DRAGON JEWELRY 2017-2019

Upgrading and Developing Website by Lead in designs and performance to redesign Dragon Jewelry site to be more efficient and have a lot better Alexa rank.

We had gotten great result by a really good teamwork Job by accounting's report we had been increasing sell more than 200% in one year that was more than our expectation.

besides Website developing, I also took photos and also edit & retouch them (modeling, product, banner). Plus making animation banner and also editing videos and what's more, I also helped graphic department for social media posts.

My important job was designing for social media, sites, packaging, ads, billboards, cards, handbags and also decorating stores. Besides this, I held opening branch parties.

We had done a lot of promotion at least 1 or 2 in a month. I also made videos, photos, slide shows and banners for every promotion and also I decorated stores twice a year.

IRAN TERMEH HOME

2011-2015

I commenced on here, I took pictures of product and designed cataloge, banner and Logo for offset print. What's more, I designed fabric with EAT application. You can see some of my design on fabric designing part.

Educations and Experiences

Daroo.com

Lipstick Product promotion

This instagram post represents lipstick products with their features, in minimal view. This was designed for daroo.com company. this design was inspired by pop-art.

Calista

This instagram post depicts Calista Mascara with using photo manipulation and compostion to correct light and shadow and add some traditional persian typography in heart design fot valentine campaign.

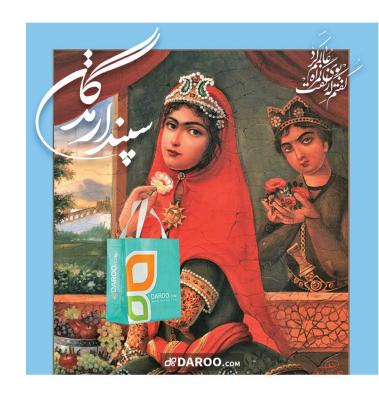

Persian Love Day

I used photo manipulating and typography again and I took photo from shopping bag again in the right view to make it more realastic.

Beverly Hills Polo

One important thing should be considered in design is slang. In this photo, I tried to show the quility and personality of perfume with horse race and creative slang by content team made this instagram post.

Art Deco

This is a combination of fashion and beauty. With this composing products makes you feel they are authentic.

3 TILES POST

Designing by set of colors and graphics elements that helps finding best views in tiles view of instagram page.

INSIDE SLIDES OF POST

Usually I prefer use same theme and color for inside slides of posts but working on details more.

INSIDE SLIDES OF POST(BLOG)

It's important for me to present data in order and separated for increasing readability.

3 TILES POST BY SEASON

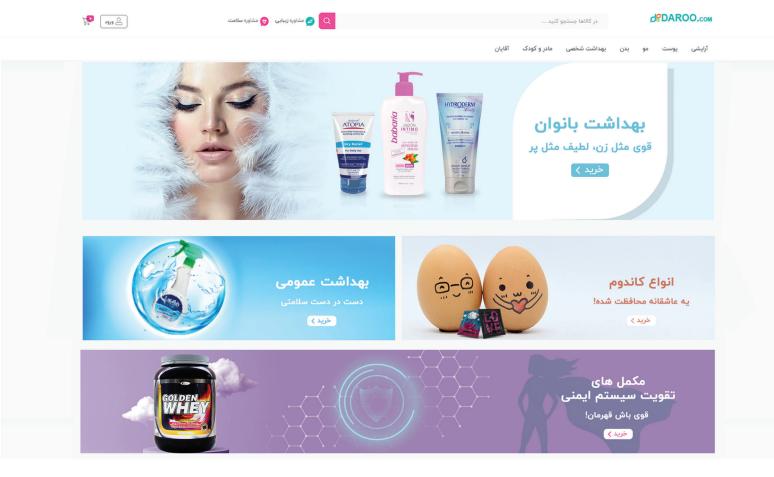

It's prudent that using colors and themes follow by season and colors of the year for involving more sensation.

INSIDE SLIDES OF PRODUCT POST

Advandced Photography of products Give all in formation That is necessary different views and prespective

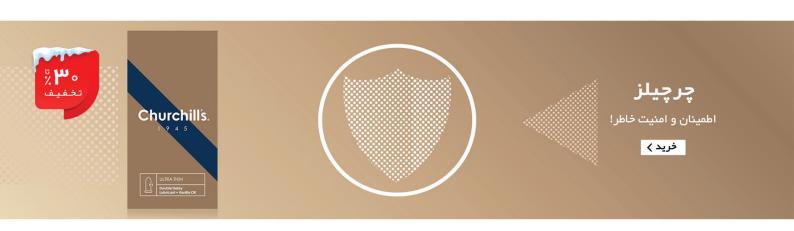

WEBSITE BANNERS

Using promotions and seasons for designing them in responsive way which can use in tablets and mobiles. Furthermore, it's better to use creative slogans to achieve more attractions.

LOGO DESIGN

2019 - 2021

ART NOUVEAU

the positive point of this logo is the color. It has a glamorous colour in print. It's inspired by art nouveau design which was appeared in Europe in the last of Medieval.

ROZH DENT

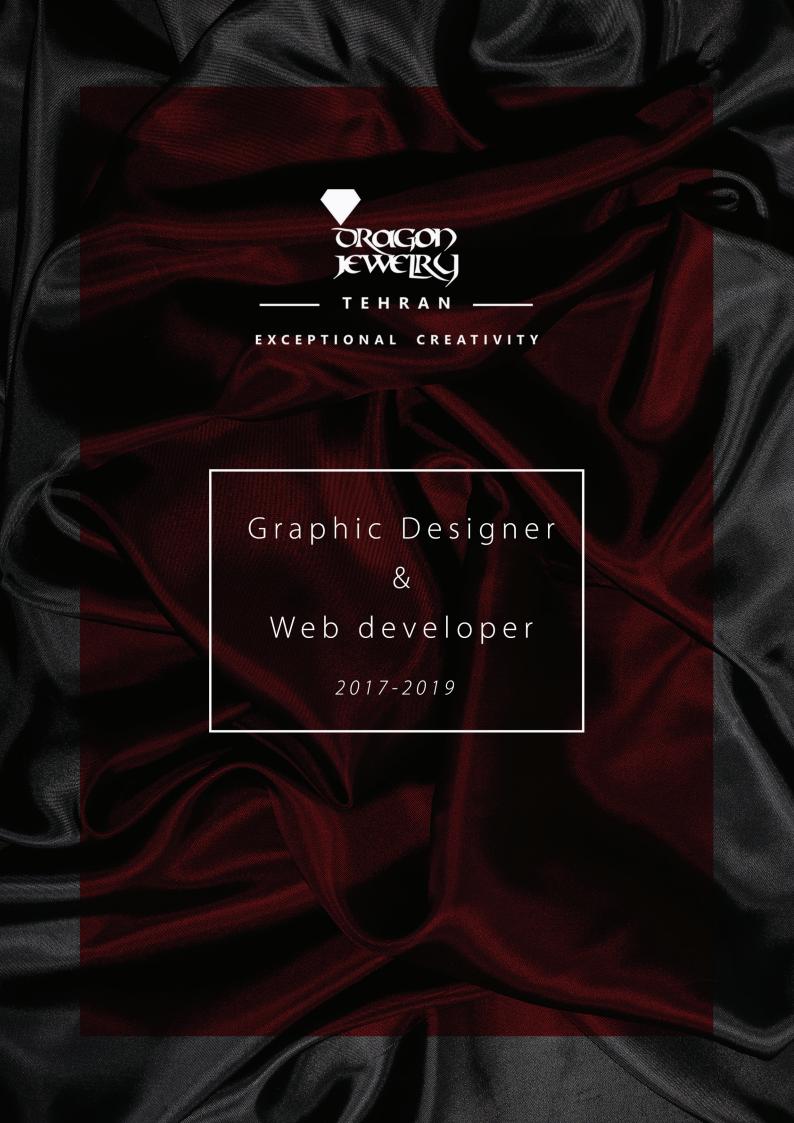

It's Dentist logo which I use R and D to draw a teeth and they want a rose gold color logo which is unreasonable. the blue harmony color was much better with white background for this logo

VAYU MESON

They wanted a black and white logo for a persian meson which I use V and work on it to bring fashion out of it.

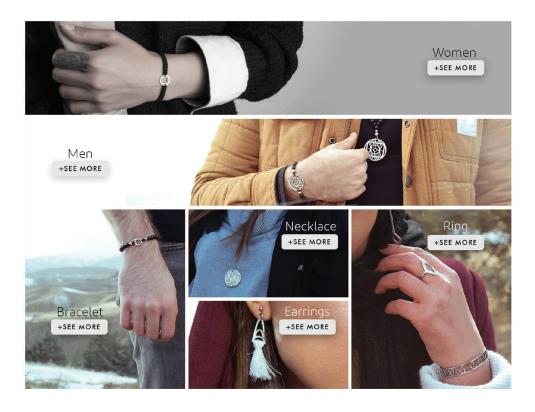

Product Photography

one of the challengable things is taking photo of a steel product with correct reflect and light for gloming and catching eyes

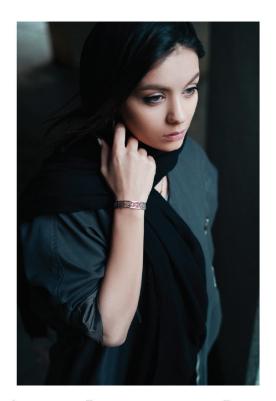

Website Banner

The harmony is the most effective part of your desgn here, it is necessity to make things bold in the close harmony

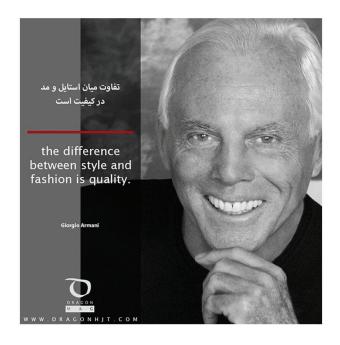

Photography, retouch and color correction are three unapartable parts which come frome your palate, taste and personality that's your sign in this kind of photography. light is the most important part that should be considered much more when your subject has steel material.
