

# Executive Order 79/2021

Central Executive Council

High Office of the Prime Consulship of the Republic

Of the 21<sup>st</sup> of May, by which the Workers' Republic of Eothasia hereby declares its lack of recognition of political and democratic legitimacy of the government of the Republic of Crossoveria.

**B**E IT ENACTED by the Consuls of the Workers' Republic, by and with the advice of the State Council of the Republic assembled, and by authority of the democratic institutions of the Republic, as follows:

On this date, the 21<sup>st</sup> of May of the year 2021, the High Office of the Prime Consulship of the Republic, by the powers vested in the Presidium of the Republic by the democratic institutions of the Nation, hereby solidifies the decision to retire any and all governmental recognition of the Republic of Crossoveria.

## EXPOSITION OF MOTIVES

### I

The political system of the Republic of Crossoveria is one of near absolute accumulation of power by one singular figure, referred to as the *Supreme Leader* of the Republic, currently occupied by Waldemar Erdogan Rochester. While this demonstrates the lack of adherence of the Republic of Crossoveria to the basic principles of a republic —as in, the political participation of its citizenship in the selection of all major political figures, which would include the Supreme Leader—, it also demonstrates the capability of the government of Crossoveria to extend itself over a nearly unlimited number of fields and circumstances in order to control unafaced aspects of the everyday lives of the citizens of Crossoveria.

Despite having a democratically elected head of Government, the stability of this organism is questionable, with each president lasting a single year in office and having the ability to obtain four terms in total. Though the constant presence of elections is structured to give the appearance of a democratic institution, it is anything but; the constant and inefficient interruption of nationwide general elections conflicts the fluidity of the organ of government, allowing it to exist merely as a ceremonial body rather than one of any real political value or importance.

It is also evident in the political system of the Republic of Crossoveria that the separation of branches of political power —even disregarding the overarching presence of the Supreme Leader— is not present. The president of the Republic and head of Government is able to dismiss members of parliament, which effectively puts the legislative branch at the leisure of the executive branch, which itself acts as a mere puppet of the Supreme Leader. The ineffectual

authoritarian structure of the Republic of Crossoveria demonstrates the lack of political will, of democratic institutions and the desolate political landscape of the country.

## II

The condition of civil rights in the Republic of Crossoveria is extremely poor, with citizens being consistently repressed for the most minor of offences. This extends to many of the civil liberties that have already been conquered in the modern world, such as the freedom of sexual orientation. Punishment is exercised in the vilest of ways, including torture and executions in the most atrocious of manners, including gas inhalation, beheadings, hangings and firing squads. As expected, protests against the government rarely end peacefully, with the oppressive regime undergoing strict attacks against the civilian population to disperse and disincentivise the congregation of those that would react against the government's totalitarian regime.

The establishment of what is known as the Codes of Citizenship is of extreme concern. In this text, it becomes strictly evident that the religious fundamentalism of the Republic of Crossoveria has proved absolute in its code of law and has decimated the possibility of conquering civil rights through peaceful methods. The fascistic elements of law make it clear that the Workers' Republic cannot and will not abide by the presence of such a government on Eothasi soil, and far less allow any form of political recognition of a regime that should, by any means necessary, be deposed and replaced with a proletarian government that ensures the safety and security of the working class of Crossoveria. It is for this reason that the Presidium of the Republic, in adherence to the moral code of the Republic and with the powers vested in it by the democratic institutions it represents and defends,
