

# Where To Search Out Minecraft Saved Sport Information On Mac & Windows

Should you or a liked one are a Minecraft user, you could also be all for tracking down game save files on a Mac or Windows Pc.

Saved game recordsdata may be relevant if you're looking to manually again them up, store them in a cloud service for use on a number of devices, sharing with others, amongst different purposes. With the amount of time many people make investments into Minecraft, the saved sport data is somewhat important. So, let's dig into where these files are located on Mac and Laptop.

## Minecraft Save Recreation Information Location on Mac OS

On all variations of MacOS and Mac OS X, you'll find saved video games at the following location:

~/Library/Software Assist/minecraft

You can paste that file path in the Finder's Go To Folder command (Command+Shift+G) or in Highlight (command+spacebar) to leap to that vacation spot rapidly.

This may also be accessed from Finder by pulling down the Go menu, holding down Option, and deciding on "Library", then navigating to 'Application Support' and to 'Minecraft'.

## Minecraft Save Sport File Location on Home windows Computer

For a Windows Pc, yow will discover the situation of Minecraft saved game files at the next location:

C:\Users\USERNAME\AppData\Roaming\.minecraft

Replacing USERNAME together with your user account.

You may as well navigate to that listing manually by opening Home windows Explorer to your user home directory, going to AppData, then to Roaming, and into .minecraft.

Whether or not on Mac or Laptop you may add or remove saved recreation recordsdata into these directories, and they'll be accessible if you open Minecraft into single participant mode.

Comfortable minecrafting!
