

Genetic Pharma Testosterone Blend 400

[→ CLICK HERE TO SHOP ONLINE ←](#)

Testosterone enanthate is an oil based injectable steroid, designed to slowly release testosterone from the injection site (depot) over a 20 - 28 day period with a half-life of 10 - 14 days. Testosterone exhibits a high tendency to convert into estrogen so estrogen related side effects may therefore become apparent.

(Un premier conseil que je puisse vous donner, c'est de faire l'expérience par vous même, simplement en vous filmant pendant une de ces séances si vous la pratiquez encore)

T-400 is basically an improved version of the popular anabolic steroid SUSTANON-250. SUSTANON-250 is a blend of four different testosterone esters, which have in case of good timing synergistic effect. This effect in T-400 is enhanced testosterone enanthate, which is precisely ester missing in Sustanon. The desired ability of a quick entry into the circulatory system is enriched with even ...
