SMART CHAIN

TRAVEL LINE will act as a token

1

Travel Line Metaverse will consist of a tourist property. It is purchased and managed by token block holders.

2

The original Travel Line token is \$TRN, and holders will be known as Travelers.

A Travel and Tourism Decentralized Virtual Reality Crypto Powered by BSC Network.

Travel Line is a revolutionary project in the tourism and travel sector around the world.

Tourism has been completely transferred to the virtual Metaverse world so that everyone can do tourism around the world with a win-win travel system.

How it works

Travellers provide NFTs travel packages, and through virtual travel, they get the chance to earn daily TRN dollar tokens, which can be used to buy back more NFTs or convert them into withdrawable dollars.

1. Travel Line will welcome all levels of token experience for the first time.
2. Users can access encrypted information and immersive content in one place.
3. Travel Line's broad user base will allow them to transfer and invest plots of land in the most famous tourist places in the world by owning the token, selling their tourism services in the form of NFTs and generating their income.
4. Travel and earn from your tourist properties worldwide and much more.

Travel

Unwind in the world of travel

The real world has become difficult, especially after the Covid-19 epidemic, and tourism has been dramatically affected.

Now Travel Line allows you to enjoy your tourist trip with your favorite friends through Metaverse.

PLAY

Relax, meet and have fun and compete

Users can come to tourist places, play games, have fun with friends, and connect over the network to the world of virtual reality.

EARN

Reap revenue through multiple income streams

1. Travel Line will be a land of gaining opportunities for traveller's.
2. Travel Line tours and properties will be available for purchase from traveller's.
3. Opportunities will consist of passive earning, risk-taking and advertising.

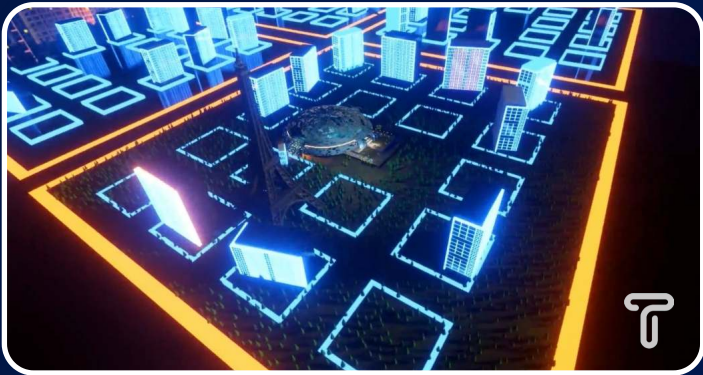

CREATE

Push your limits creativity

Create your own estates, complexes, and museums, and showcase your tourism services, sights, artwork, and more.

Own your projects within the Metaverse and earn through Tickets

Travellers Packages

Each type of Travel Line package has its characteristics and profit rates.

The profits of each package depend on its strength and quality, and Travel Line provides you with more features within the metaverse only if you have several NFTs from the same box.

In other words, you can have multiple NFTs from the same package in the same account and thus get additional gains calculated on the number and quality of NFTs present.
