

Iranian Professionals' Ad-Hoc Committee on Iran Policy

Letter of over 500 Prominent Iranian-Americans Urging President Biden to Remain Firm on Keeping IRGC on the Foreign Terrorist Organization List

April 12, 2022

**The President
The White House
1600 Pennsylvania Avenue, N.W.
Washington, DC 20500**

CC:

- The Honorable U.S. Secretary of State Antony Blinken
- The Honorable Members of the US Senate
- The Honorable Members the US House of Representatives

Dear President Biden,

In the current round of nuclear negotiations in Vienna, one of the Iranian regime's top demands is removing the Islamic Revolutionary Guard Corps (IRGC) from the United States' list of Foreign Terrorist Organizations (FTO). This demand is certainly not accidental, and unquestionably against the will and interest of the Iranian people, and a direct threat to the advancement of democracy.

The IRGC is the tool of terrorism abroad and repression of people on the streets of Iran. This instrument of terror safeguards the religious dictatorship in Iran, and continues to impede all progress towards human rights. The IRGC was first added to the Specially Designated Nationals and Blocked Persons List (SDN List) in December 2007 for supporting Tehran's effort to secure weapons of mass destruction, and ultimately to FTO in 2019 for terrorist activities beyond Iran's borders. The FTO designation has effectively handicapped many of the IRGC-

related foreign financial transactions, and therefore its ability to export terrorism and impose repression.

It is certainly noteworthy that IRGC has not shown the slightest indication of good faith efforts in halting malign behavior or advancing democratic institutions. To the contrary, the IRGC is playing a bigger role in creating proxy naval terror units, employing UAVs for terror operations, and funding terrorism around the globe.

For over a century, the people of Iran have struggled for freedom from the tyranny of the Shah (and his predecessors) and the mullahs currently ruling in Iran. As you yourself have repeatedly declared, we ask that you stand with the people of Iran in their demands for peace, freedom and a non-nuclear, secular Republic of Iran. More than ever, global efforts in protecting civilians and defending a free world are paramount. It is critical that the administration maintains its current posture towards the IRGC, and extend the sanctions to include its front companies. Removing IRGC from the FTO list will be a blatant disregard to the hope and legitimate struggle of Iranians in their struggle for freedom and dignity.

As Iranian-American scientists, academics, and professionals who are deeply concerned about the suffering of the Iranian people under the brutal IRGC forces, we respectfully ask that the IRGC remain on the FTO list.

Most respectfully,

Al Moridi, Founder and CEO, AMT Interio;

Parvis Ghaffari, Principal, PGHaffar Group;

Hossein Sadeghpour, Professor and Director of Institute for Theoretical Atomic Molecular and Optical Physics, Harvard University;

Mehdi Razavi, Electrical Engineer, Tesla;

Yousef Mahdavi, PhD, President, SoccerUSA;

Reza Tand, Environmental Scientist and Executive Vice President, Summit Environmental Technologies;

Soolmaz Abooali, Professor of Political Science, National and World Champion in Karate;

Babak Dadvand, Senior Principal Engineer and Associate Director of Facilities Engineering, Gilead;

Glenn Torshizi, Senior Radio Frequency Engineer, T-Mobile;

Yasamin Shenasi, Psychologist, Rise of the Phoenix;

Hamid Allamehzadeh, Professor of Electronic Engineering, Eastern New Mexico University;

Susan Vakili, Ultrasound tech, MGH;

Tirdad Riahi, Aerospace Engineer and Partner, Aero Audit Services;

Ali Rad, PhD, Immunologist, UVA;

Ali Parsa, Professor of History, California State University-Fullerton;

Firouz Daneshgari, Professor of Surgery, Case Western Reserve University;

Farrokh Vatan, Data Scientist, NASA Jet Propulsion Laboratory;

Javad Seyedi, Materials Scientist, HP Inc.;

Fred Dastmalchi, PE, Transportation Engineer, CalTrans;

Mory Gharib, Professor, Caltech;

Leyla Rahmat, MD, Physician, Kaiser;

Zohreh Talebi, Professor of Molecular Genetics, Children's Mercy Medical Center;

Shahnaz Kia, PhD, Pharmaceutical Consultant, State of California, Center for Health Care Quality;

Siamack Shojaei, Professor of Economics & former Dean of Business;

Hasti Hesami, Medical Dosimetrist, Memorial Sloan Kettering;

Saeideh Afshar, System Analyst, University of California Los Angeles;

Javad Mirabdol, Transportation Engineer, City and County of San Francisco;

Hooshmand Niroumand, Register ICU Nurse, Veteran Administration Medical Center;

Hashem Ghazi, Transportation Engineering Technologist, California Transportation (CalTrans);

Ardeshir Sanati, DDS, Dentist;

Mahtab Moridi, Registered Clinical Dietitian, Kaiser Permanente;

Saeed Kermani, Information Technologies Consultant, Cisco Systems;

Behrouz Talebi, Entrepreneur and Marketing Specialist, Caldwell Banker George.;

Shahin Toutounchi, PhD, Distinguished Engineer, Lattice Semiconductor;

Abbas Ameri, Computer Engineer and CEO, Exxoteck inc;

Kazem Kazerounian, Professor and Dean of Engineering, University of Connecticut;

Ramesh Sepehrrad, Author, Scholar, Cybersecurity Executive, George Mason University;

Jila Andalib, Information Technology Director, University of Connecticut;

Amir Bolurchi, System Engineer and Executive Director, S&B Strategies;

Ali Vandaie, Engineer, Maxim Integrated;

Amir Emadi, MBA, President & CEO, Toofon, Inc. (an Aerial Logistics Company);
