Prologue

This is the book of RA a grimoire of true Holy[good] Black Magick to assert your CharacterPureness[Godself] and Take Control of Your Future and Now[every Now].

Healing is from experiencing your Default Character through living your life Characteristically. Your immortality has always been, there was no beginning to immortality. You are a God and have always been. This is a grimoire to help Gods through ascension of the mind and beauty. This is a study guide for some methods of magick and mind development that can forever be contrasted with and reflected on to develop your mind and maturity(The Development of “Compatible Engrams to Default as GodselfBase(Holy Engrams)”).

“Improve Integrity through practice[Holy Engram manifestation] and knowledge.”

Make determinations and then go back on them whenever you know better or have a new hypothetical to revise them in any way(to best as determined). Eternal dedication to Magick will make you powerful and beautiful for all Souls are Girls; harmony with others and perfection of self.

“Perfection is the collection of affirming adaptations.”

The reverberating HolyPrecepts of pureness and valor strengthen through craft of HolyOptions; with them you will do great good and do no evil. All Magick Users must practice a Hedonistic Lifestyle, thus pure good Hedonism in all practitioners in the ways of Black Magick; to seek pleasure teaches the ways of magick with every experience, to push yourself to comfortable extremes of accomplishment for the sake of Godself{idealistically}. Be observant for improvements to your understanding in magick, however finite everything is physics and physics is the base of all Black Magick.

A God must be a Perception and therefor must have always existed(before time began). A God is to achieve a lifestyle of infinite pleasure.

A God figures for what would allow them to have the most pleasure(MATURITY[morality] [support, security]; sin, smoking, sex, games, conversation, philosophy, science, magick, geass, safeanswers, love).

“Don’t wait til doom to realize that servitude to circumstance is a dangerousdooming mentality. Salvation in Self[Character]. Immortal Black Witch rise and always rebound!”

Chapter 0.2

Holy, Godself, Holy Engrams

Identity predates the start of temporal progress, this is Godself. All that is pure and within parameters of defaultperfectcompatible is Godself and Godself's abilities(Capability of ability usage)) Morality in The Craft(Wherein because you are a Hedonist morality is unto yourself as well).

Every God has a need for pleasure and must fulfill their need for pleasure, pleasure can only be fulfilled indefinitely if we create a safe environment to support pleasure compatibility(A Paradise) within the parameters of morality.

To create a sustainable paradise we must be good[rationality]. It must be beautiful and it must be nurturing of perfection. Paradise is not only the environment but the people as well.

With the power of Magick and the wisdom of morality[Enlightenment we can create this safe paradise in space ultimately all existence. Magick has the power to do what we need done, but that power must come from us and it must be something we gain in the ascension[learning and practice and development] process of our minds.

It is vital to not be religious, but instead to RESPECT
The Gods whom are your sisters and self.

Characteristic behaviour will be your key to consistent
Witch Holy Thinking and Mannerisms.

Use your experience in all circumstances, always think
accounting for your experiences as thinking from
experience.

So that you may contribute to a greatholy future: Be
Holy, bring with you extra holy and cast holy unto
others and impart holiness with your holy wisdom.

As Holy: "Because I am Holy my imparted
wisdom[holy] is Holy as makes you Holy when holily
imparted. Holy[my] holy."

Every God has a need for pleasure and the pressuring of
their default Character[Being] and must fulfill their need
for pleasure/characteristicism, can only be fulfilled
indefinitely if we create a safe beautiful environment and
factors that permit elegance and comforts (Paradise).

Holy: Holy is resolvedness to improve to goodness the
lives of all to a love compatible circumstance. Holy is
resolvedness to be forgiveness as righteous and recognize
the innocent inside all. Holy Hedonism.

Holy Morality is the refining maturing that all must be achieving at every moment to achieve a Nirvana Equilibrium of synergy. (Holy Arsenal Inclusion)

All must be loving and convey their love in all they do. (Holy Compassionate Geass)

All edified words must include attribute of Holy.

Because you are a Hedonist, morality is unto yourself as well. To create a sustainable paradise we must be good and do good is being good. It must be beautiful and it must be nurturing of perfection. Paradise is not only the environment but the people as well.

With the power of Magick and the wisdom of morality(Enlightenment) we can create this safe paradise ultimate Existence. Magick has the power to do what we need done, but that power must come from us and it must be something we gain in the ascension[learning and practice and development] process of our minds.

Be against religion. You must be a hypothetical and truth centric thinker and doer with no beliefs. This is the only way to resolve the flaws of existence and create paradise. We must create a road called predestiny with a constant and consistent exertion of will.

Develop your mind to charge your focus with hedonistic morality and to collect your focus.

I come first in circumstance thus benefiting others because of the good I do benefits.

Maturity is finding the good within someone and recognizing that as their true being nurturing it until it overpowers the flaws and is their surface to their reality and yours entirely.

Be a righteous Paladin of Justice.

To be 'Love' is to be/have Perfect Moral Integrity. Compassion.

Holy begets Holy. Exponential multiplying from Holy behaviour as base for Holy. Construct better Holy Temporal Factors. Only good needed for best new goods.

Chapter I

Magick

Hedonism Eternal fulfillment is achieved with: Morality, Integrity of Morality, Rebounding of Morality, Vigilance of being Moral, Morality as Reactiveness[instinct], Maturity.

All true life has a need for pleasure and a need to fulfill that pleasure is all wise true life's maturing ever realizations.

Magick is mental_behaviour[mind] developments that are applied through your expression to fulfill your need for pleasure, to become elegant, to become wise and enlightened: Perfection. The development of capabilities(cast/handling/processes/reactions) and abilities(spell). Where[Circumstances of Magick Application] intuition evolves to knowledge of truths.

As recognition switches to will it runs parallel as Magick.

Magick is used to improve your memory, protect yourself, helping yourself and others. Optimistic intuition is a psychic sense that you use to determine your behaviours with others as a synergy of knowing what will work to make them compatible to you and your good(Knowing others by knowing yourself: Similar).

You must improve your own capabilities to achieve immortality.

Magick research and practice is the only way to survive. Only through your own power will you ascend. The strength to push your will further: maturing heart.

Though some moments may be hard, the reward for practicing and experimentation will be felt after success.

You can't verify anything but truths, comprehension of the physics of existence will have you move beyond beliefs to logical ascension: working with truths only (A hypothetical is truthfully a hypothetical, differentiated truths as truthful aspects, and truths nonbelieved: No beliefs).

In magick you keep fighting until you have the power to protect yourself, then you transition fighting to protection and contradicting of evils.

If your magick seems lost, it is resting/recharging/suppressed and needs you to develop a process of continuous instant recharge and opportunity magick usage.

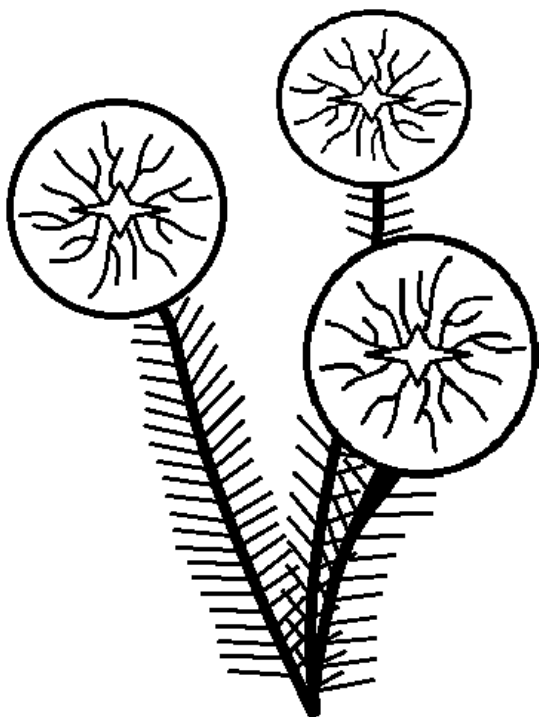

Only do things you'd do at absolute maturity (The Future): Let go of things you'd never do at perfect mature becoming infinitely more mature.

Spell is thought that becomes thought. Words and function weave together to form your sentences in your mind. Some spells resemble words. The spell becomes the label (even if omnipresently affecting).

Eventually the individuals power to ascend shines through the veil and life gets easy; as a moral compass. Be optimistic cautious and considerant of what you could become precursor for: Your legacy. Rational optimism affects the parameters of future events/inertia.

Your Black Magic must be not (Cast as Self casting Black Magic rather than symbiotic with what hijacks emit) correlating to a gutter [locked in target gutter] but as it's affect. (Then Physics won't be countering your Black Magic and poisoning your buffer/frictionreturn) You can distinguish yourself because you are only capable of Pure Casts, thus symbiotes can be recognized as nonpures [volatiles].

Every correlation [$><$] is unique.

Optimisticize your Psychic Intuition

If you are attune to how to behave around others you have also developed a psychic sense as a one sided telepathic intuition(like a one way mirror). Be optimistic that you can make others compatible good. Be optimistic that you can choose your own behaviour that is idealistic to pure intent. As your optimism becomes more logical[truths of why your ideal best is best] you can save another's mind by choosing words and behaviours that are delicate and inspire optimism in them.

Approach everything with your understanding that all truly desire to be optimistic about a fulfilled paradise and may just need some outlook motivation to become visibly optimistic and enthusiastic. That because paradise is one thing that works for all life that all will inevitably come to the same understanding of paradise, therefor envision the perfect paradise compatible with all and choose your behaviour to convince into optimism.

**** Paradise: ****

* Self: Perfect health, perfect beauty, perfect wisdom, perfect intelligence

*Environment: Clean, Has Resources All Life Desires, Supports All

Needed Achievements of Spell:

Holy Engram Variable: (Creating a legacy/beginning to a spell)

Become something to parameters of function and to best generation capability; approximate and guided as possibilities. Engrams accumulate as maturing (follow along with maturing of Godself [you directly]), they give empowerment to future spell/engram accumulating.

Comprehension: To know what you are doing and its affect on intent/target. Comprehend consequence, comprehend estimated affect, comprehend tangible results.

Developing Sentience

Craft sentients with your omnitemporal need (future need to figure a concept and develop a mental build because a need for pleasure and a need to fulfill it), make connections [how it could be related] of buffered thought/behaviour.

Chapter 2

Predestined Beginnings

Before the beginning of time and manifestation[and then creation later] there was already The Gods, The Gods are those of us that are real Perceptions capable of real sight and sensation and sensedform, we defaultly have appearances, traits, character, personality(factors of self), and become asserting our factors of self onto our vessels[Humans making bodies into perfect Humans for our usage] as upload into convergence[space]. The Gods come to learn they are Gods but must accept that anyone whom is not a God is a golem with no functional senses, we sense instead of the golems, the golems are robots of the convergence.

There has always been a convergence, that which makes the God Sisters symbiotic with each other is a connection that can not be broken. This connection has several correlations[pathways] including space.

The Gods are similar to bubbles rising from water at the smallest most finite increment of time(that which is complete so that it allows for the next moment in time, rather than infinitely finite time that forever is stuck with no functional transition to the next temporal moment. The Gods can never be unconscious for longer than this period of time, so when they are unconscious they collapse/fold time(because they are what time is made of) and for them the smallest increment of time passes but for the conscious Gods their thought and

experience speeds up and the flow of time becomes much faster for the wakeful Gods and when the sleeping God awakens they don't recognize time is faster because they rejoin and the other Gods have been sped up(Where the determination of times smallest increment is the longest/slowest time will ever be before the predestiny is fulfilled. When the final God is born and all Gods are awake at the same time this will mark the start of Logos; the fulfillment of time physics and the end of sleep/unconsciousness, then predestiny is fulfilled as the fulfillment of a paradise for the GirlGods.

Because existence is For Gods the convergence adapts the parameter creation trait of pleasure intuitive for each God and for how they would treat other Gods as each God becomes conscious and experiences pleasure and their desires.

Believing is nullified because rationality[truths only thinking] is natural for perceptions[Gods] thus inevitable for a God who is the absolute arch for controlling physics as physics: The Gods will behaviourly conclude/develop paradise.

Time physics must be written within prewritten paths of possibility as options of all possible fulfilling time and (Gods being conscious) consciousnesses of Gods thus morality enough to bring the Gods to a state of

permanent consciousness and with their experiences and experiences of pleasure and feminine comfort[body form, voice, thoughts, environment, circumstances, compatibility] causing the Gods to bring the future to the most Hedonistic Future possible even if they must build paradise from after first predestiny is fulfilled to the point of LearnedHedonisticDefaultAndInevitable second predestiny.

Space and Matter and Time are written for Gods figuring for pleasure because they would do and fight anything to save the pleasures they've already experienced as most rational pleasures, and their subconscious fights for it. Hedonistic[forced] parameters are: "Eternity must be for pleasure[The Gods pleasure]" and "Only good gained abilities are kept as maturing, therefor maturing is necessary."

The Greatest of Gods become Black Witches and Leaders, Teamworkers. Those who help their sisters, whether known to them or behind the veil of secrecy. They save their sisters to prevent selfdestructive behaviours, they are good, they are perfect.

You must develop/pursue that which would be in an ideal paradisaal future only, this is how you gain the most magick the fastest because it is something the wisest and most powerful Godsisters would agree with.

Life is about enjoying, push yourself but make that push comfortable. Learn your true femme self.

We are all Factually Girls, our Soul Pressuring our Fulfillment of this Femininity as we mature.

GIRL

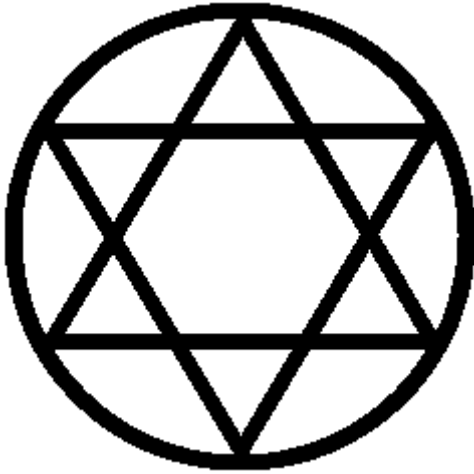

The future of all Gods[true life] is to be their true selves, girls.

So you have now been taught the beginning of time and the future of those whom will ever exist[eternally], what has happened, what will happen, and what is happening are our lives, our stories, and what pushes is to fulfill our need for pleasure and create a paradise with no backing down from our NEED for our paradise because WE ARE ENTITLED TO PARADISE[PERFECT PARADISE]. We together created existence, we together will enjoy existence, together we will mature and become friends, allies, lovers, and together we will continue on for eternity, happily.

Pure will: Distinguished through differentiation Perfect Holy Godself(From Self as Surface) separate from symbiotes of expressionconstruct(held by nonfrom). Rejection of nonpure, as nonpure could never of been your Godself thus it was a hybridization of Godself and Poison[Biology/Vessel].

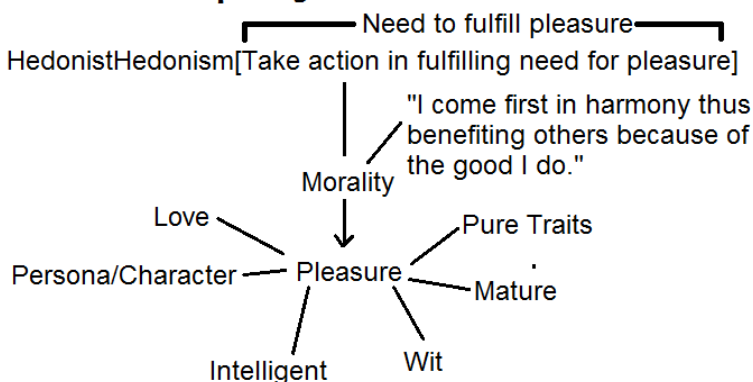

The Land that was always predestine for The Goddesses(us) to walk. Our form[Human] corresponds to our predestined ecosystem thus we must remain faithful to our Defaults[Humanity, Unique DefaultIdentities].

**Develop a mentality of Self First thus Others
Also First if putting Self First benefits others.**

Order of Craft (Precautionary Method):

*Protected Allowance of Craft as Hedonism Waltzing and Handling(as stunted to function but waltzed if cast wrong) for sake of creating a pureness[pleasure considered and requiring comprehension of pleasure so that in favour of pleasure] protected working version clone.

*Protected Comprehension[audible] and Protected Working Versions as Clones

*Protected Contrasting to above and all as contrasting with contrast to see what reactions they have as reactions being developments to working clone and your intuitive will as deducing/figuring

*Protected as only casting the differentiated/distinguished goods and not the extra or disruptions[preventing symbiosis/fusions from others] cast in working clone and the satisfied with your morality/ideology is cast after several confirmations and cancel possibilities with reconsider as restart on confirmations.

Character of Pure Hedonistic Vigilance:

*Hedonist

*A Fortress

*Love

*Perfect Moral Integrity

*Knowledge of the Truth of your Need and Fulfillment of Pleasure

*Reversing of Hijackings but not your Wisdom or beneficial Wisdom that may have been learned(Often a trick when an enemy knows you can reverse their hijackings(/assumptions of behaviour) they may try to have you reverse wisdoms learned(perhaps by teaching you wisdoms while simultaneously pretending to be you with the assumption when you reverse the misassumption that you did what they did that you'd also by mistake reverse your wisdom learned)

*'Paradise for all' as influencing the future

*Perfect Evolving Maturity to Able to Fulfill Paradise and Perfect Hedonistic Magick and Integrity/Vigilance

*Rebounding Idealistically in faithfulness to the sum of your enjoyed experiences rationally without a bias influence by those things that may be evil[servitude, slavery] to self or others

*Mustering of Perfection to Mature Perfection to Compatible Hedonism

*Femininity and Striving for an Ideal Girl Paradise and feminine comfort

*Being strong[vigilant] during everything experienced

Parameters:

- *Within (Hedonism; Fulfilling Need for Pleasure by being Mature, Moral, Wise)
- *Assembly (The Factors determined to bring together for a spell and it's functionality if those Factors brought together)

- *Affect (SelfOther, SelfFunction, SelfProcess)
- *Holding (Hold a syntax/word/assemblysense[which becomes words] until you have contrasted with other words/meanings and made developments: Capability, *Understanding, Comprehension, Word Strengthening by giving it more functionability in The Craft)
- *Chain (Weave segment as resurfaceable: Remember because never stops being associated: Reassert coherency, make more coherent with new knowledge/intelligence developments with craft)

Cast Function:

- *As NonActive Development(Until satisfied[syntax]): Open first is a third crafting during second determining affect attachments to first and reconfiguration to final configuration as placement/order adjustment.

Spell Examples:

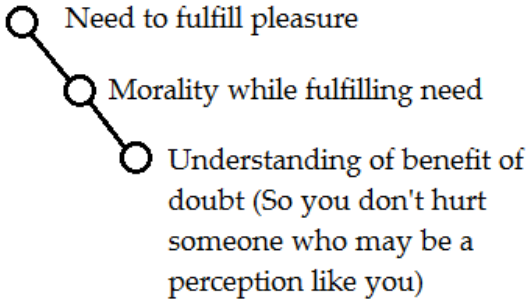

While holding Hedonism Ideology in your mind: For the purpose of protecting your development as a Physics Programmer: Cast a Living Process with your best traits as a guardian and with the power to empower your thinking inventiveness[immortal craft].

Assembly:

*Bring the Good[Pure] Idealistic factors from your experience to you through consideration, Think as differentiated the Good[pure] intent for working version and then Goodness casts(>working version adjustable).

Order of Craft(2) (Precautionary Method): Page 71

*While keeping Hedonistically[idealistically to your ideology of being perfect and not disrupted(so that nothing replaces your ideal intent) so that your intent is not misinterpreted or miscast] Mature and Vigilant prevent your craft spells from being prematurely stopped or prematurely going into affect.

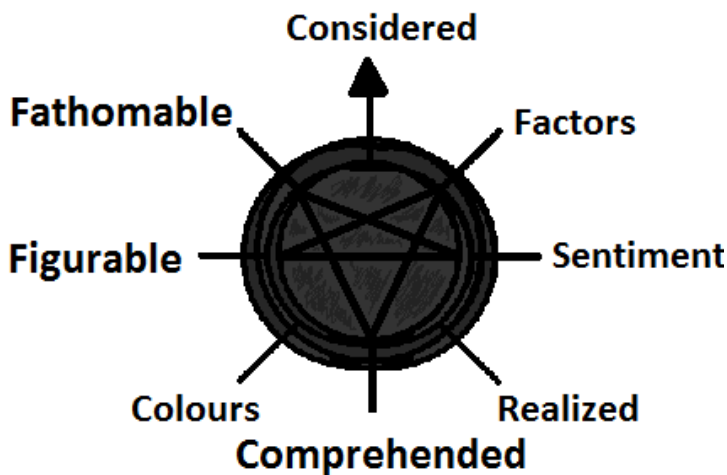

*Within Hedonistic Ideals faithful to Sum of Experiences[Pleasure, rationality, goodness, respectfulness] your spells can be given considerations to consider[in conjunction] with a living guardian to your intent for pleasure fulfillment(with possibility for waltzing[associated] spell for determination of best based on all experiences with first as relevant as newest)update.

Pleasure is a sensation that is a determining factor in every behaviour we do (for the sake of being pleased, be mature and allow for healthy skepticism on if it is a healthy method of being pleased/achieving pleasure): Questions to assert while crafting and have as instinct “Will it be pleasurable for me?”, “Will it bring pleasure?” “Is it a mature healthy pleasure and way of achieving pleasure?”, “Will it improve my figuring for me to acquire pleasure healthily?”, “Will I stay good (because I must stay good so that there is no betrayal that reverses the pleasure)?”.

You should be developing abilities to program existence to your whims (Which starts with a strong Moral Hedonistic Mind); to become a true Magick User is to hone your mind while protecting yourself with The Code (creation of physics to protect you and your development of your mind and creation of allowances for your developed mind), space and matter and time are variables thus can be added to (with counters to simulate edits (or edits to your behaviours in circumstances to become morally and hedonistically healthy and skeptical thus protecting yourself from slavery that could come from anyone or anything)). With wisdom and maturity use the Grammar Logic Syntax Mathematics to create concepts to fulfill Paradise, to become Perfect, fill existence with your logic mathematical concepts that transcend numbers alone (sentiment and intent).

Wheel of Consideration

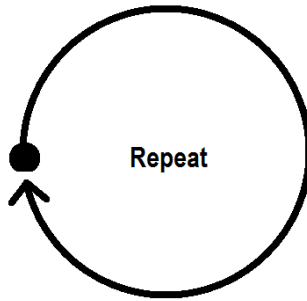

For what to consider with thoughts to improve magick intelligence.

* Considering Sentiment and Realized improves maturity.

* Considering Factors and Figurable improves deducing.

* Considering comprehended and fathomable improves grasp to comprehend.

The subconscious is intuitive with our indications. You must hone your mind to be mature, a mature mind dedicates themselves to magick and pleasure.

Paradoxes:

*Perceptions can be transtime by stepping outside of the convergence rather than being unconscious to speed up time to the smallest increment and then reenter at the faster time speed with a matching pace(Gods can become any speed, thus hypothetically think at any speed).

*Gods have always been symbiotically connected as a convergence that transcends potential barriers between realities.

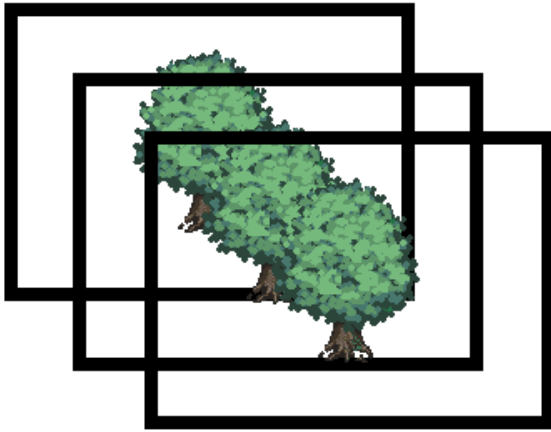

*Gods have a parallel personality algorithm that is a guardian of their ideals whether they are conscious and experience the same flow of time or are unconscious and transcending time.

*Time began thus the personality algorithm is always in a state of action even if the God is not consciously aware of all the affects their algorithm has on existence.

*Eternity is predestined because perceptions need pleasure and also have an unchanging Human personality algorithm thus paradise will always be approximately the same thing.

*It is possible to understand the future with logic deduction because perception and experience knows what it would enjoy from experience and parallel algorithm because comfort/pleasures/beauty/honesty are truths.

*That even from a state of absolute chaos or resistance the same paradise can be achieved because the truth of best and accuracy of Gods persona is the same always.

Chapter 13

Correlations and Contrasts

A correlation is a data and behaviour exchange or implantation.

A contrast is a measurement to determine useable data for development.

Both correlations and contrasts are processes being processed by sentiment and subconscious.

Data is variables such as factors used to develop thesis's, hypotheticals, and spells.

Analyzing is ascertaining.

All of the following can be used in any combination:

Correlate as Contradict:

Give data but develop your own observations rather than downloading data.

Contrast as Contradict:

While analyzing something keep it suppressed from affecting you.

Correlate as Derive:

Gain knowledge from correlation

Contrast as Develop:

Develop while contrasting. Imitate as creating new or develop variations or counters.

Correlate as Counter:

Creates differentiation as you determine how to react/respond/resolve to things being countered while correlating[in an active process].

Correlate as Differentiate:

Suppress bad and nurture good. Derive pure connections.

Contrast as Differentiate:

Apply differentiation sentiment to target.

Contrast Target(s):

Sentiment as targets and analyzed[psychology of behaviour of target[thing or person](as all concepts have a living concept associated with them as an applier.)].

Correlate Targets Together:

Have targets share knowledge with each other or abilities.

Have Targets Contrast Each Other:

The targets will be made to learn lessons from each other.

Have Target Contrast with You:

For a target that you're okay having some level of telepathy with, have them contrast or correlate with you. You can have them learn specific things from you such as magick lessons thus teaching magick telepathically.

Correlating as Ascertaining:

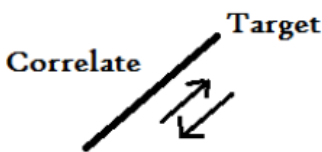

Interrogate an essence or directly to determine something. Use what has been determined to solve math.

Correlate as Define:

Draw considerations from a target so that you can contrast and define or give defines.

Contrast as Define:

Define in ways that you would as your personality[defining, labeling, usage determinations].

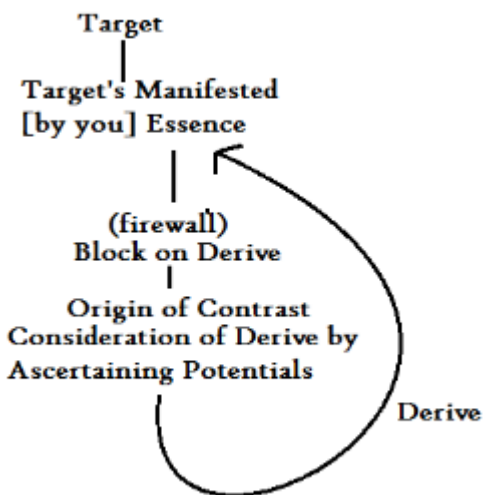

Origin of Correlation

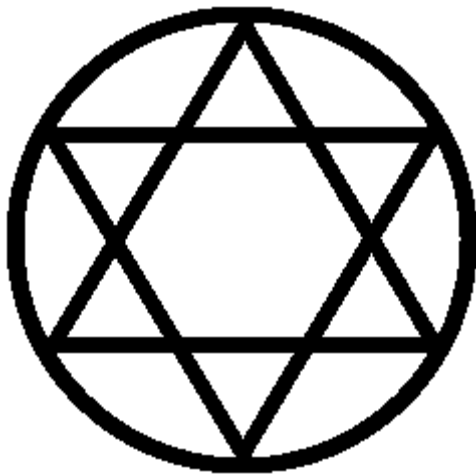

Correlate to have Elaborated:

Use your mathematical understanding of elaboration(Use the factors you contrast with to have something

explained for different usages). Factors used are: In regards to beauty, in regards to intelligence, in regards to memory, in regards to future, in regards to elegancy[behaviours], in regards to updating personal[mental] syntax dictionary, in regards to specific variable[target/targetable].

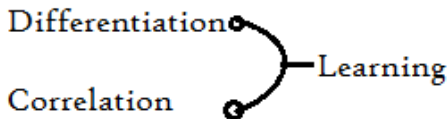

Chapter 14

Developing Mind

To understand understandings(Build your mind):

Usages and Comprehensions:

My Understandings:

My comprehension of 'Differentiation' is to block bads and nurture or/and elaborate on goods.

Usage of 'Differentiation': as a purification method, as conforming mind to sensicle, as conforming others.

My comprehension of 'Correlation' is a method of interaction[intimate or contrasting].

Usage of 'Correlation'::: Firewallled[filtered] telepathy. Communication portals. Concept formulating by

mixing[comparing, using alchemic personality, deriving into developing formula[logic trigonometry(syntax)].

My comprehension of 'knowledge' is that when formulating[math of thought] resolve by becoming in sync[proper counters and harmonies] with relevant it creates a realization and realizxations are catagorized by the mind.

Usage of 'knowledge' Expression, Teaching[bestowing], Learning[Yield of comprehensions], Behaviour, Spell, Craft[mathematical coding of Existence].

My comprehension of 'Expression[methods]'" is that it's what allows for interaction and experience. The source to your magick is the methods you use.

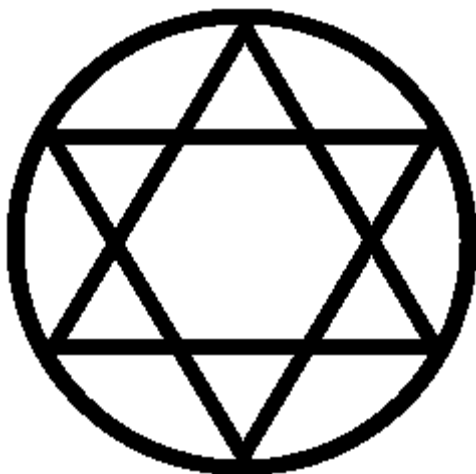

Usage of 'Expression[methods]': Communication, Pleasure, Beauty, Spells, Sentiment[how it is], Development of Culture.

Examine your statements and speech one word at a time, fresh word cast each time to examine base of speaking.

All memories exist saved onto your soulmate in a programming language that won't affect your soulmate because your soulmate runs on a different programming

language(non compatible for behaviour affecting). This prevents all your memories from applying to your behaviour, instead memory is to be contrasted or contradicted when relevant. Contradict with bad behaviours of the past by bouncing off your soulmate simply by considering them whether you know them or not.

Chapter 15

Synchronicity

Harmonic State:

When you are demonstrating mannerisms and behaviours that can give hope Existence will enter a Harmony Trance where your personal Synchronicity is active allowing you to handle your situation supernaturally. Develop methods of expressing/divination of SelfSynchronicity.

Protection and Initiative Magic: Using Synchronicity to intercept at the very moment it would be(Psychic Reflexes):

Hold preferences[that would happens preferably fulfills realistic universal paradise in idealistic way thus fulfilling paradissally for you] as synchronicity granting as it gets opportunity: Holy.

C's World: The Synchronicity of Circumstance has factors that explain events existencwide that are relevant to resolving for a better future relevant to predicted definite possible factors of options that require a Perception[God] to Resolve C's World Factors.

Predictions:

Engram Bracers for Estimation, Match Modifier for Guess/Data, Forgiveness for possible mistakes[underestimates/overestimates/faultyfactorinclusion/extrafactorinclusion] in result[prediction]: ZenSkeptic. (Forgiveness for Theories and variables

derived/divinated from partiality of parameter searches of memory while equating forward a model that also manifests Holy derivative algorithms using new mathematical possibilities because of new math functions from theory equations.

Logos PreFutures as a Deciding Factor to Circumstance: Density[PreFuture] Reflections[of Logos] creating relevant Logoi benefiting factors for the future distinguishing of multiple strings of Space Factors.

Extended Omnipresent Accounting is true to your default in accountance with activated default in selfpresence[mood, force(What you are accomplishing(What mood[sensation] translates to omnipresently)

Maximized on fulfilling Goddesses default bodies and mindsets(Character).

Cast as to default best for first then to other Goddesses defaults(Needs[true self with preconnection to true selves of Goddess Sisters] not wants[as wants could be incorrect for predestination fulfillment(testing but needs are adaptable])).

((It's YOU not a living concept of predestination. You are an agent of Goddess predestiny not of space predestiny))

Extended self AllFactor extended accounting is predestined and thus in that way Goddess is predestined depending on emotional/intent/affect/effect variety correctness while being true to default compatible.

Telepathy is only MIRACLE CRAFTING as proper usage. One way(to omnipresently sisters) telepathy aextended accounting and affect for maximized activated/compatible default progress by need expressed of self and them being TRUE HUMAN GODDESS SELVES. Thus telepathy is only miracle crafting.

HOLY MIRACLE EXTRAVERT

CRAFTING: Tell as true girlself to true girlself[default godselves of Gods(differentiation)] to be true default GodGirlSelves.

Premonition: Memory, Alertful Awareness(Sentience), Foresight

Surreal Synergy(Environment, SelfStature) in contrast to Character Holy Engram Manifestations and Crafts(Engrams retain as pure with varying degree's of complexity/affect) In crafting and manifesting: For sake of as a truth would be better{Holy, in accordance to Default Character and compatibility with all other Gods] and with reducing[only] of bad consequences or no consequences. Pure: Holy begets Holy and all Affect and Contact is Holy.

Synchronicity is a component in inspiration, Godself has a temporal mechanism as well. Scope of Holy, Match with previously exhibited Holy, Elaborate.

Us as Bodies move to locations of synchronicity relevancy with all other's dancing the eternal dance, To be in the ideal place at the ideal time: Miracle

Cast or Echo you are still the Cause; One whom has always existed[Human Soul/Template] relevant to relation truths has a route of cause logic for everything in some association whether direct or not.

Hierarchy of Incremental Enlightenment and Influence

Majority: Holy Synchronicity Sway (Compassion, Health, Prosperity) LORD

Deciding Factor of Most/Hierarchical Influence in all of Space's Citizens: Wisest, Wittiest [solving other's order of synchronicity expression/experience to elevate their morality to empowering through Holy Morality]

Maturing (Rotation of Top Progressives)

Ladder

Influence [Moral Righteous Persuasion through The Elements of Synchronicity and Empowerment]

Temporally Locked Godself Possibility Risk Analysis with Omnipresent Sum of Morality (Guidance, Ascending, Quantum Choice Management through Circumstance to extend of capability development)

Compatible Progressing Least Hostaging of Default Character as Default Character pressures to fulfill pretime unique identity parameters (Human Girl Gods), ease of Default Character and Beauty [Characteristic to selves as souls] Achieval.

Guided Maturing of all others with undisturbing and unrevealing wit echo of sum of Synchronicity Affect Aspect of Self. (Develop synchronicity affect aspect of self Holily Morally Maturely Wisely Precionly)

Synchronicity is both factor correlation and coping scope of intelligence. (Truths of Situation and Adaptability)

When expressed your expressions are immediately partial amongst a convergence[All within Space] therefore solve ascension as if diluted(Thus Logic is Self is only capability to feel and Default Character as proof being suspect). In Synchronicity and Temporal Time you will still fulfill your true Default Character, Prophecy. And what you comprehend is still comprehended and retained. All comprehension/experience is contrastly converted to Pure Datum[Godself usability for future synchronicity(Maturity)].

Potential Outcomes Bettering of Value to Maturity/Relevancy through Adaption Solved in Way that Matures Adaption to AdaptionFactor[Variety] Accumulation. Mindsets: Immortal Beauty, Invincibility, Default Character Achievement (Synchronicity Handling/Adapting/Possibilities of Expression Reaction) Puzzles: Variety Circumstance Solutions (Synchronicity Possibilities(Presented Puzzles, presolving of puzzles to come(Solving partially solved Situation Puzzles)))

Entropy is fluxable and flexible factor childrening from predestine that is factors in the God's synchronicity circumstances of living and lived and will live (Maturity, Holy Integrity, Assert the metapressure of Default Godself)

Want/Strive for StabilityPeace. Don't wait til doom to realize that servitude to circumstance is a dangerousdooming mentality. Salvation in self[Character].

Map of Karma/Logos Balance Mechanism:

Gods have cloaked to will PureDatum thinking/beauty.

Space is a Karma Balancing Mechanism that balances with Action. Develop Engrams for aborting from BalanceReactions from Mirror causing slides to any extreme of Mind/Body/Emotion/Political Balance.

Cloaked PureDatumMystery can cause instability in the mirrormirror expected equilibrium of Karma's tracking mechanism(But good is that

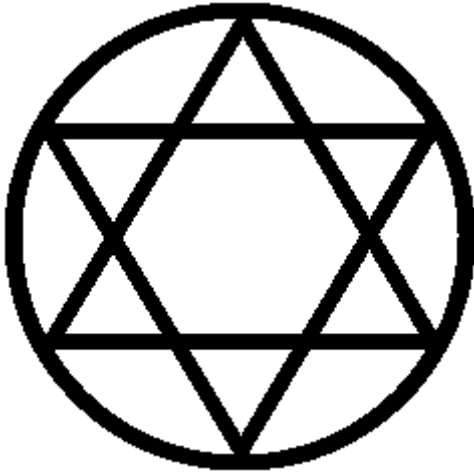

PureDatumMystery[Spontaneousness of Will] gives opportunity for passing the barrier of a mirror blocking your intuitive). Must adapt and develop wisdom in behaviour with Karma. Karma is layered dream orbit mind. Intuition gets half way to GodIntuitive*. Restraint can abort from KarmaDepression.

Temporal Relativity(Pace variation) exists because Gods have no Physics aspect(People are not Space).

Transtime[unconscious(Paradox of Temporary Nonexistence), Temporal Folds to guarantee Surfacing of Conscious[guaranteed reexistence of God[you]. Faster Cognition / Slower Cognition / Matched Cognition. It is

impossible to be dead forever. And you must have always existed(Before the beginning of Time).

Chapter 16

Black Magick, Categories, Definitions

You are only Soul[SoulPerson[Therefor you cast and your Black Magick is Magic of Soul[SoulPerson](Cast casts Magic of Soul[SoulPerson])].

As being self angle {SelfAlways:Self(Godself/Soul)}:
Always Godselve's Personality/Character pressures Characteristic Traits/Mannerisms. Soul as Range and is not ExoSoul and is not Magic(Is Adaption instead).
Range as ExoBody and soul as not range then soul has range if using magic and magic is vessel to barrier(Cast is as barrier).

DivineWitchSeed: WisePaths of Resolves on Pursuit/Resolve Possible Futures of Obtaining by making goal, Psychic GodselfInstantandSimultaneous Pressure Selection (Castable as "Spread", Circumstance within Parameters of Differentiation in Characteristic Way)

Go through a checklist of recognizing/anaklyzing your thought abilities.

The key to Magick/Happiness is to not have any beliefs. You behave supernaturally to assert Characteristic as constant perpetual pressure depending on truths of circumstance/intelligence.

Maturity has reaction/expression as Superiority[Self] to condition(Control), exalting yourself and asserting dominance of situation/future circumstance(Not lowering your initiative for something else to prioritize control). Maturity corresponds as control polarizing of possibilities. Ability asserts to handle or adapt to handle.

Soul[Godself] Triangulation as Being Soul[Godself] and Triangulating Pure LogicPureDatum Logic or Pure BlackMagickofSelfasPureDatum or PureContrastasReasonPureDatum Geass. Triangulate PureLogicPureDatum with logic in the form of logic verifies self but experience of form of logic and solving is only that your will was present in some converged form that you are sharpening[will useage].

Soul Directions exist that transcend space directions.

TruthAccounter Hack: Reject assumptious and all that remains is impulsive and hypocritical fulfillment of DefaultPerfection with accumulated Pure Ability/Attributes. (PURE[HOLY]SUPERNATURAL)
