

# Property tax Accountant

<https://www.taxaccountant.co.uk/landlord-tax/>

As landlord tax accountants,  
we are convinced that the  
buy-to-let sector will manage  
to grow.

Though UK Government had made changes to tax laws related to income from buy to let properties, some structures are HMRC approved and can benefit long term property investors.

A small landlord who owns no more than three properties has become a needs to plan their taxes. Landlords paying a higher income tax rate on their main source of income will always lose money to the taxman.

On top of that, there are different implications and variables affecting capital gains tax and inheritance tax. Our Property Tax Accountants provide proactive service to landlord clients and establish a partnership based on trust and understanding of their unique business needs.

As Property Tax Accountants, we are confident that we can maximise rental returns while minimising tax liabilities.
