

Minecraft Is Bringing Story Mode To IOS

Minecraft developer Mojang has introduced they are going to be collaborating with Telltale Games to create a brand new story mode for the game. Mojang guarantees it is going to be a narrative-driven recreation about Minecraft, however didn't expand on what precisely that might seem like.

The primary episode will probably be launched some time in 2015, and will probably be accessible on Xbox consoles, PlayStation consoles, Pc, Mac, iOS, and Android-based mostly devices. That's right. Minecraft prison servers what system you play on, you will be capable of play Minecraft's story mode.

Minecraft: Story Mode will be released episodically, equally to Telltale's other video games The Wolf Among Us and The Walking Lifeless. These video games also saw Telltale crew up with an outside developer, Gearbox. In case you're anxious a narrative mode may by some means take away from the gamer's imagined view of what the Minecraft world really is like don't worry. Of their statement Mojang places these fears to relaxation.

We're not intending on creating an "official" story for Steve, or explaining the world of Minecraft intimately. It will likely be a cool sport.

Consider us now insanely interested in what kind of story you possibly can inform from the perfect open sandbox of Minecraft. We will not wait to seek out out.
