

SABA North America and National Asian Pacific American Bar Association's Joint Statement Condemning Antisemitic Speech

October 19, 2023

FOR IMMEDIATE RELEASE

Today, the South Asian Bar Association of Chicago, an affiliate of the South Asian Bar Association of North America and the National Asian Pacific American Bar Association, announced that it learned about abhorrent, antisemitic comments, which were made on a social media account owned by the then-SABA Chicago president. She is no longer president, and the president-elect of SABA Chicago has now assumed the presidency.

The legal profession is held to a high standard when it comes to our conduct, and our leaders are held to an even higher one. Words that are infused with violence and antisemitism have no place in our public discourse. SABA North America and NAPABA, in no uncertain terms, unequivocally condemn such abhorrent statements. We stand against hate, no matter the form, and we are focused on building a community where respect, compassion, and dignity prevail.
