

Valentine's 2019 Event Guide:

Notes:

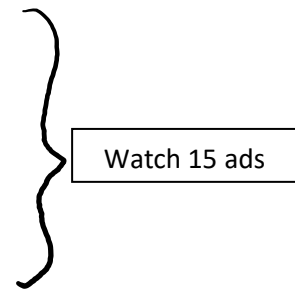

- You choose when you want to cast. Invest candy into the crab first BEFORE buying fish until you reach a minimum fish requirement.
- Wear costume, dye, and theme throughout. Whether you cast to get them is dependent of how quickly you want to fulfil the 25 casts (3 days) requirement of the Parfait Puffer.
 - Get the Dye first (200 Roses).
- Use Volcanic Eruption 3x throughout.
- Take a picture of each fish upon creation.
- Watch Ads and Use the Crab, don't bother tapping for Roses aside for the first quest and to cast the crab. Use the ad exploit if you wish.
- Collect Seaweed (10 every 15 mins), Clams (10 every 1 hour), and Urchins (10 every 2 hours) throughout.
 - You could use the auto-harvest for this, however it won't help with Quest #4
1 Auto-harvest would gather:
 - 960 Seaweed
 - 240 Clams
 - 120 Urchins
 - With nothing else but the Auto-harvest, it would take 4 purchases to gather enough resources (Seaweed pushes it *just* past 3)
- Remember to log in for 20 days to get the Attendance Rewards!

Alternative Ad-Based Route:

- Use ads to create the first 30 fish
 - Should compromise of 25 Heart Tetras or Spadefish (A mix), and 5 Candy Goldfish
- Whenever possible, upgrade the crab.
 - Excluding getting new fish, each upgrade costs 3 ads of the previous level.
- Then continue with the guide as usual, but you'll have a fully upgraded crab.
- You will not have the issue in Step 49 (In fact, you'll have 5 extra!)

Fusion Fish don't require Candy.

So that comes to a grand total of.... **625,500 Roses!!**

... *yikes.*
