

# Free Minecraft Server Hosting

We offer a no-cost Minecraft server hosting with the full functionality of a paid server. Your Minecraft server will be free for the duration of your membership. You can change to an upgrade plan at anytime. This is a great option for large communities. In this case all data on the server will be saved, including your installed game servers, their IP addresses, maps and mods uploaded, plugins as well as other information. There is no need to buy a new server to transfer data from the free Minecraft server. Everything will be transferred instantly.

To ensure uninterrupted operation our servers are monitored all hours of the day. We guarantee reliable Internet connection and low ping. Our systems are protected against DDoS attacks. Our free Minecraft server hosting service is compatible with mods and plugins. You can install several Minecraft servers simultaneously for one server. You can also change the server's .jar file to your own. urbanislovar don't limit slots. You can install MySQL through our control panel. You can get an unpaid domain to connect to the game server. Ubuntu 20.04 OS is installed on all servers, and gives you full access to it via FTP and MySQL.

We operate data centers around the globe to ensure our systems are running 24 hours a day all week long. This guarantees low ping and a failure-free service.
