

I'm an 8 year old girl printing out Wonder Woman on my mothers computer

I look up Wonder Woman on my computer the night after I see the film and all the next day – actually this is what I do for a few nights in a row. Before bed I look up images and I watch every interview - interviews on Ellen, fan club recaps. I take screenshots of everything. I am giddy like a child. No policing of my new obsession. Just Windhorse and Wonderlust.
