Some fellas over on /co/ wanted the old Jungle Dyret Hugo movies and I thought "Hey, why not make a /t/ thread for all cartoons that don't plague the other boards with their generals and might be more difficult

to find?"

So come in, post some old/unknown cartoons you love and let's see if we can't get a thing going.

Jungle dyret Hugo - Hugo the jungle animal

I have found a /t/orrent
Quality
Movie 1 is 640x480
Movie 2 is 560x400 (lord knows why, probably VHS)
Movie 3 is 720x416

Animated series is 320x240
Welcome to glorious VHS times my friends.
Also Episodes 9-13 of the animated series does not have subs.

If I could into subs I would make them myself.

Cadillac's and Dinosaurs

"In the 26th century, mankind faces an epic struggle for survival.

The forces of nature have spun wildly out of control. Mighty cities have crumbled and the dinosaurs have returned to reclaim the Earth.

In this savage land, one man stands alone - Jack Tenrac, defending humanity in a world gone mad. A world where only the strong survive; a world of...

Cadillacs and Dinosaurs! "

OPINIONS, for being a 23 year old show this has surprisingly slick animation, interesting world, good storytelling, interesting heroes and most importantly villains that have motivations beyond mustache twirling. Basically what you would get if you tossed Mad Max and Dino Riders with a sprinkling of Adeptus Mechanicus into a blender.

Does that sound too cool to be true, well you have to remember that it is a PG-13 show so it isn't gonna be as brutal as Fury road but it does have some pretty awesome bits and is in most aspects good /above average.

Golan the Insatiable

Golan is the dark lord of an alternate universe that comes to our world and is befriended by a little goth girl and her family. Buffoonery ensues as he deals with everyday life.

That's what imdb says anyway, it is a show full of dark humor, I describe it as if Wednesday Addams was born into any other family and then encounters a demon/hellspawn that she tries to treat like a pokemon/friend.

Season one and two are very different since they pretty much just reboot the whole idea to get a little more serious with their storytelling in season 2 which is in my opinion the better one.

I found what is supposed to be the most complete Bonkers set available in North America. Quality is pretty bad if I'm completely honest, especially the sound, but it's better than nothing at all amirite! lol
55 out of 60 episodes.

It's missing a few episodes b/c there were some that weren't politically correct or some bullshit so they only exist in like Russian.

The Stork Exchange and Bobcat Fever from Season 0
Fall Apart Bomb Squad and Poltertoon from Season 1

Witness For The Prosecution from Season 2
The Dimming and A Fine Kettle Of Toons from Season 3

I got this from a private tracker and I'll be re-uploading as a single seeder for a while so be patient. I usually just help seed torrents and this is the first torrent I've created to share en mass if you decide to download it, feel free to upload it to piratebay or somewhere so it can get around.

Making a request within an established thread is fine and always has been, as long as the requested content is on topic. It was the creation of redundant, retarded and incessant request threads that forced the posting of Big Red. Those are the requests that actually harm the board.

I'm looking for a cartoon that I saw back in 90's on Cartoon Network.

I only remember one scene from the entire thing, the main hero was some sort of a warrior or barbarian, he

fought three giants.

These giants were made of clay or something, one was red, second one was blue I think and the last one was yellow, each of them wore different weapons, one had swords, one had a hammer I think.

When he defeated one the giant shattered into splinters, after all of them were defeated the splinters morfed (kinda like the scene in Terminator 2 when Arnie froze and shot T1000 and it re-generated itself from the crumbles) into a six-handed purple mega giant that had all of the previous weapons in the hands.

I can't find the name of the cartoon for shit and I've been trying to for many years, does anyone by chance remember it?

Since it was so long ago and I was a little kid back then, the memory might be distorted, but I definitely remember the last giant being purple and having 6 hands.

first of all. I have no idea what you installed. since youtube-dl doesn't need to be installed. it is completely portable.

download it from here: <http://yt-dl.org/downloads/latest/youtube-dl.exe>

I won't explain how to use it. but I recommend figuring it out at some point since it is really good. and supports way more websites than just youtube

dealing with region blocks is a pain in the ass. so to save you the trouble I will just upload the episodes to mega for you.

if you wait this link will fill up with episodes
