QUIET SOMEONE

POST-TECHNO
BY FOUR BENGALI ARTISTS

QUIET SOMEONE

FOUR TRACK EP BY AUDIO PERVERT / HYBRID PROTOKOL / ANTI 808 / JADU TONA.

About

Quiet Someone is a showcase of emerging electronic sound by four Bengali artists. Voices stepping outside the hiatus of industrial electronica. Though there is nothing audibly 'bengali' about the sound or aesthetics, the artists and their cultural lineage is deeply connected to West Bengal. The artists living in three distant parts of the world, however Bengali. Bound by language, and not traditions, the objective is to present *Bengali Proto_Sound* of today. Curated by Audio Pervert, the EP is an independent project between Spain, India and U.S. Set against the seething roaring zeitgeist of today, we invite you to listen to 'Quiet Someone'. A narrative based on sound based introspection.
