2- Look the so called "explosion area" carefully.

These pits can not occur after an airstrike

4.1- Let's look again at the explosion area(geoloc. via @Gjoene),it is very close to urban areas.

+30k people live in Khan Sheikhoun+

10- and Final: Chemical weapons owned by the Syrian Army were destroyed and they have had an agreement with OPCW since the 2013

Original (Englisch) übersetzen

Syrian destruction [edit]

Main article: [Destruction of Syria's chemical weapons](#)

Syria, which had long been suspected of possessing chemical weapons, acknowledged them in September 2013 and agreed to put them under international supervision.^[38] On 14 September Syria deposited its instrument of accession to the CWC with the United Nations as the [depository](#) and agreed to its provisional application pending entry into force effective 14 October.^{[39][40]} An accelerated destruction schedule was devised by Russia and the United States on 14 September,^[41] and was endorsed by [United Nations Security Council Resolution 2118](#)^[42] and the OPCW Executive Council Decision EC-M-33/DEC.1.^[43] Their deadline for destruction was the first half of 2014.^[43] Syria gave the OPCW an inventory of its chemical weapons arsenal^[44] and started its [destruction](#) in October 2013, 2 weeks before its formal entry into force, while applying the convention provisionally.^{[45][46]} All Category 1 materials were destroyed by August 2014.^[26]
