I can be your brother or your sister
If you want to be my friend

9. Spring Will Rain

Fall in love with the spring
Roll around as we sing
Into light, into dark
See the fireflies spark

And tomorrow, we'll rain
And tonight feel the same

And we light up a spark
And we roll into dark
When we fall in the rain
And we summon the same

When we grow into space
Fall in love with the face
And we cry into dark
And we feel as we spark

And tomorrow, we'll rain
And tonight feel the same
Summon the rain.

10. Heavy Breeze

Open the window, look out at the town
There are half a million people who remind me of me
Crawl back under the blanket that's been keeping me down
Will there ever come a moment I could truly be free?

A breeze fills my room, pulls me out of my sweat
Draws me back to my window, and how could I forget?
There are half a billion trees rooted down to the ground
To show me that in stillness is where freedom is found.

5. The End of Knowing

I was taken out of darkness into light
Right away, my heart was breaking, so I cried

I once came from the womb
I felt shame to be alive (I was taken out of darkness into light)
Grew in years till I was five (right away, my heart was breaking, so I cried)
Learned about the tomb

Now I'm no longer afraid
Glad to see life unfold
I don't have to grow old
Happy just to know I've played
I've played.

9. Phase Transition

Safe behind the glass
The sands of time will fall
Holding to the past
The hour has dissolved

Days go by
Keeping a rhythm of peculiar time
I'm always waiting
Waiting for the paradigm to fade away

Only by society
You lose your point of view
To widen it entirely
I'll fly up to the moon

mellow-d
Guitar, vocals, keyboard

Maharani
Drumset, vocals,
bass, keyboard

Days go by
Keeping a rhythm of peculiar time
I'm always waiting
Waiting for the paradigm to fade away

Free among the trees
Flies a little bird
And its broken song
The sweetest you have heard
When the sound had rung
It flew without a word

... To fade away
... To fade away.
