

TO ALL RAADR SHAREHOLDERS, INVESTORS AND SUBSCRIBERS:

First, I would like to thank everyone for their continued support and faith, in Raadr. We will be Current before May 15th.

Over the past 3 weeks I have been working specifically at getting Raadr, back to a Current Status on the OTC Markets. We are very close! The company Accountant is pushing very hard to get all Financials completely caught up, including the upcoming Filing.

The investors that are going to fund the company going forward are a mix of Note Holders, as well as a Private Investor. This financial backing by these investors is very strong. They like myself want long term growth with our apps and brand.

We know this will ultimately have a great impact on the market. So please if you are a current shareholder do not panic! The company is getting current and ready to really make some big moves and advancements with our platform.

The Raadr platform has some amazing updates coming over the next few months. We have made significant progress with our facial recognition software on the platform.

We have also launched our bully Raadr App. This allows students to report bullying real time, to school administrators, or SRO's, Student Resource Officers.

We are also making significant progress on our Enforcement Raadr side of the platform. This allows law enforcement to communicate with schools, for "real time" data. It also will give law enforcement a huge advantage in fighting cyber bullying, online harassment and school violence.

Our entire Raadr platform is very robust currently, and over the next 6-8 months, we will have an incredible tool for the entire community to use. Parents, students, administrators and law enforcement, all will have an App, that will allow them to keep the children they care about, safe.

This platform will truly fight the "dark side" of social media!! Currently, we have over 1,000 downloads, on our Raadr App, which are growing continuously.

I am working on building relationships with local law enforcement to build the Raadr Brand organically, here in Arizona, first.

Once we eclipse the 10,000 download mark, we will then launch the App into a National Campaign. The month of October is National Bullying Prevention Awareness Month. We feel very confident in October we will have hit our goal and then we will launch our national Campaign.

I am very passionate about helping parents fight this horrible epidemic in Cyber Bullying, and online harassment, and I will continue to forge ahead to make Raadr a leader, in the effort to counter Cyber Bullying.

Again thank you for your continued support in Raadr!

The future looks very bright!

Sincerely,
Jacob DiMartino
