Year	Region	Division	Project Topic	Clinic
2012	Rural	MH	Increasing the number of flu vaccinations during flu season.	
2012	Urban	South	Motivating patients to quit smoking	Black Diamond
2012	Rural	MH	Improving the rate of childhood immunization in Bow Island, according to the Alberta Pediatric immunization schedule.	Bow Island
2012	Urban	NW	Increasing discussions on cervical cancer screening at Bowmont Clinic.	Bowmont Clinic
2012	Urban	South	Increasing the number of patients with complete prenatal investigations.	Circle Medical at Copperfield
2012	Urban	NW	Improving the rejection rate of referrals	Crowfoot Village Family Practice (CVFP)
2012	Urban	NW	Improving the continuity of care between residents, so patients see the same resident when they visit CTC.	CTC
2012	Urban	NW	Reducing contamination of the examination table/drawer with non-sterile equipment during speculum exams.	CTC
2012	Urban	NW	Reducing label leaving incidents at CTC.	CTC
2012	Urban	NE	Streamlining the "Meet and Greet" by including standardized prompts in the EMR.	Family Care Centre
2012	Urban	NE	Improving the rate at which clinical staff access the clinic's EpiPen, and knowledge of the EpiPen.	Lynwood Clinic
2012	Rural	MH	"How do we identify and contact patients 50 years and older who have not been to the physician in 5 years, and book them for a physical assessment and routine screening recommendations?"	Medicine Hat

Year	Region	Division	Project Topic	Clinic
2012	Rural	MH	This QI project aims to improve residents' ability to get the right investigation requisition, without input from the MOA, in 1 minute, 95% of the time, within 1 week of starting at the Bassano clinic.	Medicine Hat
2012	Urban	South	Reducing the "events per month" occurrence rate of unsigned documents in the Resident Clinic inbox.	South Calgary
2012	Urban	South	Improving the accuracy of initial blood pressure measurements taken by nursing staff in 90% of the patients that present to the South Health Campus Family Medicine clinics.	South Health Campus
2012	Urban	South	Decreasing the length of meet and greet appointments to under 20 minutes in length at the South Health Campus.	South Health Campus
2012	Rural	LETH	Improving the past medical histories of 95% of patients presenting for annual physical exams at the South Shore Medical Clinic in Brooks, AB in 12 months.	South Shore Medical Clinic in Brooks
2012	Rural	LETH	Reducing the average number of phone calls required per patient by clinic reception staff to contact patients with abnormal test results by 50%.	Stettler Medical Clinic
2012	Urban	NE	Increasing patients' satisfaction with their personalized health management plans.	Sunridge
2012	Urban	NE	Improving the efficiency of diagnostic imaging requisitions.	Sunridge
2012	Urban	NE	Improving patient flow at the Sunridge clinic by looking at, among other things, patient arrival and wait times.	Sunridge

Year	Region	Division	Project Topic	Clinic
2012	Urban	NE	Improving the inclusion of cerebrovascular disease (CVD) screening in patients' periodic health exams.	Sunridge
2012	Urban	NE	This QI project aims to standardardize identifiers documented in the Alex Clinic's Wolf EMR.	The Alex Clinic
2012	Rural	MH	Improving the accuracy of medication lists by 90%.	
2012	Rural	LETH	This QI project aims to increase the number of colon cancer screenings offered to qualifying patients.	
2012	Rural	MH	This QI project aims to increase office efficiency by ensuring that physicians know which office their patients are in.	
2012	Rural	LETH	This QI project aims to establish total compliance by physicians for recording blood pressures in the EMR for at risk patients over the next 6 months.	
2012	Rural	LETH	The aim of this QI project is to judiciously select appropriate patients for hypertension screening. By February 2013, at each office visit, the MOA will be identifying and screening 100% of patients who are appropriate for blood pressure screening.	
2012	Rural	LETH	Within one year, 95% of patients at the clinic will have accurate medications and dosages recorded in their EMR.	

Year	Region	Division	Project Topic	Clinic Name
2013	Rural	Lethbridge	Improving HbA1C follow-up intervals in diabetic patients	Raymond Clinic
2013	Rural	Medicine Hat	Improving colon cancer screening with the FOB test	Raymond Clinic
2013	Rural	Medicine Hat	Improving cervical cancer screening	South Shore Medical Clinic
2013	Rural	Medicine Hat	Organizing patient charts	Bassano Health Centre
