I'm not like many disciplined people who train at the same time everyday. More so people can relate now that our routines are not as structured. I "procrastinate" alot too. I just don't beat myself up about it, and train when I feel like it. For many of us, this is one of the best opportunities to grow and expand. So my mentality has been one of hesitating less—flow, create, share, relax, expect some difficulty, enjoy the process
