XTREME

The investment fund – backed by XRPL

My name is TommyonXRP, I am the founder of **xTREME**.

This project is made on the XRP LEDGER.

With over 10 years of stability, the XRPL is one of the fastest, greenest and most efficient blockchains out there.

xTREME was launched 1st of March. These bearish times were used to invest heavily in the TOP PROJECTS of the XRPL on a huge discount. Over 260k XRP have been invested, making **xTREME** the biggest INVESTMENT FUND on XRPL.

How holders will benefit?

Everyone who holds **xTREME** will be a part of the PASSIVE INCOME. All holders will receive this airdrop in XRP, every 5th and 20th of the month at 2PM UTC.

How much holders will get?

Everything depends on the amount you are holding.

xTREME uses a proportional distribution model.

The more you hold, the more you will get.

Snapshot will be taken 1h before the airdrop.

xTREME

xTREME sells 2.5% of the fund monthly for the PASSIVE INCOME and 2.5% for the developers. These sells will continue till January. Than there will a community vote how to continue with the Investment fund. The investment fund will be allways a 50/50 between development and holders and cannot be changed.

The staykX fund:

xTREME is also heavily invested in the OCW/xBLADE stayking pool on staykX.

The pool generates daily rewards paid in STX and is running for the next 100 years.

StaykX soft stayking is a very popular method of staking, which allows staykers to keep their holdings in their wallet.

This guarantees a lot of trust. The staykX fund belongs 100% to our holders. This is a lifetime stayking pool.

STX rewards:

60% sold in XRP for the PASSIVE INCOME.

40% sold in XRP to reinvest in the OCW/xBLADE pool.

We might change the percentages in the future. (community vote)

StaykX

OCW/XBLADE -> STX

The OCW/XBLADE Pool is the permanent founding pool for StaykX. Staykers do not need to set an STX Percentage as this is purely based off OCW/XBLADE holdings. If a Stayker holds only one of the tokens, they will receive single sided rewards.

YOUR OCW HOLDINGS: 85.2

YOUR XBLADE HOLDINGS: 37.9

YOUR OCW VALUE: 13,911.7 \$XRP

YOUR XBLADE VALUE: 16,210.5 \$XRP

EFFICIENCY: 85.81 %

xTREME staykX pool:

A big thanks to our community for winning and getting listed on staykX.

There is another chance for xTREME holders to create another PASSIVE INCOME. If you invest in the xTREME/STX pool, you are able to receive a share of 5 million xTREME a day. This pool is running till August 25th, and we are really looking forward to extend this staking opportunity for another 3 months.

Right now xTREME is one of the TOP 3 pools on staykX and that means extra rewards.

The screenshot displays the StaykX interface for the xTREME/STX pool. The top navigation bar includes links for HOME, STAKE, VOTE, RESULTS, and COMPETITIVE, along with a 'Not Signed In' status and a 'SIGN IN WITH XUMM' button. The main content area is divided into two sections. The upper section shows the user's current holdings: 'YOUR XSTACK HOLDINGS: 0' and 'YOUR XSTACK VALUE: 0 \$XRP' on the left, and 'YOUR STX HOLDINGS: 279,886.4' and 'YOUR STX VALUE: 4,710.4 \$XRP' on the right. A progress bar indicates 'TOTAL STAYK' at '0.00%' and 'STAKED \$STX VALUE' at '0.00 \$XRP'.
