

We seek a maverick CEO for Katapult X

- Join us in building a Better World with Katapult Group & Katapult Foundation

The time for creating profound and long-lasting positive change for people and the planet is now. The world's environment was in trouble. Then came the Covid-19 pandemic as a global health threat followed by enormous consequences for the political, financial, and social situation worldwide; on top of that, the "splinternet" and digital platforms are on a path to become highly manipulative weapons stoking societal division and disinformation.

It is safe to say that there has never been a more pressing time for the humankind to start rethinking our established social constructions, financial systems, and environmental impact. On the positive side, by using technology for good and impact investing, with awareness and respect for people and the planet, there has also never been a more significant moment of opportunity to build long-lasting, sustainable, and impactful solutions for the world.

A maverick CEO

In pursuing our vision of creating a better world where all people can thrive, we expand on and go beyond our in-person event, Katapult Future Fest, and our online event Katapult Cloud. To build the next level of impact community and positive influencer machinery, we seek a maverick CEO who deeply cares about people and the planet; a humble guide that puts ego aside, and dares to lead with compassion and strength.

As CEO of the next version of Katapult Future Fest, you are a visionary with an exceptional combination of strategic smartness and proven operational skills to lead a tech-driven enterprise and creative entrepreneurial community. You know how to build interest, get attention, inspire, and support and collaborate with a global community of changemakers.

You will get a unique opportunity to make the next platform for mobilizing, energizing, and connecting those people, initiatives, capital and enterprises that build a thriving world for all. With Katapult X, we intend to shape and serve new platforms and communities' efforts through meaningful dialogue and lasting impact, and for this, we want you.

Katapult Future Fest and Katapult Cloud

Katapult Future Fest is a global annual event held in Oslo in May. Our first landmark was to drive conversations and set agendas of impact investing and technology as tools toward a positive future. Three years in a row, we have hosted a broad and diverse range of keynote speakers, investors, startup companies, and changemakers. In the core of Katapult Future Fest, we hold our integrity and independence high and seek beyond being 'yet-another-conference'. Due to Covid-19 this year, we pivoted, so in May, we successfully launched the first Katapult Cloud, taking the conversations and community of KFF into a virtual setting. Joining a collaborative 12-hour experience was 700 investors, entrepreneurs, and changemakers from 76 countries.

Katapult Future Fest X will be a part of the recently launched Katapult Foundation, established to continue the non-profit field building and capacity building activities alongside the Katapult Group.

What you get

- Be part of an engaging and professional network of highly qualified mission-driven people who want to make a difference in the world.
- A unique opportunity to work with a trailblazer set of world-leading and impact-focused tech companies, impact investors, and changemakers both inside and outside the Katapult system.
- The chance to build and grow a content community and influencer machinery for impact.
- The ability to advance your life's purpose and contribute to a better world, and collect great stories to tell your grandchildren enjoyment.

What we look for

- A true leader with a passion for creating meaningful and lasting change.
- Experienced talent seeking new steps and adventures in an already solid career,
- A thought leader with exact values, knowledge and a passion for impact investing, exponential tech, and entrepreneurship.
