06.03.2017

My name is King Peter Gottwald, today legally represent the new country's government Imperium of Diamond's in North Eastern Africa, and any other legally territories.

My interest is present for Your Institution The ELI, today my documents testifying about the current state of Europe and the level of the legality of European policy, for the capabilities of your intellectual enrichment.

My interests in relations with European countries are created on a form of conflict because of my awareness of internal political activities of an act of International terrorism that mean the loss of legitimacy of European law and political claims, and loss of rights of sovereignty.

My information shows that European policy creates in actual acts of genocide which currently number rapidly surpass the statistics of World War II, and similarly, the number of occupied countries in view of the law by violating the integrity of the state and the demands for development.

My information for Your Institute ELI, for the purposes of the capabilities of your studies and hence the ability to recognize the real consequences of the European crime ratio in the European, and as well as International law.

I offer You the possibility of using the information document, which reports on the basis of the European agreement on the protection of human rights, but look contemporary state violating this document, as my testimony of which is intended for the European Court of Human Rights.

<http://www.docdroid.net/D7Ceztp/>

I continue to present the document as a statement to be closer to the European position at the level of international relations at the document on the obligations of the EU.

<http://www.docdroid.net/EK47Qsq/>

I like Represent legally objectives and goals, so I create interest in the development of the legal steps that are headed towards the attainment of skills security and removing criminal structures in the center of European politics. Therefore, I present a document ID's Legal Protocol for European political parties.

<https://www.docdroid.net/BnvMjy8/>

Today, on the grounds that European policy actually creates terrorist opposition to the responsibilities of global security and peaceful cooperation, that way the reactions of the document who feel safe and secure cooperation at international relations.

<https://www.docdroid.net/IE86T2V/>

My personal development is directed to the stability of my Cabinet Office, because I am here today as a lawful king of European state and, therefore, I must be under terrorist isolation and blockage.

<http://www.theimperiumofdiamondsgovernment.populiser.com/disscusion/about-us/office>

If You are own interested, we can agree and jointly exploit any agreements resulting, for example the interests of business and smart development and International cooperation. In advance must note that my personal activities are Internationally under the insulation, because of the risk instability in contemporary performance of the Office of my government.

In any case, what interested my main direction of policy, I definitely want for You to present the possibilities of intellectual endowed with suggestions ID Act Silvester's declaration and motivation, meaning a document which at the International application can ensure the removal of all criminal networks on the level of world politics.
