

“Even though I don’t have an answer to my science friends, that is where I stand.”

— DR. TIMOTHY KELLER

LEND ME YOUR EYES IF ONE TAKES THE TIME AND LOOK AROUND AT THIS PARTICULAR HANDOUT. Okay now one’s reading this I had issued a unique challenge to the Independent Fundamental Baptist establishment – as they’re aware of my explosive 2014 blog entry, King James Only Examined the blog entry that complimented this. They not only get to challenge these blog entries, but Digital Wasteland, Am I Making This Up, [The Infamy Raines](#), and The Ethereal Gazette: Issue Five.

The catch – minimal quoting and parroting Scripture in their narrative. *Don’t hide behind Ephesians to [advocate censorship](#) of strong language because I will point out something with their own respective translations.* It has the words ‘piss,’ and ‘bastard’ within the pages of their very translation that they hold near and dear. They not only are challenging this blog and the respective publication but also I Fired God which was something that I would say sounded like one of my holdouts. Don’t borrow your language from the Latter Day Saints either as I can torque them to the very core. I am providing a boatload of information and yes this will contain some harsh language I will say get over it because I published with strong language and have a history of doing so. I will not be wring anything personally for this but I will help with other aspects.

When one is not shy to employ strong language as some preachers have an abject terror and abhorrence to the notorious queen of all strong language. I am on par to Sam Jackson when using it as I am known for this too. I use stronger language than the creator of The Boondocks as looked into some of his respective episodes and compared notes as I had invoked similar backlashes before he was published. The font I am ultimately employing for the layout of the publication is [Teletype](#) which is the very font I used to publish Issue Five in 2007. DON’T COME OFF THROWING COL 2:8 AT THIS BECAUSE THAT’S WHERE THOSE WHO USE IT AGAINST ACADEMIA OR USING OTHER VERSES AS ACADEMIA CLOBBER AS WELL. I know about the whole clobber passages as I speak out against homosexuality on a scientific level and on a level from social studies.

I am giving each person interested in this particular project a generous word count to toy with to being with 2300-6900 words and must arrange it as a linear narrative framework. Study what Creative Nonfiction’s guilty party does with his journal. I equate those who are journalists who adhere to young earth creationism to those who engage in gerbilism; and yes that’s a nasty implication if one looks this up on Urban Dictionary.

I am even providing this article from [Biologos](#) speaking of what some of us drew our own conclusions about when science and God are not in conflict with each other if they look at it from the right angle. Some of you here will be looking at this publication – [Show me all your Scars](#).

“Gasp! What are you showing us? We don’t want to even discuss these things!”

As I am sure some of them here would throw scripture at the problem; don't – because when one reads about Peter S. Ruckman's son and Pastor Rick Warren's son then starting the dialog is the right thing to do. The Pattern Of Diagnosis and Damnation Observes both invite the dialog as I am linking a video Pastor Bob Beeman did [speaking of Chester](#) from Linkin Park. Lee is the one who gave what I did a name; but I gave it a sabertooth tone meaning I gave it a darker sleek sheen when doing it. This [publication](#) I am linking compliments Issue Five in every way – more so *The Pattern Of Diagnosis*. I strongly encourage everyone to pass this portable document file to every person who is faith based and curious about what we each did – and with my own blog entries being in depth. This project I'm choosing to have anonymous involvement.

I in the editing process but having giving the project in mind the DNA that also made [The Ethereal Gazette: Issue Five](#) what it is. I am even encouraging Latter Day Saints to challenge the article Huffington put out there about what Joseph Smith was revealed to be. *Friends don't let friends plagiarize or enable them to write using "oh my pickles" or "sugar" in place of the fecal bomb.* As in get over the use when the masses and Christians also use the word "SHIT."

As in spend the ten spot to get this publication so one can see how it's done in print then read [the tumblr blog](#) entries as some of them are in depth. The submissions study the methods applied on Archive of our Own to see how they did it and develop dialog from this. Young Earth Creationism or that aspect is not only bad theology but also bad journalism too. It's spreading [misinformation](#). This [blog](#) in 2018 discusses the cruel aspects of how young earth creationism is. Prepare to have an answer yes as it's [related in the pages](#) – though don't even think of giving a damned [Sunday School](#) answer to this.

Narrow is gate as some were taught; but how does one define narrow when educated in a junior college or a public high school framework.

This project I am overseeing some of the other aspects – the visuals including the costuming (the female contributor will do a challenging photo. A GENDER FLIPPED VERSION OF THE LAZARUS OF THE FOUR DAYS A.K.A. LAZARUS OF BETHANY.) *There is a book that emerged when Issue Five was introduced and I am going to [include this here](#).* If some of you reading this are a bit skiddish about strong language, one could see this article The Babylon Bee [presented](#) – alleged replacements for the historic profanity as I will share the links about the rich history of the language my roster plays with.

He jokes, "**A GOOD F-BOMB REPLACEMENT IS HARD TO COME BY.**"

Some of you reading this might try to sneak "*Holy Chick-Fil-A Bibleman*" as part of your narrative; but to match THE ETHEREAL GAZETTE: ISSUE FIVE's distinct signature one must not be afraid of f-bomb. The Fundamental Fundie facing off with me wasn't prepared for someone who was well versed in Greek Philosophy to really chew him out as I knew how to defend the use of the [extended middle digit](#) too from those who complain about rude gestures. Telling an Italian not to swear as long as it's not religious profanity is considered rude. *I will say that Mary Jo and Eric Hovind are not even qualified to write Harry Potter Fanfiction, let alone instruct the masses on science or social studies.*

I am going to even e-mail the church I weighed in on and ended up decimating their arguments to get permission to publish their infamous Heaven and Hell [sermon](#). I am inviting the readers who get this portable document file to examine [HOLDEN'S COUNTERPART](#) to get my signature and register I did when I wrote this. I even noticed the pastor in 2018 from King James Only Examined is no longer around – as I asked if he was getting his brain picked by this conception of God. *One aspect I would like to see interesting is seeing an IFB character get handed a copy of Issue Five and discovering how David edited a book for a*

preacher.

The world that the Independent Fundamental Baptist has is a troll logic and sometimes one needs to have little playtime with their intellect. When someone commented on my King James Only Examined discussion I asked them if they read *Catcher In The Rye* – she snickered because she said, “*The profanity it’s nothing new I read Catcher in high school.*”

The Pattern Of Diagnosis has a register similar to [David Foster Wallace](#) (1962-2008.) Ramsey Campbell had the gall to accuse me of plagiarizing Wallace when I wrote my respective work. I didn’t see his particular outing until years later as it was published a few months before mine first surfaced in Issue Five – I didn’t see it until 2015 though.

I had told Ramsey Campbell that he had a lot of nerve to accuse me of lifting from Wallace when I wrote this. I will show you the [approximate word counts](#) of the books in *The Bible* and the thing with Anointed Writers Group only a [few hit the range](#) of *The Tell-Tale Heart* or [THE CABBIE HOMICIDE: OCTOBER 13, 1993](#).

“THAT PROVES MY POINT YOU ACT LIKE YOU ARE TWO YEARS OLD REPENT BEFORE SATAN DESTROYS YOU.”

“Do you live in G-rated movie?”

“No I accept the boundaries of Jesus in an R rated world that you love.”

This one didn’t appreciate that sarcastic response.

Keep this in mind, Noah was a drunk, King David couldn’t keep it in his pants, Christ told religious leaders to “DRINK PISS” and the apostles discussed race.

I am going to leave this in [the link as well](#) for the masses to observe as well as everyone will have something to see too as I am going to park the graphic here also.

As I will suggest that the Duggar daughter who made the [infamous controversial](#) comment about the ties to the [Holocaust and Evolution](#) – *that’s clearly pure ignorance*. I had made an explosive remark in 2014 to a rival editor when he scoffed the plagiarism I caught in the act – he dismisses it as a prank, “YOU MIGHT AS WELL DENIED THE HOLOCAUST!” art as one can read the rest of this behind the [link provided](#). I will provide what Duggar related as then used *The Living Bible* as the version of what she said.

“It’s no coincidence that AiG is constantly trumpeting the idea every chance they get that, if Genesis 1 and 2 are not literal, play by play, cohesive accounts and the genealogies in the OT are not completely thorough, detailed, and comprehensive, then the Bible has no truth value in it at all. You’d think, as believers, they’d at least recognize this as a very risky proposition. I mean, it’s one thing to believe Genesis 1 et al is literal; it’s another thing altogether to convince people that every truth Christianity (or Judaism, I suppose) might possibly have to offer is entirely bankrupt if Genesis 1 is not literal. You’d think actual believers would want other believers to have options.”

All right one seen that – I invite everyone to give this an honest look at the discussion as it drew a good number of replies. My own responses on a few Disqus boards saw some hostile responses too as I asked the one if he was a King James Onlyist. And please for the love of truth, [do not invoke this wording](#).

That’s the reason why *The Pattern of Diagnosis* was so well received in the underground

circles because I refused to sound “churchy.” So keep that in mind for the audience one’s addressing – writing with minimal quoting and use it as a book end then use other translations aside from the Authorized Version because no one speaks like this. David had this as the King James Version but I am using the New Century Version [for this](#), “Write down the vision; write it clearly on clay tablets to whoever reads it can run to tell others.”

Now that’s out of the way – this pdf is for fair use and distribute this how one wishes as I will have the body of the project as a .odt file. Anyone wants to do this collaborative edited project; drop me a message on my reddit.com message with any questions one may have. If one can hit 2300-6900 words easy I will talk with a few of my correspondents and friends to host the project (ISBN, LCCN as I will get that with out of my own pocket but I will not be getting this as a contributor copy after it’s designed and body of the project is passed around.

**JESSA SEAWALD'S WILLFULLY CLEAR
IGNORANT STATEMENT ON THE HOLOCAUST**

I walked through the Holocaust Museum again today... very sobering.

Millions of innocents denied the most basic and fundamental of all rights--their right to life.

One human destroying the life of another deemed "less than human." Racism, stemming from the evolutionary idea that man came from something less than human; that some people groups are "more evolved" and others "less evolved."

A denying that our Creator--GOD--made us human from the beginning, *all of One Blood and Race, descendants of Adam.*

The belief that some human beings are "not fit to live." So they're murdered. Slaughtered. Kids with Down syndrome or other disabilities. The sickly. The elderly.

The sanctity of human life varies not in sickness or health, poverty or wealth, elderly or pre-born, little or lots of melanin [making you darker or lighter skinned], or any other factor.

"You are a poor specimen if you can't stand the pressure of adversity. Rescue those who are unjustly sentenced to death; don't stand back and let them die. Don't try to disclaim responsibility by saying you didn't know about it. For God, who knows all hearts, knows yours, and he knows you knew! And he will reward everyone according to his deeds." -- Proverbs 24:10-12 The Living Bible

May we never sit idly by and allow such an atrocity to happen again. Not this generation.

What one does is prewrite their submission, download the fonts needed then past the story as one would see the paragraphs arranged in the document.

One will need I mean this no pissing around -- LibreOffice is a must for this to even pull it off. This print presentation will be hosted by another.

But have your submissions proof read and grammar checked; dialog right and everything in between. This project will be overseen by science minded and philosophy literate crews so one can see where the others might be intimidated by such a concept. So if one has the urge to use Col 2:8 at us; a lot of us apply this to young earth creationism.

So what I am inviting King James Version Onlyites, Young Earth Creationists and Independent Fundamental Baptists. Then those who are so vehemently against reasonable concepts – I am clearly doing the invitation to challenge my roster from Issue Five’s research.

Though I am going to clearly state one must own Issue Five in print and study the publication cover to cover just to see what each of us did.

Getting the pdf version will be cheating because I am encouraging those who get the print to loan this to their neighbors and friends. If one one claims that Issue Five is beyond fucked up because of our concepts.

One clearly failed to understand what we’re the embodiment of as I am going to link Lincoln’s speech.

[A HOUSE DIVIDED](#) AS THIS PUBLICATION THE SPEECH WILL BE OPENING THE ENTIRE PROJECT UP. If one is interested in taking up this – this is what one does, upload their contribution to Dropbox and message me with it.

This is what Jessa relates of The Holocaust as I'm friends with a Russian immigrant of Jewish descent I am not pleased with this statement.

I am sharing this from Jessa Seawald's [Instagram](#) remark and also grabbing the picture – *I changed the translation of what she used but one can see it here on her own posting...*: The presentation with her picture too I am giving the face behind the words and yes everyone who reads this – challenge her ignorance towards social studies in print. Please buy her *An Eye In Shadows* because that's something to show what I saw on Independence Day in an other part of the world then someone drop her my thesis, [The Transparent Confession](#). I am inviting those who read this and young earth creationists to challenge my thesis as well in print.
