

## Precision agriculture system smart farm integrated with sensor technology

The Climate Manager gives you the ability to access your environmental control computer anywhere, anytime, to check conditions and real time access monitoring systems.

# Create new IoT environments To monitor and control

# SMARTFARMDIY

## GREENHOUSE SENSORS AND EQUIPMENT

7" DISPLAY TOUCHSCREEN ON YOUR FARM

Climate Control Systems Inc provides sensors and equipment dedicated to a growers needs greenhouse supplies for commercial greenhouses

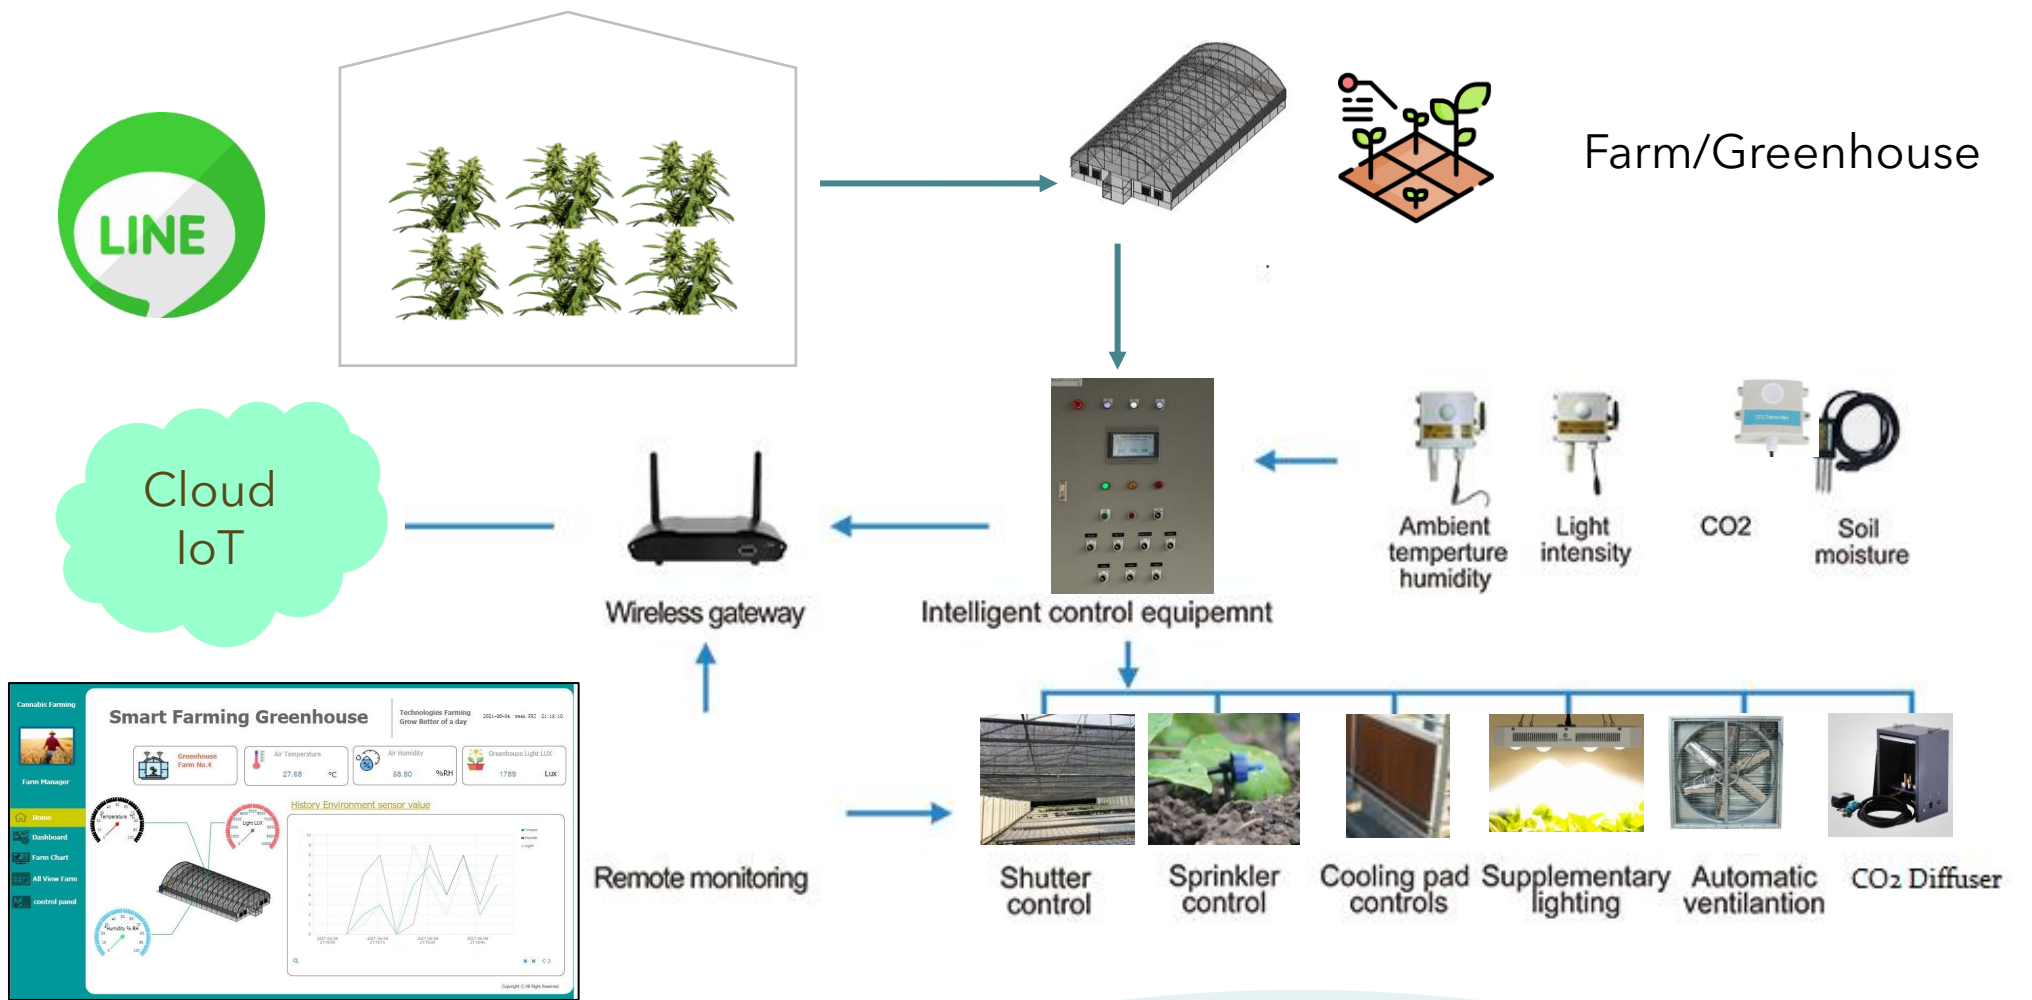

### Our Equipment

- Vent Motors/EVAP FANs
- Shading Motors systems
- Climate Manager Control Panels
- Temperature & Humidity Sensors 485
- Water Flow Sensors RS485
- E.C. Sensors RS485
- P.H. Sensors RS485
- CO<sub>2</sub> Sensors RS485
- Soil Sensor RS485

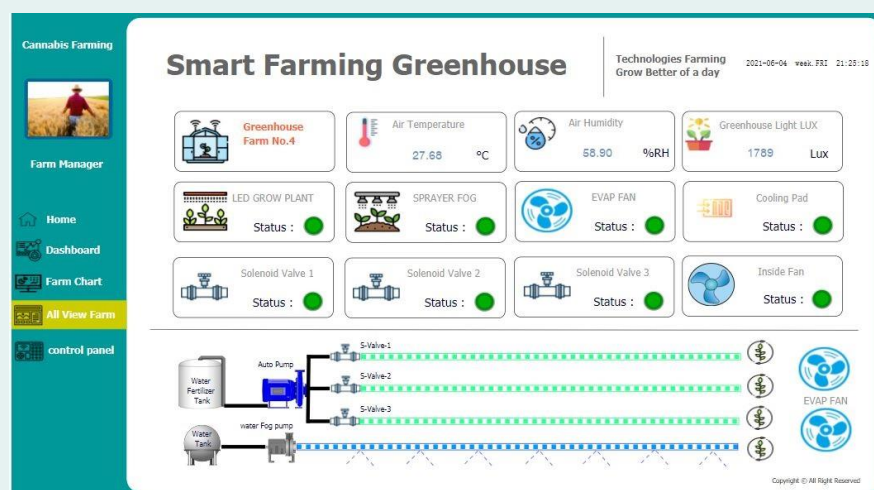

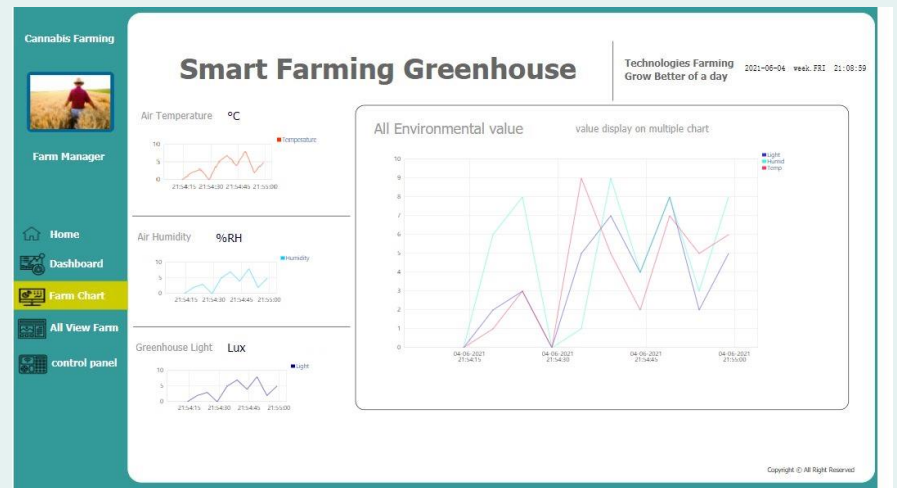

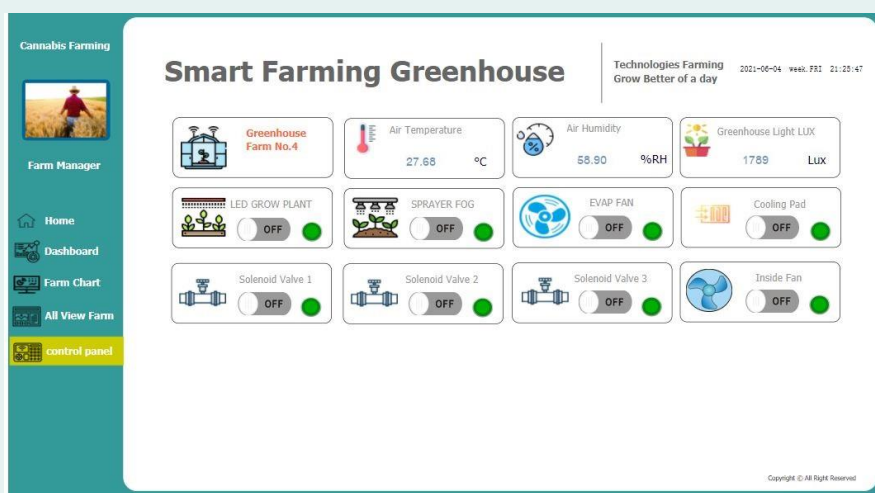

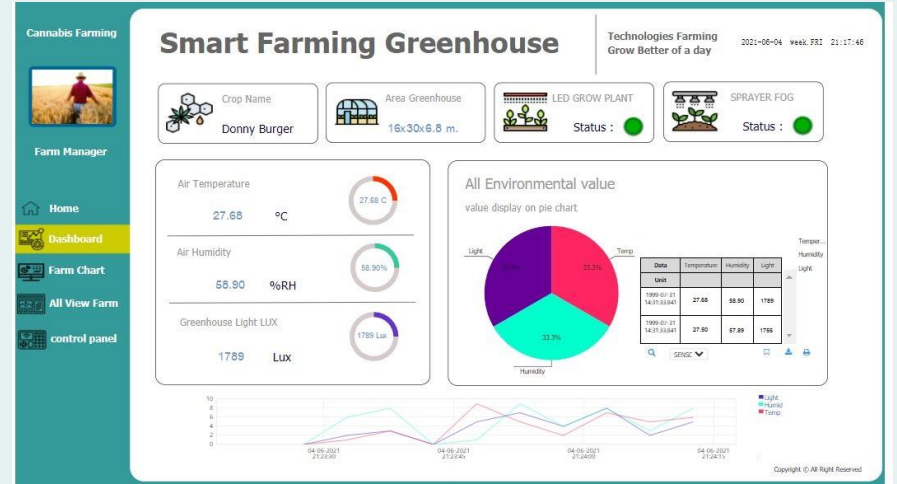

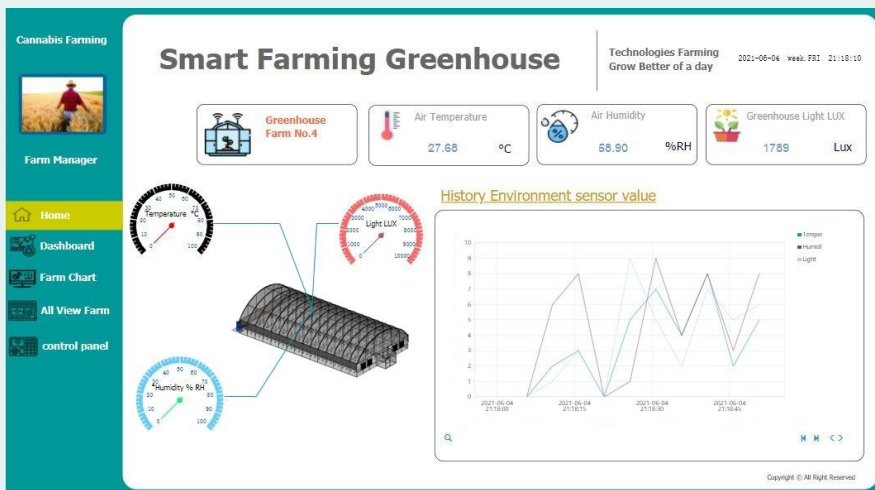

SMARTFARMDIY

# Complete Environmental Control Programs for Your Growing Operation

## DASHBOARD MONITOR AND EQUIPMENT

Temperate range control : 20-35°C  
Humidity range control : 30-90%
