

MIRACLE! It becomes much easier too much beneficial - growing of vegetables by cocopit method.

For the inhabitantants of Gachhi Tola of Maniyarpur Village – The livelihood is only agriculture based activities. They hardly meet their family expenditure. Under the circumstances, by forming “Ambedkar Kisan Club” by JAN NIRMAN KENDRA,(East Champaran) Members of the club were mobilized and inspired to grow multi useful tomatoes by introducing nursery by coco pit method and ultimate result was 100% seedlings. As a result of that there came a eagerness among the village and presently 10 Farmers of the village have grown tomatoes approximately in 2 Acre, which are very effective and this is the source of inspiration among the villagers.
