

# Minecraft Dungeons Launcher - Minecraft Wiki

The Minecraft Dungeons Launcher was the login and downloader front-finish to the Minecraft Dungeons shopper, that was obtainable for Home windows. Its goal, before being later merged into the Minecraft Launcher on November 27, 2020, with 2.2.74x, was to launch the sport underneath a Microsoft account as on the time the Minecraft Launcher was incapable of supporting Microsoft accounts. Soon after minecraft survival games servers merge the Minecraft Dungeons Launcher turned incapable of launching Minecraft Dungeons on January 18, 2021.

Currently, the Minecraft Dungeons Launcher is available to obtain, but is rendered unusable with a message displaying to play in the Minecraft Launcher being the only thing to appear.
