

Enzi Size Guide Instructions

Print your corresponding size page, be sure you do not “scale to fit” page.

Print the page at 100% true to size

Measure the centre line to see if it matches the print out.

Stand on the outline.

We recommend you allow enough room between your big toe and the end of the shoe. Usually the width of your thumb is enough.

Keep in mind this is only the insole.

Enjoy.

HEEL POSITION

We recommend you have a thumbs width from the end of your big toe to the edge of the insole.
