About Fundex.fund

Fundex.fund is decentralized crypto exchange and Equity crowdfunding
Recent developments in DeFi have created exponential value for cryptocurrency and tokens, by adding new and innovative technology solutions that allow for “old world capital market activities” like lending, borrowing, and securitization to digital assets as well as the new digital era market making infrastructure.

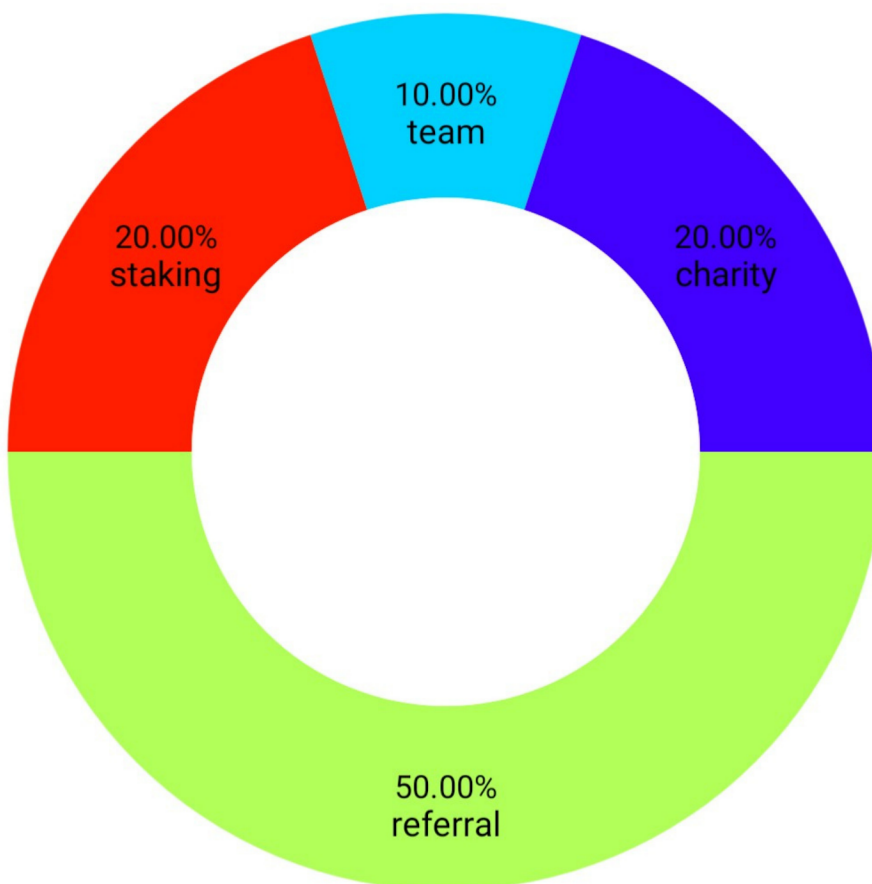

Starting of fundex.fund

we have our own market dex to form an ecosystem. and also a unique referral system, thus growing many members in a short time.

we have a charity system for a crowdfunding in real business. which will be widely used by business developers. and from the fee of all the service tools that we rent, it will be for the distribution of FDX token holders by 30% - 60%

Fee fundex.fund distribution

all dex profit fees will be divided for FDX holders and also marketing in the referrals, and stakes too

Mission and Vision

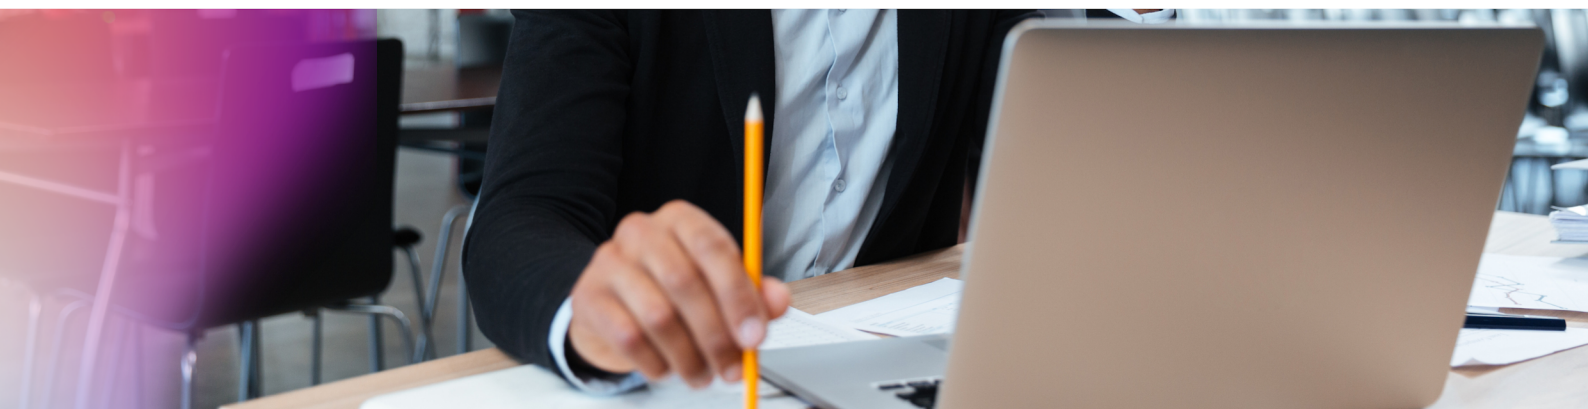

our mission is to make defi with low fees and also have many benefits for users.

Mission

bring together business owners and developers with investors in one platform

Vision

popularize crowdfunding in the world of defi to increase business in the real world and the crypto world

Goals for the quarter

some of our idealism goals that will be the main goal

Goal #1

get decentralized finance market at least 5% of world growth

Goal #2

grow the crypto industry to at least use it as an equity crowdfunding tool in real business.

Goal #3

incorporating strategic partners in the real business in order to benefit from fundex.fund

we are inspired by various equity crowdfunding models as start-up investors and businesses that are already running well but need capital to grow With the fundex

you can create limited tokens and start growing your business and distributing profits to your token holders through our charity program, fairly and equitably. this is a new breakthrough from us you can easily and just a few clicks.
