

Full Time Intern / Working Student Full-Stack Developer (m,w,d)

WHO YOU'LL WORK WITH

You'll work as an essential part of an early stage Tech-Startup close to Duesseldorf. At Digitale Strickmanufaktur (DSM), we build technology for an automated on-demand textile production, that is connected to our customers in close to real-time via our Cloud-Architecture.

We want to grow further - that's why we are looking for a highly motivated intern to help take our technology to the next level.

WHAT YOU'LL DO

You'll work on different development-tasks of our technology stack, including Cloud-Architecture, Robotics and Frontend-Development:

- Build complex & modular technical solutions in close cooperation with our Co-Founders in C# and Python
- Integrate Robotics into our production system and ensure reliable operations and state-of-the-art testing
- Work on Frontend Development in Vue.js to further develop a Digital Twin of the production
- Integrate external solutions into the existing backend-architecture
- Work in an agile working culture using methodologies such as SCRUM or Kanban

YOUR PROFILE

- Education: Advanced studies in computer science or related technical field
- Solid knowledge of one or more general purpose programming language (C#, Java, Python) and a passion for software development
- Proficiency in Client/Server programming ideally with REST, data structures and algorithms, IP and network programming is a plus
- Experience in Azure-Cloud is a plus
- Understanding of modern software development tools such as Git

Interested in this position? Send your CV to info@digitale-strickmanufaktur.de and we will get back to you as soon as possible.
