

PROTECT TEXANS FROM UNINSURED MOTORISTS

SUPPORT HB 1739

When Texans pay more to purchase insurance to protect themselves from **uninsured and underinsured motorists (UM/UIM)**, they expect their insurance company to pay up — and pay fast — after a wreck. But a Texas Supreme Court case called ***Brainard v. Trinity Universal Insurance*** complicates things unnecessarily, forcing many Texans to go to court first before their company has to pay up.

Insurers use this high hurdle to **deny, delay, and underpay** Texas families and businesses. Gaps in coverage result in gaps in treatment, hurting patients and medical providers alike.

HB 1739 by Geren (SP: Hughes) will restore the law, restore our rights, and cut down on unnecessary litigation. The legislation reduces cost and delay, getting insurance companies back to properly paying claims, so Texans can get back to work.

Help ensure Texas families get what they paid for!

Protect your constituents and businesses. Vote FOR HB 1739!

TEXAS  WATCH
Restoring responsibility. Protecting families.
