Buy Humatrope 5mg Vial Lilly Online. Humatrope 5mg Vial Lilly - Firstly, BUY HUMATROPE LILLY 5MG (somatropin for injection) is used to treat children who do not make enough growth hormone on their own, have short stature associated with Turner syndrome, or have SHOX deficiency; have idiopathic short stature, which means they are shorter than 98.8% of other children of the same age and sex. Where to Inject Humatrope 5 mg Vial. Humatrope is intended for Subcutaneous Injection. This means that you use a short needle to inject the medication into the deepest layers of the skin, where it will slowly disseminate into the body over 24 hours. The entire body is lined with this layer, but some areas are thicker than others.

Vial. Each vial of Humatrope contains 5 mg somatropin (15 IU or 225 nanomoles); 25 mg mannitol; 5 mg glycine; and 1.13 mg dibasic sodium phosphate. Each vial is supplied in a combination package with an accompanying 5-mL vial of diluting solution (diluent). The diluent contains Water for Injection with 0.3% metacresol as a preservative and 1.7%.
