¿ESTÁS LISTO  
PARA **DESCUBRIRLO?**

¿Alguna vez te has preguntado cómo un niño se desarrolla a una velocidad sorprendente, o cómo una persona joven puede gastar tanta energía y recuperarse casi al instante? ¿Y qué piensas de la forma en que un niño aprende un nuevo idioma tan rápido y recuerda incluso las cosas más pequeñas?

La respuesta está en un compuesto que es esencial para apoyar el desarrollo embrionario llamado Factor de Crecimiento de Fibroblastos.

El factor de Crecimiento de Fibroblastos (Fibroblast Growth Factor o FGF por sus siglas en inglés):

- Mejora la función de las neuronas en el cerebro
- Aumenta los aminoácidos y péptidos en las células
- Asigna las células madres adecuadas para restaurar los órganos a su estado natural

Si bien el FGF se encuentra en abundancia en la placenta humana, su disponibilidad va disminuyendo con el tiempo hasta que esencialmente desaparece con la edad.

La fórmula de Laminine es una fuente única de FGF para los adultos.

## LAMININE ES UNA COMBINACIÓN PATENTADA DE:

Extracto de huevo de aves fertilizado, proteínas marinas y fito proteínas que juntos proporcionan al cuerpo la cadena completa de 22 aminoácidos esenciales para la salud celular\*.

Una vez que se encuentra en el cuerpo, esta cadena de aminoácidos actúa como un "adaptógeno" natural que reprograma las células madres adultas para que vayan a las áreas del cuerpo y del cerebro que más lo necesitan y las reparen\*.

## EL SÍMBOLO DE LA VIDA Y LA RENOVACIÓN

Uno de los descubrimientos más asombrosos acerca de Laminine que lo aparta de cualquier otro suplemento en el mercado actualmente es su increíble efecto en los niveles de cortisol en el cuerpo.

Aproximadamente 7 de cada 10 estadounidenses informan que experimentan síntomas de estrés físico o no físico.

Al disminuir los niveles de cortisol en nuestro cuerpo, tenemos la capacidad de reducir la forma en que el estrés daña nuestra salud.

**"LOS NIVELES ALTOS DE CORTISOL ACELERAN EL PROCESO DE ENVEJECIMIENTO, Y EN UN ESTUDIO RECIENTE, DESCUBRIMOS UNA REDUCCIÓN DEL 23% DE LOS NIVELES DE CORTISOL EN PERSONAS DESPUÉS DE 12 DÍAS DE TOMAR LAMININE\*\*"**

Dr. Bjoedne Eskeland,  
Asesor nutricional de LPGN

## EL ORIGEN

Hace más de 80 años, el médico canadiense John R. Davidson hizo un descubrimiento remarcable mientras estudiaba el desarrollo embrionario en pollos.

Notó que en forma constante los compuestos en los huevos fecundados hacían inevitable el trayecto hacia el desarrollo saludable.

El doctor Davidson aisló el compuesto, comenzó a inyectarlo en los tumores de sus pacientes y empezó a ver resultados positivos notables.

Al morir el doctor Davidson, la investigación pareció morir con él, hasta que casi 50 años más tarde y a miles de kilómetros de distancia, el reconocido médico e investigador noruego Bjoedne Eskeland se topó con el mismo descubrimiento.

Este reavivó la investigación e investigó y aisló el compuesto de los embriones de huevos de aves fecundados, el cual más tarde se convirtió en la base de la fórmula patentada de Laminine®.

**Pregunta. ¿Laminine es seguro para el consumo animal?**

A. Si bien Laminine no fue desarrollado específicamente para el consumo animal, no tenemos informes de que provoque reacciones adversas en ellos. Tal como ocurre con el consumo humano, si tienes alguna inquietud específica o alguna pregunta acerca del consumo de Laminine por parte de tu mascota, consulta a tu veterinario antes de suministrarles Laminine.

**Pregunta. ¿Cómo pueden los animales beneficiarse del consumo de Laminine?**

Respuesta. Los beneficios del consumo de Laminine por parte de las mascotas son muy similares a los de los humanos.

**Pregunta. ¿Cuál es la ingesta diaria sugerida de Laminine en animales como gatos, perros y caballos?**

Respuesta. La ingesta sugerida varía según el animal. Los veterinarios que hemos consultado que usan Laminine en su práctica recomiendan la siguiente ingesta.

Para perros y gatos (dividir equitativamente para consumir dos veces diario):

0-40 libras: ½ a 1 cápsula diaria

40-80 libras: 2 cápsulas diarias

80-100 libras: 3 cápsulas diarias

Para caballos, la ingesta sugerida es aproximadamente 4 cápsulas diarias.

**Pregunta. ¿Cuándo se les debe suministrar Laminine a las mascotas?**

Respuesta. Si decide suministrar Laminine a sus mascotas, se sugiere que les proporcione Laminine antes de las comidas. De otra forma, Laminine puede mezclarse con el alimento de las mascotas.

**Pregunta. ¿Puede Laminine beneficiar a mascotas con malestar de las articulaciones?**

Respuesta. Se ha sabido que Laminine tiene un amplio rango de efectos para mejorar una serie de problemas de salud en humanos. Aunque no tenemos estudios específicos sobre el uso de Laminine en animales, sabemos que muchos animales que han consumido Laminine han experimentado una disminución en los signos de malestar de las articulaciones.

Se ha sabido que los ingredientes de Laminine reducen los signos de malestar articular en animales, ya que puede estimular células madres en las articulaciones, lo que ayuda a reparar el cartilago articular.

**Pregunta. ¿En el tratamiento o el alivio del malestar de qué otras afecciones de salud animal los veterinarios han usado Laminine?**

Respuesta. Los veterinarios que también son IBO de LPGN han usado Laminine en sus prácticas para una serie de afecciones.

## Preguntas frecuentes sobre Laminine

### **Pregunta: ¿Qué es Laminine?**

Respuesta: Laminine es una combinación de extracto de huevo aviar fecundado, proteínas marinas de cartílago de tiburón y fitoproteínas de la planta de guisante, que en su conjunto se conocen como mezcla de propiedad exclusiva OPT9. Laminine brinda al cuerpo una cadena completa de 22 aminoácidos esenciales para la salud celular. Una vez que se encuentra en el cuerpo, esta cadena de aminoácidos actúa como un "adaptógeno" natural que reprograma las células madres adultas para que vayan a las áreas del cuerpo y del cerebro que más lo necesitan y las reparen. Se trata de un suplemento dietético hecho en los Estados Unidos de América conforme a los lineamientos de la Administración de Medicamentos y Alimentos (FDA, Food and Drug Administration) y de Buenas Prácticas de Manufactura (cGMP, Good Manufacturing Practices).

### **Pregunta: ¿Laminine contiene extracto de tejido joven?**

Respuesta: El extracto de huevo aviar fecundado, también conocido como extracto de tejido joven, siempre ha estado en la fórmula de Laminine. Como se mencionó anteriormente, la mezcla de propiedad exclusiva OPT9 de LifePharm Global Network contiene proteínas marinas, fitoproteínas y extracto de tejido joven de huevos aviares fecundados. LifePharm Global Network nunca ha cambiado la fórmula en Laminine y SIEMPRE ha incluido extracto de tejido joven en nuestra mezcla de propiedad exclusiva OPT9.

### **Pregunta: ¿Cuál es la ingesta diaria sugerida de Laminine?**

Respuesta: La ingesta sugerida de Laminine es de una a cuatro cápsulas diarias, que deben ingerirse durante la mañana y la noche antes de las comidas.

### **Pregunta: ¿Laminine es seguro para el consumo animal?**

Respuesta: Si bien Laminine no fue desarrollado específicamente para el consumo animal, no tenemos informes de que provoque reacciones adversas en ellos. Tal como ocurre con el consumo humano, si tienes alguna inquietud específica o alguna pregunta acerca del consumo de Laminine por parte de tus mascotas, consulta a tu veterinario antes de suministrarles Laminine.

### **Pregunta: ¿Cuál es la ingesta diaria sugerida de Laminine en animales como gatos, perros y caballos?**

Respuesta: La ingesta sugerida varía según el animal. Los veterinarios que hemos consultado que usan Laminine en su práctica recomiendan la siguiente ingesta:

Para perros y gatos (dividir equitativamente para consumir dos veces diario):

0-40 libras: ½ a 1 cápsula diaria

40-80 libras: 2 cápsulas diarias

80-100 libras: 3 cápsulas diarias

Para caballos, la ingesta sugerida es aproximadamente 4 cápsulas diarias.

Para más información, consulte las preguntas frecuentes de Laminine y mascotas.

### **Pregunta: ¿Existen reacciones adversas a algunos de los ingredientes de Laminine?**

Respuesta: No se ha documentado ningún caso ni evento de reacciones adversas. Cuando se utiliza como se indica, Laminine es seguro y efectivo, pero los efectos varían enormemente según el individuo. Consulta a tu médico si eres alérgico al huevo. Como siempre, si tienes alguna pregunta acerca de cómo Laminine puede afectarte, consulta a tu médico.

### **Pregunta: ¿De dónde LifePharm Global Network obtiene su extracto de huevo aviar fecundado?**

Respuesta: Desde principios de 2012, LifePharm Global Network ha obtenido su extracto de huevo aviar fecundado de granjas orgánicas de pollos que no utilizan hormonas ni jaulas en los Estados Unidos, el cual se desarrolla posteriormente con el proceso de enfriamiento evaporativo higiénico. El enfriamiento evaporativo higiénico mantiene intactas las cadenas de péptidos, que son tan importantes en Laminine, convirtiendo el extracto de huevo aviar fecundado de líquido a una forma en polvo. Esta tecnología es exclusiva de LifePharm Global Network y no estaba disponible en ninguna otra parte del mundo aparte de los Estados Unidos. Anteriormente, LPGN obtenía su Extracto de huevo aviar fecundado de Noruega, pero el cambio ocurrió para garantizar la calidad, rastreabilidad y provisión de nuestros insumos. Las leyes que rigen los productos aviares son especialmente estrictas en los Estados Unidos de América, y LifePharm Global Network se enorgullece por operar de conformidad con las pautas de la FDA y cGMP.

### **Pregunta: ¿Puede tomarse Laminine junto con un medicamento de prescripción o que se vende sin receta?**

Respuesta: Laminine no está destinado a diagnosticar, tratar, curar ni prevenir ninguna enfermedad o padecimiento. Si tienes alguna pregunta acerca de cómo Laminine puede verse afectado por otros medicamentos que uses, consulta a tu médico.

### **Pregunta: ¿Laminine contiene Laminina?**

Respuesta: La Laminina es una molécula de adhesión que todos poseemos a nivel celular. Es la sustancia que nos mantiene unidos, y por lo tanto nos sirvió de inspiración para el nombre "Laminine". Sin embargo, Laminine no contiene Laminina.

### **Pregunta: ¿Por qué Laminine solo está disponible mediante Propietarios de Negocios Independientes (IBO)?**

Respuesta: Laminine no está disponible en espacios publicitarios informativos ni en tiendas. Tiene una historia que contar y está destinado a ingresar al mercado mediante el modelo de "Mercadeo de relación", es por eso que hemos optado por ofrecer Laminine exclusivamente mediante nuestra red de Propietarios de Negocios Independientes (IBO) de LPGN.

## ENCUENTRE SINERGIA

Desarrollado a partir de recursos de la más alta calidad para garantizar la seguridad y una fórmula de potencia eficaz.

Los ácidos grasos Omega 3 ayudan a mantener los niveles normales de HDL (colesterol "bueno") y de LDL (colesterol "malo"), lo que evita que se acumule el exceso de colesterol y hace que el cerebro envíe las señales correctas al sistema circulatorio.

Acumulación de placa > Endurecimiento de las arterias > Reducción del flujo sanguíneo

La enzima CoQ10 de liberación prolongada (ER por sus siglas en inglés) es un potente antioxidante que ayuda a combatir el estrés oxidativo en los vasos sanguíneos, dejándolos limpios para un adecuado flujo sanguíneo.

La vitamina K2 ayuda a dirigir el calcio a los huesos y a los dientes, que es donde pertenece, a fin de evitar que se fije a las arterias.

El extracto de huevo aviar fecundado estimula las células madre, lo que permite que cada uno de los demás ingredientes de Laminine OMEGA+++ realice eficazmente su función.

## Preguntas frecuentes de Laminine OMEGA<sup>+++</sup>

**Pregunta.** ¿Cuándo es el mejor momento para tomar Laminine OMEGA<sup>+++</sup>?

**Respuesta.** Para una mejor absorción, recomendamos tomar Laminine OMEGA<sup>+++</sup> con alimentos, aproximadamente 15 minutos antes de una comida.

**Pregunta.** ¿Cuántas cápsulas de gel blando hay en cada frasco de Laminine OMEGA<sup>+++</sup>?

**Respuesta.** Cada frasco de Laminine OMEGA<sup>+++</sup> contiene 30 cápsulas de gel blando.

**Pregunta.** Puesto que ya tomo Laminine, ¿agregar Laminine OMEGA<sup>+++</sup> a mi dieta me dará demasiado Extracto de huevo aviar fecundado?

**Respuesta.** Al incorporar Laminine OMEGA<sup>+++</sup> en tu rutina de suplemento, no estarás tomando demasiado Extracto de huevo aviar fecundado, ya que Laminine OMEGA<sup>+++</sup> solo proporciona un refuerzo adicional.

**Pregunta.** ¿Qué diferencia a Laminine OMEGA<sup>+++</sup> de productos similares que se encuentran en el mercado hoy en día?

**Respuesta.** Laminine OMEGA<sup>+++</sup> es único, pues utiliza ácidos grasos omega, coenzima Q10 (CoQ10) de liberación prolongada y vitamina K2 de la más alta calidad, potencia y seguridad, lo cual garantiza la efectividad del producto. Laminine OMEGA<sup>+++</sup> también incorpora un refuerzo adicional de extracto de huevo aviar fertilizado, lo cual diferencia nuestros productos de otros aparentemente similares que se encuentran en el mercado en la actualidad. Laminine OMEGA<sup>+++</sup> contiene una fórmula multiacción diseñada específicamente para ayudar a mantener y mejorar la salud circulatoria. Su combinación sinérgica ayuda a mejorar el efecto de cada uno de los ingredientes que trabajan en armonía.

**Pregunta.** ¿Qué es Engraulis Ringens, y por qué es mejor que el aceite de salmón o el aceite de bacalao que estoy tomando ya?

**Respuesta.** LPGN obtiene el aceite de pescado del Engraulis Ringens, un miembro de la familia anchoa, encontrada en la corriente Humboldt cerca de la costa Sudamericana cerca de Perú, donde las aguas son limpias y claras. El fitoplancton que consume el Engraulis Ringens en esta región es abundante en DHA y EPA, los cuales dan a este pez las mayores proporciones presentes naturalmente de DHA y EPA que en cualquier otra especie. El aceite de pescado también se somete a destilación molecular, y es probado antes y después del proceso para eliminar la viscosidad y toxinas, así como para garantizar la seguridad del aceite.

**Pregunta.** ¿El aceite de pescado que se encuentra en Laminine OMEGA<sup>+++</sup> le da al suplemento un dejo a pescado?

**Respuesta.** Dado que nuestro aceite de pescado sufre un proceso de destilación molecular para quitar potenciales toxinas, y es probado antes y después del proceso, no deberías sentir un dejo a pescado ni un sabor desagradable al consumir Laminine OMEGA<sup>+++</sup>.

**Pregunta.** ¿Existen reacciones adversas a cualquiera de los ingredientes en Laminine OMEGA<sup>+++</sup>?

# IMMUNE+++

**Informatii despre IMMUNE+++** <http://youtu.be/AlfAOe-iJBs>

**IMMUNE+++**, este un produs imunitar avansat

Sistemul imunitar al organismului, este definit ca apărarea naturală a corpului împotriva virusurilor periculoși și a bacteriilor, care sunt peste tot în mediul înconjurător, atât în interior cât și în exterior. Sistemul nostru imunitar este o rețea de celule albe din sange, care pot recunoaste, ataca și distrug substanțele străine înainte ca acestea să poată provoca daune grave corpului. Acum mai mult ca oricând, trebuie să avem grijă de sistemul nostru imunitar și să fortificăm organismul împotriva asaltului de virusi.

**Ce poate face pentru tine IMMUNE+++ ?**

IMUNE+++ este o formulă de apărare triplă, provine de la ingrediente naturale de înaltă calitate, care sunt dovedite sigure și eficiente pentru a consolida sistemul imunitar.

IMMUNE+++ este o formula cu o acoperire enterică care ajută organismul să reziste la condițiile acide din stomac. Aceasta protejează suplimentul de dizolvare în stomac, permițându-i să ajungă la intestinul subțire pentru absorbția corectă.

Combinarea de produse naturale cu conținut ridicat de vitamina C: Camu Camu, Acerola, Ashwagandha, Catina, Rodie, generează un centru de putere de imunitate la virusuri și infecții.

Acest complex crește numărul de celule T, celule B, și Natural Killer Cells (celule NK), prima linie de apărare a sistemului imunitar împotriva agenților patogeni și bacteriile cele mai periculoase.

## EFICAZ DE DENTRO HACIA AFUERA

Muchas personas no pueden absorber la vitamina C debido a sus propiedades naturalmente acídicas. Nosotros encapsulamos la fórmula LPGN IMMUNE+++ con una capa entérica para ayudar a resistir las condiciones acídicas en el estómago. Esto protege al suplemento para que no se disuelva en el estómago, lo que permite que llegue al intestino para su absorción adecuada\*.

**Pregunta: ¿Qué es IMMUNE+++ de LifePharm Global Network?**

Respuesta: IMMUNE+++ es un suplemento diario que fortalece al sistema inmunitario, proporciona defensa inmunitaria hasta por 24 horas y da al cuerpo las herramientas necesarias para combatir sustancias extrañas. Es un sistema de defensa triple compuesto de la mezcla Opti-Shield, la mezcla Life-C y la mezcla Herb and Botanical\*.

**Pregunta: ¿Cuándo es el mejor momento para tomar IMMUNE+++?**

Respuesta: IMMUNE+++ se toma de manera óptima de 1 a 2 veces al día a la hora de comer.

**Pregunta: ¿Cuántos comprimidos de IMMUNE+++ debo tomar?**

Respuesta: El uso diario sugerido de IMMUNE+++ es de 1 a 2 comprimidos al día.

**Pregunta: ¿IMMUNE+++ necesita refrigerarse?**

Respuesta: IMMUNE+++ se mantiene mejor en un lugar fresco y seco, pero no necesita refrigerarse.

**Pregunta: ¿Cuántos comprimidos hay en cada frasco de IMMUNE+++?**

Respuesta: Cada frasco de IMMUNE+++ contiene 30 comprimidos.

**Pregunta: ¿Existe alguna reacción adversa a IMMUNE+++?**

Respuesta: No existen casos documentados de reacciones adversas a IMMUNE+++. Cuando se toma como se recomienda, IMMUNE+++ es seguro y eficaz\*.

**Pregunta: ¿Por qué hay múltiples fuentes de vitamina C en IMMUNE+++?**

Respuesta: En IMMUNE+++, la mezcla Life-C es una forma de vitamina C conocida como ácido ascórbico, combinada con bioflavonoides cítricos y metabolitos de lípidos que incrementan la potencia del ácido ascórbico y le ayudan a ingresar en el cuerpo más rápido y a permanecer más tiempo, para ofrecer hasta 24 horas de defensa inmune. La mezcla Herb and Botanical es una combinación de ingredientes naturales que ayudan al cuerpo a combatir virus e infecciones al mismo tiempo que ofrecen un refuerzo inmunitario. Los dos funcionan junto con la mezcla Opti-Shield para reforzar el sistema inmunitario general del cuerpo, dando a este las herramientas que necesita para combatir infecciones y virus potencialmente peligrosos. Además, la vitamina C tiene beneficios antiinflamatorios, de recuperación de tejidos y de formación de colágeno, lo cual es la razón por la que hay más de una sola fuente de vitamina C\*.

**Pregunta: ¿Estoy recibiendo demasiada vitamina C de IMMUNE+++?**

Respuesta: El valor diario recomendado de vitamina C varía de 85 mg a 2,000 mg por día, y el rango superior está muy por arriba de los niveles que tiene IMMUNE+++. Además, puesto que la vitamina C es soluble en agua, el cuerpo elimina cualquier vitamina C que no use.

**Pregunta: ¿Puedo tomar más formas de vitamina C que se venden sin receta y recibir los mismos beneficios que obtendría de IMMUNE+++?**

Respuesta: IMMUNE+++ es una combinación de la mezcla Opti-Shield, la mezcla Life-C y la mezcla Herb and Botanical, de manera que no es solo un producto más de vitamina C. La vitamina C que contiene IMMUNE+++ está intensificada por un sistema de acción único que la hace más potente y eficaz que los productos de vitamina C comunes en el mercado actualmente\*.

**Pregunta: ¿Durante cuánto tiempo necesito tomar IMMUNE+++ para observar resultados?**

Respuesta: Los efectos de IMMUNE+++ varían en cada persona. Algunas pueden sentir beneficios en un periodo corto de tiempo y otras deberán tomar el producto durante más tiempo para observar un cambio.

**Pregunta: Tengo dificultad para ingerir suplementos; ¿puedo moler IMMUNE+++ y ponerlo en alimentos y bebidas?**

Respuesta: Sí, puedes moler el comprimido y agregarlo a alimentos o bebidas.

**Pregunta: Ya no me estoy sintiendo bien, ¿puedo tomar más IMMUNE+++?**

Respuesta: IMMUNE+++ no está destinado a tratar, curar o prevenir ninguna enfermedad. Es un suplemento dietético natural que refuerza la defensa inmunitaria del cuerpo y la respuesta a organismos que causan enfermedades. Si no te sientes bien, lo mejor es que hables con tu médico.

**Pregunta: ¿Necesito tomar IMMUNE+++ , Laminine , Laminine OMEGA+++ y DIGESTIVE+++?**

Respuesta: Cualquiera de los cuatro puede tomarse individualmente para necesidades de salud específicas. Sin embargo, los diferentes sistemas del cuerpo, inmunitario, digestivo y circulatorio, funcionan con menos eficiencia a medida que envejecemos. Puesto que todos los sistemas están interconectados, cuando uno se debilita, todos son afectados. Es importante mantener todos los sistemas del cuerpo funcionando de manera óptima. Cuando lo hacen, los nutrientes benéficos que consumimos, como Laminine, pueden ser aún más eficaces. Esta es la razón por la que los mejores beneficios de salud provienen de tomar los productos juntos\*.

## SU SISTEMA DIGESTIVO

No se puede ser exagerado en la importancia del sistema digestivo. Con frecuencia buscamos soluciones para ayudar a aliviar varios malestares en el cuerpo, pero muchos problemas de salud comienzan en el sistema digestivo. Como uno de los componentes centrales que promueven la salud en el cuerpo humano, el sistema digestivo es una combinación de órganos que convierte los alimentos en nutrientes necesarios para el crecimiento, energía y reparación.

Pero no importa lo bien que comamos, si nuestro sistema digestivo no puede absorber los nutrientes que consumimos, nuestro cuerpo queda deficiente.

## EXISTE UNA SOLUCIÓN

Casi 70 millones de norteamericanos sufren de problemas digestivos, y cada año se realizan 105 millones de visitas adicionales al médico por problemas relacionados con el sistema digestivo.

National Institute of Diabetes and Digestive and Kidney Diseases

La producción de enzimas digestivas naturales, vital para la absorción de nutrientes, se reduce aproximadamente 10 por ciento por década después de los 20 años.

**Pregunta:** ¿Qué es DIGESTIVE+++ de LifePharm Global Network?

**Respuesta:** DIGESTIVE+++ es un suplemento diario compuesto de un probiótico, una mezcla de prebióticos y una mezcla de enzimas digestivas. En su conjunto, este suplemento ofrece salud digestiva completa al ayudar a mantener intestinos saludables, fácil digestión y a mejorar la absorción de nutrientes\*.

**Pregunta:** ¿Cuándo es el mejor momento para tomar DIGESTIVE+++?

**Respuesta:** Lo óptimo es tomar DIGESTIVE+++ de una a dos veces al día, aproximadamente 15 minutos antes de la hora de comer.

**Pregunta:** ¿Cuántas cápsulas de gel de DIGESTIVE+++ debo tomar?

**Respuesta:** El uso sugerido de DIGESTIVE+++ es de 1 a 2 cápsulas de gel diariamente.

**Pregunta:** ¿DIGESTIVE+++ necesita refrigerarse?

**Respuesta:** DIGESTIVE+++ se mantiene mejor en un lugar fresco y seco, pero no necesita refrigerarse.

**Pregunta:** ¿Cuántas cápsulas de gel hay en cada frasco de DIGESTIVE+++?

**Respuesta:** Cada frasco de DIGESTIVE+++ contiene 30 cápsulas de gel.

**Pregunta:** ¿Existe alguna reacción adversa a DIGESTIVE+++?

**Respuesta:** No existen casos documentados de reacciones adversas a DIGESTIVE+++. Cuando se toma como se recomienda, DIGESTIVE+++ es seguro y eficaz.

**Pregunta:** ¿Qué ocurre si ya tomo otro suplemento de prebiótico o de probiótico y enzimas digestivas?

**Respuesta:** DIGESTIVE+++ ofrece un probiótico superior que está intensificado por una potente mezcla de prebióticos naturales, además de enzimas digestivas esenciales para ofrecer una máxima absorción de nutrientes, lo que hace innecesario tomar tres suplementos separados\*.

**Pregunta:** ¿Cuál es la diferencia entre un probiótico y un prebiótico?

**Respuesta:** Los probióticos son bacterias vivas y beneficios que ayudan a mantener las bacterias buenas en el tracto intestinal y que son claves para mantener el intestino grueso saludable. Los prebióticos son ingredientes alimenticios no vivos que intensifican a los probióticos para ayudar en el crecimiento de bacterias favorables.

**Pregunta:** ¿No son malas las bacterias para ti?

**Respuesta:** Cuando se trata del intestino grueso, hay bacterias "buenas" o saludables, tales como los probióticos, y bacterias "malas" o patógenas que pueden causar un gran número de problemas de salud. Los probióticos son bacterias "buenas" que son esenciales para mantener la salud intestinal.

**Pregunta:** ¿Por qué hay tres proteasas diferentes en DIGESTIVE+++?

**Respuesta:** Las proteasas son enzimas digestivas que ayudan a digerir las proteínas. Igual que con los carbohidratos y azúcares, hay tres tipos diferentes de proteínas que provienen de diferentes fuentes. Por lo tanto, necesitamos diferentes proteasas para ayudar a digerir la variedad de proteínas que consumimos. Además, Laminine está compuesto de proteínas y las proteasas agregadas permiten que el cuerpo lo absorba mejor\*.

**Pregunta:** ¿Qué ocurre si mi sistema digestivo ya funciona bien?

**Respuesta:** Los problemas asociados con el sistema digestivo son difíciles de reconocer hasta que se convierten en algo más serio. Por eso es importante tomar las medidas necesarias para mantener una buena salud digestiva durante toda la vida.

**Pregunta:** ¿Puedo tomar este producto con otros medicamentos o prescripciones?

**Respuesta:** DIGESTIVE+++ es un suplemento dietético natural. Cuando se toma como se recomienda, es seguro y eficaz. Cualquier pregunta que tengas acerca de cómo DIGESTIVE+++ interactúa con otros medicamentos que tomes deberás dirigirlos a tu médico personal.

**Pregunta:** ¿Durante cuánto tiempo necesito tomar DIGESTIVE+++ para observar resultados?

**Respuesta:** Los efectos de DIGESTIVE+++ varían en cada persona. Algunas pueden sentir beneficios en un periodo corto de tiempo y otras deberán tomar el producto durante más tiempo para observar un cambio.

**Pregunta:** ¿Existe tal situación como tomar demasiadas enzimas?

**Respuesta:** Las enzimas digestivas no se acumulan en el cuerpo, y por lo tanto solo permanecen en este durante un tiempo breve, por lo cual es importante reponer constantemente las enzimas.

**Pregunta:** ¿Necesito tomar DIGESTIVE+++ , Laminine, Laminine OMEGA+++ e IMMUNE+++?

**Respuesta:** Cualquiera de los cuatro puede tomarse individualmente para necesidades de salud específicas. Sin embargo, los diferentes sistemas del cuerpo, digestivo, circulatorio e inmunitario, funcionan con menos eficiencia a medida que envejecemos. Puesto que todos los sistemas están interconectados, cuando uno se debilita, todos son afectados. Es importante mantener todos los sistemas del cuerpo funcionando de manera óptima. Cuando lo hacen, los nutrientes beneficios que consumimos, como Laminine, pueden ser aún más eficaces. Esta es la razón por la que los mejores beneficios de salud provienen de tomar los productos juntos\*.

# WHAT IS Laminine?

Laminine is a unique and patented formula that provides the most essential proteins and amino acids our body needs, along with the proper transport mechanisms to direct these nutritional building blocks to where our body needs it the most.

Laminine's main active ingredient is derived from **9-day old Fertilized Hen Eggs**, which are incubated until they reach the critical moment of Pre-Embryonic Stage.

Fertilization activates cellular growth.

After **9 days of incubation**, the fertilized egg is transformed into an environment containing all the necessary elements to develop a living being, with the highest amount of nutrition and protection.

Incubation also supports the development of key nutrients to highest concentrations, creating a unique combination of Amino Acids, Glycopeptides, and Oligopeptides.

## USE OF VEGETABLE PROTEIN

Vegetables Protein has a essential amino acid profile which is very close to that of the ideal protein for Human Nutrition (FAO/WHO 1985 and 2002). For Laminine™, a patented process further isolates these protein's to eliminate the compounds, which neutralize the benefits of the essential amino acids.

The result is an ingredient, which is high in **Glutamic acid**, (further enhancing the cognitive function of the brain), branched chain amino acids (to counter insomnia), **Lysine** (to control release of serotonin, controlling moods) and **Arginine** (promoting Nitric Oxide and growth hormone formation). These specially isolated protein's therefore adds a synergistically potent composition to enhance brain activity.

### Yellow Peas

**Yellow Peas** are high in **fiber, protein, vitamins, minerals, and lutein**. Dry weight is about one-quarter protein and one-quarter sugar. **Pea seed peptide fractions** have less ability to scavenge free radicals than **glutathione**, but greater ability to chelate metals and inhibit **linoleic acid** oxidation.

## How Laminine got its name?

The word Laminin, L-A-M-I-N-I-N, refers to an exclusive protein found at the cellular level of all living being.

Laminin being specific to the extra cellular matrix of all living being is vital to making sure that our overall body structure holds together. In fact, it is what "literally" hold us all together.

The "9th day" of the fertilized avian egg is the exact time when it is at its optimum "life yielding" potential

An "e" added at the end of "laminin" birthed the name "LAMININE" (Lami-nine), the metaphor for how we feel our powerful proprietary extract affects those who experience it.

### Introducing Laminine

Laminine is the complete synergy of:

- 22 Amino Acids
- Trace Minerals
- Vitamins

**Fibroblast Growth Factor (FGF)\***

*The perfect combination of life-giving substance sourced from land, sea, and plant.*

*\*They pull the amino acids in as they need them and where they serve best. FGF's feed brain stem cells. Nourished stem cells multiply. FGF's repairs or destroys mutant genes – especially in Huntington Disease and Alzheimer's.*

### History of Laminine

In 1929, Dr. John R. Davidson, a Canadian Doctor, discovered the extract derived from the Fertilized Avian Eggs at a critical stage of incubation. Dr. Davidson used this extract to restore terminally ill cancer patients back to perfect health.

### The Creation of Laminine

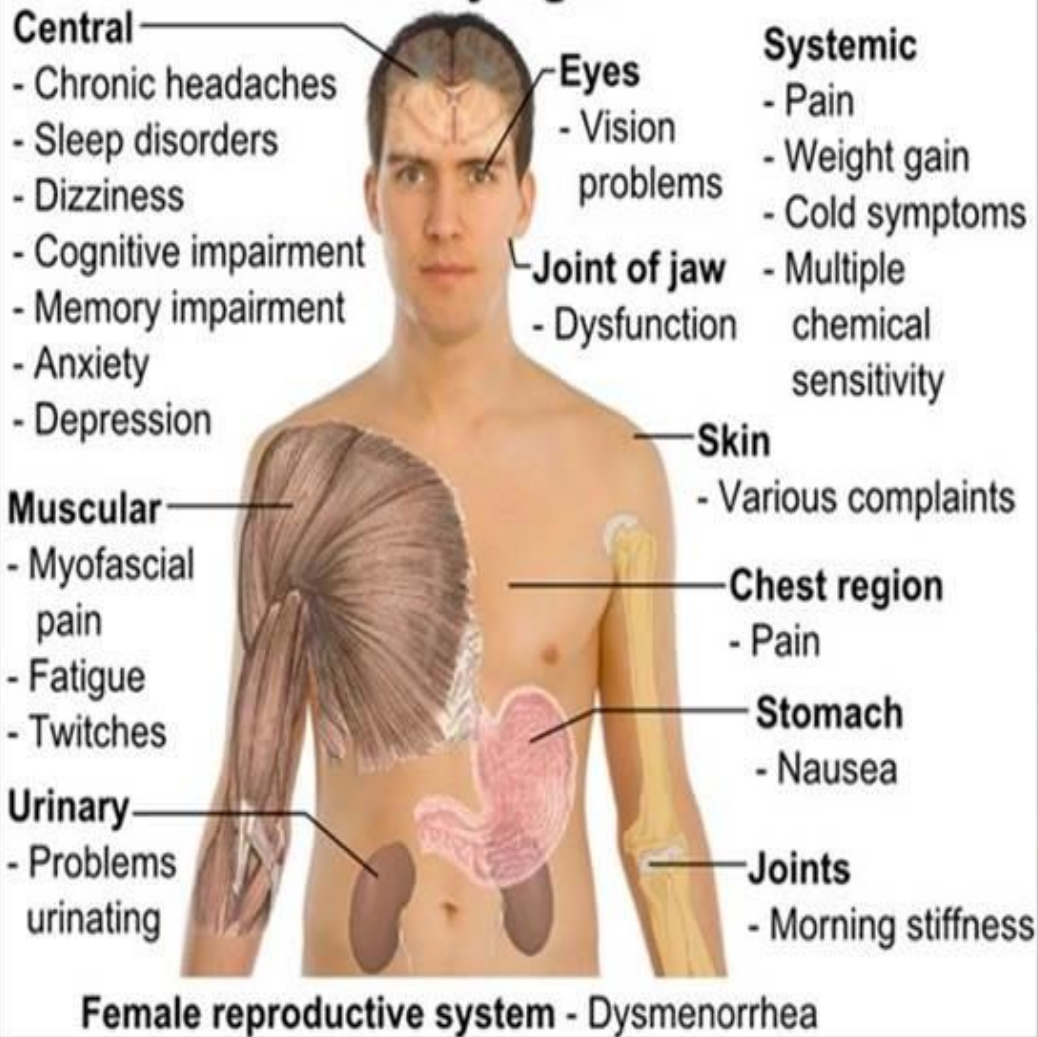

Scientists have since confirmed his discovery. They now realize that on exactly the ninth day of incubation, the fertilized avian egg contains all the necessary elements to create and develop the Avian Life.

At this precise moment the highly potent tissue is extracted and blended with phyto and marine proteins to make it complete with all essential amino acids necessary for Human Life.

Its source is from the "Miracle of Life"

# Proposed Mechanism of Action

Dupuytren's disease nodules and cords are fibrous plaques made of disorganized, excess fibroblast and collagen. Elasticity of the affected fascia is reduced causing contracture of the fingers.

After treatment with Transdermal Verapamil 15% Gel, the excess fibroblast and collagen are reorganized and reduced, allowing the finger contracture and dermal pits to be reduced or eliminated.

# COMPENSATION PLAN

# BY FOR YOU

"By You, For You" is our philosophy and our approach to developing this Compensation Plan.

In creating this Compensation Plan, we did not hire a specialist or consultant who naturally tends to create a plan beneficial to the company. Instead, we sat down with various networking business leaders from the US and various countries such as yourselves and let 'you' have a free reign on creating what would be a money making plan entirely from your point of view.

Our aim was to come up with a totally unprecedented, yet simple, straight forward and easy to achieve Compensation Plan, unequalled and unparalleled to any companies out there.

We are proud to unveil a totally new approach in compensation, which we believe to be the first and only plan in the world that was created entirely by 'you', our Independent Business Owners (IBOs) and associates, with the main objective of ensuring you never fail in the networking business again.

MATRIX GROUP VOLUME PER MONTH FOR 2 CONSECUTIVE MONTHS (60%:40% MATRIX LEG BALANCE)

# TERMS & DEFINITIONS

**Active IBO:** IBO is considered to be "active" if he/she has placed an order within the last 30 days.

**Annual Renewal Fee:** In order to remain an Active IBO and to continue to have access to their LPGN Virtual Office and an LPGN replicated website, IBOs must renew their account by paying a \$20.00 renewal fee annually on their enrollment anniversary date.

**Auto-Delivery:** Auto-Delivery is a standing order that is to be processed on the same day of each month. IBOs are encouraged to be on Auto-Delivery so that they are never out of product and always remain Active without having to remember to re-order on their enrollment anniversary.

**Business Success Starter Kit:** Any person wishing to become an LPGN IBO will be required to pay \$29.95 for a Business Success Starter Kit, which allows them access to the LPGN Virtual Office and LPGN Replicated website.

**Commission Volume (CV):** Each product sold has a CV assigned, and this CV is the basis of calculating all commissions and bonuses.

**Compression:** For Matrix commission, if any IBO within your pay level is not "active," then that inactive IBO is not considered to have occupied a level, and the next IBO in the tree will be "compressed up" to take that place.

**Group Volume (GV) Requirement:** GV is the collection of all CVs from all your downline IBOs in your Unilevel Generation Tree. Each Status (Associate, Leader, Builder, or Premier) has its own GV requirement in order to be paid as of that status. If the GV falls below of the requirement, then the IBO will be paid as of a lower status based on the GV he/she has.

**Independent Business Owner (IBO):** A LifePharm Global Network Independent Business Owner is a person over 18 years of age who has completely filled out and signed an LPGN IBO Application & Agreement Form and paid for his/her Business Success Starter Kit.

**Legs:** In the Matrix Tree, you only have two legs—one on the left and one on the right—and all downline IBOs belong to one of the sides. In a Unilevel Generation Tree, anyone you personally enrolled is the beginning of a new leg. So, if you have personally signed up 5 IBOs, then you have 5 legs (See "Tree" for more explanation).

**Level:** This is the vertical position of an IBO in your organization, and may refer to both in your Matrix Tree & Unilevel Generation Tree (See "Tree" for more explanation).

# Laminine

THE SYMBOL OF LIFE & RENEWAL

**YES** perfect health is not impossible to find. In fact, it's closer than you think. A healthy new you is on its way, and it starts with Laminine. This miraculous breakthrough began with the discovery of a potent, natural extract by a Canadian doctor who used it to support normal cell structure and function for those concerned with cancer.

Today, Laminine continues an 80-year tradition of support for healing and returning the body to a balanced state.

## THE ORIGIN

In 1929, John R. Davidson, a Canadian Doctor, discovered an extract derived from fertilized hen eggs at a critical stage of incubation. Dr Davidson used this extract to restore health in his patients.

Scientists have since discovered that on exactly the ninth day of incubation, the fertilized hen egg contains all the necessary elements to create life and the highest amount of nutrition to develop it into a living being.

At this very precise moment the highly potent tissue is extracted.

Today, along with a blend of phyto and marine proteins added to the extract to make it complete with all essential amino acids, we have created Laminine. Laminine continues the tradition of healing and restoring many people back to health and sustaining a balanced state.

## WHAT CAN Laminine DO FOR YOU?

Laminine is a form of a natural 'adaptogen' helping to create a state of balance or normalization and restoring the body to its natural state of homeostasis.

Regular use of Laminine helps to:

- Reduce signs of aging
- Builds collagen for healthier looking skin
- Stimulate natural DHEA to reduce physical and mental stress
- Increase physical, mental & emotional strength
- Reduce physical and mental stress
- Promote more restful sleep
- Produce quicker recovery after work out and increased muscle tone
- Elevating serotonin levels to raise your mood
- Down-regulate pain receptors in the body
- Increase alertness
- Improve stamina and energy
- Increase libido
- Aid in brain function and activity including focus
- Develop an overall sense of better wellbeing

### WHAT IS LAMININE?

Laminine helps regenerate aging cells while completely nourishing unhealthy cells, supporting their restoration to their original state. Your body has its own repair mechanism, the physical ability to regenerate your own damaged cells. This repair mechanism is alive and well when we were younger, but falters as we age.

Laminine unleashes this powerful repair mechanism inside all of us. It will keep your entire family not only healthy, but help them become physically, mentally and emotionally stronger.

### HOW IT WORKS

Have you ever wondered how a child physically develops at a dramatic rate? How a young person can exert so much energy and recover almost instantly? Do you also wonder how a child is able to pick up languages so quickly and how they can remember the slightest things?

The answer lies in a compound that is essential in supporting embryonic development called Fibroblast Growth Factor (FGF). While FGF is readily available in the human placenta, its availability diminishes over time, and essentially vanishes as we age. Our body by itself is incapable of producing its own FGF, which it must derive from the food supply.

Until now...

All-Natural Laminine is believed to be the only other known source of FGF in adults. Research credits FGF with improving neuron functions in your brain, increasing amino acids and peptides in your cells and assigning the proper stem cells to restore your body's organs back to their original state. In layman terms, FGF reprograms adult stem cells and amino acids in your body, which make up your natural repair tools, to travel to the areas that need it the most. Once there, these repair tools have the ability to integrate themselves with that particular body part. Their mission then becomes to repair and regenerate the cells and tissue in that location, wherever it is in the body.

As long as the FGF is there, our body's repair mechanisms can be instructed to facilitate in the repair of whatever part of our body that needs the most rehabilitation. This explains why Laminine has demonstrated a wide range of benefits for different people in varying parts of the body.

### REAL LIFE TESTIMONIALS

Ever since my mother died about six months ago, I couldn't sleep as I experienced a deep sadness. After Laminine, I slept soundly for the first time and noticed my bouts of sadness gradually disappear. I have a greater sense of well-being.

**RENEE H.**

Seven years ago my knees were very hurt. I thought I would never be able to walk comfortably again. When I started taking Laminine, I felt full of energy and enthusiasm, and the severe discomfort in my knees even went away! This is an absolute miracle.

**MARTHA H.**

In 2008, my dad was diagnosed as having Alzheimer's. Since he started taking Laminine one year ago, we feel we have our father back. Thank you Laminine.

**LES H.**

I am a type II insulin dependent diabetic. Within 3 days of Laminine my blood sugar appears to be normalized. I also suffer from low grade depression. After 3 months, sugar and sadness are no longer issues. I feel that Laminine may have saved my life and I can't live without it.

## PERFECT HEALTH UNCOVERED

### Ano Ang Laminine?

Ang LAMININE ay tumutulong sa muling pagkabuhay at pagayos ng ating matandang mga selula (cells), habang pinapalakas ang mga nanghihinang mga selula, at tinutulungang maibalik ito sa dati nitong katayuan. Ang katawan ng tao ay mayroong sariling kapasidad na ayusin at pagalingin ang sarili, ang pisikal na abilidad nito na ayusin ang mga mahinang selula. Itong kakayahan na ito ay masigasig noong tayo ay bata pa ngunit nanghihina at nawawala din sa ating pagtanda.

Ang ginagawang LAMININE ay muling pinapagana ang kakayahang ito ng ating katawan. Ito ay tumutulong di lamang sa pananatili ng kalusugan ng buong pamilya kung hindi ito ay tumutulong din sa pagiging mas malakas mo sa pisikal, mental at emosyonal na condition.

### Paano Ito Gumagana?

Hindi ka ba nagtataka kung paano na ang isang bata ay patuloy at mabilis ang paglaki? Kung paanong ang batang ito ay laging maligalig at tila hindi napapagod? At kung paano din ang isang bata ay madaling natututo ng iba't ibang lenguahe at kung paano madali at mabilis na makaalala?

Ang sagot ay nakikita sa isang essential na bagay na matatagpuan sa pag develop ng bilig (embryo) na tinatawag na Fibroblast Growth Factor (FGF). Habang ang FGF ay kadalasang nakikita sa placenta ng isang tao ito ay unti-unting nababawasan at di maglalaon ay nawawala sa pagtanda. Ang katawan natin ay hindi kayang gumawa ng sariling FGF, kung hindi sa ibang pagkain.

Hanggang ngayon...

Ang likas na LAMININE lamang ang pinapaniwalaang may FGF sa mga matatanda. Ayon sa mga pagsusuri, ang FGF ay tumutulong sa tungkulin ng nerbong selula sa utak, pinapataas ang amino acids at peptides sa iyong mga selula at binigyang direction ang ating mga stem cells upang maibalik ang dating kondisyon ng bahagi ng ating katawan.

Sa madaling sabi, ang FGF ay nangungusad sa mga stem cells at amino acids sa katawan, na bumubuo sa natural na sangkap na tumutulong sa pagpapagaling natin, na pumunta kung saan ito kailangan. Kapag nadoon ang mga natural na sangkap na ito, ito ay may kakayahan pagsamahin ang mga bahagi ng katawan. Ang mission nito ngayon ay ayusin at pagalingin ang mga selula at tissue doon kahit saan man naroroon ito sa katawan natin.

Habang naroroon ang FGF, ang sariling kakayahan ng katawan natin para pagalingin ang sarili ay gumagana kung saan man ito kailangan. Ito ang dahilan kung bakit ang LAMININE ay nakitang epektibo sa iba't ibang suri ng problema sa katawan ng tao.

**Marieliza I., *Philippines***

"Laminine is a product that gives hope and opportunity to everyone to achieve their goals. For me personally, Laminine has helped to increase my strength and stamina, as well as handle stress better."

**Olga S., U.S.A.**

## **Mental and Emotional Boost**

"Laminine is the most amazing product I've ever worked with in 27 years. No other nutritional product does so much, for so many, for so little, so fast. The key is to talk to as many people as possible, tell them your story and the stories of others who have seen results."  
**Roger D., U.S.A.**

## **Mental and Emotional Boost**

"When I received such good results from Laminine, I was inspired to work the business opportunity. When sharing with others, I start by doing a product presentation and then show the compensation plan. I am happy to be able to help people not only with their health but also with their finances."

**Edison T., *Philippines***

## **Stress and Strain Relief**

"I usually take 2 Laminine capsules in the morning and then 2 some time in the afternoon. I like to describe my experience as brain changing, because it not only has changed how I feel but how I think."

**Rick G., U.S.A.**

## **Mental and Emotional Boost**

"Our food supply is so bad—it doesn't have the nutrients we need. But with Laminine, you have 22 amino acids and a great delivery system with fibroblast growth factor. It's like a conductor in front of an orchestra that tells the amino acids where to go in the body. The key in this business is to share and bless as many as possible with Laminine."

**Adrian M., U.S.A.**

## **Energy and Physical Strength**

"I had a neighbor ask me if I had something that would help with his difficulty breathing and lack of energy. I directed him to Laminine. After two weeks of retracing, he got his energy back and got off the couch, where he was spending 90 percent of his time. He now plays 18 holes of golf three times a week and works around his property and his daughter's property all day long. He told me that he hasn't felt this good in a long, long time. I noticed that his skin looks better, too! This man is 76 years young."

**Mark S., U.S.A.**

## **Sleep and Skin Improvement**

"For years I had problems sleeping. Since taking Laminine, I have had the best sleep in years. I also noticed better vision and more energy. As a homeopath, I now share Laminine with others."

**Vicky M., U.S.A.**

## Mental and Emotional Boost

"In 2005, my vision worsened, and I was partially blind, unable to speak and terribly demoralized. Before this incident, I drove over 1,000 miles per week, and I loved it. From that point forward, I could no longer drive. At times, I would almost become desperate because of my inability to get around. However, since I started taking Laminine in November of 2013, my feelings of desperation have dissipated, my attitude has greatly elevated and my ability to earn an income has really helped me. My vision has improved and I'm living on my own, doing my own shopping, cooking and cleaning. I look forward to each day with hope and promise that it will be even better than the last. The staff at LifePharm Global Network is so supportive that it makes it easier for me to help others who desperately need this wonderful product. " **Jack B., U.S.A.**

## **Sleep and Skin Improvement**

"My friend Sue says, 'my fingernails are growing! For years I had a terrible problem with my nails. I tried everything but they were still weak. Now they are growing again. I have been able to do other activities and have enough energy left to teach ballet class. This is really big. I think it's time to reorder.'"

**Joanie S., U.S.A.**

## **Energy and Physical Strength**

"The first time I heard about Laminine was in early 2013. At that time, my daughter had an operation and could not recover. We took vitamins, changed up her diet and made sure she was active. However, she was weak, pale and was not able to perform in school. After just the first capsules, my daughter's appetite returned, she became more energetic and started doing well in school. In a very short period of time, she recovered completely. We've been working with this product for more than a year now and have not only improved our own health, but the health of many others. Thank you for this wonderful product."

**Vladimir Z., Russia**

## Energy and Physical Strength

"Pete was diagnosed with Myotonic Muscular Dystrophy about 27 years ago. Pete says, 'I can do more things such as walk again; I'm not in a wheelchair now, which is an amazing feeling. With this independence, I've been able to travel to more places, such as Bali. In Bali, I was able to go out every day and sometimes walk a few kilometers. Since coming back from Bali with renewed invigoration and confidence, I started driving again for short trips. It just feels great to have my independence and mobility back'"

**Lucie D., Australia**

## **Sleep and Skin Improvement**

"I've had problems with my back for over 24 years and chiropractors, yoga, acupuncture and reflexology didn't help. I'd spend a day in the garden and my back would be wrecked for a week. It was so bad in the morning that I'd have to get down on my hands and knees just to tuck the bed sheets in. My cousin told me about Laminine and the first night after taking it, I slept like never before. I felt an amazing sense of calmness come over me. After taking Laminine for two months, I seriously could not believe the improvement in my health. I can now work in my garden without discomfort and had no pain after a recent move—I lifted heavy boxes and moved furniture! My nails are no longer brittle, my hair is stronger and my skin is smoother. Laminine is the most powerful (and natural) product I've ever seen, and I'm now a full time IBO with LPGN."

**Erica M., Australia**

"My main reason for being part of LifePharm Global Network is that the company has changed my life for the better. Laminine gave me more energy to work and calmed me down inside. Another important benefit is that my daughter no longer suffers from skin allergies. As a result of my own positive experiences, I always introduce people to LifePharm Global Network by showing them the products. I think the most important thing in helping people is to give them good quality and needed products. I treat informing people about Laminine and its benefits as a mission. After someone shows an interest in the product, I help them choose the best Pack for them and recommend enrolling in LPGN."

**Grazyna D., U.S.A.**

## **Sleep and Skin Improvement**

"Laminine has contributed to my life personally with renewed energy and zest for life, weight loss, increased metabolism, easing difficult hormonal issues, and a complete absence of menopausal symptoms. I've also seen an improvement to my skin and scalp allergies that I have had for so many years that I was resigned to have them for the rest of my life."

**Julie W., Australia**

## **Sleep and Skin Improvement**

"Laminine has given my husband and me sustained energy. We sleep better and people notice our glowing skin. I believe I've become a better person, as I share my knowledge of the products and help others create and manage a healthier lifestyle."

**Lucy S., Philippines**

## **Sleep and Skin Improvement**

"I decided to try Laminine, and the results were simply stunning. My sleep and mood improved, my level of energy increased, and my hair began to take on a more natural color. I had taken other dietary supplements for years and never achieved any of these positive results!"

**Vyara M., U.S.A.**

## **Mental and Emotional Boost**

"I like the products and became interested in how to get it for free. At LifePharm Global Network, we can be successful while using the products every day and telling people about the benefits of overall well being and looking good. When you are taking Laminine, you are a walking advertisement, because everyone can see how you look younger, have more energy and become more cheerful. It's like turning back the biological clock! When friends see you transform so positively, they ask about it. That is how I already have someone to work with."

**Anna W., U.S.A.**

## **Mental and Emotional Boost**

“With LifePharm Global Network, I found a company that aligns with my belief system and passion. Laminine is such a strong and effective product that delivers quick results for the majority of people. My family and I have experienced life-changing results to our health. When people see the value in the product, their belief grows and they want to tell others.”

**Brigitte H., Australia**

## **Stress and Strain Relief**

"The first and most important factor that enabled me to see what a wonderful opportunity I had found was Laminine. After only a short period of time, my partner Elizabeth and I knew we had found something very special. Both of us overcame some old health issues. Most remarkably, Elizabeth is able to manage her issues with multiple sclerosis to the point that she is going to the gym twice a week."

**Chris E., U.S.A.**

## Energy and Physical Strength

"The LifePharm Global Network products have improved my health. I have had an increase of about 20-25 percent in stamina, power and endurance during my workouts. I feel less stress and have experienced a general sense of well-being. My primary reason for being part of LifePharm Global Network is because of the company's unique and powerful products."

**Dr. Jose T., Puerto Rico**

## **Energy and Physical Strength**

"I first started consuming Laminine in June 2012. In the first week I noticed I had more energy, and then my sleep improved! I struggled with sleep deprivation and hormone imbalances for years. But as time went on, I noticed my back problems that began 25 years ago were gone. My digestion improved and other physical problems eventually dissipated. I love this product and share it with anyone I can."

**Christine R., U.S.A.**

"My friends and I have experienced tremendous change in our lives since taking Laminine daily. We sleep well and feel stress-free, so we are much happier. We can focus better and have an overall sense of well being. I will continue sharing Laminine and Laminine OMEGA<sup>+++</sup> while building my LPGN business and creating long-term income."

**Cecilia T., U.S.A.**

"I've been taking Laminine and Laminine OMEGA+++ since January of 2014. Since I was a kid, I suffered from skin problems on my face, neck, chest and back. I tried many remedies but none of them worked. After taking the LPGN products for just half a year, I enjoy even and smooth skin on my back, face and chest and you'd never know I had issues previously. A scar on my left cheek is now gone and I feel so much better now that I don't worry about my appearance. I am thankful to LifePharm Global Network."

**Anton T., U.S.A.**

"Laminine has helped my body more than any other product I've tried. I used to suffer from insomnia and other complaints, but now they are gone. I've offered Laminine to my relatives and friends, and all of them are satisfied! In addition to the financial boost I receive from sharing Laminine, I feel fulfilled in being able to help others become healthier and happier."

**Paulus Sindy Salim, Silver Director**

"I can do more things such as walk again, I'm not in a wheelchair now, which is an amazing feeling. With this independence, I've been able to travel to more places, such as Bali. In Bali, I was able to go out every day and sometimes walk a few kilometers. Since coming back from Bali with renewed invigoration and confidence, I started driving again for short trips. It just feels great to have my independence and mobility back."

**Peter Kruidenier, Australia**

LIFEPHARM GLOBAL NETWORK

"I had a very compelling story to share with others because of the significant improvement in my health after taking Laminine. This made it easy for my wife and me to launch our LifePharm Global business and help other people along the way. The generous LPGN Compensation Plan and weekly commission payout were both factors enabling us to save our home and restore financial stability. I am committed to helping as many people as possible to experience the same benefits we did, both with their health and their finances, and build our business into a full-time income."

**Will T., U.S.A.**

"My tips for success with LifePharm Global Network are: 1) Love the product. 2) Research, research, research. Find out as much as possible about the product and the company, because knowledge is power. 3) Tell everyone about it. Your passion will be contagious. I introduce the product first and then the opportunity, because there's no wealth if there's no health."

Anita Carden, Silver Director

"I had a neighbor ask me if I had something that would help with his difficulty breathing and lack of energy. I directed him to Laminine. After two weeks of retracing, he got his energy back and got off the couch, where he was spending 90 percent of his time. He now plays 18 holes of golf three times a week and works around his property and his daughter's property all day long. He told me that he hasn't felt this good in a long, long time. I noticed that his skin looks better, too! This man is 76 years young."

Laminine capsules are all natural and are being called the "HAPPY PILLS". People are taking these capsules are claiming all kinds of good things happening to "BALANCE" their hurting bodies and stress out minds!

Quite simply .. their quality of Life and Well being so much enhanced, many people and Doctors are labeling Laminine "The KEY To PERFECT HEALTH"!

Below are a couple of Laminine Testimonials that have been posted on Laminine Blogs, Laminine Forums, and health websites on the net.

Laminine has made a tremendous difference in my life in the last couple of weeks. First, let me tell you that I was hesitant about trying it because I had been on anti-depressants for about 6 months due to my mother's death last year that affected me greatly.

However, once I started taking the Laminine, I felt almost immediately the same balance and sense of well being that I had originally experienced once I was on my other medication. For the last couple of weeks, I started to change my whole health routine with diet and exercise and to include the Laminine on a regular basis.

I am now going off of the anti-depressants and am happy to be using a product that is organic and could produce such great results in the way I feel. My whole well being is balanced. I feel contentment and my emotional levels are all in sync. I wish I had started on the Laminine six months ago as I believe that if I had...I would never have needed the anti-depressant medication at all.

## SPECIAL NEEDS DAUGHTER'S AUTISM SYMPTOMS IMPROVED

**Lori Tweedel**  
For the last few years I have been going through menopause, which has made it more difficult for me to sleep. I have also been trying to lose weight and could not seem to lose the last few pounds to reach my goal weight.

After taking the extract formula (Laminine), I have been able to sleep better, and can now sleep through the night. I have also been able to finally reach my goal weight by the extract formula suppressing my appetite allowing me to finally lose the weight that I wanted to.

I adopted a special needs daughter over 16 years ago who had a stage-four cleft palate and had to undergo several different surgeries. She is very smart and graduates from high school in the National Honor Society, yet she has autistic features.

She had a hard time paying attention and had several other behaviors that made it difficult for her to ever be on her own. After completing therapy, her autistic features have reduced significantly. Since the autism was such a big part of who she was, she became depressed when these features went away.

I had heard that the extract formula helped increase serotonin which helps decrease depression.

I started my daughter on the extract formula and within a few weeks her depression was gone.

She has now been able to focus her new energy in a positive direction. She is a completely new person, one who is happier and has new hope.

I have a friend who has been trying to lose weight, and she has high blood pressure and malignant hypertension.

She stated taking the extract formula and has already lost several pounds and is not hungry most of the time. The extract formula is also helping her maintain her blood pressure.

I work in animal rescue and we recently had a very weak kitten with chronic diarrhea. We tried a variety of treatments and nothing seemed to work.

We started giving the kitten the extract formula and he is making great progress. He now has a lot of energy and a lot less diarrhea.

I look forward to giving the extract formula to the other animals in the animal rescue center. We have a naturalistic veterinarian who helps with the animals that I rescue. She has been helping monitor the animals' progress with this medicine. The extract formula has been life changing for my family friends, and the animals I rescue.

day 4 felt a rush of happiness. I only feel this a few times a year as I think I mentioned the other day.. but the last few days every day!!! I have been so happy.. I started crying to my husband last night, that I haven't felt this happy in so many years, when my dad was killed 16 years ago the life force left my body to when he died.. of course I get happy cause I love my family and my kids and I see funny things on tv or a kid trips and things can be funny, but a true happiness that I haven't felt in over 16 years, and I am crying now as I type this, I am not sure if its a guilty cry because I miss my dad so much, that I thought my life couldnt ever be happy without him, maybe a cloud of depression has lifted, I am still trying to figure things out, but just knowing that I feel happy now.. and it comes in waves.. I just feel content, life is good.. like a rush!! and never have this so many days in a row.. I am so thankful I listened to the right person, and I did tons of research, and I dont just try anything, I study, I learn and then maybe I will try.. I am skeptical of so many things, but when 2 close friends were having results and my 2 close friends have no reason to lie to me.. I ordered just to try.. and so far so good.. Life is good!

I just realized that my eczema is doing great, I ran out of sacred frankincense oil about 10 days ago and haven't ordered any and then about a week ago I am running out of my gator oil and only using it on the sores that are open, and I just realized my skin is pretty much near perfect, I knew it helped with skin, but I didn't know about skin disorders.. this is amazing..

I am having very vivid dreams on laminine, it gets your brain neurons to firing and dreams are either wonderful or your being chased by a tornado.lol... last night's dream was about Blake Shelton last night, I dont really even listen to country music.. very weird,.. but anyways its day 21 and still no nap or snaking into bed to lay down.. there is so much time in the day when your not sleeping it away.. I hope you all have a safe weekend.. I am so far behind on my tv shows, I just dont sit down and watch tv unless we are winding down for bedtime.

day 60 and I have to say I cannot live without my laminine, even though I had a rough week after losing it on vacation, I am still happy, my sleeping is back on schedule and I got my 3 bottles in yesterday so now I have a back up for my back up.. lol.. if your wanting to try it.. give it a full 30 days.. take up to 4 a day.. and if you dont feel a change at day 30, you get your money back..

I suffer from many ailments and chronic fatigue, after I taken laminine:

Day two.. slept great, no naps, had some energy to clean my house and I went to bed midnight, I never go to sleep before 2am-4am.. day 4 in the evening I felt this wave of happiness hit my body, which I suffer from depression and I dont really feel happy even though I have so much that is good in my life.. I love the feeling it gave me.. I have been so calm with my kids.. Day 5 I started taking 2 supplements in the morning and didn't need a nap that day either.. but I did however on day 6 move my living room furniture around, something I have not did in 8 years...I have anxiety and panic also, and only went into anxiety once this week when my kid at the grocery store hurt herself and started crying, I calmed down pretty quick, where normally it would ruin my day..

Hello Mike,

As you know when you first told me about Laminine I was quite skeptical about this product. As a Registered Nurse I have always had faith in Pharmaceutical medications. But I took a leap of faith and tried Laminine. To my surprise, Laminine has allowed to start sleeping again. In the past I was taking Ambien a prescription drug for sleep, with terrible results. Laminine has not only allowed me to sleep 8 restful hours everyday, it also has me dreaming again. In addition to this I had swollen lymph-nodes and after only taking 4 Laminine a day for 4 days they subsided. I was going to the Doctors for this problem and now they are gone completely. After 35 years of Nursing I never imagined something all natural could help me in so many ways. Thank you again Mike for sharing Laminine with me.

Seperti yang Anda ketahui, ketika pertama kali anda menceritakan tentang Laminine saya cukup skeptis tentang produk ini. Sebagai seorang Perawat Terdaftar Saya selalu lebih percaya obat Farmasi. Tapi saya mengambil lompatan kepercayaan dan mencoba LamiNine. Hasilnya Sangat Mengejutkan saya, LamiNine membuat saya dapat tidur kembali. Sebelumnya saya selalu minum AMBIEN untuk obat tidur, dengan hasil yang mengerikan. LamiNine tidak hanya membuat saya tidur lebih nyenyak 8 jam setiap hari, kini saya pun sudah dapat bermimpi lagi. -----

Selain ini saya mengalami pembengkakan pada kelenjar NODUSF-LIMFA dan hanya konsumsi 4 Laminine sehari selama 4 hari Kelenjar itu HILANG. Saya pergi ke Dokter untuk mengecek penyakit Nodus-Limfa ini dan sekarang penyakit itu Hilang Sama Sekali... Setelah 35 tahun Perawatan saya tidak pernah membayangkan sesuatu yang alami bisa membantu saya dalam banyak hal. Terima kasih lagi Mike untuk berbagi Laminine dengan saya.

## Mike Braden

I have suffered some rather severe complications from my Type II insulin-dependent diabetes and a Brown Recluse spider bite spending 220 days in the hospital and dealing with chronic nerve pain after extensive surgery to both legs. The surgeries also left me with no feelings in my legs from the knees down.

I am totally amazed at Laminine. I have been on the product for the last 7 weeks and what I have experienced is as close to a miracle as anything I have ever imagined. I have seen the total elimination of stress and depression, I have much more energy, and I have started sleeping again. In fact, after experiencing an average of only two to three hours of sleep per night previously, I slept uninterrupted for EIGHT HOURS my second night on Laminine! I have slept well ever since.

For pain I have been on 300 mg. 3 times a day of a drug called Neurontin that I needed to be able to walk somewhat normally and to control the extensive nerve pain in my legs. I am completely off the Neurontin now, and the feelings are coming back into my legs!

Within the first 15 days of being on Laminine, I have seen a reduction of my insulin intake by 50%. I'd like to think that eventually I might be able to not have to depend on it at all.

I cannot wait to see what else improves in my life using Laminine

Here is my experience with laminine... When the weather cooled off last fall, I had pain in my knees walking down stairs, two days after starting 4 a day, I could walk down stairs with no pain at all... Then I noticed I could sleep 8, 10 even 11 hours no problem... After 4 weeks I noticed that I felt better than I had in years, my energy, mood and physically... My right knee had been weak since an accident when I was 21, I noticed my bad knee felt just as strong as my good knee... I can even run down stairs now... Then people started commenting on my skin, how good and smooth it looks... I am not one to spend much time in front of a mirror but I have to say, my little wrinkles around my eyes are gone... Here is the big one, my 2 herniated disks in my lower back that had been bothering me since the mid 90's are no longer herniated... I had learned to live with them by being careful with my back and finding a mattress that was good for me to sleep on... After 7 weeks on laminine, I went through a healing crisis as Dr. Shelva talks about on the Doctors Corners Calls... Woke up one morning with flu like symptoms but that afternoon and early evening my back was really very sore and bothering me... I was on the couch for hours, could not get comfortable, right side, left side, back, nothing... Finally went to lay down in bed, same thing could not get comfortable, right side, left side, back and even stomach... Somehow fell asleep, next morning felt better but weak... Following day back to my normal self... It was another 2 or 3 days until I noticed, MY BACK FELT STRONG, NORMAL, GOOD AS NEW!!! I would not have believed it if it did not happen to me... That's my story folks, laminine works and I will not be without it... Share the pill...

Batuk Sembuh, Berenergi dan Bebas Tugas Rutin

Ketika pertama sekali saya konsumsi Laminine pada malam hari 1 Kapsul, esok paginya langsung terasa segar pada sa'at saya bangun pagi, luar biasa Laminine memberikan kekuatan pada tubuh saya. Sore harinya anak saya yang diserang batuk saya berikan Laminine 1 kapsul dengan cara menuangkannya dari kapsul kedalam sendok makan lalu saya campur sedikit air dan saya berikan pada anak saya untuk diminum, keajaiban datang, esok paginya anak saya bebas dari serangan batuk, sekarang anak saya selalu meminta diberikan Laminine : Papa minum Laminine donk, begitu pintanya setiap hari, sayapun heran kenapa dia suka rasa Laminine. Sementara istri saya yang sehari-harinya bekerja pada sebuah Bank dikota saya, jika malam hendak tidur saya selalu dapat tugas rutin untuk memijat tubuhnya, Alhamdulillah sekarang sejak rutin minum Laminine 1 kapsul dipagi hari dan 1 kapsul pada malam harinya, saya bebas dari tugas rutin tersebut, dimana istri saya dapat tidur dengan lelap tanpa rasa pegal ditubuhnya.

**Animal lovers!!! If your pets have health issues, arthritis pain, hip issues...whatever....you really owe it to them to try giving them Laminine.**

**My dogs are aging and were having trouble getting up from lying down, limping, no energy, not feeling as young as they did....so I started giving them each one a day and they are doing so much better. The yard is filled with toys again where they play and leave them for ME to pick up.**

**It's awesome to see them feeling younger!! It has done wonders for me!! I now sleep like a rock, the pain I have had to deal with for years is diminished, I feel more energetic and a whole less stressed. The stuff is awesome!!**

## Laminine Untuk Angina Pectoris

Erwin Edisyah Putra, Aceh Bebas Stres, Berenergi dan Angina Pectoris Tidak Kambuh Lagi  
Sebagai seorang akuntan pemerintah, bulan Desember adalah puncak kesibukan dengan penyelesaian pekerjaan yang bertumpuk dan dikejar deadline, pekerjaan dibulan Desember sangat menuras energi dan membanqukitkan tingkat stres yang cukup tinggi. Namun apa yang saya alami dibulan Desember 2011 yang lalu (beda dengan tahun-tahun sebelumnya) adalah suatu hal yang sangat luar biasa terjadi pada diri saya, saya mampu menyelesaikan semua pekerjaan dengan Fokus, Fresh dan Finish, Rahasiannya adalah saya mulai mengkonsumsi Laminine 2 Kapsul di Pagi hari dan 2 Kapsul pada Malam Harinya sejak tanggal 9 Desember 2011. Pengalaman lainnya ditahun-tahun sebelumnya pada bulan Desember hingga Januari dengan aktivitas yang padat dan sering menambah waktu penyelesaian pekerjaan dengan Waktu Lembur Malam, biasanya saya sering diserang penyakit yang dalam istilah kami disebut Angin Duduk atau Angin Merah atau dalam istilah medis disebut Angina Pectoris, bila penyakit tersebut menyerang saya tidak dapat bangkit dari tempat tidur dengan rasa sakit yang sangat menghantam dada saya, penyakit ini bisa menimbulkan kematian yang dalam ilmu kedokteran disebut gejala penyakit jantung, Alhamdulillah Laminine memberikan saya pertahanan tubuh dalam menangkis serangan penyakit tersebut, dimana hingga saat ini saya menulis pengalaman ini, serangan penyakit tersebut tidak kunjung mampir. Pengalaman lainnya ketika saya konsumsi pertama kali Kapsul Laminine, walau saya setiap harinya tidur jam 3 atau 4 malam, namun ketika bangun pagi hari serasa tidur 8 jam dengan kondisi yang Fit dan tidak mengantuk pada jam kerja dikantor.

Something that I have realized today.

For over a year now I have been experiencing 'trigger finger' in both my hands. It is where your finger will lock into place at the joint. for me it was usually my ring fingers. They would bend down and lock in place at the second knuckle. It usually would occur at night while sleeping. The only way to get it to straighten out is the physically pop the joint back in place by straightening the finger out with my other hand. Believe me it hurt. Another problem with having trigger finger is, I was losing the grip in my hands. When I would grip something like a lid to open, it would hurt and sometimes one of my fingers would lock into place.

Well I have been on Laminine for about 3 months now and the 'trigger finger' problem is gone. I have not woke up at night with a finger locked in place for a few weeks now and I have the grip in my hands back.

A big key to the successful use of Laminine is to use it as protocol suggest.
