Subject: AW: Transfer
Subject: Complete Transfer

Dear Marvin,

Let's do it exactly how you wrote: clean and, especially, in full.

Please send us all management, root and admin accesses for the servers and domains as well as a detailed description of the installation, the management and the documentation of the programming.

Of course, we also need full access to all support inboxes and a list of all support cases/tickets: which status these have and what still needs to be done.

The right contact person is Michael Frank.

Phone number: 0711/12897020

Email: Michael.Frank@karatbars.com

For the KBCs in the 3-Billion-Wallet, the Intermediary Wallets, Airdrop Wallets/Subsidiary Wallets (in short, all of the used wallets), I can give you a receiver address:

0x5Fa7F72E06a9d0e11b66B6977152B9c065570f70

Here, it would be important that you make us a list of how the total amount was composed until the transfer. Ideally including the associated TxIDs.

Regarding the KCB, we are still waiting on detailed information from Ovidiu. He is the right contact in this area.

As soon as we get the instructions from him, I am going to send them to you.

Ovidiu would rather talk about the takeover of the Smart Contract in person instead of using mail.

Please get in touch with each other for this.

With kind regards / Best regards

Harald Seiz
