Dear Mr. President,

voici tae conclusions of our recherche concerning the phenomenon of theOVNI and about the Flate Earth /or terr platte inthe France or of the Québec.

After we havemoultes research doing, among analyritical and related empirical and field research of the searcheurs of the truth, our final findings are of this :

1. The terre is plate and that is sur.
2. It is the truth that the trre plate is the true.
3. This is dangers for our dark power sur l'humanité.

Upon the fllowing conclusions of the following we must keep the Terre Plate of a secret.

Sir,we hence advise that no one will know ofterre is plate and iff somone is know that is ofthe truth we must makelike he is crazy so people will not believe the him.

Thank you Mr President,
Long live America
