

# Left Forum **BANS** 4 Panels on the Deep State

## Panel speakers refuse to be silenced Come to the "LEFT OUT FORUM"!

- What speakers are so dangerous the Left Forum thinks you should be prevented from hearing them? By banning 4 out of 5 Deep State panels, the Left Forum is dictating what ideas you can be exposed to.
- In "resistance" to this censorship, there will be a "Left Out Forum" on **Sunday, June 4**, at a nearby location. The Deep State panels will also be live-streamed by No Lies Radio at [noliesradio.org/leftforum](http://noliesradio.org/leftforum).
- Due to a pattern of harassment by Zionist elements to shut down free speech, the location of the banned panels will not be announced until Sunday, June 4, 9:00am EST at [noliesradio.org/secret](http://noliesradio.org/secret).
- Left Forum capitulation to shadowy pressure is part of a brazen repression of thoughts that challenge official versions of controversial events. Academics have been fired by these neo-McCarthy witch hunts. It has been well documented that much of this thought policing (though not all) is a sophisticated, organized meta strategy to oppose any criticism of Israel.

## DEEP STATE PANEL DESCRIPTIONS

### ■ **Political Correctness: The Dangers of Thought Crime Police**

Under the guise of halting hate crime, the Left likewise has been blocking dissent, inquiry, and free and open debate in public forums. There is not a single topic that should be denied a platform for scientific, intellectual examination (except speech calling for or inciting violence). Unfortunately, there has been a wave of witch hunts against academics and activists when they attempt to discuss evidentiary facts on controversial topics such as 9/11, false flags and Zionism. Such fascist behavior runs counter to our deeply entrenched democratic values and must be vigorously resisted.

### ■ **"Terrorism": Fake Enemies, Fraudulent Wars**

Following their 9/11 soft coup, the neocons waged a planned, calculated war on Muslim states under the guise of protecting Americans from "terrorists" in order to have perpetual war and a heightened security state. The media rarely reports that ISIS and the White Helmets were created and are controlled by US/NATO/Israel/Saudi/Turkish forces. Publicly, ISIS is reviled. Privately, they are our go-to shock troops to effect regime change in Iraq, Libya, Syria and beyond.

### ■ **False Flags: Staged, Scripted, Mass Psy-Op Events**

False flags -- attacks covertly created by one group then blamed on another for ulterior purposes -- are used to achieve many shadow government goals, including fomenting Islamophobia and cowing an unwitting public into supporting a fascist agenda. Fueled by a neo-McCarthy, anti-truth climate, false flags intimidate activists from critical inquiry beyond the levels of "acceptable dissent." Ongoing attacks -- both low-level and audacious spectacles -- are required to maintain a fearful populace and a permanent security state.

### ■ **9/11 Truth: Ground Zero for a Resistance Movement**

Increasingly, Leftists are challenging the official 9/11 story, focusing on forensic, political facts -- not ideological positions. Much of the Left leadership, however, shun discussion or investigation of the Bush/Cheney/Rumsfeld 9/11 narrative. They call 9/11 inquiry a distraction from "the real work." Resistance to the 9/11 official story *is* "the real work" required to end wars on terrorism, reduce Islamophobia, restore civil liberties, and slash the bloated military/intelligence budget.

### ■ **Co-Opting the Left: Infiltration by the Corporate State to Neutralize Resistance**

Activists have always been a target of infiltration in the United States. COINTELPRO, Operation Mockingbird, and MK Ultra supposedly were shut down, but they've actually just changed names, burrowed deeper into the bureaucratic netherworld, and are more potent than ever. Likewise, law enforcement and intelligence agencies have ramped up the number of resisters in their crosshairs. Co-optation is even more effectively used to dilute radical agendas.
