Our Minecraft Server List

Parkour

Parkour is where you maneuver through various obstacles and courses without falling or failing. Do you have what it takes to complete over 2000 unique themed maps? More features include PVP racing, adventure maps, droppers, map maker world, rankups, time tracker & more!

Survival

An expansive latest version survival experience. Fight off custom monsters and collect resources in the Isles. MINECRAFT-SERVERS Complete hundreds of quests, jobs and

achievements. Partake in daily events including epic boss battles!

## KitPVP

Kill other players in a world full of secrets to earn cash and XP. Upgrade your gear, discover new secrets, create a squad, build your own PVP arenas, complete challenges and events, and so much more!

## Factions

Build and defend your base from raiders. Earn money and purchase spawners to increase your factions value, competing on the leaderboards for real prize money! Our factions has flawless performance and mechanics, with many features including upgradeable tools, soul shop, quests, classes and frequent events! There is also zero P2W!

## Skyblock

Spawn on a floating island with limited resources. Our Skyblock takes this to the next level, infusing MMORPG into the gamemode. Travel to new worlds fighting unique custom monsters and harvesting valuable resources. Upgrade your gear with tons enchantments. Level up your character in various skills, jobs, prestige & more. Grow your army of minions to make you money.. as long as you keep feeding them sweet berries!

Welcome to eternity. Progress through hundreds of challenges set in place by the Greek and Norse Gods.

## Earth Towny

Explore our realistic Earth map inside Minecraft! Create a town or nation and engage in the player ran economy and politics.

## Anarchy

A borderless infinite world that will never reset. There is also no land claiming, so make sure to hide your base well.

## Unique Features

ManaCube has a ton of awesome features to improve your experience when playing alone or with your friends!

## Cubits

Cubits are a global in-game currency that can be used to purchase ranks, treasure keys and more. Cubits may be traded to other players, as well as being used on the Auction House.

## Mana Level

This is your global level. Many things across the network contribute EXP towards this. Type `/level` in-game for more info and leaderboard.

## Guilds

Guilds are a permanent network-wide group. Only Elite ranks can create a guild, but anyone can join them.

## Season Vault

You may place items with the "Season Vault Access" tag inside of this vault. Items inside this vault are carried across seasons/server resets and never lost!

## Resource Pack

Enable the ManaCube resource pack to see a variety of new items, monsters, NPCs, cosmetics, effects and more! This does not override any of your personal resource pack textures.

## Events

Our events team hosts many fun and unique events all the time. Keep updated in the `#events` channel in our Discord server.

- What is ManaCube? ManaCube: Java Edition is one the top Minecraft servers. We have had over 4,000,000 players login to our servers and enjoy the great variety of our features that can be found on no other server.

- Minecraft servers are worlds that you can play on with other players through multiplayer. They offer different experiences and games.

- To join a Minecraft Server, open Minecraft then click on Multiplayer. To add a server, click on "Add Server" then type the server's IP in the Server Address field. If a server did not specify a port to use, do not type anything into the Server Port field. By default, the port is 25565.

- Minecraft Java Edition servers are not moderated by Microsoft and offer no parental controls unlike on Bedrock Edition. Always play on known and trusted Minecraft servers that have a set of rules to make sure that your experience is safe and clear from any obscenity or harmful content.

- The most popular Minecraft Server gamemodes are Skyblock, Prison, Towny, SMP, Factions, and Survival. ManaCube has all of these gamemodes and you can join our servers to play with other players. We strive to be the best Minecraft server out there.
