## ProDentim Ingredients

These ingredients are included in every ProDentim pill.

- **Inulin powder (Cichorium Intybus/chicory roots) 100mg**

This formula contains inulin, a prebiotic made from chicory root. It can be found in many food sources but the chicory root contains the most. This is why the company chose this source.

Inulin powder is a dietary fiber that the body uses to control food cravings and improve appetite. You are less likely to eat excessively or emotionally, and you will feel fuller. Inulin protects the digestive tract and promotes the growth probiotics (beneficial bacteria). Inulin powder can be combined with probiotics to improve immunity and provide overall health benefits.

- **Proprietary Biobiotic Blend 20mg (3.5 Billion CFU).**

This blend contains different strains of bacteria that each offer unique benefits for digestion and immunity. Lactobacillus Reuteri, for example, is already part of the gut and helps with metabolism. It reduces inflammation and improves food absorption. These benefits are even greater when it is found in the oral cavity.

Next, ProDentim ingredients contains Lactobacillus Paracasei which has been scientifically proven to have digestive and immune boosting benefits. It aids in the digestion of dairy foods and provides additional benefits for lactose-intolerant people.

B. Lactis, or BL 04, restores damage from pathogenic strains. It also improves immunity. This means that there is no risk of disease progression. Malic acid is the last ingredient. It controls saliva production, wound healing and cellular regeneration.

- **Streptococcus salivarius 20mg**

Salivarius K12 is the next ingredient in ProDentim. It has been shown to have benefits for both oral and respiratory health. It protects the mouth and nasal cavities and prevents allergic reactions and pathogenic strains from causing infection. Its potential to protect the immune system, especially the inflammatory response, has been shown in some studies.

These ingredients are effective and provide an enhanced effect. You don't have to worry about swallowing a tablet containing 'bacteria'. These bacterial strains have been well-researched and proven to be beneficial for your body. Probiotics are not known to have any adverse effects. For a safe experience, follow the company's usage guidelines.
