few seconds to create images that can contain millions of shapes.
NodeBox	-	Mac OS X application that lets you create 2D visuals (static, animated or interactive) using Python programming code.
Csound	-	Computer programming language for sound, also known as a sound compiler or an audio programming language, or an audio DSL.
lanniX	-	lanniX is a graphical open-source sequencer for digital art.
MusE	-	MIDI/Audio sequencer with recording and editing capabilities. MusE aims to be a complete multitrack virtual studio for Linux.
MuseScore	-	Sheet music notation software.
Audacious	-	Audio player with support for many formats, and it has support for third-party plugins.
Psyche	-	Modular music production software to make music on Windows. Based on the tracker interface (the vertical timeline sequencer).
OpenMusic	-	(OM) is an object-oriented visual programming environment for musical composition based on Common Lisp.
MetaSynth	-	Sound design, synthesis, and electronic music software for Mac OS.
Hyperupic	-	Image to sound transducer. Hyperupic will transform most tiff images into soaring melodies.
Stochos	-	Real-time stochastic event generator system for computer music and sound design.
GranuLab	-	Real-time granular synthesizer for Windows. GranuLab is a realtime generator of sound grains for Windows 95.
GoMinimal	-	Transform plain ascii text-files (*.txt) and (RIFF 8 or 16 bit) wave-files (*.wav) into Standard Midi Files (*.mid).
AudioMulch	-	Modular audio software for making music and processing sound.
EmissionControl	-	Interactive real-time Prototype granulation software. for granular synthesis and sound file granulation. (MacOS/PowerMac G5 Only)
PulsarGenerator	-	The program generates sound particles called pulsars.
CloudGenerator	-	Synthesizes granular sounds in units called "clouds" and also "granulates" stereo sound files. (MacOS 9 only)
music21	-	Framework for Computer-Aided Musical Analysis and Manipulation. A flexible toolkit for computer-aided musicology.
athenaCL	-	Modular poly-paradigm algorithmic music composition in a cross-platform interactive command-line environment.
Scriptographer	-	Scripting plugin for Illustrator. It gives the user the possibility to extend Ai's functionality by the use of the JS language.
Font Awesome	-	Full suite of pictographic icons for easy scalable vector graphics on websites. Get started at http://fontawesome.io
Wine	-	Compatibility layer software that aims to allow applications designed for Windows to run on Unix-like operating systems.
Tor	-	Free software for enabling anonymous communication. Tor directs Internet traffic through a free, worldwide, volunteer network.
Apache OpenOffice	-	(AOO) Open-source office productivity software suite. Integrates features and improvements from IBM Lotus Symphony.
LibreOffice	-	LibreOffice is a free and open source office suite, developed by The Document Foundation.
Calligra Suite	-	Graphic art and office suite. It is available for desktop PCs, tablet computers, and smartphones.
EveryonePiano	-	Free computer keyboard piano software, which supports downloading 3 types of music score formats.
RapidTyping	-	Improve your typing skills with free touch typing tutors for adults and kids.
Stamina	-	Multifunctional touch typing tutor with support for several layouts.
KeyBlaze	-	Learn to Touch Type, Complete with Typing Games.
Chaotica	-	Advanced fractal-software, which was designed to create and render flame-fractals in the best quality possible.
Magic Bullet Suite	-	Plug-in for After Effects made to make digital video look more like film.
ExtraFile	-	Conceptual software in storing image data. The process and the resulting bytes, regardless of content, become the artwork itself.
Monglot	-	Monglot aims to show the ambivalence and the double articulation of File Format-based Glitch Art.

Nato.0+55+3d	-	Application software for realtime video and graphics used to manipulate video for live performances.
Presto	-	SQL query engine for running interactive analytic queries against data sources of all sizes.
FLxER	-	FLxER is an interactive, flash-based free-software for audio/video/multimedia contents mixing and live video performances.
TouchDesigner	-	Visual development platform with the tools you need to create stunning realtime projects and rich user experiences.
FFGL	-	FreeFrameGL is an open-source, cross-platform plugin system for video effects.
V SXu	-	An Audio Visualizer, Music Visualization, Visual Programming Language (VPL), Realtime Graphics Design Platform.
FreeFrameSDK	-	FreeFrame is an open-source cross-platform real-time video effects plugin system.
Glyphs	-	Built-in multi-layer preview and specialized editing Font tool.
RoboFont	-	RoboFont is a UFO based, Mac only, font editor.
PureRef	-	PureRef is a program that enables you to view and organize your reference images.
LiveSplit	-	Sleek, highly-customizable Auto Splitting timer for speedrunners.
CintaNotes	-	Microsoft Windows application for taking and managing notes.
Everything	-	Quick file indexing and search engine to locate files and folders by name.
KakaoTalk	-	Multi-platform texting app that allows iPhone, Android, and BlackBerry users to send and receive messages for free.
Scribus	-	Professional layout and publishing software supporting EPS and SVG, and PDF support.
Metasploit	-	Find security issues, verify vulnerability mitigations & manage security assessments with Metasploit
