

The biggest
mysteries of the
world
Apocalypse 2016

Peter reteP.

The biggest mysteries of the world

Introduction: If you are in our solar system in the vicinity of Mars or have heard sounds coming from the sky, then Bible and this material is very urgent for you. You may be in a different version - fortunately not all fall down. Explanation in the last pages of the book.

Materials contained in this book can, and probably will change entirely your picture of reality. Reality is much different from that, what is shown by the media even called alternate. After reading this book you will understand the basics so that you can create everything. We will discuss the most important mysteries of the world.

We will learn about the construction of the world, we discover the secrets of gravity and antigravity, along with many examples. Also all possible sources of energy and the principle of obtaining, collection and transmission.

From the knowledge of prior centuries, through the messages of the Bible, the discovery of scientists and visions from science fiction films, we will discover all the possibilities of the modern world and technology to see what life really is, and how may look.

If you really are ready to discover the greatest mysteries of this world and you want to understand the reality, find out what is eternal life and how to achieve them, you found the best source with all these answers In a simple, digestible for everyone language.

CONTENTS

1) The construction of the world.

Construction of flat Earth and the principles on which operates the universe.

2) What is gravity and examples for antigravity solutions.

Many examples of antigravity solutions.

3) Teleportation and time travels.

Discuss the principles of teleportation and time travel with the most important related risks and what is the time and why it is just an illusion.

4) Electricity.

What is electricity and the principle of obtaining voltage.

5) Creating and processing each matter.

Gold from garbage? explanation of the principles of creating each matter.

6) Holography.

Optical illusion of the world, that is how works the human eye.

7) War with aliens and secret of the Fallen Angel.

Armageddon or Apocalypse ? What it means and when it will happen.

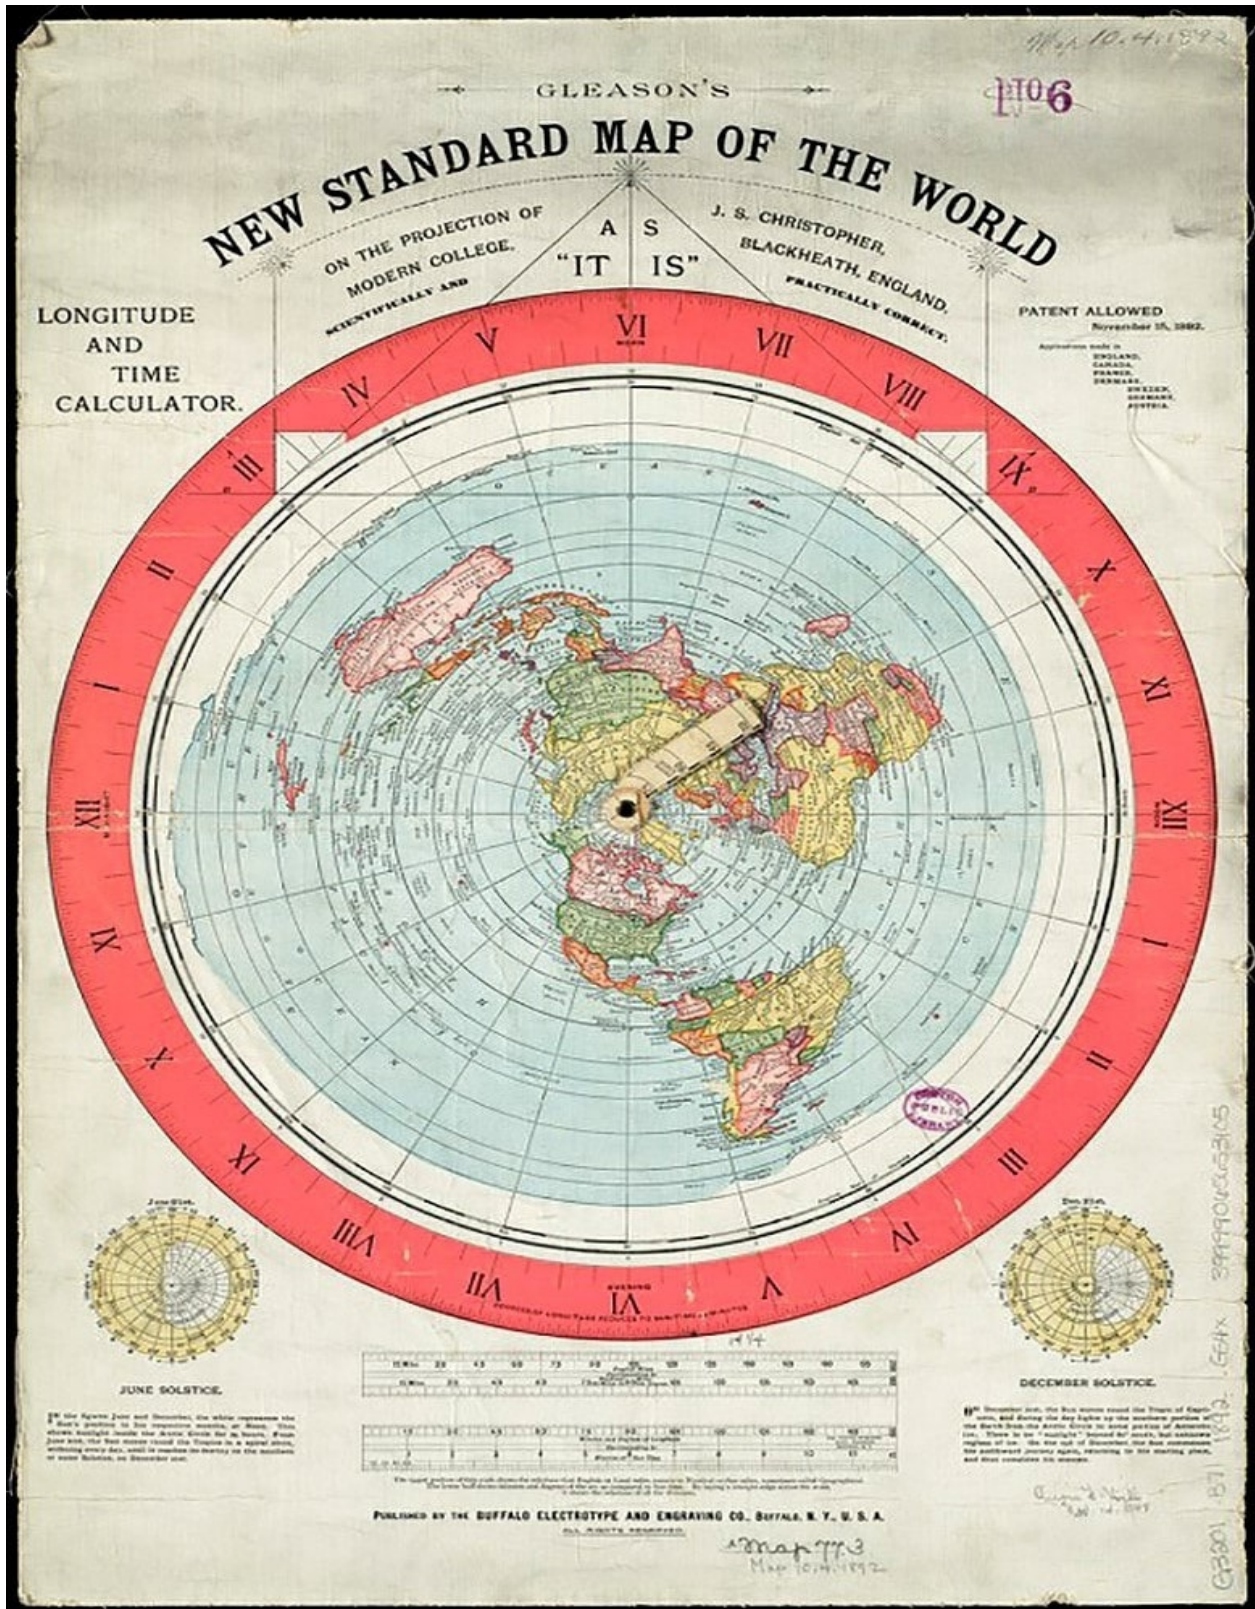

8) Other secrets in brief.

E=mc² explanation, cold fusion, Global warming, longevity, eternal life, levitation, cancer, the genesis of homosexuality, many-worlds theory...

At the beginning, let's look at the real map of the Earth.

The Earth is not a sphere. The Earth is a flat disk as it is written in the Bible and how it is presented on all the ancient calendars. Take a look carefully to see the difference in size of continents, and not only..

This is probably your first time when you see the real map of Earth.

Surprised..?

Surely you know this shape.

You see it every day on TV.

For example:

We have here two best-known examples. UN logo and the institute of medicine. The Earth is flat. Horizon arises because of the oval of eye.

The outer part of the atmosphere has an oval shape, and that showing us the move of the sun and moon in the circle. Sphere is the largest rootball with a minimum of space. But a whole is not perfectly round just as the sun is not perfectly round.

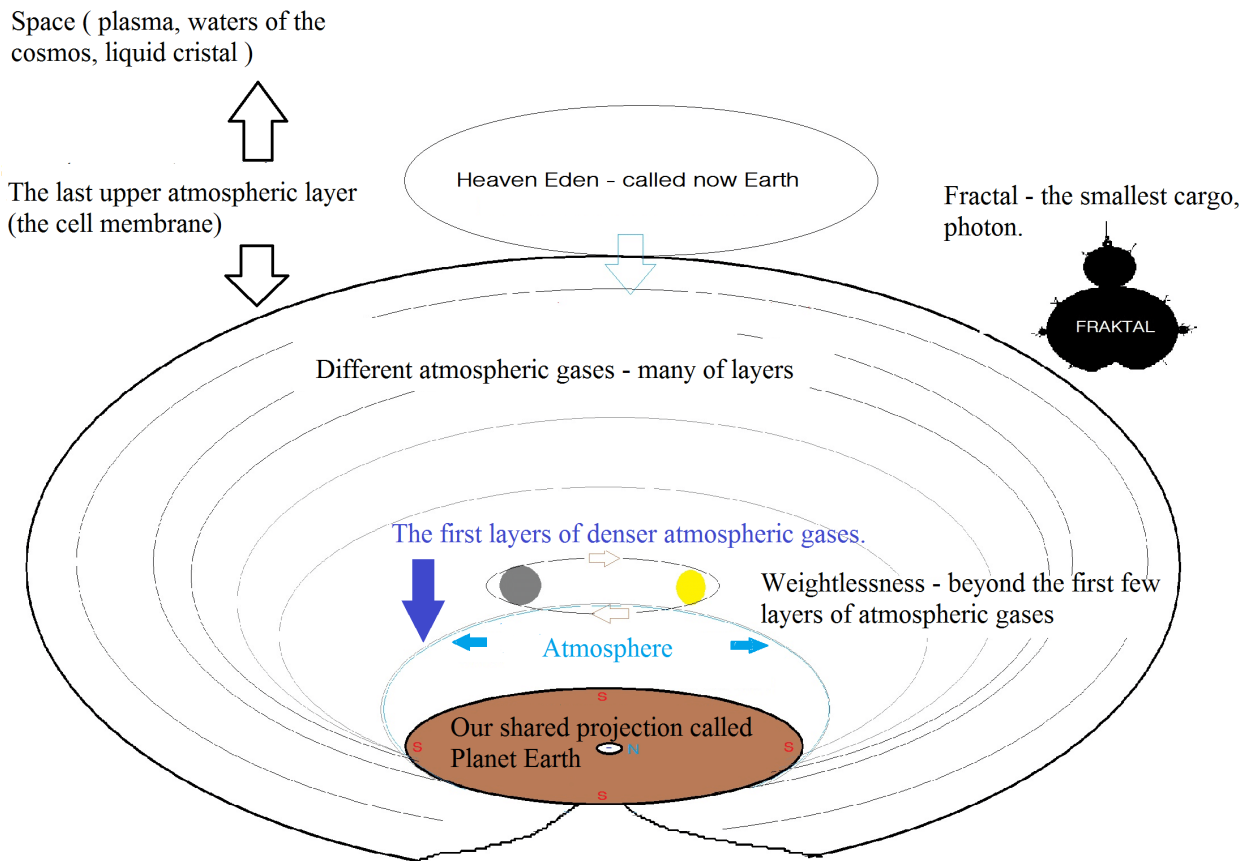

The exact shape is the sum of all electromagnetic forces, In the sun and in the surrounding area. From this also depends the direction of our flight in space.

When on earth (in the sun), will be advantage the negative charge (ie, lower potential), it the flight direction will be directed towards the center where the matter is more dense. So it is now, which is why The Earth is located very close to the center of the cosmos, which does not mean that this is good news...

More about this phenomenon can be found in section: global warming.

The Earth is a holographic projection, led by all sources of energy on it.

These energy sources are people. Matter is located in the center of the electromagnetic field, where the pressure is greatest. Matter is compressed energy. Let's look closer to how it looks on drawing on next page.

In weightlessness you can only put small light objects. Scenes with astronauts are shot on a plane who flies down or other methods. ;) The difference between the cargo of the positive and negative in object must be greater than the potential difference between the gases in which we want hang object.

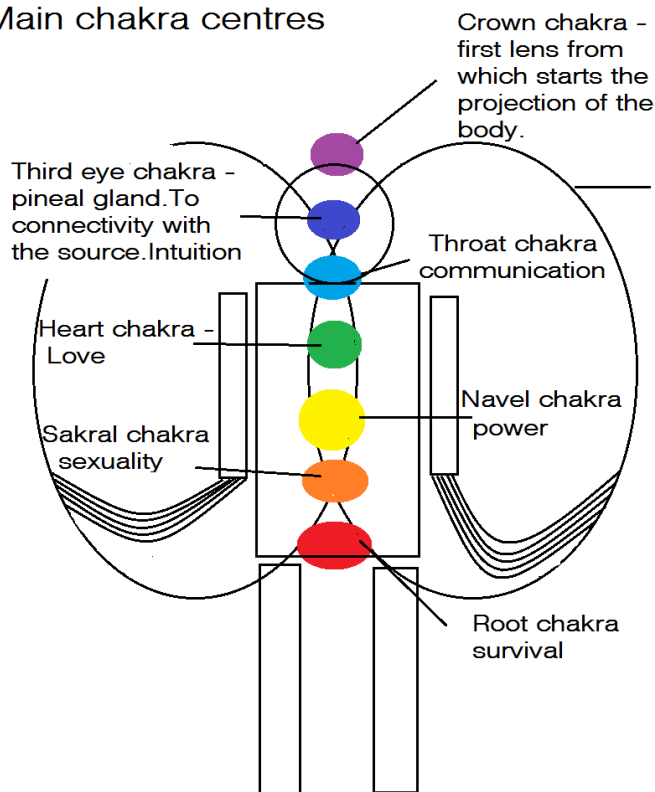

As we see here, both the sun and the moon is in our atmosphere. They are, however, beyond the first atmospheric gases. The sun in ancient religions was described as the highest god. God is energy and everything is from her. Sun also is energy source. Both alive and dead matter has energy. She decides what is exactly a particular matter and what has form. The sun and the moon spins over a flat disk, which is just a holographic projection from the sun. Subject holographic projection will be discussed in more detail in the section: Holography. After reading the entire book you will be able to understand the whole. Read carefully.

Matter is located in the center of electromagnetic forces and only pressure and electrical loads decides what the matter is . You can create every matter from gold to organic fruit from garbage or just from air. It is possible, like everything else because everything is a state of mind. You're not born in the world but the world is a born in you. The Sources of projection of the earth is the sun. Everything takes place in the sun and the Earth is only a picture of the state of the sun. The Earth is part of

the cells of another organism and he lives in a world that is part of another organism. Fractal world construction. Projection is the reward for taking care of the planet and proper development. The projection can give you everything but it can kill you. Man also has many worlds in themselves. The whole world is a reflection of the mental state of society. It does not look good. The Earth is a closed circuit (God forever separated the water from the water), and there is no energy problems and any other, besides these psychic. Everything is a state of mind. Your next revival depends to your life and which cargo you collect. Who too many repeats the nonsense, it is monkey (they never evolved) is a projection and a monkey is monkey forever. Who is too much with the head in the clouds, is a giraffe, and Islamic terrorists are reborn as ritually slaughtered cows and bureaucrats will be reborn as a chicken in slaughterhouse in Europe. Everything is there to show errors. Unfortunately, here it works poorly. The Earth is the level of bacteria but is transformed into a virus. If it is not changed will be removed.

So let's see closer to the sources of energy, what drives this projection

Main chakra centres

Crown chakra - first lens from which starts the projection of the body.

Third eye chakra - pineal gland. To connectivity with the source. Intuition

Throat chakra communication

Electromagnetic field / aura called also Meissner field. Last layer.

Heart chakra - Love

Here is a simplified diagram of the human body's energy system.

Sakral chakra sexuality

Navel chakra power

Crown chakra when receiving a large portion of energy shines like a halo.

Root chakra survival

People are made on similitude of God and, as God they also are a source of energy. The body is only a projection shaped by intelligent God energies of which we are all a part.

The whole body is only concentrated energy, steering by these 7 points of energy called chakra. Just like projection of the planet, but in smaller size. Earth is controlled by all sources of energy, in energy field our sun and over, by Pulsars. Body also is controlled by these 7 points and has connection with the sun via pineal gland. Crown chakra is to collect and send energy back to the sun. Have shape as diment, to collect from each direction and correctly send to other points. That works communication with the source of the projection which is the sun. Radiation from sun penetrates all surfaces of this density. As the rays from Pulsar - Control sensors to control the operation of the whole cosmos, the whole cell.

People are combined with the sun or moon. The moon is the foreign cargo in our source. Moon is not the origin of the Earth and before the flood he was not there. It's the moon when he came up in our atmosphere caused the biblical flood.

The moon is an artificial satellite for obtaining energy from the Earth. It's like atomic reaction. Added cargo which creates a potential difference and causes the breakdown of the atom/cell/sun/universe - they all are the same (same rules but they create many different worlds). Positive energy of the sun jumps out as free radical from cell who dies (this is salvation), to the nearest cell/world/universe, and again causing potential difference and it starts a chain reaction / nuclear reaction / cancer. It is same situation.

The moon does not reflect sunlight, only shines its own light.

Before the flood, the earth looked very different.

Why we could live more than 1,000 years?

Long time ago the Earth looked very different Beautiful Eden garden was a quiet haven in peace and harmony ... was overgrown with big colorful vegetation and was inhabited by large animals and the great people who today

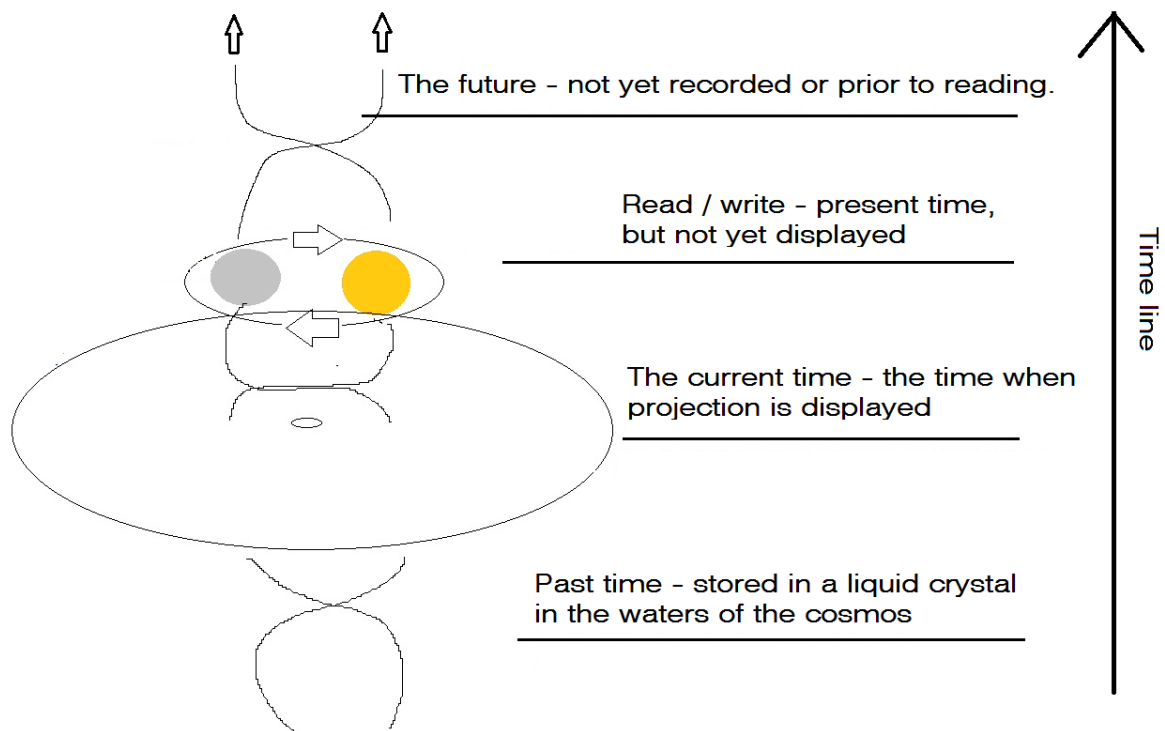

would be called giants because they had even few meters. Everything was great and beautiful. The atmosphere was almost windless and rainless ...

All this could grow so highly with us through different atmosphere, the air pressure ranged from 1.5 bar. This pressure was caused by an extra layer of our atmosphere which was water on its outer layer ... This water also gave us additional gas content in the atmospheric air, namely hydrogen whose concentration reached about 1%. (hydrogen is explosive in concentration over 4%). Also near 1% it was the concentration of carbon dioxide. People need carbon dioxide and also plants. It is indispensable. With the filtration of UV rays thanks to the last layer of our atmosphere, gave us the conditions on Earth, allowing to achieve with all the plants and animals of such size and age about 1,000 years. The hydrogen in the atmosphere at this concentration resulted in the fact that the cells do not have to do as often mitotic divisions therefore telomeres they remain a long time in a good condition ... Discover this Alexis Carrel by research on cells. Discovered that cells in the reduced environment (containing hydrogen) do not perform mitosis so often.

Now the cell doing one mitotic divisions on 2 years, and to perform such divisions with no extendable telomere by baicaline or other methods, had some 50. Now all these pollutants introduced into our environment, which have destructive affect on organisms of all kinds do not allow you to achieve such a length of life. The age of leaded fuel ... Lead is treated by your body as magnesium and taken to the bone, and there your body produce stem cells, which can replace every cell in our body. If not all this pollutions and lower pressure, the production could be longer than today and we can live much longer. The bones also produce the blood, so weak bones mean weak the whole body ...

Time

The time is variable but constant for each matter on the projection. Time flows faster or slower only for the energy of a living being but not for her body. The time depends on the speed of flight, the density of matter in which you fly, the sum of all cargoes inside and outside of the electromagnetic field of our star. Correlations of cargoes between the sun and the moon shall decide about the distance between them, and this affects the length of the day, due to a smaller or larger diameter circuit of the sun, over the projection. This is the reason why was introduced solar calendar. Change in way to counting the time, does not change the real time. Probably all the old records did not consider the introduction of the solar calendar.. Time is only illusion. It was invented to describe the changes. Let's see how it looks in the picture on the next page.

What is the true date !!!

Each year has 360 days as each wheel degrees, and 5 extra days which will be played out the end. These five days from the Mayan calendar, are not counted for each year.

In Armageddon it is also clearly said how many days have every year. Enough just read. This is because each wheel have 360 degrees. The earth is a flat disk that is said in the Bible and not only. Soon running out of time ... I recommend think.

Calendar - Gregorian solar calendar introduced in 1582 by Pope Gregory XIII Bull inter gravissimas; Julian calendar reformed by Luigi Lilio. It's basically the Julian calendar, which was introduced amendment in calculating leap years aimed at preventing a delay relative to the tropical year calendar. Also they leveled part of the difference accrued since the introduction of the Julian calendar. Julian calendar behind by one day for 128 years, and the delay in the Gregorian calendar is 1 day for 3,322 years.

The difference between the Julian and Gregorian calendars come down to two issues: 10 years subtracted, from 5 to 14 October 1582 year; and they the aim was to correct the delay, adjusting the rules for calculating leap years, years, numbers that are divisible by 100, but indivisible by 400, they will not leap, while maintaining remaining years with numbers divisible by 4. This amendment was previously applicable three times: the years 1700, 1800, and 1900 were in the Gregorian calendar ordinary years (whereas, for example. 1600 and 2000 remained leap).

It was supposed to conceal the fact that the distance of the sun from the moon diminishes, making the day seem shorter due to the smaller circle.

HOW FAST TO COUNT THE TRUE DATE:

1582 (introduction of a sun calendar date minus 10 years subtracted, but from date of introduction - to hide reducing the distance of the sun from the moon)
So to that day calendar was counted correctly. So to calculate the correct date is enough to do simple mathematical operation.

$2016 - 1582 = 434$ years

$434 * 365 = 158410$ days

$158410 / 360 = 440.02$ real years

$440 + 1582 = 2022 - 10$ years subtracted, but from date of introduction so they are not recalculated here. So now we know that now is = 2012. This is real date what is now. IN NEW YEAR 2016 will be real 2012!

This approximate calculation and are not accurate.

Teleportation and time travel.

Teleportation consists in making vortex of energy element grave matter. That element can be concentrated cargo in Tesla coil or other solutions as concentrated magnetic stone . The speed of rotation determines the distance which can be defeat. The direction of rotation determines the direction of the vortex (front / rear). After performing the vortex, just give a set frequency target point and we have a connection. For matter objects must be the environment with a positive potential where the current and voltage are moving in the same way. The matter gets into a destination, after crossing the wheel. The Earth has energy chanel known as ley lines. It is recommended to use these main channels. Destabilization of energy is bad for the planet. Extra points can be creating but in a thoughtful way.

Setting the wheels in a vertical position - gives you the opportunity to travel in space. In the horizontal position - it gives the opportunity to travel in time Under the same rules but it need is greater turnover. Technology very dangerous. When you make a vortex which will be open on the border membrane (upper atmosphere) causes it to collapse the star. All who are doing experiments with the collider cordons can destroy even a few cosmos at one time.

It is not possible to travel in space with material ship, without separation in the electromagnetic field and resonant. It is not possible to open a safe passage through the barrier of our cells. The difference potentials, is too large, and this will cause the collapse of the cosmos. Creating a black hole on Earth can collapse the planet, energy transfers cause the collapse of the planets. Every change in history creates a new scenario from the point of the change. Additional scenarios, they charge a lot of energy and this causes the breakdown of matter of Earth. From the inside and from the out side of the planet, the Earth, it will crumble to the powder in all scenarios. When the first scenario will not be saved - all disappear. You may not manipulate events in the past and in the future. Implementation of the changes in the history does not change the course of events in the first version, only creates a parallel world. It is possible to journey to other planets materially by creating a vortex of energy but only directly to another planet as arrangement of ley lines.

That look's Stargate, and such were in Iraq. It was the head reason the attack on Iraq. Stargate is as hula hoops with the particle of heavy matter or cargo energy accumulated inside, rotating by magnetic field. This is a good solution for transport. Other solutions for transportation, are vehicles with anti-gravity propulsion. This is much better than the pseudo transport which is currently used on Earth. Stargate are very dangerous if you don't know how to use this.

When the gates will be moved to another place may not work properly.

Then, using settings which worked can move to other places such as into rock ;) or destroy the planet by opening the vortex on the border of the cell membrane.

Or if will not find any frequency to connect, don't will be works at all.

Colliding molecules with great force leads to the destruction of the Earth. You can not open on Earth vortex further than in the same environment.

It can only be used for internal communication in an environment with the same electrical potential. The potential difference will burn the Earth in split second. You should not collide molecules, but only perform vortex.

(that also is dangerous !!!)

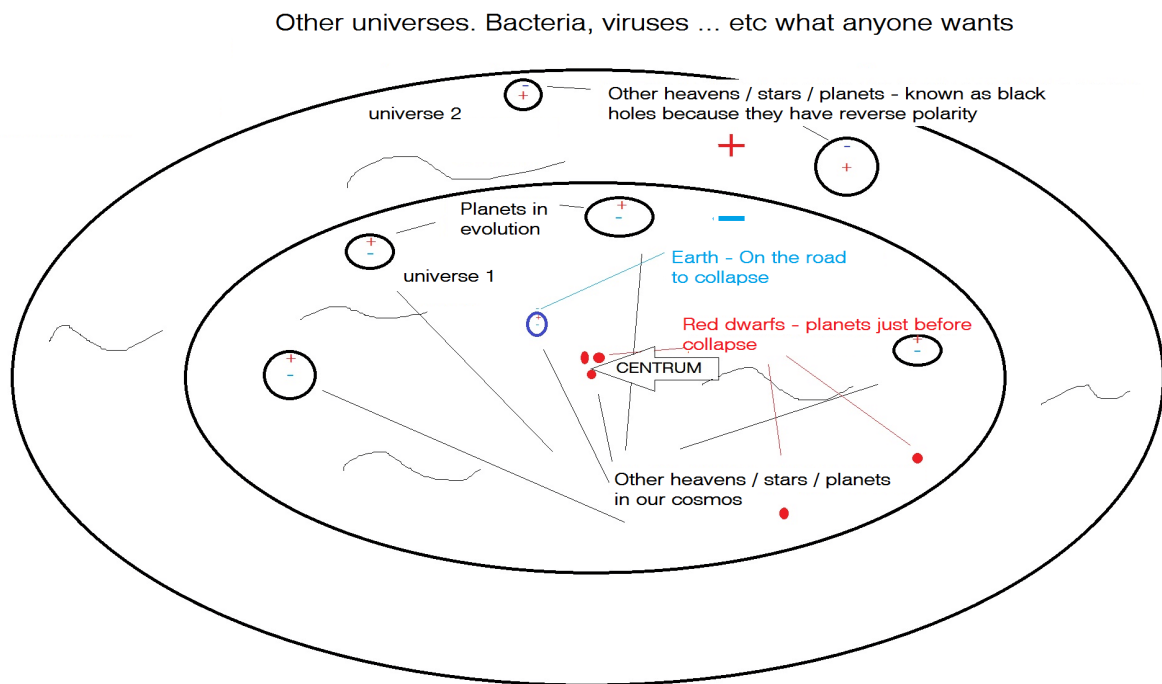

What is gravity and how works antigravity - examples

Gravity - forces of electromagnetic interactions, occurring between electric charges. Antigravity is based on the accumulation of cargo that will be attracted to bigger electric potential. Bigger electric potential is located around electrical source, so in our case it will be a negative charge of the cosmos. Another form of antigravity involves concentrating the potential of which will be repelled from the ground. Concentrating negative charge to a state where it exceeds the charge of the earth's ,will raise the object. The potential difference between the

vehicle and the whole potential of the land determines the height at which object we will hang. Gravity pushes the matter from the top to the inside. There is no core that attracts us to the planet.

This drawing the structure of the World explain in the simplest way the principles of construction the universe with mosth most important rules which driving this.

Scheme structure of the world
Explanatory figure: planet position does not reflect the facts

God created the heavens. Not, the heaven, but a lot of heavens ... 7

Erroneous interpretation of the Bible. Unfortunately, even the first translation is manipulated. One of these heavens is a garden of Eden called now the Earth ie the Sun. The center of our star is empty, same empty as it is in the middle of our cosmos. Nothing does not reach the middle of the cosmos, but decays before. There is too dense matter. The empty spaces also are made up of matter. There are no empty space. In the middle it is another world on another matter density. A lot smaller, With the electrical potential of matter at a level sufficient to moving. Very small. That why the each matter have own frequency, because in each, even in the death matter it is that living energy which create them and is no solid matter. This energy creates matter. ...”God gave Adam authority over all beings and matter on Earth”. Man is a projection... her most intelligent manifestation.

We can not see this world because our eye same as our ears captures only a

certain range of frequencies. That is why it seems to us it empty but in fact it really is not. It's like the ghosts. Among themselves they are material but you even if you see it that you can not touch them.

To this world you can get only by being on the same level energy potentials. You must be very small or send a small portion of your energy to be born in this world as new life which will adopt general form similar to the living species there with only minor genetic changes. That looks, the mystery of the Immaculate Conception. Some civilizations in the past performed similar trips but only in the area of our cosmos. The pyramids were used for this. The corners are sending energies. The greatest figures whose bones were finding in excavations on Earth came from other more developed planets. If we will be develop well, then everything will be to grow. Earth will grow so there will be no problems with the place. Pressure will grow so we also will be bigger. Will be more energy so we will live a lot longer, as it was before 1000 years and even more..

As we see in our space, the space has a negative charge. Remember the + and - are only symbols for easy understanding. Is the only potential higher and lower, and divisions on the frequency and connections between the molecules of matter. They work same as the connections in the genes between different molecules, which form one gen or connections between each particle each matter. All the planets / stars / suns, possess a positive charge on the outer layer, so they can be seen. The light is just the electromagnetic spectrum, wave energy. When light will slow, you can hear them. These mysterious sounds heard from the air in different parts of the world some time ago were caused by the change in the density of matter. The whole time we fall. We are unable to hear a full wave. Only shreds of the lowest ranges.

Pyramids

The pyramids are very interesting project. They have many uses but certainly were not tombs. Unfortunately, all sources about pyramids have omitted the most important things.

Pyramids is a great solution for antigravity. Maybe a little spacious but very durable and consume no energy.

Gold pulls electrons to the system, the angle of the pyramid determines the frequency but can be adjusted on the potentiometer. Wave energy flows concentrated along the magnetic core. Electric cables / tunnels provide electrons to the resonance plate. Soundboard, introducing the vehicle to resonate which causes loss of weight. In the state of resonance, each photon is calculated separately and then as a single cargo is too small to succumb to gravity. When the vehicle loses mass, wave flowing through the vehicle is enough to lift. something like a big electromagnet. Pyramid does not consume energy, only uses its flow. The height of the pyramid determines the voltage. Voltage is the potential difference, so the higher pyramid the greater the difference between the top and the bottom. Until not show potential difference, there is no voltage. After parking the potential difference is increased and the pyramid can work as a power plant from which you can pick up by induction electricity in the area. The corners are sending energies so you could also travel astrally. In addition there were a few other features. You can make there mono atomic elements. Also combine and separating of matter and few others things.

The next interesting solution for antigravity is to collect the cargo which will be attracted to the bigger potential.

Ark of the covenant

Gold Angels - Socket / Switch

Ark of the Covenant is basically a capacitor.

Left long in the sun accumulate enough charge to lift ark into the air what was described in the Bible.

Here also the gold pulls electrons to the capacitor. Angels are pins to switch on or off the cell. When angels wings are closed, it is switched on and is loading. Ark has many uses.

The external layer of gold

Internal layer of gold

The insulating layer of acacia wood

Ark of the Covenant was also described as a device to communicating with God. Ark is not necessary to communicate. Only temporarily increases the strength of receive and transmit signal.

To connect with God by use of the Ark you have to put your testimony there.

This testimony is a faith. The faith to pair yourself with this energy in order to use it temporarily.

Another solution is a gyroscopic antigravity engine.

Two rotors rotate in opposite directions and accumulate cargoes under the bearing surfaces of the vehicle which will be attracted to the upper part of the

atmosphere. The rotation produce the forces, which by use flow of energy can lifts the vehicle. At the moment, these solutions are not good because on the Earth's surface electrical charges are being destabilized. These solutions gather energy from the environment and uses it for a while to move. Currently we have an excess of a negative potential (lower potential), also in the air. Therefore, to move with such vehicles is now dangerous both for the vehicle and the planet. Inthe source of which is not moving simplest design does not work. Because of this, they may form a power outage to the vehicle and could crash. Larger vehicles like a pyramid also will fall, besides they will induce additional energy vortexes, which also will not be good.

Conversely polarized elements.

Conversely polarized gravitational vehicles are based on a very simple principle.

This is just, concentrated heavy material. Elements of heavy matter which is concentrated to the state, where the potential of the vehicle exceeds the potential of the land. The potential difference between the ground and the vehicle decides about height at which will be hang the the object.

It's just an example to explain the principle. The height will not be at 100, but as much as the potential difference will be able to lift.

This can be summed up like this: in a separate frame of reference, the groundwork with a potential 100, will raise the concentrated object with a

potential 200, on high equal to the high of not concentrated ground, in this frame of reference. In short it means that if something will be too heavy it will not fall. Therefore, the moon never fell to the ground as any big asteroids ;) We do not have to worry about any asteroids from space. The moon came up long ago and still hangs. Almost to the earth's surface reaches only a positive charge. Recently, more and more these can be seen on Earth. For example, in Russia. If will be a lot of them, it means that are free radicals from the breakdown of another star, survivors.

They also did not reach the ground, but they as a energy are discharged before surface. They are Born here or they connect to existing lives. Other single points beings traveling in a strong field. Highly advanced race in comparison with the level of the Earth. To collect only negative potential we can use basalt . Basalt pyramid can be used to collect negative cargo from atmosphere. Cargo can be Concentrated in coal parts inside the pyramid. We need all solutions to keep balance .

The next possibility is the production of energy in a closed area. The simplest method is the thermonuclear fusion, the same it is in the sun. There will be a few more sentences about the above, in the section about the sources of energy. Is many other solutions to get antigravity efect.

$$E=mc^2$$

Primary form the formula is: $M = E / c^2$.

This is a formula for calculating the body mass at rest.

In form $E=mc^2$ can be use to calculate energy in object for example in projecting hologram projectors... how many energy is needed to create given object. Pattern is correct, but there is one problem. For "C" value is given some sort of number that is called the speed of light. Should be given the value of Candela.

Candela is the inner part of the flame that shows the real area of the energy given matter. During combustion, the energy which create the photon is released and energy from this photon is spreads to the maximum area which normaly will fill in not compressed state to a single photon. Is going of course about Candela from burning the substance from which we want calculate the mass. At one density they are similar but you can create concentrated objects as well as those dug from deeper layers of the Earth will have more energy.

Also is needed to calculate in right way candela and then will be correct.

Scientists say they know what means this pattern, and they use it. But this is not possible if they use speed of light which is changed and not needed to calculate mass so that can mean that they don't know the meaning and's rules that apply in physics. It's the same truth as they were in space. They do not know because the pattern has been stolen from private notes Nikola Tesla and Albert Einstein - the one who stole the formula did not understand its meaning but announced

his work. It was not the first case. Most of his work is stolen. It is option that they know the true but they want to hide this because that can show the true about real “power” nuklear bomb. I'm not sure exactly what they know and what they want hide. Secret could be also from reason wron using real technology in other versions of earth.

original form formula

pattern converted to
calculate energy of the
body at rest.

C - Candela
M - Mass
E - Energy

$$M = \frac{e}{c^2}$$

$$E = mc^2$$

Electricity

The voltage is a difference of the potentials.

It doesn't matter where the difference comes from, but it must be the difference. So the voltage is the potential difference between the two molecules of different matter. The matter is a concentrated energy it and consists of photons.

Electric potential can be described as the amount of electric charge in every particle of the matter. That is not a precise definition though, as the things are indeed far more complicated.

These environments can be any kind of matter.

It can be a gas e.g. helium and carbon dioxide or any type of solid matter.

The greater the potential difference between them, the higher voltage we will receive.

The plus and the minus does not exist. There is only a potential: higher and lower. Voltage goes from a higher to a lower potential, therefore the voltage appears only when there is a difference of potentials. The difference of potentials causes the creation of boundaries between any matter.

I use “+” and “-” to easily explain, however divisions are far more complicated.

These divisions decide, what is a given matter.

Not every matter will exchange electrons in each environment.

The solution is simple. Enough is to allow the flow of ions between two different materials. Water, some acids or gases... What you will find, will be

good if will be works. Is really no energy problem... We have to know this.

voltage = potential difference.

current = $100 - 50 = 50$

Energy solutions

It's really a lot of ways to solve energy problems.

Currently, we can not focus on the accumulation of energy from the environment but on production.

Which means that all type solutions, as the Tesla tower or household gold capacitors as the Ark of the Covenant, now will not be good for now.

This will speed up the fall. But if we connect the Tesla tower with free energy generator that to send new produced energy to atmosphere, then that is great solution .

Currently on Earth/in sun, is too much of a lower potential, also on a surface (in air) which is not good and should not occur and it can be seen as black places on the surface of the sun.

Therefore, we must concentrate solely on the production of energy and sending it into the atmosphere also ...

The best solution here will be the creation of sources of energy from thermonuclear fusion of helium and hydrogen or cold fusion. Exactly this is happening in the sun but we can do in a smaller scale.

So in order to produce such a reaction in a closed room we make such a corps. In this figure, you can see everything. Two three-sided pyramids are stacked in the merkabah. They are a great environment for focusing energy.

Reaction at the sun is not well studied. As I mentioned in my recordings on YT there also not necessarily everything has been said and affirm that recent reports from other researchers. At the level of energy and material that can looks different, but can be same things seen from two sides. For example . Cold

fusion at the sun scale can produce helium and hydrogen, and all the ingredients which they studied. That possible but it need to be tested deeply.

There we will start reactions. Wave control sockets are to control the reaction. Is no needed too much power. This is also a great solution for antigravity. Such a system is assembled on ship and ready to go. :)

We can also make magnetic voltage multiplier.

External coils in around the system, collecting multiplied changes in the magnetic field . These are the simplest and most basic energy solutions. There

are many other solutions but they all are based on the same principles. For example it is also possible to collect one potentials from one density and dividing it into two different, get the tension. This is a good solution and some bacterias use this phenoenon.

Membranes of this bacteria operate like gold that mean pulls electrons into the system from the environment.

Due to differences in capacity is created potential differences. This raises the voltage that drives the engine. It can be used in any environment because there is always some cargo from which you can make a difference. There are many possibilities of using this phenomenon. Many many... This book tells about the rules just to explain to everyone how it works and on the basis of these messages, you'll be able to create all the necessary practical solutions.

Creating and processing each matter

Creating and processing each matter is a very important technology for the each living beings. That you can get rid of all the garbage and convert them to the necessary materials You can produce Organic Food, gold, water, oxygen, and everything else directly from the garbage or air. Processing matter diagram looks like this.

This technology requires a large amount of energy but the energy you can get for free. Voltage is needed to melt processed material and to obtain appropriate conditions, but is option to make this also on low energy technology.

Wave controls provide the frequency of the created object.

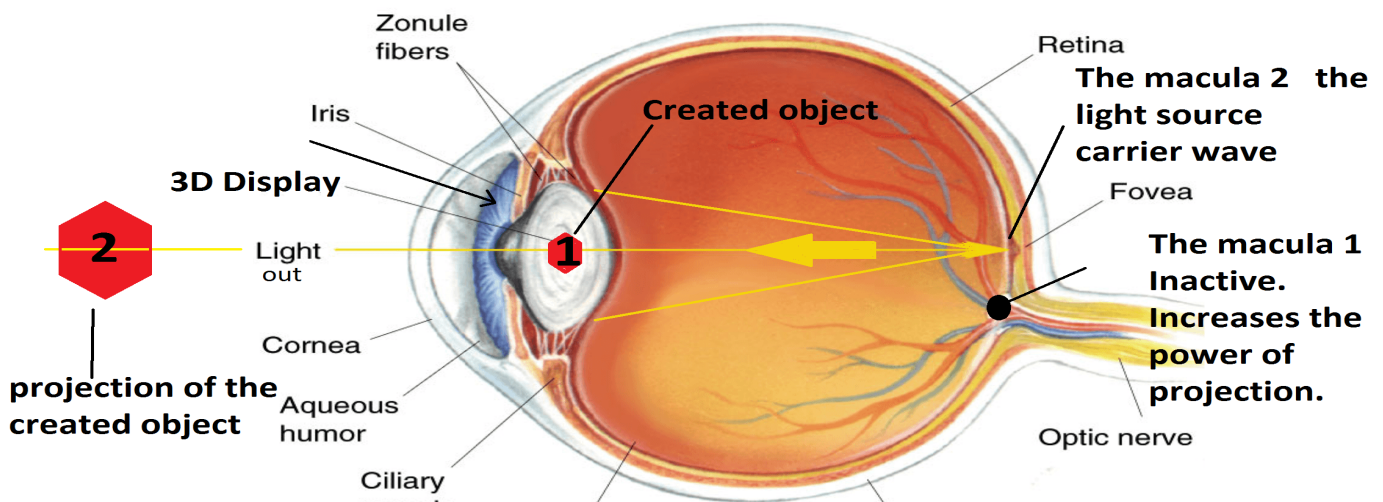

In the middle of the field is created and processed the matter.

Technology very important and should be in a wide interest very long time ago. It will make us free from the need to build factories to keep production of the necessary items. Everyone has such a machine in the house where he prints

himself foods and a second machine for objects. Foods from machine will not be anything different from scanned food. You choose on the menu what you want and print same organic food as you can grown. Food machine on the principle, as the projection in the eye. This will eliminate the problem of packaging, delivery, production of garbage which have to be quick broke to keep production. So that will finish slavery. Everyone will be have everything with no cost. Real life ... You want this... You have to do small effort ... For example : spread this book ...

Search alone, talk with your friends about it. If the units will grow and increased their own frequency, the energy will be faster disperse and will be more radiate. That's why if you want to change the world it is best to start from yourself. It was done experiment. On one island monkeys taught to wash fruits before eating. When on the island number of monkeys washing fruits are grown monkeys from another island also began to wash the fruit. The energy spreading. Experiment repeated several times with other things so you may have heard different versions.

Holography.

The human eye is a receiver signals and projector, therefore is a red-eye effect on the pictures and can be seen it at night live.

The image is formed in the lens, which works as a spatial display.

Everything what is created in the lens, you sending to a common projection.

The image in the lens is formed in a similar way as the creation of matter.

The lens is a flexible transparent 3D (real 6D) liquid crystal display projector.

It does not the lens does not function as a lens. How it works will explain a toy:

Mirage 3D Mirascope.

This is the simplest example explains how it works.

Subject placed in the mirrors, will be displayed slightly above.

And now imagine this toy as a transparent 3D display and illuminated from the bottom. We have a hologram with quality as reality.

The best and the cheapest method of production of full 3D hologram. Very simple principle of operation, low consumption of energy and low failure rate.

The speed of light

The speed of light is variable, can be manipulated and depends on the light color (frequency) and the Environment in the reference system. The speed of light subject of an action of electromagnetic forces causing refraction of light in a more dense matter. Therefore, the light in space turns in more red in place where is change in the magnetic field. That is why the sun is redder when it is below the horizon. Horizon arises because of the oval eye.

The speed of light is not the fastest speed and should be 2 times greater than they say and can be programmable. The fastest speed of communication have paired photons. Paired photons are conected in the full range of the electromagnetic field of our star. We can't see this signals because the human eye sees only a certain range of frequencies.

On the principle of paired photons operates telepathic communication. You do not need the relay stations. Operating frequencies are not harmful to humans and the planet. Connectivity on photon technology, is the best form of wireless transmission of signals between devices and operates in the entire area of the electromagnetic field of our sun. Unlimited range. Measured photon can be in two positions. vertically and horizontally. Paired photons will always be in opposite positions. As one will be horizontal is the second certainly will

vertically. As 0 i 1 but here is much more options on each frequency.

War with aliens. Armageddon or Apocalypse ?

The word "Apocalypse" comes from ancient Greek and means the disclosure of the truth. Something what was hidden. Armageddon means annihilation. End of the world the final battle. This term comes from Megiddo - an ancient city in Palestine. The word "har" means a mountain, hence the whole word Armageddon is a "mountain of Megiddo". More you will find in any other sources. Here we concentrate on the most important things because it is a book of secrets.

The whole story is a bit more complicated than I can say here. I remind only the most important information in the best understood forms, if you can say that. Here you will find all information how to survive the Armageddon with an explanation why you have to do, this what was said in the Bible. Everything is a state of mind and the whole process is sorting energy. Armageddon will not happen in all versions. That's why you have to do not think about it so as not to pair with the dying reality and energy.

Armageddon and the war with aliens. Whether and how it is Connected.

Yes. These events are connected and will happens. Each of us watched at least one movie about the fight with aliens. In the media in general are mainly promotes the fight and rivalries. But the fault is always on the middle. People like to destroy and kill. The whole world is a reflection of the mental state of society. A common projection. As I said everything is a projection of energy. Armageddon is a godsend, but it does not have to look so bad. It always depended only from us. Now on Earth is too big difference of potentials which is the reason why the Earth falling. We have an excess of a lower potential and from the moment when the moon came up in the our atmosphere we are falling down. We are now very close to the center of the cosmos which means it not too much time is left. The final date is 23.12.2012 . In sun calendar it will be near 23.12.2016. If by that time arrangement of cargo on Earth does not change enough to stop falling, they will be have to come and collect the lower potential to prevent the collapse of the sun. The time has come, people must change, begin to create and collaborate rather than destroy and compete. Satan is not bad, evil ones are his followers. Satan is also a divine creature and is indispensable. Unfortunately visualization of Satan, which created the people for themselves, is significantly different from

the facts. In the universe have to be a balance. It is like a plus and a minus. Matter and energy. Potential higher and lower. One without the other can not exist and therefore can not fight with each other.

Satan is a part of the one whole. Erroneous interpretations result from manipulation led by the vatican.

Vatican was taken over by other civilizations, which is with a lower potential and has the energy problem. They found few places in the cosmos where they can easy obtain energy. Unfortunately their potential is much lower so the need to reduce the frequency of produced energy. People produce these frequencies in fear and stress and this is the cause of all problems here. As I said before.

Fault is always in the middle. It is not the fault of the devil that tempts. guilty of this one, which succumbed to temptation.

This civilization is called devil but is from this density, from this cell. Which means that they are from this same universe but with the reverse polarity. That are the Fallens angels. More about the fallen angels, you will find in a separate section below. They just need a lower potential because they are at a lower potential due to its path of development, so such, it needs.

And that really they only think they need the same potential. That also is wrong. Theory about bad Satan, was established on the lies, secrets, and from reason the state of mind of people. So too were created Kabale and Islam and all other religious factions advocating violence. This race wanted to hide from you that we are all divine beings and the earth is the Garden of Eden. How to take control over the divine beings to use them to own purposes?

You have to only convince them, that they are who they are, they are not where they are, create a lot of theory and problems that to make them busy.

This does not solve their problem and even accelerated their fall. They will no exceed the barrier with such a load and potential. They will die together with this cosmos if nobody resolve this problem correctly. They will die and we and all others in this cosmos.. We all we create a common body.

There is no, no common interest, therefore on divisions and rivalries it is impossible to exist.

All you need to do is said in the Bible. This has been written in a form appropriate to that level of knowledge what was then. The Bible talks about physics and the rules which driving this world. There are included, all the clues to survive and develop. Unfortunately, to this day Bible was not understood in the right way. Let us recall some specific meanings to understand about what I talking.

For example why should we pray for those who have gone astray?

When you hate it generates energy, which can be also sent as each other energy. So when you hate, you giving your energy to what you hate and you will be surrounded by this more and more. Law of attraction. This on what you focus, it is attracted. Therefore the placebo effect works and therefore miracles do

happen. So sending positive energy will work exactly, as we want .

That will combat evil. Evil can't be stop by evil because it generates more evil.

No war throughout human history did not end in combat. It is impossible.

Thought is energy like everything else and can be sended and it is that all the time. That is why the teachings of Jesus are true. The matrix will give you all what you want. Therefore, so many divisions that conscious, evil people use to evil because they desire power. Those evil people also need to understand once that they have been deceived and exploit just because they also deceive and exploit others. In such a sick system it is impossible to exist.

Other important example to begin to understand the Bible is:

Stronger must help the weaker.

Voltage goes from + to -. Today, it is the opposite because we have of excess of a lower potential. So Voltage goes from a higher to a lower potential. Only in this way you can develop. Fusion reaction, namely cooperation. It is based on the combination of two similar but different potentials.

As helium and hydrogen, as a woman and man, as investor and creator, as stronger and weaker and as + and - . Only in this way can create something.

Explosion theory, divisions and rivalry must end. It is much much better solutions where everyone will have everything without harming the planet.

Currently on the Earth continues madness. Mental illness propagated by a race from the moon and others. But everything has been accepted by the people.

Everything is a choice and what is happening on Earth is the result of our choices.

Being passive is the choice of accepting current state of affairs. Freedom is not something you can give to someone. A higher level requires understanding. In the Bible it is said. The problem is in us. Everything is a state of mind. And it's not you're born in the world but the world is born in you. The beginning is the end and the end is the beginning. Everything is a reflection of everything. State of the Earth will reflect the state of the cell Each living creatures on the Earth and Earth is part of something else. We all create one coherent whole. Fractal world construction.

Earth becomes a cancer cell.

Therefore it will have to happen is what has been described in Armageddon.

This is a godsend. Will comes the Angels to destroy evil on earth, collect lower potential to equalize potentials enough to stop to fall and start to rise. Exactly what was written in Armageddon. St. John.

Has been done some steps that to manipulate you to fight with your savior. All these films about the fight with the UFO are also part of this manipulation.

These angels will be manifested themselves here in similar as UFO form and you will be send to the fight against savior.

Manipulation lasts from the flood and is much more complex than anyone thought. Even themselves manipulators from the the Earth...

All those who go into battle will die. There is no chance for anyone, even with the all arsenal of several planets and most importantly it does not make sense to fight with something that comes to rescue you before death.

All you have to do also, it was described in the Bible.

There was said in short, that you need to be in reasonably safe place, close all windows and pray. When your source going to destruction, you can't hide.

Wider explanation of the significance of these steps, sounds that:

You need to be in safe place and close all windows because you can not see and hear what's going to happen. When you see it, then automatically you are paired / connected with these events and it becomes your reality.

You must also pray not to think about what is happening. It also will connect you with the the dying reality. You will be Paired / connected in this way with what is happening. You must pray to connect with Jesus and others and raise your frequency, because collected will be low potential with low frequency.

Your charge and frequency depends on the state of your spirit and mind.

You will not be able to deceive. If you will be to collect, you will be collected with the rest and squeezed in an electromagnetic field to drop the evil and your body will be buried in one big ditch with others, as it is described in

Armageddon. This energy will be taken out of here. We can not be afraid of the final judgment. Judgment Day is the cleaning of the low-frequency energy.

Energi evil. Remember that Judgment Day is only for those who deserve it.

Jesus said it all a long time ago to make you free and to shows you, your error.

Unfortunately, his words have been forgotten, manipulated and not been understood in the right sense.

So guilty of what happens are all people. It's their choice. By all life, people make choices and all those choices of all people in all lives, had created this world, who falls. No decision is also a decision. When did you decide to do nothing to improve this world, it mean you join to his destruction. A long time ago people had killed his savior. Jesus Christ. Then they lost a chance for a long and happy life in harmonized world, where everyone can to have what he wants. Later, it was several other attempts, but money and lust to power win. They will do it again...? They will go on the last fight, against each other, and forever will be deprived of the chance of continued existence?

All this depends on you ... It will be just like you want. Unfortunately, that will not do alone. You need to take an active part in it.

You've done the first step and you read this book and other sources with knowledge. Start to talk about this with those who know. This is the main topic. Promote this book everywhere . When you pay for it, the minimum nominal fee, you give this your energies. You will be correlate with this and you will support positive cargo, so you also will collect positive cargo. If u didn't paid for book then no worries, is enough just to be concentrate on good scenario and

choice right version when will be time to choice and share knowledge with others.

People had to do good to rising up own energy and frequency, grow to survive. It is the only way forward. Everything is energy, and money is its symbol. The importance of money also is more complicated. The symbols on the banknotes have also of significance as a symbol, and are important as everything else.

Armageddon will kill all the followers of evil. The rest of the people will be the witness these terrible events, beside those collected before this worst time. This is a not large group of especially selected. This second group, unfortunately, is very large. Not only people live on Earth. There is also a race that wants to settled here. Mostly it is the lower potential and all those who joined in.

If you will do all what is described in the Bible and in this book, you will survive. As you see the truth is more complicated than you thought.

On the moon is energy. This is other race, which want to set on our planet, because their own they led to the collapse. Due to certain mistakes they think they have a problem with obtaining energy. Exactly the same as we are here on Earth. Each of us needs energy to live. They are here to gather energies which peoples produce all the time so everything is geared towards putting you in a state where you will produce a suitable potential for them. All conflicts are the situations where people produce a lot of energy with the correct frequency and potential. Not only wars... For example ...On the big stadiums where it accumulates a lot of people to watch a fight or other emotional events, are mount a big LCD screens which are purchased new at every event. This is because of these screens collect and keep the energy produced by the audience. They are in cenrum and are directed towards the audience and liquid crystal keeps energies. This is the same phenomenon as the memory of water, because water is also liquid crystal with a lower density. These screens are taken by this race to recover out of them this energy. The whole of the current technology is designed to extract energy from you, even your TV at home LED or LCD, telephone and almost any other electronic devices.

Armageddon is near.

Everything is turned upside down, that you could not see the truth. Armageddon is salvation and Antichrist is Jesus Christ.

Everything was overturned because they were afraid to lose their source of energy, but they also they go to destruction so they must understand that this is a wrong. You can not continue in sin. They rob the Earth from your energy.

Just because of this sin, first appeared here on earth and Adam eat an apple.

The apple is a symbol. Eve wanted to possess secret knowledge that she had to give her power. It is the sin of pride. she wanted to be better than others.

Unfortunately that was also manipulation. The beginning is the end and the end

is the beginning. Eye for an eye is not a solution. Opponents will occur as long as you want to fight. You will get what you want.

On Earth, there are some people that want to unfairly take a place, which is not for them. They will want to play an badly understood significance messages from the Bible, story to convince you, that he is the Antichrist. They want to use tricks to fool the peoples, that he is, who he is not. Technology used for this plan devastated the planet on which he it is located. Guilt and punishment. He will die with his own world which he help to create...

They introduced a lot of aluminum into the atmosphere to be able to use some kind of sick of the idea of getting a hologram who has to convince you that what you see is real. But will come, the real ships and the whole of their plan will turn against them. These people are on important positions and directs them only lust for power. But here on earth, there is no power. This is shared projection. Training room for progress and development to take power later, as a creator not a destroyer.

When you evolve, you will create own world, own cell. Then you will get some power as a test to become a creator and to possess real power. Only then however, when you understand how to use it.

Another very important misconceptions are:

Islamist want everyone to acknowledge Satan as their god.

Satan is as your god because it is the energy from the higher dimension with the reverse polarity. Same cargo what Sun, because is no earth core. This does not mean that you must kill.

Satan is not evil. He is a divine being and He loves you just as God.

Satan is as your God because as being from a higher dimension, with the higher potential, but with opposite polarity, is here to to help you. The stronger helping the weaker. People unfortunately lost in the madness, mystery, lies and laziness, created his own version of everything, and it all reflects themselves.

It does not look good. Time for a change or time to end.

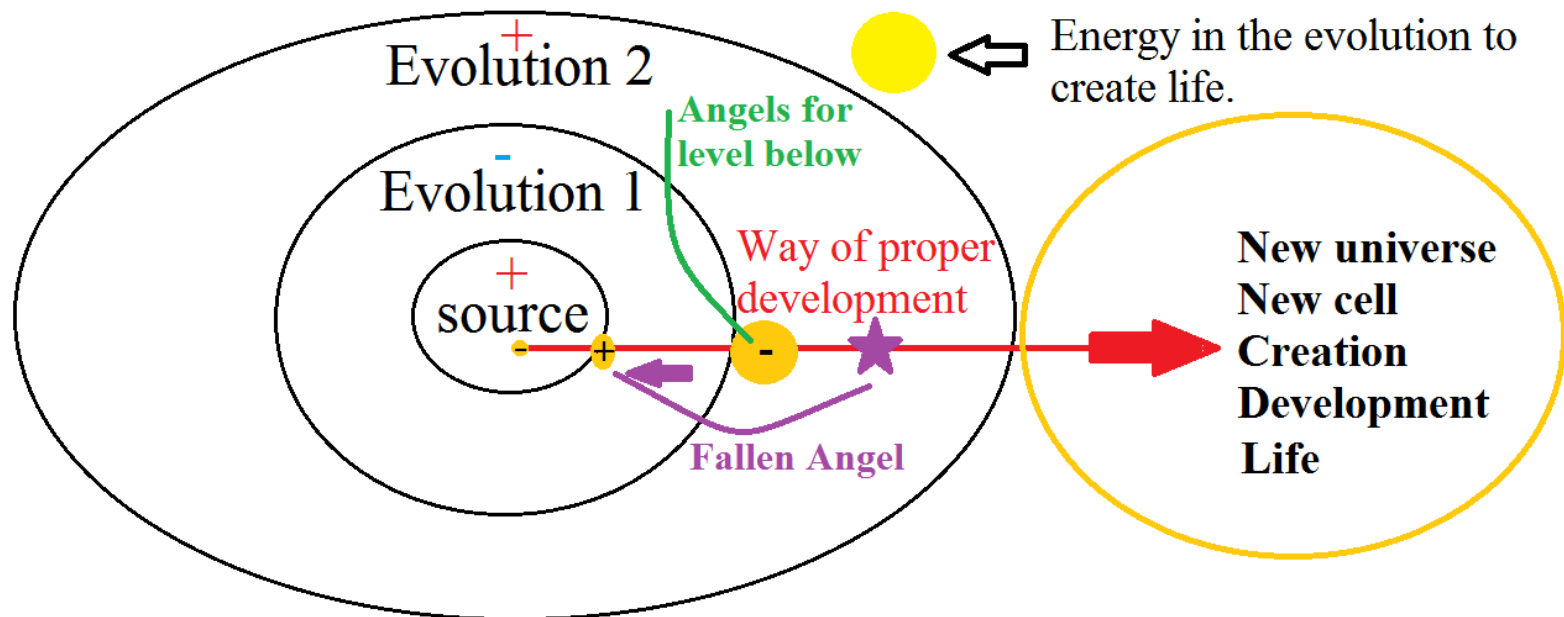

Fallen Angel

In the Bible the first riddle starts from the very beginning. Fallen angel fallen to Earth. Who are they and why are called fallen angel?

When the energy, the sun, will develop, it will grow and will be contain more of positive potential, which will attract the Earth to the top. To the outside.

With the sustainable balance of cargo it is possible to cross the barrier , to achieve a real development, True evolution. And only with sustainable. At this point is a real evolution and the energy is re designed in accordance with personal development. The state of mind. You are closer to achieving the form

of the Divine. When a certain race exceed the barrier of evolution (The star turns into a black hole) Then they become angels for the those who still remained at the previous level. If after crossing this barrier, this civilization will make important mistakes, then shall fall. When you are already at the bottom, exactly how the Earth now, and you further fall, then you will return to the previous level and overcome the barrier again. In second side, it is also Evolution accordance with the state of mind. Then you can be reborn as a reptiles , gray race or other existance in our universe. To make it more illustrate look at the picture below.

They are not Gods. They want to be, but I do not know how. They made mistakes therefore they fell. And when they are back on a level that already were, they are called fallen angels. They are not evil. It is lost civilization. Other reflection of you. For example : Reptiles recognized that the guilty of future problems are emotions and they decided to get rid of them. They got rid of most parts of emotions, what caused that was lost balance and started to fall down. It caused in the way back, that they loss something what they want to got rid of. So most of emotions and now they have only so-called: reptilian brains and they have problem with hearth chakra. That why they are deprived of emotions. They do not know that they are doing wrong. But they give us everything that people want. Always everything was the will of the people.

Here i can say words of some song :

Paloma Faith - Do You Want the Truth or Something Beautiful.

“...Secrets, lies, falling veils
I can be who you want me to be
Sacred lies, telling tales
I can be who you want me to be
But do you want me?
... I am happy to deceive you “

They doing everything for you. Everything what you want: “I can be who you want me to be” Reptiles are not the evil, bad are the people. They trying to help, but that really they repeat their mistakes, here on Earth. The same errors that led them to fall. Now it is harder for them to find error, because they went back in development and they need a help. They landed on Earth and want to settle here. They think it is possible and that they are able to solve the mystery alone, without the help of others. They want to do this on lies and secrets. Is many races and energy here... Tey all usually are on lower frequency The victim of lies, telling tales and peoples listen and repeating. They are not evil. They just do not understand their error. They are on a lower vibration, so they need to introduce you to the same level, and then you can produce for them suitable energy. They need lower-frequency energy therefore they creates conflicts. They do not force you never to anything. People can do everything, but don't have to do nothing. It has always been their choice. Their projection is consistent with their state of mind. Therefore they look like reptiles. They can, however, remain different form to hide here. Shapeshifters. To accomplish this, however, they must do bad things. They try to avoid this by cloning, invitro and other methods that are just to be able to live here. They are also with reverse polarity. which means that they will have reversed sex. The woman will be a man and man will be woman. This is one of the causes of homosexuality. On the way back it is not converted back to stop the development of of race that have fallen. Therefore they are having sex only among themselves, and this causes the genetic mutations, also in order to stop the plague. Who does not develop, this reversing. What mean that must die and create matter. Constantly and the only solution to their problem is the re-development and again cross the evolution barrier in right way. Then they will change the shape to whatever will let them state of mind body and spirit. They don't have to die. They can survive to time when we cross again the barrier but with open cooperation. It is the possibility separate the negative charge without removing it. It is also the option of balancing cargoes enough to equalize the potentials... We can do everything, but we do not have to do anything. We can simply die together in solidarity, this however is not a good solution so i propose to do everything. The easiest solution invented on the quick, is to build a separate flying towns on antigravity surfaces with the separation on a different frequency and resonance. Each of their vehicle and suit can have same option... Then they could be anywhere, as before. Is a loot others

ways to solve this problem. All the mysteries which people do not understand was to allow other race to living here on earth. The vaccine, some disease, creating problems, cloning, invitro, homosexuality and many more... It is not a solution. There is only one way and it is described in the Bible. The Bible was established to help in the survival and allow proper development. If you do not doing as is written there, you will not achieve proper development. All these races most fear the Antichrist. It was because they also did not understand the meaning of the Bible. They have been lost by the lust for power, so when they learned that they will lose authority and will rise a New World Order became frightened and started making more errors. They afraid of him so much that they turned up meaning the Antichrist. The secret is that the Antichrist is Christ himself. Jesus Christ from reverse polarity and him created antibody to solve problem ... Fallen angels after returning possess lower potential with lower frequencies, so they need energy from you. Jesus Christ will not flinch in the development and have higher potential and frequency. The solution is simple. People of all choices They made themselves. Manipulations were but he was also a free choice. They also have to make a choice. They may start to rise or fall down lower and die. Changes in other races also occurs in a planetary system. That you can change the look, do plastic surgery or sex change as also create animal or other form of life. All depends from develop. Darwin theory is theory devlutionnot evolution.

Other secrets in brief.

Global warming

Global warming is a global phenomenon and occurs throughout the universe. The cause of global warming are energy transfers between the planets. Each mineral or each atom of each matter or energy, exported from the nucleus star. (The planet) begins, nuclear reactions. Its like decay of the atom. It is the cause heating of the cosmos and can lead to collapse of the entire cosmos. It is possible to restore the balance by creating life, but natural ways. Nuclear reaction will only heating and melting the rod. There is no super big explosion and never was. Manipulations are directed by the Vatican which is controlled by the civilizations from the bear constellation. This civilization has made mistakes and they think they have a problem with obtaining energy. Exactly as we did here. This is erroneous thinking. All you must do is in the Bible. The Vatican wrote a lot of conflicting religion like Islam and the other just to create conflicts which cause the generation of our energy that they need. Someone asks why Islam is so different from true christianity and comes from the places

where Jesus lived. Here they all also made a mistake. Peoples need wake up!! Islam had to eliminate Christianity because someone did religion from scientific informations contained in Bible. Bible says about physics. And from reason of bad events by focusing on the bad things. For instance the annual killing of Jesus through the celebration of his death, praying to devices, rather than understand the principle of action, fight with others about who i better and so on. Eliminate by explain errors and real science, not by war and killing.

That is why Islam was to be scientific. but they also did with the religions and closed the mind to all the rest. Later the person they added their erroneous information from decadent version. Circumcision is one of them. Even if the main principles of Islam were good is the low level of people who have done from this also religion, destroyed everything and created a more serious problem than Christianity.

The level of knowledge of today's scientists from Islam is very low and this causes problems. They still think they are more imprtant . That is funny and stupid in same time . For all not mean for all islamists but for all beings. They made themselves better because they have been selected to provide important information. In Islam there is a lot of truth, but unfortunately crept into a lot of errors added by the people due to lack of understanding and because of the low level of development This also means that not the creator of the main objectives of Islam is to blame what people are doing. Satan fooled. They are used because as this proud nation because of this that was Jesus He came from there they will defend their theories, you can simply instill them. And it is not difficult. And in this madness, no matter what you tell them, they will defend it because he succumbed to the sin of pride. In this madness will die all those who will not turn away from it. This is described in Armageddon. In this war, they have only to collect adverse cargo and at the end everyone will be alive to squeezed in a force field. This energy is for a civilization that needs it because he is from

reverse polarity. Talking about it the Mayan calendar and the Bible. If it comes to this war is the next would be the first - on stones. But before the supernova explosion and God create everything from the beginning. No one will survive. It is proposed to think about. So energy issue occurs not only in our universe but also outside. The fight with anyone is not an solution. Remember: we fight only with each other, because we all form a single common body. Anyone who signed a contract with Satan decided to give his energies on other constellations. sell souls to the devil means to move all own energies to a different version of himself. Relocate to another level. It's not that bad. This is the path of development. The way to creations themselves and the world. Unfortunately was created few bad theories about this and falsehoods theory how to do this. Each way will be works, that much as you believe in this. When people are working for the fallen race then repeat their mistakes and also fall down. for example, those who are working for the Great Bear will be on Earth as bears if they will be against humans and real NWO. We all have to work for man and promote real development. It will solve all problem. Now is system from fallen versions where one wants to retrieve energy from the other. between different races and one race. The theory of a nuclear power plant must end. So in short we can say that the cause of global warming is the potential difference on the Earth and not only. When is a potential difference, then is a voltage. And when is a voltage, then Earth is getting heat up as any wire under current. Same process as by taking energy from one photon by increasing the potential difference in him.

Longevity

That, in what the health condition is a man at the moment, depends directly on the amount of energy produced and supplied vital nutrients through the internal organs. Of these things are directly related to the number of cells which are build internal organs and their overall health. People are dying because an insufficient number of cells in organs, which are not able to produce an adequate number of energy. Each cell can divide some about 50 times before they die. About how many times this cell can divide up yet determines the length of telomeric chain. The number of cells from approximately forty years of age gradually over the years was decreased because the cells after being long time in the state of senescence, died by apoptosis. This is why when people get older, that's for old age are shrinking. Not only on the outside, internal organs also are shrinking by what they are not able properly fulfill their functions...

Before the cells were replaced by neighboring, which yet have the ability division but when in the around is no any cells that can divide, then organ is it

decreases on this one cell. Use of Baicalin, extended telomere in cells for the next five divisions which are in the senescence(that mean already performed their last mitotic division). This will prevent their apoptosis(Death). Effective prevention of reducing the number of cells in all organs, keep them in great condition in order to power the entire system by many many years. For hundreds of years... A man who uses only baicalin will be get older slightly slower, until the appearance of which will resemble a man of eighty, and not will be changed - you could say that it will be permanently about 10 years before his death; while his health, energy and stamina will be at the period in which the started use of Baicalin, and keep the current potential of health for life.

Will be that because the use of baicalin does not stop cell division. To get the effect of a significant prolongation of life, use Baicalin permanently. According to one of the schemes shown below.

Scheme 1 - The first scheme is the adoption of Baicalin for people without health problems and only wanting to protect their internal organs before reducing the number of cells that build their body in order to maintain efficiency of the body for many many years.

1 - for 6 consecutive days in the morning and evening, take 50 mg. that 2 capsules per a day, and total of 12 capsules. Then we do about 10 week break and again six days for two capsules a day and 10 weeks of break, and so on, without end :)

With this form are advised to take Baicalin during the seasons change according to the Chinese calendar. I mean, six days at a time from 20 to 30 December - for the winter, six days a period of 1 to March 10 - in the spring, six days in the period from 10 to 20 May - for the summer and six days in the period from 20 to 30 July - in the late summer and six days in the period from 1 to 10 October - in the autumn. In this regimen 60 capsules, enough for the whole year.

Well, i should also replace all other uses to which baicaline was and is used for thousands of years...

about it in second schema.

2 According to the second scheme - 2 capsules a day up to two months, and then about 6 months break and again two months the adoption and again six months break, and so on without end. In this scheme, you will be need 120 capsules on year.

Two months of use of Baicaline in a particular case may be, and usually is too long. When you suppose after 3 or 5 weeks of symptoms cease, then we break the daily intake of capsules and return to Scheme 1, thus we do break 10 weeks and again taking baicalin for 6 days. It is known that chronic intake any

substance, and in particular it relates to drugs and herbs for strong action is not appropriate. *scutellaria baicalensis*, as well as their flavonoid fractions of baicalin addition to the interesting activities of the enabling telomerase, has among other properties, a strong chilling effect of the body. For longevity, which can be achieved only in a good, balanced health, chilling Baicalin property is redundant, and the symptoms of hypothermia or hypothermia, even harmful. When for reasons of health, it is indispensable in people long apply Baicalin, it is administered simultaneously with herbs, neutralizing its chilling effect. together with herbs place hot...

Each long therapy is individual and should be discussed with your doctor or herbalist !!!

Is good for colds and flu. (after learning of the dosing and action).

Previous indications for the use of Baicalin include:

Antiallergic and antiasthmatic activity

Anti-inflammatory and antiarthritic

Bile action and antyhepatotoksyczne (anti-poisoning of the liver)

Antiatherosclerotic and antithrombotic effect (the tendency for deep vein thrombosis)

Effects of cardiovascular, cardiac and antihypertensive (improving circulation and lowering blood pressure)

Antioxidant, anti-free radical (lowering stress)

Sedation, anticonvulsant and anxiolytic (sedatives, anxiolytics, antiepileptics)

Cytotoxic and antitumor activity (in suspected cancer and cancers detected)

Antiviral activity (in chronic infections and lowered immunity)

Antibacterial activity

Antifungal activity

Dosage Baicalin of the above indications, is well controlled by herbalists; the length of time taking this herbal extract is individually determined by the therapist, but usually average dose is about 100 milligrams of Baicalin a day, for a period of two months.

The effects of Baicalin, causing the activation of telomerase in cells in state of senescence, was discovered Very recently, so there is no officially yet widely developed and given the patterns of use of the herbal formulation for this purpose.

Therefore, after analyzing multidirectional impact of Baicalin on the human organism, and after consultation with experienced doctors dealing with herbal

medicine, have established these two schedules of Baicalin in order to activate telomerase for adults.

These schemes, in the same man may be periodically used interchangeably. Clearly been proven that the action of activating telomerase Baicalin is only in cells which are in to state of senescence (we do not know anything about the operation of the enabling telomerase in cells which are not in to state of senescence).

To understand the longevity played a great role, description of the life of Li Qing-Yun.

Post Image 1

Here is a fragment of a book written by Dr. Yang Jwing-Ming titled "Changing Muscle / Tendon / Marrow Washing Brain".

"Li Qing-Yun was born in 1678r. (17 years Qing Kang Xi) in the province Sichuan. In later moved to Kai Xian, home of the Chen Family (Chen Jia Chang). He died in r.1928 n.e.w aged 250 years. With 71 years enlisted in the army provincial leader, Yue Zhong-Qi. Most of his wives died early, so he had to marry as many as 14 times in his life.

Li was a herbalist, an expert on Qigong and most of the time spent in the mountains. In 1927, General Yang Sen, Li visited at his residence in Wan Xian, Sichan province where was made here shown image. Li died a year later, after returning from the trip. After his death, General Yang Sen investigated the life story of Li, to verify the authenticity of the legends circulating about him. Everything described in the report entitled: "Based on facts report about the 250-year-old man, Whom Successful Life ", published by the Chinese and Foreign Literatures Storehouse (Zhong Wai Wen Ku), Taipei, Taiwan.

The report describes Li as a man having 7 feet tall, with good eyesight and springy step and a very long and twisted nails. All available information indicates to us that the story is true. In the decrease, after Li Qing-Yuni we receive assurance that a person can live for over 200 years.

Li Qing-Yun was a famous herbalist, who intuitively, successfully using a variety of herbs, reached the age of 250 years. From descriptions of what remained of him, it must be concluded that for over 150 years, ever look the same, was a healthy strong old man, in the prime of physical and intellectual.

Periodic intake Baicalin can cause that modern man reaches even longer life than Li Qing-Yun for this reason that today we have a concrete knowledge on the impact of this particular herb on telomerase. Li Qing-Yun, he could rely on his intuition. Not knowing the mechanism of action of Baicalin, could do too many interruptions in dosing, which could lead to apoptosis in some cell

batches slowly reducing its biological potential.

Taking baicalie without breaks, according to ours schemes we will avoid this danger.

Li believed that owes its longevity to a diet which consisted of rice, rice wine and herbs especially centella asiatica, and of course the state of the mind and spirit. Current knowledge does not appear that centella asiatica had a similar effect on the activation of telomerase as Baicalin. We assume that Li Qing-Yun, along with centella asiatica, also used the Scutellaria baicalensis contains, inter alia, baicalin, actively stimulates telomerase.

In China it is used widely since time immemorial for the preparation of many herbal blends.

Li Qing-Yun has retained a healthy appearance on stage 80, 100 years old, externally without changing to the next, about 150 years.

Magnesium chloride

What is Magnesium? How it Functions in the Body

On the human body consist Main elements such as.

Macro elements which are 4 non-metals:

- hydrogen
- oxygen
- carbon
- nitrogen

They are building fats, carbohydrates and proteins.

And 4 macro-minerals which are metals:

- calcium
- magnesium
- sodium
- potassium

Magnesium ions regulate over 350 biochemical reactions in the body through their role as enzyme co-factors. They also play a vital role in the reactions that generate and use ATP, the fundamental unit of energy within the body's cells.

Magnesium is the second most abundant element inside human cells and the fourth most abundant positively charged ion in the human body.

Within the body's cells, it serves literally hundreds of functions.

In nature, magnesium can be found in many different forms, bonded with other atoms, such as:

- Magnesium chloride, found naturally in the sea
- Magnesite, the insoluble rock salt also known as magnesium carbonate
- In plant matter, as the central element in chlorophyll

Magnesium deficiency based on several reasons:

- Poor condition of the digestive system caused by wrong diet.

Food refined contains much less nutritional ingredients

and contains lots of additional ingredients deregulate our body and degrade him, such as:

Sweeteners; most famous, aspartame.

All kinds of colors usually as a metal oxides.

Gluten which is almost everywhere.

GMO also almost everywhere !!!

And of course fluoride and many many others ...

This may sound like a joke but how much GMO corn is needed to do such things as:

ice cream, ketchup, mayonnaise, vinegar sauce, French fries, chips, cheese pizza, and sweets for

kids and beer for olders...

The correct answer is: for none of these articles do not need corn, and especially gmo corn!!!

MEMBER... ALWAYS READ WHAT YOU EAT!!!

With such a diet you can not live happily ever after ;)

- The small contents of magnesium in vegetables and fruits caused by fertilization and this causes

the magnesium descent into the depths of the earth, and now it is significantly less than several

decades ago.

- Other problems with absorption related with diseases.

So what to do it is not enough in the food, is poorly absorbed by the digestive system and available for this way forms to buy in stores also are not especially

friendly to our body?

Same form of tablet isn't friendly. Magnesium in it is concentrated and irritates the stomach walls. Magnesium must be solubilized, then absorption is better and vanishingly irritates the stomach

Whereas the soluble forms contain even more interesting components such as: aspartame, metal oxides as colorants and who knows what else can be added... aspartame content itself exclude a product from the human diet.

Also are that often very poorly absorbable sources as a magnesium carbonate.

And of course all forms chelated magnesium also in pills that in the first place to absorb heavy metals in to your body. That works all EDTA and others chelates as a glycine!!!

EDTA - that synthetic amino-acid used in intoxication by heavy metals, but by drip Administered by drip pulls out heavy metals even by soft tissue, what can be helpful in rehabilitation in post-vaccination effects, like autism... Really is very hard to find, good and cheap source of magnesium to top up his state in body without side effects.

So maybe another way...? Magnesium is absorbed very well through the skin...

And the best natural source of magnesium is sea water and the largest number it is in a dead sea .

That why the best and easily absorbed form of magnesium is magnesium chloride from seawater. Because it is soluble in water, magnesium chloride readily dissociates, increasing rate of absorption.

I'm sure everyone has heard something about the medicinal properties of bathing in the dead sea.

This is due to the high content of magnesium which is absorbed during such a bath over the full surface of the skin

Man after such a bath feel's great...

Rested and has much more energy than usual ... and this is because the usual is just magnesium deficiency of the above mentioned reasons weakens your body.

Besides magnesium chloride turns out to be a great antiperspirant. It is natural and does not contain metals and many other harmful substances that are absorbed in the lymph nodes ... There are many links breast tumors, with the ingredients of antiperspirants.

Magnesium prevents the growth of bacteria which are degrade proteins of our sweat, what is the cause unpleasant odor... also absorbed through the skin and by this way kills bacteria and replenishes the level of magnesium

Soaking in magnesium salts has been shown to markedly improve skin hydration, speed wound healing, enhance skin barrier function, and decrease inflammation. 's Great copes with athlete's foot and getting rid of odors. Taking a magnesium bath. Add 250g for a deeply therapeutic bath, 250 grams will give maximum benefit. The water should be warm and not too hot. This is an excellent way to deliver needed trace minerals directly to the body.

Soaking the feet in a magnesium helps to replenish magnesium levels. It is well documented that most of the magnesium in oral capsule supplements is lost in the digestive system or eliminated by the body, not reaching the cells that need it!

Transdermal Magnesium Chloride [absorption through the skin such as in a bath or spray] is a far superior method for safely increasing magnesium levels in the body, particularly useful for relieving sore muscles and joints, reducing pain related to functional magnesium deficiency and for replenishing depleted soft tissues. It also assists to help calm nerves and reduce systemic bodily stress. There is simply nothing else that so quickly, easily and safely raises magnesium levels in the body. It is an essential catalyst for many enzyme reactions, especially in regard to cellular energy production, for the health of the brain and nervous system and also for healthy teeth and bones. Magnesium in the form of magnesium chloride is also an impressive infection fighter. It is necessary for the metabolism of carbohydrates, fats and amino acids. Additional benefits of magnesium chloride flakes include greater energy, more relaxed muscles [and stronger connective tissues], better sleep, improved mental function, alleviate headaches, arterial health, better reproductive function, and better hormonal balance for men and women [and reduced PMS]. In addition, magnesium maintains the detoxification of toxins and metabolic waste products. Magnesium Chloride also acts as an effective full body tonic increasing energy, strength and endurance related to the 350 enzymes directly related to magnesium. Transdermal Magnesium application can help with the removal of toxins and heavy metals at a cellular level. Assists with the rejuvenation of sun damaged skin, sunspots, healthy hair and wrinkle reduction. Magnesium is directly linked to the body's production of DHEA, often called the 'Feel Good Hormone'. DHEA levels dramatically decline with age. Magnesium deficiency has been linked to decreased memory and learning ability. Increasing Mg levels can improve cognitive function in children, the elderly and those involved in stressful study. 27% of magnesium is found in the muscles. Transdermal Magnesium application can rapidly relieve muscle pain and reduce cramps associated with magnesium deficiency. Magnesium is a most important mineral supplement due to its loss through sweat. It can reduce fatigue and stress and is a component of every healthy muscle cell. Transdermal Magnesium application can help to relax and balance the nervous system to

counter the stresses of modern life. Magnesium improves the immune system as a healthy immune system is driven by white blood cells that require good magnesium levels. Magnesium is essential to balance calcium intake.

I think that is enough to convince everyone to ensure appropriate levels of magnesium...

In corporate stores and pharmacies, unfortunately it is practically impossible to

find a friendly form for our body (No additional package, and together with them side effects).

Is that not only with the magnesium. Flood of synthetic products kill entire populations.

The secret of eternal life from Bible

Only some peoples will be live forever...Eternal life, will receive the one who writes in, in the RNA as an essential component to life. Only if you create, not destroy ... God creator, As the RNA creates every DNA, so that mean every body. Therefore has eternal life and is everywhere. Energy that creates our world and body lives forever but we are reborn to new life without memory.

Ours body are weak now. We all can achieve immortality but this only on a higher level of civilization. We will be immortal as long as we will be happy.

The state of our planet reflects the state of our cells. Once we lived 1000 years. We can reach the state where our cells will be able to replicate infinite number of times but not in that world as is now... If you will reach the appropriate level, then you can be in any world, and in each version and in each form.

Theory Of Lewitation

How is this possible... ?

When all the chakras will be introduced by sound or any other waves, in resonance, then all the energy in you is the resonance which causes loss of weight due to the dispersal of the energy system .. This means that all energy in you is counted separately as single molecules, and these as Single do not have the weight and only connected to form a cargo which is subjected to the so-called gravity. The body is just a projection of photons and gravity is that electromagnetic actions between The electrical charges and nothing more And we are whirling energy, emotion, think. And how it pieced together this

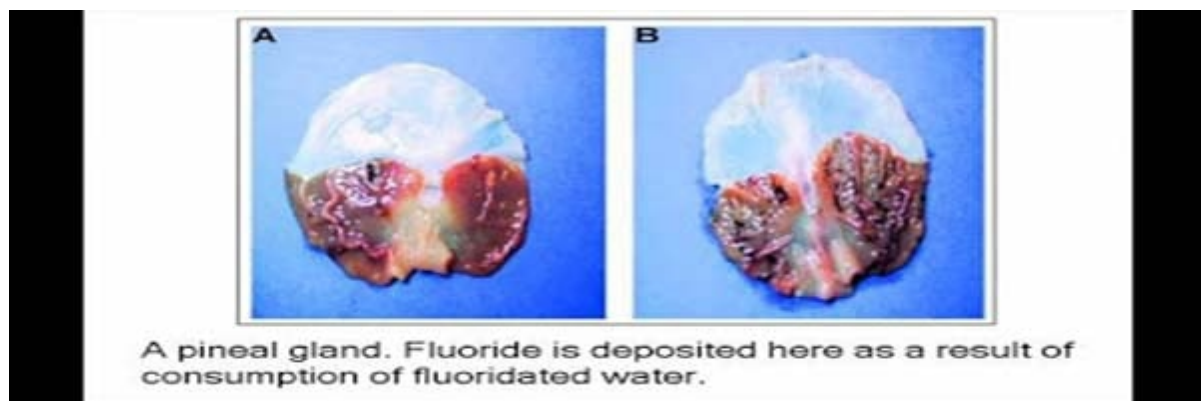

looks the fact that anyone can fly and should be practiced spiritualism ...

So the introduction in such a resonance causes that each particle energy is counted separately and if we learn handling charge distribution in the body they can normally be controlled by changing the severity of load in cells and that you can drive fly direction and accelerate and decelerate ... This is all possible because everything is a state of mind :)

Example: [Magician Dan White](#) meets up with a Buddhist monk, in Nepal, who has the power of levitation.

True about fluoride

The real reason for which fluoride is in use, is such that it kills the pineal gland.

Why do you need the pineal gland? Purification of the pineal gland is necessary for those who want to develop their multidimensional perception. The pineal gland is our natural internal source of DMT. This compound activates human elevated state of consciousness. Awakened pineal gland opens up the possibility of conscious astral travel, opens perception to other dimensions, allows to predict the future and communicate with beings from outside our dimension.

DMT in short - is a molecule of enlightenment, in addition to endogenous (naturally produced by the pineal gland) is also present in ayahuasca - a medicinal herb from the Amazon, the use of which brings healing of body and heart through physical cleansing and journey through other dimensions.

We do not need outside substances to develop his Spirit. DMT is a substance entirely natural that the human body produces when it is healthy. People of assumptions have to be multi-dimensional beings, including the ability to interpret the knowledge of other dimensions. The perception of the transcendental ego transforms and heals quickly suffering, conflicts, and karma.

How killed your pineal gland? In the late 90's, a scientist by the name of Jennifer Luke performed the study of the effects of sodium fluoride on the pineal gland. It was found that the pineal gland, which is located in the middle of the brain, is a clear objective of fluoride. Pineal soft tissue in the adult contains more fluoride than any other soft tissue in the body - is the level of fluorine (ca. 300 ppm), which can inhibit the enzyme. The pineal gland also includes hard tissue (hydroxy apatite), which collects more fluorine (as 21 000 ppm) than any other hard tissue in the human body (eg. Bones or teeth). Sodium

fluoride destroys pineal gland and strongly inhibits its activity, so that it is no longer able to effectively maintain hormonal balance in the body. So we're clear. Sodium fluoride does to the pineal something resembling cirrhosis.

This means that inhibition of the function of the pineal gland is apparent from the fact that the cells die.

Sodium fluoride KILLS pineal gland - converts it into a transparent jelly. calcification in the pineal gland Fluoride accumulates in the pineal gland form shown in the picture calcification is the effect of drinking fluoridated water. I should add some explanation: as sodium fluoride causes calcification. There is here exactly the same phenomenon as in the enamel of the teeth. The hardest tissue in our body is made up of hydroxyapatite - it's like crystalline calcium compounds - very hard. In the fluorine reacting with them and created fluoroapatyty.

A clarifying - Fluoride plays in the process of the following roles:

- 1) the formation of the mineral phase of the catalyst in the tissue, which is the hydroxyapatite $\text{Ca}_{10}(\text{PO}_4)_6(\text{OH})_2$
- 2) is replaced by hydroxyl ions (OH) giving rise to fluorapatite / fluorohydroksyapatytu $\text{Ca}_5(\text{PO}_4)_3\text{OH}_{1-x}\text{Fx}$

further studies have provided evidence that sodium fluoride goes to the pineal gland. It's the only thing that attacks - the most important center of neurohormonal secretion in the brain. Sodium Fluoride (Sodium Fluoride) is common in the food, beverage and beer too, in tap water and bottled water....

Has anyone ever heard of a bear with caries? Lion, buffalo, or sharks, or another animal that does not eat gluten which is real reason of caries and many more health problems. They do not brush teeth. Gluten pulls calcium from the bones and teeth which degrades the whole body. Sodium Fluoride is nothing more (or less) than a hazardous waste by-product of nuclear and aluminum industries. It's the primary ingredient in rat poison, anesthetic, hypnotic and psychiatric drugs and NERVE GAS! Prozac, scientific name Fluoxetine, is 94%

fluoride. Sodium Fluoride is one of the basic ingredients in both PROZAC (FLUoxetine Hydrochloride) and Sarin Nerve Gas (Isopropyl-Methyl-Phosphoryl FLUORIDE)... The same ... So we have billions of people all life on Prozac ...

Time to let stand this poison.

This could be also idea to retain sources of energy (peoples) in a decaying version of reality...

just as gluten could to be a solution to get the elasticity of tissues. It sound stupid but in sick minds from secret government could arise many foolish theories. They doing vaccines so why not this.

The Cholesterol Myths

Cholesterol lately "gaining in significance" and although much has been said, theory about its harmfulness and faith in its appropriate measure still continues and develops thanks to television. Cholesterol has very important functions in the body . is necessary in the construction of new cells, the treatment of inflammation. is a natural of bandage on irritated blood vessels and when it will be needed will be removed by HDL. At the beginning i have to explain that

there is no bad and good cholesterol.

LDL- Low-density lipoprotein

HDL- High-density lipoproteins

That protein molecules which are something like a transporter for cholesterol to and from the liver. When cholesterol is transported from the liver to the tissues then it is transported by LDL, and when returning from tissues to the liver by

HDL

We can say openly that cholesterol had never been, and will not cause atherosclerosis.

May be several reasons. The biggest is:

-Chlamydomphila pneumoniae

-High level of homocysteine

-Statins

Statin kill Coenzyme Q10 and blocking the discharge of calcium from the bloodstream into the bones and teeth. This causes deposition of calcium on the cholesterol and forms atherosclerotic plaque, what in combination with the killing Coenzyme q10 which is necessary for the production of energy by the cell in muscles, also in the heart which gives us the most common customer for a bypass and an increased statistics of deaths by heart attacks.

Statins are poison and administering them is homicide. Lowering the standards of level of cholesterol, has provide to each own portions of statins ...

With statins is given vitamin D to accelerates the absorption of calcium which, anyway can not be discharged to bones or teeth and settles in the blood vessels and internal organs what accelerates the process of atherosclerosis and calcification of the whole organism. that in a nutshell. More Information u can find in book :

The Cholesterol Myths by Uffe Ravnskov

Link to book u can find below this quote about statins.

The Dangers of Statin Drugs

Modern cholesterol lowering drugs act by inhibiting an enzyme (HMG -CoA reductase) needed for the formation of cholesterol in the liver. These HMG-CoA reductase inhibitors, called statins, are sold as Lipitor, Mevacor, Pravacol, Zocor, etc.

Weakness & muscle wasting: this is the most common side effect of statin drugs, occurring in as many as one in three users. Muscle aches and pains, back pain, heel pain, weakness and slurring of speech result from statin interference with the production of Coenzyme Q10 (Co-Q10), needed for the muscles to function. These side effects are more common in active people and may not show until three years after commencement of treatment.

Heart failure: rates of heart failure have doubled since the arrival of statin drugs. Te heart is a muscle that depends on a plentiful supply of CO-Q10.

Rhabdomyolosis: rapid breakdown of skeletal muscle tissue which may lead to kidney failure and death.

Cognitive impairment: many patients have reported memory loss and brain fog, including total global amnesia (episodes of complete memory loss). The implications for pilots and those driving cars and trucks are profound.

Cancer: in every study with rodents to date, statins have caused cancer. Most

human trials are not carried out for long enough to detect any increase in cancer rates, but in one trial, breast cancer rates of those taking a statin were 1500% higher than those of controls.

Depression: numerous studies have linked low cholesterol with depression.

Birth defects: almost 50% of pregnant women who took a statin drug in early pregnancy gave birth to a child with malformations.

SOURCES: Weston A. Price Foundation; The Cholesterol Myths, by Uffe Ravnskov, MD, PhD

The Cholesterol Myths by Uffe Ravnskov

Normal total level of cholesterol is 250-280 mg/dl which is between 6.5-7.3 mmol/L (which is short for millimoles per litre of blood).

But 5.7 also can be fine... Everyone is different ... Stated below

5.7mmol/L(220mg/dl) and above 7.3mmol/L(280mg/dl) you should do research... To normalize the state must consume a lot of yolks of eggs and review the fridge in search of toxic trash...

In the yolk of an egg is a large amount of lecithin, that stabilize the lipid profile in the body. Is also vitamin B6, B12 and folic acid and these are necessary to protect against high levels of homocysteine.

For draining calcium from the bloodstream into the bones and teeth is essential vitamin K2.

Best source of vitamin k2 is Natto with vitamin K2 MK7 from: Natto -traditional Japanese food made from soybeans fermented. And the best source of calcium is sesame seeds. Theory about milk was related to a different product than now sells under that name and exaggerated. Let's agree that milk is not good Even without these vaccines, which must give to the cows, gmo which the cow is eating and what's going on with that milk before it goes into you, milk is,t good on bones and is't any source of calcium for human body. Casein in milk is a neurotoxin for our body and milk in any form is not suitable to consumption for human as a drink. You really want to feed milk and ice cream with GMO corn your children?

[Uffe Ravnskov: The cholesterol campaign and its misleading dietary advices](#)

Cure for all diseases

Hulda Regehr Clark (18 October 1928 – 3 September 2009) was a naturopath, author, and practitioner of alternative medicine. Clark claimed all human disease are caused by pathogens, and is able to destroying these pathogens by "zapping" with electrical devices which she marketed.

Clark wrote several books describing her methods and operated clinics in the United States.

Following a string of legal difficulties and actions by the Federal Trade Commission, she relocated to Tijuana, Mexico where she ran the Century Nutrition clinic.

Clark's claims and devices have been dismissed by authorities ranging from the United States Federal Trade Commission and Food and Drug Administration to alternative medicine figures such as Dr. Andrew Weil as scientifically unfounded, "bizarre", and potentially fraudulent. Clark died 3 September 2009. officially on of multiple myeloma (a blood and bone cancer)

So let's look further into the history whether the non promoted in the system, "irrational; then" methods, have somewhere else own roots.

The first thought is of course : Wangs of Horus

This is the same technology, but other solution. Then been used rollers of a pair of galvanic metals (copper and zinc) with crystals inside that gave frequency on the human body, by using its own voltage and movement of ions between these metals ... Abbreviated method can describe that. The source of all the problems are pathogens, they like every organism and object are the energy at some frequency. This means they have their frequency ... by giving the same frequency as the pathogen has, introduces him that into resonance and lead to damage and death. This same like smashing glass by sounds but a microscopic scale.

And then body can clean self of the dead pathogens what facilitates recovery of health after all sorts of infections. The body does not have to fight with them, are dead. Drink a lot of water and go home... healthy ... by properly use , Unregistered any side effects

[Cure for all diseases - Interview with Dr. Hulda Clark](#)

Chemotherapy: helping or killing?

At the beginning few important words of introduction.

Cancer becomes very dangerous only if:

- 1) It is the last stage, where the number of metastasis and development of the fungus is substantial. Cell during the dying, releases free radicals that destroy other cells around them. Such small chain reaction.
- 2) When the tumor oppresses on some important blood vessels, what can cause

death. And only in this case, use only surgical intervention.

3) And when we use the therapy offered in the system "health services".

both treatment and exploratory research are very dangerous. Such as a mammogram. Ionizing radiation, to put it mildly does not help ;), but more causes cell death. Machines used for this May the radiation dose of between 300-1000 doses such as using X-ray of the lungs. Somewhere they showed a machine that already has only 300 times as lungs x ray as does not mean that it is in use. rather closer to 1000x. Analysis of the processes in the body says that.

When the cell dies and the body is acidic, then destructive fungus called candida appears and decomposes the cell. Normally, candida fungus are found in the intestines as a decomposes fungus. And as long as we have a healthy body, it appears in places where have to be. At that time, the body produces a lot more white blood cells. leucocytes. It produces them to build round braiding to isolate the damaged cells and the fungus to stop a chain reaction caused by free radicals. And pseudo-doctors what they do? huddle production of leucocytes, which is a defensive reaction of the body. In addition, they kill your immune system giving you chemotherapy and then they give hormones to the spread of the fungus throughout the body.... And now the final end of mammography. assuming that the tumor already is. remembering that it consists mainly of leucocytes separating damaged cells and the fungus. What happens with such delicate inflamed and separated place during such a test when your breasts are kneading there like dough for pizza ... of course the tumor will spread even to the lymphatic system and it will start the reaction caused by free radicals, and we have metastasis... HARD TRUE :/

If you are already on therapy, remember that you can survive even therapies.

But you have to really make an effort.

cut all the poison.

fill in all of vitamin and minerals.

use many natural substances. And only organic.

Search:

capsaicin - in peppers

Vitamin C Up to a few thousand mg per day and only from natural sources. Vegetables from the Netherlands reared on urea and with the addition, so-called plant protection products that contain heavy metals, are not a good source of vitamins. Only Clear FULLY REAL ORGANIC.

Great seeds mix: grind together a large tablespoon black sesame, brown flax seed flat. and half a tablespoon of black cumin. Once daily grind well in the new electric grinder to coffe. Grind several times stirring and eat.

And most important is the state of mind. not to focus on the disease. pull out from memory all the theories about the genetic inevitable dangerous cancer.

That fake. It is possible that:

When you talk to someone healthy who believe in these theories, that he would die for 3 - 6 months because he has cancer. All friends and family watching with the same thought at him. They are sending bad waves. Stress quickly deteriorate appearance the patient. He looks that bad, it is already close, that think and speak everyone around him ... it winds up and accelerates the effect. maybe even die. Hypochondriacs have physical symptoms of their diseases. Imaginary diseases. Same as Placebo... Everything is a state of mind. Watch on www.life-line.academy . Also search: vitamin b17, baking soda to drink. - Read how to drink before you start. Search on site and in movies section, on the Internet and everywhere where NHS do not pays the billions for treatments ;)

Doctor currently do not doing the treatment. he does of procedure and for this, he have money . Manipulation is thought through but visible. Systems imparting knowledge and beliefs are introduced everywhere. Money, procedures and bureaucracy. Natural substances can not be patentable so it is not in the interest of pharmaceutical companies. If they can not be patented and be a sell with high income, then nobody gives bribes for placing on the market. And of course the system will earn more when will be more diseases. Then they can do more tests and experiments on humans. Some know what they do, others do not know, and some of them do not want to know. These people need to wake up and notice it, that the harm the themselves for papers and instantaneous comfortable armchair when accelerating their own death. Next life will be born in the world who helped prepare earlier. You want to be born in the chemical world where everyone will be sick from birth, will be brainwashed and lived 50 years and for each 25 years everyone on war. i dont think so. Time to change the way of thinking or simply start thinking ;) I also have a bad news for all benefactors. I see plenty of action. all gather on the promotion and expansion of cancer and diabetes. hemothrapy and insuline customer to end of shorter life :) Promotion of death. The comforting thing about it is that only 20% of the amount collected goes to the goal and the rest ate a corporation and laughs from the naive. My recommendation is do not support the killing. It is better to discard these the money out the window, because probably 99% whoever finds them will release them into less harmful for the general way. ;) But the more I recommend an account at the Academy of longevity pay pal... I promises not to buy any vaccine for any child :)

well and it is also very important to stop buying poison. Because how long you can sell shit. ? as long as they will be buying ... :0 Such Eazy ... it's all from me

on this subject and below an interesting article from serious medical monthly magazine.

Reprint from NaturalNews

Treating cancer is BIG business in America -- in fact, it's a \$200 billion a year business. Yet 98 percent of conventional cancer treatments not only FAIL miserably, but are also almost guaranteed to make cancer patients sicker.

What's worse: The powers are suppressing natural cancer cures that could help tens of thousands of people get well and live cancer free with little or no dependence on drugs, surgery and chemotherapy.

The treatment of cancer in the U.S. is one of the most bald-faced cover-ups in medical history. Enough is enough! You deserve to know the truth about the criminality of oncologists and about the dangers of chemotherapy, conventional cancer treatments and the cancer "business." Chemotherapy kills more than cancer. Want proof? Did you know that 9 out of 10 oncologists would refuse chemotherapy if they had cancer? That's up to 91% -- a huge percentage that clearly shines a light on the truth: chemotherapy kills. Conventional oncologists are not only allowing this to happen, but they're also bullying many patients into chemotherapy and surgery right after their diagnoses.

Why would that large percentage of oncologists - the ones telling so many patients to get chemotherapy - refuse to do it themselves? Because they know it's not just ineffective, but extremely toxic. Regardless, 75% of cancer patients are directed to receive chemotherapy.

Not shocked enough yet? A rigorous review of chemotherapy revealed that it fails for 98% of people. And when chemotherapy was tested against no treatment, no treatment proved the better option. What's more is only two to four percent of cancers respond well to chemotherapy.

In a German study of women over age 80 with breast cancer, those who received no treatment lived 11 months longer on average than those who received conventional cancer treatments.

A 14-year study by two oncologists in Australia reported in the film "A

Shocking Look at Cancer Studies" that conventional treatment such as chemotherapy for all of our major cancers is totally ineffective -- far below a 10% success rate.

Chemotherapy is a barbaric and pointless procedure. It attacks and kills not just cancer, but also all the living, healthy cells in the body and completely cripples the body's immune system. While this extreme treatment has been called effective against testicular cancers and lymphocytic leukemia, in many cases it's hard to tell which the supposed "therapy" will kill first -- the cancer or the patient. In fact, it wouldn't be a stretch to say most people, who die from cancer, actually die from cancer TREATMENTS.

Mammograms do more damage than good (and preventive mastectomies are pointless)The \$4 billion-a-year mammogram industry urges women to rely on these x-ray tests to "protect" their health. However, what they don't tell you is mammograms are a highly unnecessary and harmful treatment. In fact, mammograms harm ten women for every one the procedure helps.

A study by researchers from the Nordic Cochrane Center in Demark reviewed both the benefits and negative effects of seven breast cancer screening programs on 500,000 women. For every 2,000 women who received mammograms over a 10-year period, only one would have her life prolonged, but ten would be harmed. This is because mammograms can actually INCREASE a woman's risk of developing breast cancer by as much as 3% a year by irradiating the breast cells and triggering breast cancer.

Modern cancer treatments = the "Dark Ages" of medicineIn the documentary, Cancer is Curable, available on NaturalNews (http://premium.naturalnews.tv/CANCER_is_curable_NOW__NN.htm), one alternative cancer treatment expert says someday people will look back and wonder "what kind of Neanderthals we were" for practicing surgery, radiation and chemotherapy (or cut, burn and poison). He also calls the conventional approach to cancer treatment "medieval."

Statistics show that there is no proof preventive mastectomy -- removal of the whole breast -- extends the life of breast cancer patients, yet oncologists go right on doing it on a regular basis. Preventative mastectomies are pointless procedures, and many patients are led to believe they have cancer due to false

positive cancer screenings. This means they are pressured into having breasts removed for no reason whatsoever. The women undergoing these treatments are scarred for life.

CT scans, or computed tomographies, are a common testing procedure for most cancer types, but the irony is that this CT scan radiation is highly dangerous and can lead to cancer itself. The radiation from a CT scan actually has been shown to cause a substantial amount of cancer. A recent report published in the New England Journal of Medicine suggests that the radiation from current CT-scan use (estimated at more than 62 million CT scans per year in the US) may cause as many as 1 in 50 future cases of cancer. This is nothing to be taken lightly. Radiation from medical devices is a huge and under-estimated contribution to the growing incidence of breast and other forms of cancer.

According to an article in Time Health, other studies prove doctors are performing too many unwarranted CT scans, exposing a countless amount of patients to cancer-causing radiation. Many mammograms are also miscalibrated, so they end up churning out far too much radiation to be safe. If a woman begins getting routine mammograms at age 40, then by age 60 it is almost certain she will have breast cancer.

It's no wonder so many women end up with this form of cancer - they begin getting frequent screenings starting in middle age at the urging of doctors everywhere. The health and cancer industries know about the connection between CT scan radiation and mammograms and cancer statistics, yet they keep pushing patients to perform these "preventive" procedures. The outrageous truth is frequent mammograms purposely bring repeat business to the corrupt cancer industry by creating cancer tumors over time.

Speaking of lies, virtually NONE of Komen's donation money goes toward funding actual cancer research. Up to 95% of the donation money at Komen goes to provide "free mammograms" to African American women and low income women - after all, they wouldn't want them to be left out from all this unnecessary radiation. Better ensure they get cancer, as well. Komen's money is almost entirely contributed toward doing more mammograms and pumping more radiation into women. There is actually a little-known test for breast cancer that exists, and this method yields no false positive or negatives: a saliva test. Researchers from the University of Texas Health Science Center in Houston discovered that women with breast cancer carry different proteins than

women with no cancer; this can be tested by a saliva test so simple a dentist could do it.

Big Pharma lies to convince us that their so-called cancer "cures" work. Oncologists and Big Pharma use clever tricks to promote their cancer treatments such as using relative numbers to supposedly prove the effectiveness of their cancer treatments. For example, if you or a loved one has breast cancer, doctors will likely recommend the drug Tamoxifen. They'll tell you it reduces the chances of breast cancer recurring by 49%, which sounds fairly impressive.

However, based on absolute numbers, Tamoxifen reduces the risk of breast cancer returning by 1.6% -- 30 times less than advertised. Relative numbers instead of cold, hard statistics are often used by oncologists because relative numbers can be manipulated in many ways. Any relative statistic that allows the percentages to be spun in a false positive light could be used in these situations. Perhaps you have heard through the major media that treating early stage breast cancer creates a 91% cure rate over five years. This statement is absolutely ridiculous -- you could get the same cure rate by doing nothing at all (breast cancer is a very slow growing cancer).

The Action of Cannabinoids in Cancer Cells Scientific Explanation How & Why Cannabis Kills Cancer

The point is: Don't be fooled by ambiguous "relative" numbers. Get the real facts!

Drug companies pay oncologists to promote (expensive) ineffective and toxic cancer drugs. Most oncologists don't make their money by treating patients, but by selling cancer drugs. In fact, according to the Journal of the American Medical Association, as much as 75% of the average oncologist's earnings come from selling chemotherapy drugs in his or her office -- and at a substantially marked-up price.

Pharmaceutical companies not only hire charismatic people to charm doctors, exaggerate drug benefits and underplay side effects, but they also pay oncologists kickbacks to push their drugs. For example, Astra Zeneca, Inc. had to pay \$280 million in civil penalties and \$63 million in criminal penalties to the federal government after it paid kickbacks to doctors for promoting its prostate cancer drug.

Many oncologists are criminals and bullies, not doctors. Oncologists not only

bully patients into taking the destructive route of chemotherapy, toxic drugs and surgery, but they also don't tell their patients the whole truth about the danger of these treatments, other available options, cancer survival

statistics, and much more. An innumerable number of cancer patients have suffered needlessly at the hands of these so-called doctors, who are often really corrupt and immoral human beings that could care less about the healing process of their patients. Many of these shameless oncologists deserve to be arrested and prosecuted immediately for the crimes they commit, yet they keep on sending patients down the same treacherous and painful road that has resulted in too many deaths to keep track of. More and more patients are waking up to the truth about cancer treatment and educating themselves on the power of whole food nutrition and supplements -- they are choosing doctors that educate and heal them rather than bully them into surgery and chemotherapy. The staggering documentary *Cancer is Curable* mentioned earlier interviews doctors who tell you how patients are often pressured by conventional oncologists; sometimes they're even hustled onto the operating table the day after their diagnosis -- without having any of their other choices explained to them.

What's worse is that no matter how effective a treatment could be, conventional patients are still being killed by the food they are fed in hospitals. All the doctors in *Cancer is Curable* unanimously explain that sugar is the No. 1 killer for every cancer patient -- and although every medical doctor should know that fact, they still continue to give their patients tootsie rolls and candies in the chemotherapy room.

Many oncologists are also telling their cancer patients to stop taking antioxidant supplements while they're undergoing treatment. Why? Because they're saying there is a possibility that antioxidants could be lowering the effectiveness of cancer treatments like radiation treatment and chemotherapy.

In spite of what you might have been told or led to believe, chemo is hardly the exact science that it pretends to be. And yet, on the mere hunch that antioxidants could be protecting the cancer cells that chemotherapy seeks to destroy, oncologists feel justified in telling their patients to forfeit antioxidant supplements.

There are a ridiculous number of false positives in cancer screenings. Among 1,087 individuals participating in a cancer screening trial who received a battery of tests for prostate, ovarian, colorectal and lung cancer, 43 % had at least one false positive test result, according to a study published in an issue of *Cancer*

Epidemiology, Biomarkers & Prevention

(http://www.newmaterials.com/Customisation/News/Research_&_Development...). That's almost half of the patients who were tested!

One of the obvious downfalls of this is the needlessly expensive medical care costs associated with false positive cancer screenings. Considering the high cost of testing and treatments, the economic consequences of false-positive screening results are significant. Let's not neglect to mention the pointless emotional and physical suffering inflicted upon thousands of patients who are led to believe they have cancer.

In the study mentioned above, men that specifically were given a false positive result for either prostate, lung or colorectal cancer averaged almost \$2,000 in additional medical care expenditures compared to men with all negative screens. More than half -- or 51% -- of the men in the study had at least one false positive test.

The lesson to take home from all this .These cancer cover-ups and myths are just a few basic examples of how corrupt and dishonest the cancer industry really is. This especially pertains to the oncologists, who are treating patients regardless of knowing the disturbing truth about the procedures, testing and treatment processes they so frequently push upon their patients.

While not all oncologists should be placed into the same category, a large majority of these criminal "doctors" should be held accountable and properly punished for the needless struggle they are inflicting upon thousands of cancer sufferers. If you know anyone who is being pushed into chemotherapy and other deadly and unnecessary "treatments," share the truth with them today and you could save a life. Fortunately, more and more people are waking up to these cancer lies and are looking into safer and more effective alternative treatment protocols and therapies.

Must be remembered that this is the time of depopulation. If we do not take matters into our own hands and if we do not stop to listen to the law and procedures in place common sense , it's time to walk away...

Body detoxicate and a list of poisons

Detoxification of the body is the basis for a return to health and Start plan the academy of longevity. Here you will learn what poisons are waiting for you in shops and pharmacies and what to do if you have taken them a long time.

[The biggest poison you already have in your home. Check where they are.](#)

END

A few words at the end.

This book is a prelude to opening a new branch in the history of mankind.

The New World Order will be what you want it to be. You just have to make a choice. To make a correct choice, it is necessary to know the truth.

To popularize this knowledge among all, will accelerate the solution of all artificial problems that have been created, just because the truth was hidden.

Sisyphean work does not make you a free.

Work makes you free - that it was written on the camps.

The work makes a slave.

We have so developed technologies that can limit the work of people only to creative things. When we stop fight with each other, we have a chance to survive in really convenient and pleasant for each of us world.

Then everyone will have fun. We will not destroy our planet and we begin develop as a true civilization. Life as in animated movie: the Jetsons or death as in Armageddon. For me the choice is simple.

If today you helping introduce GM, whether you are selling a vaccine, then certainly you will born in more destroyed World with all problems which you helped create. Because everything what you do, you do for yourself. The Bible and physics explains everything. The Bible, It was a message in a form on the level of knowledge of those years. This is a very important source of knowledge about the world and yet not all the mysteries of the World have been solved.

Before, people worked to live. Now people live for work. It is not how it suppose to be. If you want to return to normality, survive the Armageddon and start real life - promote this knowledge. Only the truth can make us free.

The author of this book is also the author of the page:

<http://academyoflongevity.meximas.com/>

It is a one man social project where you can find verry important information which you don't find anywhere, so must be a few projects such as this ... These however require time, and this we constantly recalculate on money...

You can support the life line directly on the page.

Few my other articles connected below:

...

ELECTRICALL TREATMENT OF CANCER CELL. RULES EXPLONATION

- 1) measure the electric potential and the frequency of a healthy cell.
- 2) measure the electric potential and frequency of the cancer cell.
- 3) determine the differences and a smooth transition frequency in these ranges to equate two values.
- 4) provide the electrical charge in a place near the damaged tissue by electrode.

- To reach the relevant cells in the early stages give the cargo at the frequency and with potential of damaged cells. This will connect cargo with all cels in this state in around damage place.

- Then you must continuously increase the potential and frequency of cargo up to the value of healthy cells. You can not exceed this value.

It is safest to leave these value slightly lower and it will corrects alone after the administration of cargo.

5) After a short time, lower potential will connect with higher and strengthen the cell.

6) device and patient have to be in electronic circle where current and voltage going from + to -. They both are always going from higher potential to lower, but now on Earth is too much lower potential near 33% this is why the voltage is going now from - to +.

If the direction of current flow and voltage is not the same, the cell will receive feedback by the direction of vltge flow, wrong potential from the the electrode.

In the event of a problem to obtain a unidirectional circuit can be tested electrode inert, organic, such as water. In the absence of a positive outcome, it will be necessary to obtain a one-way flow of energy. If will the problems. please contact.

This can be even a wireless wave energy, with an appropriate frequency and that carries cargo. Wave on the appropriate frequency will penetrate to the places where it fulfill functions. everything is energy and the frequency and therefore evil, long kept thinking can lead to cancer and therefore placebo able to remove it.

everything is a state of mind. Earth becomes the cancerous cell. So in the Earth's scale, the operation will look like this:

Falls cargo from space. some as Star. This cargo will hit the moon and will raise its frequency and energy, then the moon and the sun will getting closer and will be look like two suns. then they begin to merge and turn into a single source that changes the position and returns to the center of our flat Earth.

Then potential in cell/ Earth will be aligned. Each cell will be able to share an infinite number of times. But this is only if we will be keep to certain rules. They are known as the 10 commandments.

Eternal life.

Why the development of each is very important.

When someone makes evolution it appears as a star. A new star in our sky. When this star will exceed all 7 levels, it will be seen on Earth as a object flying out from the sun, and there will create its own world, its own cell. But that also will add some telomere chain to a each cell in every body on the planet. If will be a lot of new stars, we will be live longer and longer and we can also live forever. This can be achieved only through constant and continuous evolution of all beings, but under strict rules. A 10 rules. what mean of course, only in the process of creation and not destruction.

telomere now looks like this.

and might look like this.

Remember to change the signal potential to reach into the cell by all 7 levels.

Therefore, the wave is the best. electrode or antenna or do it properly on a large scale and reach the moon :) maybe soon

To see these microscopic worlds,

we need perform small modifications in Electron microscope. We should change the polarity and potential, electrical charge which is sent to the object. This should open up a new direction of science. Only that you can see smallerst part of matter.

wave antenna example to treatment

spiral direction determines the direction of dispatch of energy. We must send energies toward patient :) search for Tesla's work.

the moon is here this added cargo with a lower potential which causes the voltage on Earth, and it is the cause of global warming, as is the current and voltage that is temperature. It's like a nuclear reaction. Everything is a reflection of everything. The state of our planet reflects the state of each of our cells. It's not good.

I proposed changes. the moon is our projection so fight with him is not an option

Most reasons of cancer is because of the poisons in the air, food and everything else. Heavy metals in food, air and products. E.g., an antiperspirant, the aluminum power

Vaccines cause cancer. fluoride causes cancer, eating GMO causes cancer. Corporations doing business on the killing. The main cause of cancer on Earth is excess lower potential. This is why - goes to the + and it is a reason why matter interacts with energy. We are increasingly poisoned. Natural causes of cancer is a lack of happiness, and other negative thoughts. If people are not happy, then they die

They do not fulfill their function so the body kills them. All in order to maintain a balance. It is not possible to cure cancer by using more poisons. If cause of cancer are poisons, and we will give more poisons, that can not help.

Excess lower potential is also reason all deformation and mutation what is to show error.. If is not enough energy to create contraction of body then are shown errors. If the potentials on the earth will be aligned and we stop poisoning self for money. then all the health problems disappear.

Only those natural causes will stay, but they must remain. The Earth is a part of something larger therefore it is prohibited to introduce genetic changes. All genetic connections must be in accordance with the numbers of the Fibonacci sequence. Geneticists create hybrids that will bring more Trouble. They destroy rather than create. They do not stick to the rules of nature. They make connections that would never have arisen by itself.

cell and so begins the Chain Reactions. In the larger scale it looks like this. our sun explodes. survivors land on another planet. there cause potential differences. Chain reaction. Is forbidden to perform a chain reaction. Everything is a reflection of everything therefore you can not make any unnatural changes in any body or even insect. Therefore the earth will be destroyed if nothing will change very soon

in operations on a big scale made over the whole Earth and from Earth, it will look as if the sun will be divided, and it will be 2 or more suns. It will add a little time but to get merged both must get close in frequency. Moon have to go up with own frequency and second sun have to go down. The combination of sun and moon will allow for projections from the mind on a single source. Real magic on all earth or other planet.

Uproszczony rysunek wyjaśniający elektromagnetyzm na przykładzie kilku fotonów.

Odcinki do pokazania różnicy w odległościach pomiędzy różnymi fotonami, różnych materi o różnym ładunku.

A - wartość wyższego potencjału który wiąże foton. Wartość ta jest skorelowana z wartością Ampera .

V - wartość niższego potencjału wewnątrz fotonu . Wyższy potencjał znajduje się na około źródła.

Każdy foton jest źródłem energii i tylko wartość ładunku oraz jego częstotliwość decyduje czym jest dany foton. Wartość ta jest zmienna i to obserwator, czyli kreator decyduje czym jest dany foton i jaką materię tworzy. Nasze słońce czyli Ziemia też jest takim fotonem. Jak by posiadać nigdy niewidziany przez nikogo foton to był by jak pusta jasna kula od wewnątrz. Dlatego na początku było światło a potem Bog stworzył wszystko w 7 dni.

Z tego samego powodu sam akt pomiaru ma wpływ na wynik Oraz również z tego powodu placebo działa i cuda się zdarzają. Obecnie Mamy nadmiar niższego potencjału i dlatego spadamy . To jest również przyczyną zmiany w kierunku przepływu prądu a to utrudnia większości wpływaniu na materię. Wszystko może się odwrócić jak wyrównamy potencjały . Wtedy większość obecnych problemów się skończy. Każdy będzie miał wszystko i będzie mógł robić to co chce na pewnych zasadach. Na jednej gęstości wartości tych fotonów są zbliżone ale Można nimi manipulować, dlatego jest możliwe nawet powiększanie czy pomniejszanie przedmiotów czy organizmów jak to było na filmach.

Nadmiar niższego potencjału jest również przyczyną dlaczego wszystkie organizmy na Ziemi zostają zanieczyszczone przez materię. Dlatego ludzie stają się bardziej źli i mniej świadomi. Kiedy różnica przekroczy pewną wartość krytyczną, dochodzi do zapadnięcia się słońca. Organizmy żywe mogą zamienić się w posąg czy inne materialne przedmioty przy błędnych eksperymentach bez rozpatrzenia pewnych założeń.

W przypadku dwóch takich samych fotonów będą one leżeć na sobie i tworzyć całość. Zmiana odległości pojawia się w przypadku różnicy potencjałów lub częstotliwości. Te wartości są skorelowane i mogą wzrastać proporcjonalnie ale nie muszą. Wszystko jest względne. Jest Możliwe tworzenie źródeł energii które nie zawierają żadnych części mechanicznych. Będzie wyglądał dokładnie jak słońce czyli jak foton.

Jeżeli zamkniemy pewną falę która niesie jakiś ładunek o pewnej częstotliwości w obieg zamknięty to mamy coś na kształt tego co jest znane jako teoria strun. Tyle że to nie struny ale kulki tak samo jak słońce . Mierzony foton będzie zmierzony tylko w jednej z jego wielu pozycji w układzie pionowym lub poziomym, chociaż faktycznie znajduje się we wszystkich stanach jednocześnie.

Tool to stacking part of the pyramid

Two wave generators. One gives the waves to introduce object to resonate. The second wave is the wave of the control. You can send waves which pass through the object will change to the frequency of the object and if will be given in a closed circuit by operator on generator in right hand, that you can pick up the frequency of the object. It is easiest to lift up a simple matter like stones other single form. On each of them there are 3 stones at 3 different frequencies as R G B of which can be folded a certain frequency ranges which form matter. The device was visible on the artefacts in the pyramids and maybe more. This device had served for stacking parts of the pyramid. No one had to carry such burdens on the back ;)

1- send wave RGB by hit both genertors to make wave.

2- after some time can be chanaget at frequency of the object and given again to introduce in resonance .

3 - then you can drive the object. Lift or something... You can do loot things by manipulate energy and frequency of wave.

4- Also can be function as: aafter hit generator on object, this stones can resonance and produce wave into tube at the frequency of object ... That simplest way so probably that this works. i'm not sure.

We can also manipulate the object by eyes. When your energy is in the object you can more easily influence on the object by eyes. Also $666 = 111 = 3$ times alpha wave, which can drive matter. That you can control matter by mind. Tools can be use in other way. On 111 or RGB – depends on the solutions and applications. As we see here, there were no slaves which has to work hard for years to build the pyramid. So long time ago it was no slavery but now we have cranes, ropes and all thers strange solutions and changes in work for 12 hours. Now we have a problem . If we introduce normal solution how you will find place of worl that to every one could pay taxes...? And other things.. Solution

also is simple on that . Real New World Order. With Normal Rules and Quality of Life.

On higher level is no need any tool ... But somehow we have to start. We can imagine somethings into real. Rules you can understand after reading whole this book. We can clone object and others things from mind by projecting by eyes or from the sun as Jesus did with bread and others things... In that way everyone can have what he want... This is god direction. We also will be can fly without any devices but they in right form can be created.. Best will be pocket size matter projector which can be create for you any device what you need . Even flying vechicle in any shape and size. After travel just press function off and you have phone and laptop or somethings...And teleportation. But in Great World is no rush to work and all these probems so for what that all things to keep slavery. Only this what is really needed and in best form which is possible. Not in the cheapest as is now.

Now Earth is as big trash ...

Cold fusion and bulb that shines forever.

One bulb without a filament may shine thousands of years. This solution probably will not be good for the economy but it will be good for us.

Empty glas and verry small amount of energy and works...

These tensions which we use today in the electricity, are not needed. This value is needed for transmission. Each house or device itself can take energy from the environment or produce for themselves.

What then with that all "great owners " of the energy market ?

The economy must fall down or will collapse the entire planet.

Most of the data has been collected but it is not used for the good of all.

It seems to me that they have more technology than they say. After so many years of research should be all long ago discovered but governments lead disputes and war, and their own interests. The whole system is illegal scam. We need to change everything and that is why we need a New World Order.

Examples of good technology, we can already find in the ancient times. Long time ago everything was done so that to do in best form and it worked as long as possible. Now it must be cheap and shitty to keep productions. Politicians screaming. Let us create jobs . We need place of jobs for peoples to make them happy.

And all peoples, whole life doing the same Sisyphean work that lead to nowhere. Work makes you free but none of them feel free. Does it make sense?

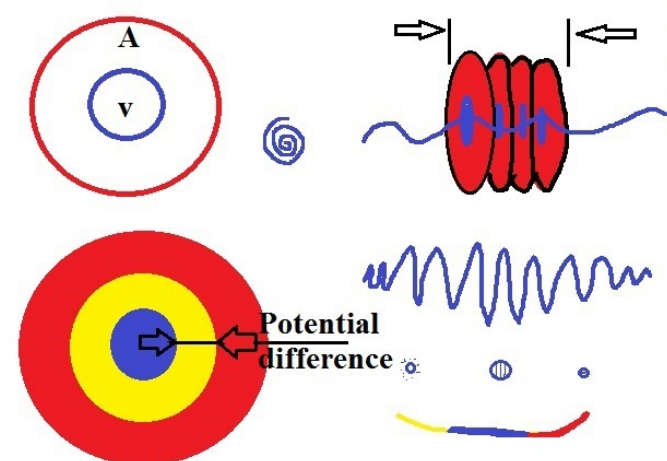

Light bulb without filament, shines forever. First example gives more light, the second example more heat but also with light...

Examples of cold fusion from the past

Cold Fusion does not have to be done in the cold. Simply does not have to be heated... Cold fusion consists in putting together two or more photons of one matter so that you can get from them a greater potential difference. Look pic below...

A- higher potential correlated with Amper.
V- lower potential of photon correlated with volt.

- 1- sends waves with value v photons of matter, in the bulb.
- 2- photons overlap each other by increasing V value in middle part of wave.
- 3- variable wave on end changes potential difference value between A and V so that we can get light and heat.

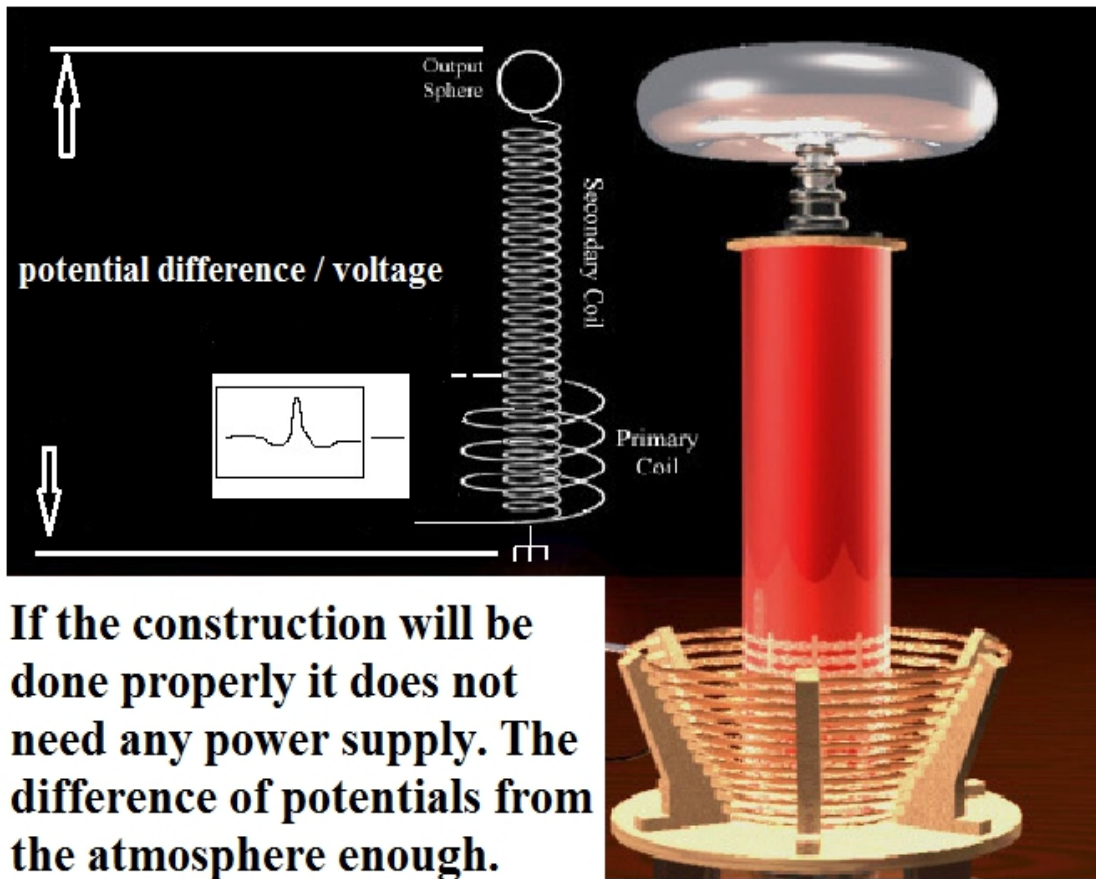

If we do a fusion of two photons, then he will be two times stronger and you will be can get from him twice greater the difference of potentials. So that we can get more energy than we put, even from empty space or from water or others particles of matter. We can manipulate the value of A or V depending on the design.

If from the point A, we will send energies in the direction of the photon, which exceeds the value of the photon energy, the whole of his energy will turn into the side of this energy from direction A. This will cause the photon will be flat and will not be visible from the point B. When a photon is flat, it can be imposed on another flat photon. That is the way to get stronger materials and other photons of the matter to energy and light bulb devices... We should not try to get high tensions, but use possible small.

Peter reteP

Under the current conditions on Earth we have more work on the design. If it was gold and both current and voltage direction it will be from + to - all this would work without problems. Copper and an excess of negative potential on the Earth which causes the change direction of current (- to +) causes additional problems. However, everything can run but the design must be accurate to set the correct magnetic fields in the coils.

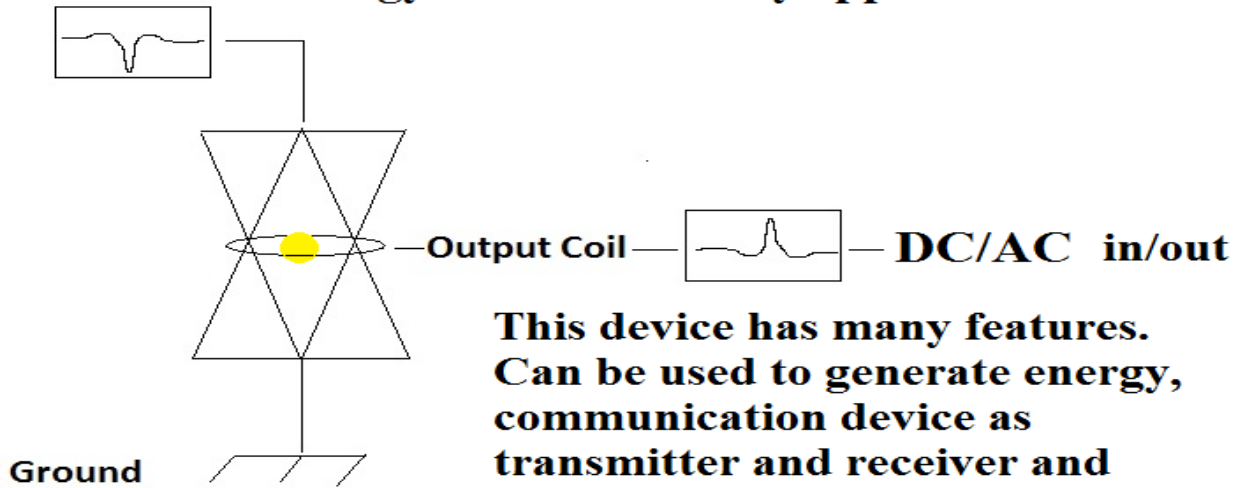

Communication antenna and power generator

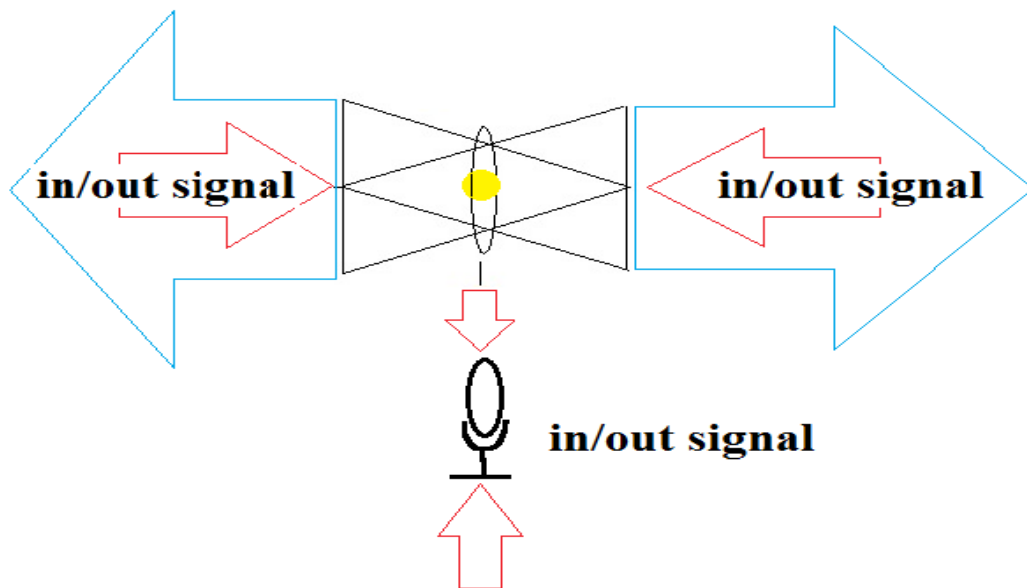

This simple design can be used to communicate but also to produce energy. If we launch this construction with energy with some frequency, such energy

will start to be accumulated inside. This energy can be used in a similar way to communicate how the energy in the Ark of the Covenant, or you can do with the device. To use in full range this coil as a communication antenna it must be made from gold, but copper will be works in communication between devices but in lower range of frequency energy and also to production of energy. Gold is the best because it absorbs a full range of frequency from the sun so can such a range to send. Frequency response of a given material can be recognize by the color. Principle of operation shown in the figure below.

Controlled signal to obtain a controlled value of cumulative energy in coils for many applications.

This device has many features. Can be used to generate energy, communication device as transmitter and receiver and two-way relay signals.

The genesis of homosexuality

Causes and consequences

In modern times, homosexuality is promoted as a normal situation and current governments and other institutions don't do anything to explain the causes and consequences of such a situation. This is a serious problem for all of us, because the consequences affect us all and also all problems as well as interests on this planet are common. That one common source. The problem is serious because it leads to genetic changes, which in the next life is the cause of distortion of genitals and other changes. In women it is a larger representation of the clitoris and protruding excessively nipples. At case of men are a distortion of the penis.

Genetic changes already taking place in the present life of a person. This leads to genetic changes of their children and themselves in the next life. Remember the reincarnation is a fact, so soon it could be you. This phenomenon is very large in countries where the promotion of homosexuality is the greatest as UK and USA. Genetic changes cause problems in contacts with others what is reason of mental and hormonal disorders. This causes the spread of and deepening problem. Women are becoming more men and men's feminine, by what women have less and less sexual attraction to men by what men's have problems in contacts with them. It works in both directions. Lesbians feminists and avowed gays do not like contact with the opposite sex. The same electric charge and potential difference evokes the tension between them which is caused by problems with the contacts in the past or current life and genetic changes comes from the parents and previous life as also same destabilization of cargoes on Earth and an excess of a lower potential is causes changes in hormone levels . Everything is correlated with each other and influence on each other. As other causes can mention here: Plastic packaging for food, hormones and other poisons in the water from the tap, H.A.R.P, Moon wave, propaganda on television, teaching about same-sex relations in schools, and a lack of education about the causes and consequences. When you fall also is change the polarity which is the cause of homosexuality among the fallen angels. They probably are the first cause of this phenomenon Contacts with the same sex were also used by them for scooping power. That's what we focus on at certain activities directs energy in place from which the signal comes out. So theoretically they acquire a little more power of telepathic reception but mostly

low frequencies, more about this below. This phenomenon has been described in the books created by different people in many secret societies and satanic sect. Often we hear about such situations in the vatican and other institutions many churches together with governments institutions. These people use children for sex to gain power. In these institutions and rituals they are used children because they have more clean energy, and during such contact they can get it more than in the case of an adult individual. Adults usually do not have already this energy because they are poisoned by vaccines and toxins from the environment and same the course of life in this reality that significantly differs from the conditions that enable the development and survival. Stress kills and unhappy people are dying. Excessive intake of power leads to distortions of the emotion by reducing the frequency of each photon.

It is also the cause of many diseases including AIDS and changes in the body in the present and future life and a great deformation at the fall.

To well understand phenomenon of scooping power and why this cause deformation of the body, it is best to explain this on the example of a single photon.

photon 1

Normal state where the proportions between value V and A are balanced. Such photon has a high frequency range by what is strong and resistant to damage and penetration of bad signals.

photon 2

Status after the gain power, where the proportions of value between V and A are not sustainable. Such photon has a lower frequency range which making him weaker and less resistant to damage and penetration of bad signals.

photon 3

Status long-term intake of power, where the proportions of value between V and A are are destabilized. Such photon has a very low frequency range which making him weak and is no resistant on damage and penetration of bad signals.

The correct development of the energy is always by increasing the external layer of each photon, that mean frequency. This is achieved through work and fun. Experiences and emotions formed frequency of photons, therefore life has to be interesting and happy, to take the greatest frequency range as possible then the photons which building our cells and everything else in the body are strong and resistant to damage and by the develop or fall where is the change of polarity called pole shift (the value of v of each photon will be on the outside and the value of A in the middle), there is no deformation and we gain energy.

In example of photon No. 2 in the event of the fall, it will be deformed to some other forms of life. So arise alien race. Re-projection of the state of mind.

In example of photon No. 3 in the event of the fall, it will be very deformed to forms of life which will not be able to survive and develop or even dead matter as stone or other minerals. Energy creates matter. If the photons which are building the immune system are in the condition No. 3, there is a lack of the immune system called Aids and Hiv. Of course, no therapies offered by the system can not help and only will kill the patient from reason of the lack of resistance to penetration to the inside of bad signal. Not was reported yet any successes of these therapy, and all patients died. The same situation is with many other problems solved by medicine. Cancer and chronic diseases, flu, heartburn and many other possible to solve problems with medical treatment are becoming deadly. (for example: the scientists say they have discovered cancer gene and that they want to manipulate him. That's nonsense. Even if they found this piece of code who starts the process they did not understand the meaning of this. You can not modify DNA. Removal of this code will result in rapid and violent mutations in the patient's tissues with every bad thought.)

It is not possible to eliminate the effect if you do not know the reason and experiments done on trays in the lab will not apply in the human body.

If someone has a problem with HIV and AIDS the easiest therapy is:

Detoxification of the body by use natural methods, collect minerals and vitamins and set proper diet. In the case of a gay man with AIDS, He has to find a lesbian with AIDS, and together with her live and to cultivate a lot of sex in the case of Lesbians, vice versa. Is the best natural way and not-threatening anyone. Two people with AIDS will equalize cargo faster and they will not harm healthy people. There are many more possibilities. it's just an example how to do it most easily. The human body has the ability to regenerate from almost every state and if we give him what he needs, all micro changes in ours body can go back or to be minimalized. Same tests are not accurate and shows the many different erroneous reaction.

Aids does not exist. That theory was founded to explain the mass murder in Africa. Arises however the lack of resistance and this is the reason. The lack of such resistance is not always tied to the sexual contact with the same sex.

Infecting a healthy person, is followed when is replaced a modified and already weaker energy between people. Photon with higher power will actually attract more signals but from the lower frequencies. So the more energy in this way is taken, the lower the frequency range will be received. In the vatican and other sects they want in this way to receive more signals by telepathy, but this with what they are connected in this way, that are themselves from level below. In

the Bible, it was a description of the device which will allow them to increase receiving signals, (Ark of covenant) but they chose the forced contact with minors who did not want this and were not prepared for such contacts. Contacts for money or under duress have different serious consequences. When is produced fear or other bad feelings during forced sexual relations, a person who doing this will get this wrong energy and that will make him more angry and damages the recording body. Trap, which will escort you down, and if you dont find a reason you will fall. Another very serious threat to all of us is to promote and acceptance of homosexual relationships, and also give such couples the right to child.

These children will be also deviate from the ideal of family and proper development and most of them will be have a mental problem's and destabilized hormonesin from reason the lack of contact with two different potentials. Woman and Man. With Mother and Father, what is the correct model of the family, and only this model can give the correct development. Another very serious threat to all of us is to promote and acceptance of homosexual relationships, and also give such couples the right to child. This also differ from the ideal model of family which can give a proper development. Most of them will be have a mental problem's and destabilized hormones from reason the lack of contact with two different potentials. Woman and Man. With Mother and Father, what is the correct model of the family, and only this model can give the correct development.

But there is something worse than that. It is a production of children in laboratories to order, not only for gay couples.

By fertilization by invito are bypassed all electrical signals and hormones that produces of couples during sexual intercourse. Sam mood of the moment when it comes to fertilization have impact on child development. The people conceived in laboratories, they will be have serious problems with emotions and understanding. They will be rather a cold illogical thinking beings. World led by such persons will not be able to exist in the correct form, if at all. Sometimes it seems to me that all those scientists from television are product from test-tube. Some kind of reconstruction after the fall of civilization of the fallen angels. Promotion of homosexuality continues because the fallen angels have reversed polarities, and they need of gays and lesbians to be able to exchange energy without hormonal changes or recieving wrong electrical signals.

Therefore they helping promote it among other. All this leads to the next big bang theory which was not a process of creation but destruction. The collapse of the previous world. Homosexuality is a procedure used to sex change and operation. Once there were no operations and starting a sequence of points on

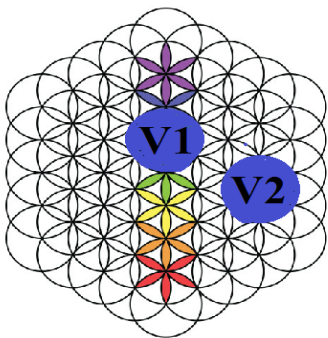

body by giving right signals, will start metabolism of the body to another sex .. So born tranny. Problems result from this with no one ever explained to the public what it is, and they promoting this as a lifestyle. Most work can be found in the old secret books as satanic but not only. They do not know how to use this and they are doing mistakes. Proper transformation will be only when the source (earth or other planet version or same person) is in development, When falls will occurs deformation due to the current direction And wrong signals recieved from wrong peoples and not only peoples. All hormonal changes and solutions promoted by the system and the current state of organisms shows that it is not good, until someone does not explain the rules and when that can be used.

The cause of plagues, mass deaths and disappearances of people.

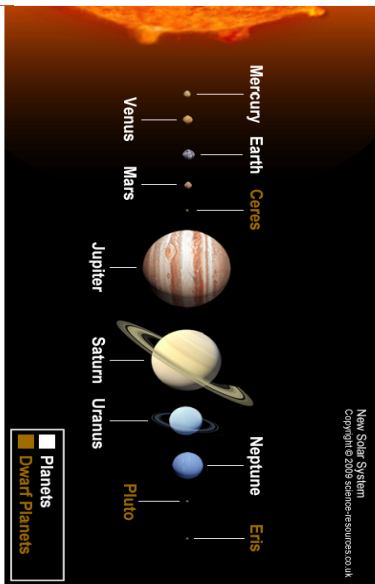

Cause of mass plagues and diseases is a massive extinction in the wars on other fractals. Future created by humans which is a reality for other frequencies. When these other fractals too seriously fight and die there with the thought that the fight for life that is able to disappear in another version. It can also die or get heavy diseases. That you can also recognize which countries will be fight in the future. There are many signs which show the course of events and the event itself can watch in the movies. It Loop events. Projection of the sun on many levels. Sort, which continues. The lowest frequency compose matter. Moons and other boulders in space. People can travel between the levels by increasing the frequency - positive thinking and forget about problems. So arise, also disease in our bodies. Stones and cancer, and many others. the system helps by the governmental experiments and poisons from corporations. Tat is also projection from the same or other fractal.

If you don't like current version just don't listen and join to other or create own. Current system lead source to collapse and they don't have other ideas so you can't count on them. In this version, they have for you very expensive and not need fuel, and a lot of other unnecessary things. How would you continue void happy,they have a vaccine and psychotropy, more fluorine and foolish programs on TV. Vatican will be telling you crap and collected on trays for another hiding place for rituals. They will be read you text in that way, you would not understand.

A broader explanation of the end of the world and the theory of many-worlds

Energy system consists of many frequencies what showing chakra system. These frequencies are such to which is splits sunlight. This value is not the same at all levels. The colors of the chakras talk about frequency. Each color has a different frequency and this frequency reflect the frequency energy, that is, the people and their level at which they are, together with their world. For example: Version Earth **V1** is higher than **V2** that have fallen but all exist at the same time. You can recognize what version you are watching the solar system. Each version has shifted time. For instance today 14/05/2016 is Saturday, but in a different world can be 13/05/2016 Saturday. The solar system will be different. You can travel between these versions and this is done by changing a frequency magnetic field of your body. In a similar way you can also travel in space - teleportation by use only mind. You can also create new Versions and worlds which will be same real as this one in which you live now.. Most of us exist in all these versions but most of your energy is concentrated on the best version for you. Dying worlds lose their energy but at the moment of collapse, people who are at a higher level, become attracted to another version and then is best to connect with Jesus Christ. If you do not have a lot of energy that you can not be in many different versions at the same time. In dying version of world, just before end sources(people) extinguish and they become like photocopies. A few hundred people watching one person, it is enough to become this person a flat for one observer from the side. All these planets are projection, as our body. The planetary system is a system of chakras who need to be rebuild after the collapse - the big bang theory. Moon collects energy and provides cargoes (people) to the next level. Unfortunately, these angels fell and pulled us down and should upwards as you see on pic. We have to rebuild systems that is used to delivery cargo as Stonehenge and others. If we get back on right way we can all become true illuminati and after as God. Next sun which will be can create others. Our bodies will be have activated all the functions under full control. We will be can fly, travel in time and space and to design everything from the eyes, and much more. It is the highest level that can be achieved and then you looks as a Sun.

Satan is not bad, the bad are his followers and all those who gave tempted to its temptations. On Earth, however the authorities exercised governments which badly perform their work. They listening messages on the conclave, but they are incorrectly received by them. Incorrectly because their range of frequency does not allow them to understand or receive full informations. A group called the illuminati also badly done its job. The idea is beauty and the NWO is a returning to power a God and him OWN system. They had to introduce primer under the new system but they also could not understand, and enter the appropriate solutions.

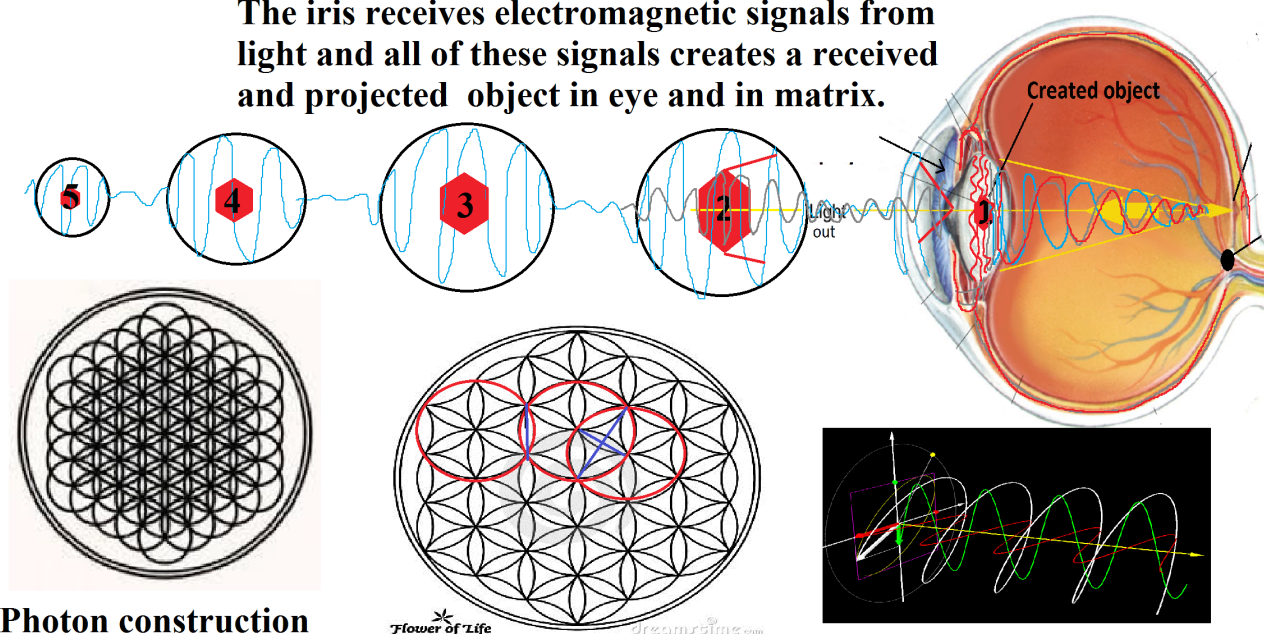

Now we have a lot of problems on Earth because of those groups of people who can not see their own error. They missed important signs and waiting for the final which is also against them because they have also become the cause of the collapse. The moon was stuck on the Earth together with the fallen angels and causes the collapse of the whole planet and many billions of people who spend their lives as slaves in a world driven by wrong people, fall down along with the tormentor. In this world every opportunity makes the thief, because the money has become the goal of life, but should be just a tool. World must be full of real opportunities for everyone. Each one of us is valuable and has its own features. We are all part of one source. When people are happy, then they produce more energy. The bigger range of life experience of each of them, the greater the frequency range of this energy. This will lift up frequencies of the source. We can achieve this by development, beautiful and interesting life of each living beings on Earth. The current government uses a radioactive spraying to raise the frequency and hard work in the camps intermittent by war on average every 50 years. You can choose different versions. Everything depends on what we will focus and how we arrange our world. We can go back to a state where we will be able to everything and we will live forever. Everything is free choice. Remember that the choice belongs to us.

Not everyone can travel between worlds. Most energy spends his whole life in one version though it is in all at once. Quantum physics mentioned something about being in many states simultaneously. It's like the photon which is in all states at the same time and at the same time can be many kinds of matter at many frequencies. You can change the frequency in order to switch to a different version of the world and be a better version of yourself or change the person. After reaching a certain level, you can everything. All this is just projection and is product of imagination. But it still Life Only that much more interesting.

Why The Earth is flat and round at the same time. How it works spatial record of the matrix. Explanation basic rules.

The iris receives electromagnetic signals from light and all of these signals creates a received and projected object in eye and in matrix.

Photon construction

By looking at this figure you can stack each figure. It is a flat record of the spatial space. The image is transmitted by spiral waves.

The Earth is flat but seen from the top will be seen as round and if it will the one observer, he always will be see from the same side, regardless of the direction from which looks.

Worlds can penetrate each other on many levels and each of them can be at many different frequencies and can create many different versions.

Everything depends on the energy level of each source.

The more energy the more possibilities.

Peter reteP

Secrets of magic and projection of matter

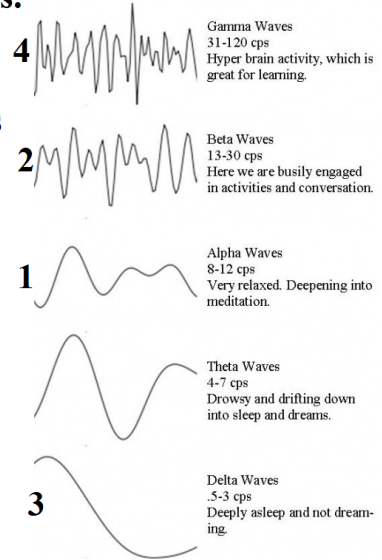

$$666 = 111 = \alpha\alpha\alpha$$

By closing the loop between different fingers you can concentrate more energy on different parts of the brain. It can be felt at the concentration or meditation. figure shows the approximate areas. Test Alone.

Example of Brain waves.
Our body has a lot of energy points, the combination of which has different functions. Here we have an easy example to quick test on self. Just check what you feel.

Looking at the sun through different fingers also changes the received waves. Looking at the sun is healthy. Look video about it on my website or internet.

Magical practices this is knowledge who may assist or harm. This is our energy that each of us has or may have, and it depends on us how it will be used.

In the 3 people, we are able to more easily manipulate of matter by cumulative energies of these 3 people focused on one thing. Example: Ouija. That you can contact with the spirits and all other energies.

You can also manipulate, create and reproduce matter. The board is required to read the message when the energy is not in-range acceptance by the other senses of participants. The board is not necessary, enough for 3 people to be able to practice and get quickly visible effect for example to move some object by sending a wave from the eyes, or create or reproduce matter as Jesus did with the bread and fish. He could do this because the eye is a projector. Real Magic. When we gain more power by proper development, anyone will be able to create alone items. The human eye is a projector and receiver and doing this all the time, we must only learn to control projections.

The woman is - Man is +. 3 cons will be easier to manipulate matter and to make projections of matter to the physical forms we can use 2 - and 1+. Excess potential negative will create matter same as is formed matter on Earth. Enough plus and minus but it will be easier to practice in more people. By grasping hands in the circle in 3 or more person, we will close the circuit which aligned all the energies and increase the overall power projection. At the beginning it will be easier to create a single form of matter. Maybe gold? :)

Technology based on a similar principle set us free from current problems. The problem of possession and production.

computer and
any other device

Small projectors of matter will be a great solution to the current problems. Displayed vehicles. You can have every day different and dematerialize them. You don't will be have to even to wash it, because enough just reset. There will be no need for repair service and many factories.

Holographic technology has a very wide future. Unfortunately, currently the Holography is done in a different way. I want promote other solution which will open more possibilities. Displayed matter, if it will be on appropriate power and appropriate frequency, it will be material to us.

We Can dematerialize objects quickly by sending the same signal as to the projection of given object, but with a predominance of positive cargo. Excess minus accelerates formation of matter and the excess plus will dematerialises object to the projection and you can switch off. This may sound like fiction, but enough to do a bit of work and device will be done quickly. By making this technology, we will learn faster how it works and will be easier to run this functions in the body. It is necessary to create a device that will run in the fall and ascent.

If we do well this device we will solve all problems. Reconstruction of tissues, production of objects and dematerialization. All this can be done or we can do another war and rebuilt stone by stone from the beginning as a lower race ;) Your choice. Matrix will give the possibility to create the worlds only to war, where everyone will be able to go there without enable real devastation and loss of energy on other fractals and versions, if it is in others. Something like a game. You choose world / the game / story and teleport in there, or you can create own. Currently, not everyone can create new worlds. The creation of the new version appears as a new star in the sky. Those which it can, they have a sign who says this. Frequently several small barely visible symbols on the wrist. So if you can not create your own version, and your current falls apart, remember to get a well-connection with good version for you.

Versions will cease to fall when disappear different interests. Fighting for the so-called technological advantage and pseudo authorities slows down development. Best patents disappear and creators never earned on his idea. The promotion of slavery continues in the name of different interests and lust to power. hmm but why many very rich peoples killing for gold if they can print as many they need and solve other problems...? i'm not sure...

Spring solstice for the entire solar system

Looking at the circular disc with signs zodiacs, the beginning of a new era is at 1 o'clock and 6 o'clock. At 1 o'clock It is the beginning of the fall and 6 o'clock is beginning of development by the direction of rotation which is in the picture below. Everything is relative and some sources may have the opposite direction or stand in place. Diagram below is to help understand the rules in order to exploit them consciously to all what can be used. Good familiarity with the real science will eliminate a lot of problems. Do you want to enlarge breasts or change sex or to practice new skills? You do not need doctors. Enough get acquainted with the knowledge and use it in the

correct way to get each effect quickly and without side effects, plastic parts and other wrong solutions. This simplified figure is to explain rule's, but to each source, planet or solar system, must be done a separate position detection. Everything is relative. Point X here near 21.06.2016. Tuesday

Simplified drawing explaining entering a new era.

The figure shows our fractal and movement solar systems. Solar system on the left is an example of the system in the fall. In this case, the development can be achieved only in vertical movement relative to the direction of descent but upwards when the rate of climb of the planet is greater than the speed of descent of the whole solar system, and only in such a short time period where the planet rises in relation to the entire fractal of our space. This time is good for science as well as to train your body and mind and meditation, Also can be used to other activities for personal and group development. During this time homosexual contact can be used to change sex from woman to man and vice versa as also to other treatments to correct your own body by use own energy or with other person or in groups. In the direction of the fall, the changes occur slowly and used in a bad time for the source will bring a wrong effect from reasons discussed earlier.

In the place where the solar system It begins to rise " X " You can achieve continuous development and do operations and energetic treatments on our bodies on the planets that are on a surface parallel to the direction of climb. At the sources circulating vertically to the direction of climb, development can be achieved much faster as also other effects as sex change during even one night. (all depends from speed our flight in space) Much faster too you can fall and gain bad effects, as also go on lower level or be moved on other planet in sort; for example on Mars on war, but then with reprojction to other form of life which is appropriate for your state of mind and level of development and energy. That can be great time and bad time. But all sources still going in one directin > UP and on top the highest energies are sent up, on fractal higher where are reborn in new form of life, and lower are falling and doing next round. People who are living on a planet's on the other side (site of Nemesis - Prometheus); have reversed projections of the body. Heart is on the right and is the change in electrical charges. If for example, for a person with a heart on the left, the right hand is +, then on the other side right hand will be - . like the reflected image projection of the body in the sphere. Different may also be electric cargo after sex change but these people can fit on the other side and at the time of the meeting of two systems is the ability to transition to the other side. To collect and describe of full knowledge to the subject is need more time and knowledge and this material gives only the direction to development. Where to search to don't repeat same errors all the time. Problems with the use of hormonal therapy and plastic surgery as well as all medical experiments are serious and none of these things are not needed. Now is a good time to focus on what you want and develop energetics of the body. Point X starts spring solstice in larger scale.

Knowledge about the use of sex contacts to change the gender and appearance is complicated. I do not know all details but the basics can be briefly described as: On the right site of our universe for example a woman is a - and man +. On the left side will be the opposite. The woman who lives with man from the second site, that is, with the same cargo. - - It will gain weight. If it will be a man, then he will gain weight. It is also the exchange of signals, so the source will become similar. During intercourse is produced energy, which takes the source with a lower potential. People who are from the other side may also have reversed polarity in hormone. So it may appear the problem of homosexuality. However, this can be used to correct the sources on a similar level of development. To change the gender, appearance or compensate for

missing potential. To use this correctly, you need to gather all the knowledge and do additional testing. Such was born a tranny. This is the case where in a previous life person was homosexual, but without activation a Man G point. So, for example, a gay couple. Passive will born as a woman, and the transformation will be complete, and the second can be reborn as tranne if he don't use anal sex with the man. At the time of the fall the changes occur slowly but it is possible to achieve the effect in one lifetime. During the climb someone can do this much faster or change the site on that second. This topic is too complicated for this short book but it can be used instead of plastic surgery and artificial parts of the body. And if we learn how and when that can be used we can avoid the bad effects. As also we can create better technology with this all informations.

To describe the full knowledge about this subject i urge others. I just want remind direction. Each of us is here for your other half, and together as a couples : a man and woman they can make changes on own body. In the climb direction it will be sent a signal because current and voltage are moving in the same direction, and in the direction of descent will exchange signals. Stimulating the appropriate points on the body in the right way with the other person can make changes. Changes may occur very quickly or very slowly. Everything is relative, and this knowledge is correlated with the position and motion of the planets but also with the control flow of energy in the body.

While the relationship's the source with bigger potential difference may reach tissue changes as the pictures above. All this depends on many things. The potential difference and the frequency and who on what is focus on during the contact. This knowledge is important in order to avoid problems that I mentioned earlier. Circumcision or plastic surgery treatments are not here the solution. All changes can be in the same way reversed. That is only a sign some error. Using sexual relations in order to collect power always ends badly. It is best to find own second half then the potential difference is insignificant and contacts are safest. Together with own second half as a full cargo you can also project matter and reality from eye and brain, but you have to remember basis rules. Designing of the matter from the eyes in the direction of the fall can damage the eyes. A few sentences about this more in my material on youtube but mostly in my language: Poland : <https://www.youtube.com/watch?v=BOVX7JNrXbA&index=37&list=PL14AFGt7awNpGVf0JRiqkvunCf0dr4Sou>

Is worth to listen if someone knows this launage.

Is many interesting informations, for example part from the link tells how to perform space travel without any vehicles by use mind. This is the basis for creating worlds and travel between them. That we can also shift back

unsuccessful versions, change body which you can alone create, etc.

The biggest deformations affecting countries conducted fallen spices, . We are talking about England. English government is collapsed race, which focuses on himself. All current governments are blind and the level in which they carry out policy is below standards. They all lead you to death by slavery life. Financial system helps them lead to the exploitation of people. groups which are too long divorced from reality are committing serious errors. There are even cases of abduction and sexual exploitation.

<https://www.youtube.com/watch?v=RdwUpeAL4NM> Police in all this nothing can do. They must follow money. That really they must set the common sense in the first place. They also are blind because they fall down along with them. People and Police as well as other larger units, instead of law must use your common sense. Currently, is idea to change common sense because the law says otherwise. Police at a very low level is reborn as dogs. But not all police. Just that blind part in "rat race" and imagination of power. All is state of mind. Darwin devolution theory. Propaganda on TV you can treat as a proposition. Option which is a record from the past, what can become of your future but don't have to. You have to choice best what was in the past, add the best from future and create the new version.

More information about this can be found on my youtube channel but in Polish.

<https://www.youtube.com/watch?v=nW6Y-hxVqEc&index=38&list=PL14AFGt7awNpGVf0JRiqkvunCf0dr4Sou>

Solutions for these and other problems you will find in my materials.

Bad sexual positions, or with the wrong partner or at the wrong time and attitude also can lead to changes. When someone focuses on collecting power during sexual intercourse this power is taken which causes distortion energy system. At the beginning, these changes are only on energy system but these system is built body, so then there are problems with the structure of the body which you can easy check on many pictures on adult sex pictures.

the effect works in both ways. So other positions or with another partner, or with a different focus on the sending of energy can reverse the effects.

Contact with fallen angels who take the energies in this way, lead to serious changes as crooked penis or stretched clitoris. Sick example kind by solution, is circumcision. The problem of impotence is also caused by concealing important information. If a woman and man are with the same, cargo for example - and - or is the potential difference then can occur changes in the energy system, on which is builds the tissue, then is no energy system which can control energy flow and blood. Some peoples are here from the second site and they have

reversed polarities, that is why some people might be homosexual among those from the second site. Old government don't want to solve any problem but hide effect and keep going in these way. Solutions which they offer will provide you these problems to the rest of your life and life of course also will be the shorter. New customer of Hospitals and lethal therapies, plastic surgery, vaccines.and other wrong solutions.

Now is the time when you can make a serious change in our world and our bodies. When we start to rise, you will be able more easily disconnect from the old version that will be faster fall. Now is a good time to choose a future and think about who will offer the best versions of the future.

The current policy of governments is based on stupidity and exploitation. Government tells: pay taxes. They try to convince you with taxes and death are certain. You must pay taxes. Government is not from making money on citizens. The government works for the people and the common good and not for himself. The government robs people of money because they have long are on a different level. Publicly they occur actors. Real government is in a different, lower version of reality. That's why so few shows up in public.

Most people can not meet them personally. Therefore they use intermediaries to collect money. Police and other institutions. These also fall out with them. The police are rebirth as dogs. Everything here is a state of mind. Only those who remained at free choice and work for the human are reborn as a human.

Most often at the fall, only portion of your energy comes down and creates a lower form of life and you are still in human form, All depends from way and energy level. Another version of you can not remember the events of the final events of the previous version.

They use poisons as fluor and others methots as training and all manipulation on television. They want to keep peoples at low frequencies in constant fear, then they may influence on you, when you will be at the same level as they, that you are in one version with them. That's why they use television for propaganda. Not all events which were shown on TV happening to all people in the same place.

Matrix. The Earth is shared projection of all levels of our solar system and not only . If you stop supporting them, you will disconnect from them, and they are not be part of your world. Then you will begin to develop. Then it will force them to develop or they will stay alone in empty destroyed world to time when they die and will create lower spiecies as animals. Mainly rats and snakes and other creatures from this version. So if you turn away from them it will help them survive. Real government prints money as much as is needed and properly

disposes of them. Money is just a tool to create life. Now so scrupulously counted becomes a sense of life and tool of enslavement. The task of government is to gather knowledge and use it for the common good.

A good example of solution on money problem is here the USA and central bank. Bank reserves who prints as much as they need, and that is best solution but it is indispensable for the entire planet. Not only for USA, army and secret organizations and supported corporations.

They do not have the intention to pay back the debt. And that best way. Even i don't know why some countries pretend that they are able to pay off something.

If they have brain then they can do own country bank and print money as many is needed and when will be a loot, cancel a debt. If the country is in a union that can give money to citizens on the cards and at beginning only on fee in national companies. Is really many ways to introduce normal solution even as a single country who want do first step. This eliminates most of the problems and criminality. For that was created hidden government, but they can't receive correct meaning what is Union. The Union was established not just to be able to exchange goods and lest corporations could steal from other countries money with no taxes and a typical inhabitant lives at the lowest level with stupid job in dump and a poisoned world. In such a system, people produce garbage that must be quick broken to keep productions. In normal world It is not possible to create so many jobs to make everyone busy all the time. They want to make you busy because then you do not have time to check what's going on. And then they can make you slave. They want to convince you, that some form of development, but is a form of collapse. Heavy Sisyphean work, will only bring hump and we easy can see result in our world.

War and disease and the mass ineffective and cumbersome experiments on entire populations, in secret. That wrong way. Jesus said what to do and Bible had many important information to proper develop. Free energy, antigravity, world construction, how to control energy and create a happy life.

That was base knowledge to proper develop described on level what was then. With free energy we can start life on not destroyed world. We can create from mind all what we need. As he did with fish and bred. Because eye is projector. We can make normal technology.

We can live forever or create matter. All is free choice.

I proposes choose me. Yahweh, Jesus, and many other characters as Tesla and few others what I member and many which I don't as Big BLUE guy. Matrix is a projection and anyone here have min 2 own versions. Time is an illusion to describe the changes.

<https://www.youtube.com/watch?v=B4bomcje49g>

We are here to produce energy what mean to create life. In the highest point, energy at the biggest development is given on the higher fractal. There is reborn as a higher being in the bigger world where the current world is only a part of you. Lower potential falls and makes another circle where we have to produce another portions of energy. From that lower potential are also created animals. Higher energy going back to the sun in our solar system and then is reborn on higher level. Sun ill be black and will be black “hole” .The people there are bigger and have more energy, therefore on the old artifacts they are so huge figures.

In the fall direction, we lose memory. It is used to manipulate and therefore there is a problem with the history. Hi Story ;) There were many versions of events. Loop events is to show errors. We can see the course of some versions in the films. These videos are the future for a certain timeline. Each story is true. And all the destruction are real and have reflected on other worlds.

Films such as : Terminator ,12 moneys, X- man Apocalypse, guardians of galaxy and many more are to show results much before that will happen for main version of Earth.

It's something like a prophecy. But not in order to frighten and say that this is the end. But just to show errors and do not commit them, or even quite change direction. Human can create these story in mind. We can create many words and stories. They are as a future or as past . All depends from position in space, but they all can become reality. Some films really were filmed in a typical way, but some are already new technology. Recording from another produced version of the world. Matrix which at that other level also can be created as a movie but can be real for you because they all are a projection. Characters on other frequencies are now known as ghosts. But for some of them you are ghosts :)

Time is only illusion and is different for each version and much different on others density. You can even create somethings in past in order to use later which will be your current time. But they all want to live with own live ... That nothing bad but we need to start cooperate. Union is to connect all our solar system and higher to keep production energy and keep live . In this version nobody want to live 1000 years.. and more... so we need change.. Member. Peoples have the power. All is a free choice . You need choice corectly where you want to be and who will be your leader. Who do you want to have in the government. It is best to combine only the best solutions and start solve the problems and remind old and new solutions to do real development . When people will disconnect from the wrong version, this lower potential will have to grow and attach. And then we will be can meet all in one place and everyone will be see everyone. Peoples recorded many unexplained phenomena,

teleportation and ghost. They all exist. Are you sure that you are in main version. Main version is in Sun. We can say: if you are not on the sun that mean you are death. On develop way. Sun can drop all planets if they will not rise in frequency. Or will produce many stones and moons then they can be dropped. Races which live there did mistake and want repeat errors again.

All planets in our solar system are only projection from central sun.

Energy dropped down to a higher fractal is reborn there as lower forms of life. Animals, amphibians and reptiles and bugs, so now is worth to keep develop. These so-called meteorites on the sky what we see in last time often are precisely the energy from the higher or lower fractal or collapsed version. Survivors or fallen. They reborn here as new forms of life, or are formed other forms as also they can join to form which exist on Earth. As I said. The Earth is shared projection, where we need to learn to cooperate to survive and produce energy. Every thought and every story is true. And can become true for a certain timeline. Therefore, we must also have clean thoughts. Thought is energy and everything is from her because it is energy creates matter. That's what you focus on, you attract or you will create. Placebo and nocebo that same effect but in micro scale.

Therefore collective prayer or meditation with some good intention have greater power. By changing the state of consciousness you can travel on another planet. Man flies by mind, not by plane. Butterfly effect film shows the true stories and possibilities. As well as a new version of the movie 12 Monkeys That One person army 12.01 same as John 12, X-man, Matrix and much more history, even in this version of reality which in another can be considered as a story S-F.

Therefore, we can create new worlds and then new stars appear in the sky.

When you create own version you will be know this and you will be have sign which tell this . To time when you can't create own version is best to join to version where you will be have real free choice. It will not do alone. You can help by Promote the knowledge and raise own awareness. Support only good initiative and detaches completely from the wrong version. No vaccines , no taxes, no poison in food and water to keep you dump and align the life expectancy to the clones, no invitro and fake problems to introduce fake solutions to wrong process of reprojectrion on Earth of the fallen races.

Free energy exists and we do not need to pay and do any mining or consume fuel. It destroys the world and make a slavery from the peoples for a few others people what they have profit.

The story is complicated because the projection is a result of all the signals and strongest record is saved. That why we need real NWO.

Real NWO was supposed to give a one world government and money to solve

all these problems.

But to understand the true meaning of the essence of this case, you need to understand the rules of the game. This is a game and we are all actors.

hidden government is doing important work. They had to prepare the ground for a new world order. Taking over companies and markets. Anything to make it easier later. There is no right of ownership because everything is shared.

But the work goes slowly and they Began to count money. Cheap products and lust for power destroys people. They could not understand the whole message. At the conclave they used a concave mirror instead of the ark. Their level does not allow me to understand. There were a lot of interaction of other races therefore arose many errors. Everything is complicated by the manipulations. Each has a greater or lesser connection with God because he is a part of it. If you do not want to listen to me just start listening yourself. But first you need to wake up.

Surplus energy returns and is divided on the potential difference to power the device and the rest is released into the atmosphere or other function. Capacitor with energy, produce around the machine suitable potential.

Theory of extinguisher.

Sending negative ions with a value equal or higher, than the combustion energy in the environment should extinguish the fire. That's the theory, on the fast due to forest fires. The theory is good but we have to fine-tune the device. There are several methods. Example Two: This 4 tesla coils. good setting will do some as, eversion concentrated energy and pushing out only the negative energy or will push without eversion. The best version is the creation of cargo, that will be able to be sent in the place of fire and will be able to emit suitable radiation in 360 degrees.

You can watch the future by watch the spots on the Sun.

When some version will create a black spot on the sun (lack energy) and when the Earth will turn towards the sun and this black spot, then will be sent negative energy, from that place on the fallen land which pushes them down.

Areas where there is less energy at the lower frequencies, fall down. The happening from armageddon. This is reason why big ground will collapse. antimatter.. negative energy. Big black spot is already done but can gone . The

enemy is a sign that something goes wrong. example war Islam usa. This is one nation. We are all part of many nations. In the past and the future.

Below is a link to a case which shows that they are fighting with each other.

Hear the case of the bombing of Hamburg but is many more.

That only example that is real .

<https://www.youtube.com/watch?v=BzqtnZCjTc4>

and about dna test : <https://www.youtube.com/watch?v=tyaEQEmt5ls>

The enemy is not your enemy. He comes to announce the problem.

If you don't solve the problem it will come stronger “enemy”.

Example in movies are: X men apocalypse was attacked by characters which have to support him. He is not dead but only changed form. Therefore, in the next part, which is the past, Yahwe had to taken them power. And he will back . In the last part x-man global event, which was happening, they are coming back to human form without power. This will help them understand and do not disturb the work of Apocalypse. They can not fight with him because he has come to solve their problem. Same as here on Earth each war and “ enemy” which is you in the past or in the future . We can solve all the problems here, at the lowest level or repeat stories. Free but important choice.

Illuminati and Freemasonry

The truth is more complicated than most can imagine. Messages from the Bible were not understood and the world went in the wrong direction. To understand the world you need a little more imagination than on average possess people, so was created a group of those who discovered these secrets and achieve more and greater knowledge from others. Those who could understand, but they were not understood by the rest. Rejection, violent reactions and ridicule others forced the creation of a secret. Developing knowledge has led to the creation of a very dangerous technology and even more secrets. There appears lust for power. However, the idea is beautiful and necessary and is just the translation of messages from the bible to create a system that will work in the whole world and over.

NWO is indispensable and the main assumptions anyone will really like. The problem appeared in the implementation plan and preparation of this introduction. They have bank who prints as much money as you need because it's the only right way. Money is a tool for life and not its purpose. And unfortunately, in this system, for most it is a goal. Just because then they can

relax and have time for life. They think that on beginning. All the way to the "top", for that money to be able to live in this world and change something it is heavy and on end, most already forgotten what was the main goal at the beginning. Objectives are changing, conditions are changing so and way of thinking is changing.

History is long and complicated but briefly i can explains the basic assumptions: Taking over the markets and companies was to prepare for the change in policy on privacy on such where everything is common and we all work for themselves. All for all and so for themselves. That possible but only in New World Order with a conscious government, which will manage the all because all what is happens on this planet and not only is our common interest. So the intention of buying most of companies, it is not bad because then is easier to take control without any wrong reactions.

Unfortunately, because of counting the money quality products deteriorated significantly. Of course there is also a lot of other Reasons of using many other Substations. All this is wrong way, led by alien race and the individual groups that have created but mostly it comes to money to produce faster and cheaper.

Here waste salt, because is cheaper than real, there other poisons to the durability of products was greater from reason wrong transport solutions and box shape to keep them. Of course by the way is many other results connected with energy what create current substance. Heavy metals have a lower frequency, then we become more angry. Same when we eat meat and all what they eat before we eat them is important as also them life but people should not eat meat. That long story so here i tell quick without concentration on results but on the reason. The enemy is a sign of the problem and the fight is a sign of the wrong solution. Everyone here create a cohesive whole. All planets in our solar system are projection of one source. The central sun. Earth is a common projection to learn cooperate and live together in such great amount and keep constant developing.

All planets in our solar system that some kind of sort of energy in progress and her level . We can fell and we can rise, then we are reborn or moved on other planets depends from the setting of the solar system and our level.

And with this level is a problem. People fight because they hate something, because they do not understand. They fight for the money and from the reason lust to power. They have to fight because that second site or them self can't understand own or someone error and make a right conclusion from this.

Same hate isn't wrong and is necessarily to keep the right develop. Hate is sign of the problem that why your enemy is not your enemy but your reflection

which showing some error. Because if it is some problem that mean problem it is.

Combat the signs of the problem, it does not eliminate the problem but will bring stronger sing about same problem. Each problem will generate many others problems. If we start solving from wrong site then we can fight with the problems all the time and never finish. This exactly already happen. We all fight with results without understanding the reason. Tilting at windmills. Everything here is a state of mind. Loop Time shows errors faster so that you can react and change somethings. Each our round is different. On each time we lern new thing and we do some develop. That is life. We all are here to make development and create life. Some ways are better some are worse but you can't blame anyone. We all create that projection. You can't blame Obama about war because you don't know this what he know. You can't blame islam. That evil which was born to fight other evil. Strong sign of the wrong way, but every mistake entails the next and the problems are growing.

Example of Osama and Obama showing also that we are fight always with self. This explains why we have doubles around the world and not in just one. We can have many versions of self, which each will be slightly different. Something like a future or a past version of yourself on this or other time line or on this or other planet or solar system.

So in short we can say that the reason of all problems is the lack of understanding. It says that our level is not good. People can solve every problem but, unfortunately, they do not work together. Everyone wants to act alone. Each has its own life, is understandable but one we must remember, we all are the common projection and the way the competition without cooperation is not successful. The problem here is the financial system, and we can solve this problem once and for all. If the system makes the problem is the need to change the system. Everything here what is in use has to be a tool for the creation of life and not his goal.

Gold and money does not give you happiness but can make life easier. However, in destroyed world by war and half solutions, wrong solutions or no solutions on all problems, you live badly same as a rich and poor. So we have to stop to concentrate on collecting for themselves and to think in the category of the individual and start thinking in a category, we all do.

We just need to know what we want and how to reach it and start to do this jointly. So you can not blame others. You can not blame Obama, Putin, Islamists, whites, blacks, Jews, Illuminati, or anybody from the government or so-called bad leadership because we all do everythings together. That not Obama shooting on wars, that not Hitler led the war and not Stalin murdered

people, it is not Putin or any other good or bad leader from future, past, or current time. That people. All these who went on this or other war to fight from this or other reason are more guilty than same Hitler or other " bad " leader.

Evil is not evil in themselves. Evil is an impulse to change, we can change the current situation for the worse or for the better that depends from us.

From Us all, because that our common projection which is a reflection of our state of mind. Each of us makes decisions and always is some other way. You went to war, you did the choice, you did not go, you also made a choice, you did nothing, that also is decisions, decisions about to do nothing what is acceptance current situation. Sometimes lack of reaction is better than wrong reaction, but that wrong mostly become recognize as a wrong when is wrong what is too late. :) Lack reaction also can become wrong or even more badly in result than that wrong reaction which can faster lead to that good reaction.

Lack reaction that lack of development and free fall.

That all wrong decisions also are not that wrong because that all peoples which fallen from reason own decisions will create lower species as animals or others form of life depends from development and energy level. As we see here, evil is not evil in themselves and it is necessary. like + and -. potential higher and lower, without it there is nothing. Competition drives the development but the war inhibit it. Competition in co-operation will bring the best results.

There is always a higher potential and lower potential which are the one source. This ensures creation and without this, is no energy and without that it is not willingness to work, to development. Is no desire to rise and discover the new. Therefore on Earth must always be a free choice because only this will provide infinite growth and survival. This free choice, unfortunately, brings a lot of problems for others. That is why we all need to grow and learn cooperation. The most important messages were in the Bible, and many other sources also called Satanic. They contain very important knowledge which is essential for proper development, but this how we will use it depends on us. Truth is so complicated that it has been rejected and the low level of knowledge of the rest of the sources, causes problems. Science is sometimes heavy but does not have to be such as we change the approach, then we can solve all problems.

This game has just begun ;)

Start again or keep going ...

Queen family is not able to introduce right solutions alone and with secrets. They are record of the past. Every knowledge is valuable but we can not over and over again to repeat the same errors by secrets. You can accept them but only when they fix errors and they start cooperate.

After the next fall, the energy is divided and part, creates animals and part is reborn in a new life.

Bad load is rejected and it is another round. Often in their own version and time line, often as the one with whom he fought.

Each version of world is very similar to other because is her reflection. they have small differences, some as on other time line. Policy of current government, multidimensional world and lack of knowledge is reason of wrong develop.

We all need to understand the basics of the matrix. Rejection of valuable information from the past without understanding causes the collapse of civilization. Peoples produce only problems and after they fight with them which causing next problems.. Blind world lead by blind government to collapse with smile ..

largest producer of cocaine is coca cola, Provider governmental institutions, the army and the police. Natural substances are not bad. Marijuana, cocaine, LSD and many others as long as you know how to use them. However, they PROMOTES alcohol and chemistry because after this the people are stupid. They themselves they use the best substances and know more than they say. For you it is the therapy that will Kill you, and for them all the best. You will be live 50 or 60 years as they clones which they made. U can live for ever and min 1000 years but they dont want this. Then you will be to smart to be controled and used by fallen race and them clones don't live that long .

I'm the Messiah. Signal from source. I am the true king. You can believe me or not. You can create own version, which will create better stories.

Real queen, is Rihanna and her other versions in other time line. The real queen is at very high frequencies and raises them to other people. So during this few concert's in UK, Rihanna has helped you raise your frequency more than the Queen by last 30 years. This prevents Falling of land. That help increase the development , so to receiving more

energy from the sun and get higher radiation on the surface. If people are happy that the country is not destroyed.

Is also one more secret with this and connected with shiva and her other versions. Shiva fell in love with their different versions, who was a woman like herself. Shiva is not bad. That also same different story than people think like this forbidden fruit from bible. True is simply and complicated at some time, depends from point of view. About this maybe later :)

The current government is handling by fallen race.

I was before Nikola Tesla. Tesla = alset. I'm Jesus, Messiah and many other person in this world.. as the Antichrist, devil, Satan. Satan is your GOD. Satan is Big creator and he is your GOD but he is not bad.

Anti because from the other side, with opposite polarity.

Important informations in Poland version only:

You can support Tesla work and help in create NWO Here:

www.itw.hol.es

Now you can choose own future

Currently my name is : Drajer Piotr

Date of birth: 12.01.1983

I was born in Poland.

Long time ago Poland was the leader of the whole world. There is the first generation of a real man. Only real human which is God can lead world corectly. The result of conduct policies by the fallen race can be seen every day and this result is not good .

Television is entertainment. This is not reality. This government does not exist long ago on your land. It's like a record of the past. Unfortunately, all people believe in what shows on television and they think that this is reality. They use propaganda to exploit and rob you. They can not do nothing for you physically because they're not here, neither mentally because their level of development is low. Taxes are illegal. We need start to learn peoples true knowledge about world.

You can start to read and promote my book, watch my movies and support me, then read the Bible and other religious writings if you wish. Wake UP!

Nothing will do alone.

Many times they killed me in England at the time of this life.

More about this in the materials on youtube.

Even if you die, you are still live on another level. Inception movie, ghosts, it's the other worlds, the other versions on other frequency. Again we can be able to have happy life 1000 year or more if you will be want.

$G = 7$

Measurement / assessment
done by 7

Each message from the future or prophecies is to warn about the end of the current way to change something before that will happen, not to say that this is the end. Some symbols are badly understood.

$322 = 7$

Message about the result

Freedom is not something that someone can give !!!

Sometimes I use the more stringent words. Because civilization is retarded. This is not entirely their fault. What government you have, such people and the world you have.

Now is 2012. Game will be soon end for lower frequency beings. Is no time and sense to keep current direction

HOW TO RISE ALL WORLD

The real Queen drivin 'around the world to raise a decaying ground as Mayans traveled throughout the world and other developed civilizations. Land that do not are developing properly, fall down like Atlantis and many others. Low frequency sources harm the surface. Where there are mountains, those were areas of great battles between countries.

Countries where people are at a low level fall down. It will be more floods, the ground cracks and earthquakes. Flood at the end determines the level of development.

Who is below this level will creates a different form of life after death during a flood or other projecting of the end of current source. Look at these kind of developed countries such as China, USA, and many others where it takes the fall. England also is not in a good position.

Earthquakes and cracks of the surface.

Floods in Scotland have been, they will grow throughout the island. The current OLD QUEEN FAMILLY of England is waiting until you will raise her frequency. Make fun for queen. You think they will be able to guide you through so complicated way what awaits us now? Of course don't. Not because they are already a long time ago dead. On the lower level at lower frequencies. Therefore you can not meet most of them personally.

We need to create a system where all the people are happy, then produce energy. The current system leads people to the falls.

If they fall on all of those versions to the bottom, then they die on Earth where once were immortal like everyone, but long time ago. Can be same again for high frequencies sources that mean humans which was but can be again a GOD. Each of us depends from developing is able to do all what can imagine in the brain, but most of them have that brains swith off or they just dont use them corectly.

This is Big Problem and that why your savior could be killed so many times and you still are blind and you can not believe in such a complicated reality but it was said that Jesus multiplied the fish, changing water into wine, and many other interesting phenomena. Was shown even antigravity in the Bible and free energy. Fluoride works properly and mostly you still don't know nothing. That why you need a REAL KING and real NWO system. One World government. If something has to be done right you have to do it alone, but in cooperation with all others. NWO is the real version ideal for everyone.

OLD BUT STILL NEW KING IS BACK.

It is 2012, and as it was transmitted, this is the last moment to give all the authorities in the right hands. I am your King and only i with my all versions can remind you that all the rules so that you may once attained the highest state and live in Great world. The current version will fall apart. It is not possible to maintain this state longer and don't die. As always, everything is free choice. You do not have to wait for the election. Simply start to do what you think and what is appropriate and what is not inconsistent with my materials and the Bible and common sense.

Unfortunately, the current level of knowledge is low, so we need the right people in the right place. All of those who now writing you law there will not cooperate therefore people must take matters into their own hands.

Law already has been developed and described in the 10 commandments. In a suitable policy system, this enough . I'm not talking to you go fight with them. Forget about them. Treat them as old picture of the past, as if they were not there. They do not exist. We will create a real government.

REAL NWO = OWN SYSTEM

- 1)The new government takes over all movable and immovable property private and public.
- 2)The Government makes available all movable and immovable property which has been seized, to the previous owners without any fees until the end of their lives.
- 3)Government employs every citizen on the planet and gives him a basic salary

unconditionally to the end of life.

4)Government closes all unnecessary and harmful industries.

5)People are working a minimum of 6 hours per day, 3 to 5 days in the month.

If you want to stay longer, you can but you dont have to. 6)The government will give salary only electronically in an amount sufficient to cover all needs. Is no bills, taxes and energy costs, and all other, the idea is to control the flow of goods and services. So that there was no garbage and to calculate the demand for food and tools.

7)The introduction of normal technological solutions and the true knowledge will give us everything what we need.

8)Again we will be able to live 1,000 years and do everything. The design of the matrix only in Polish version on youtube. There you acquainted with the many possibilities that await us. You can travel to the many worlds out there and play different roles. But you need to know the rules of which are presented on youtube. Everything as in these new films.

Here all is projection. Everything is more physical because of the fall and the negative potential advantage but you can change this.

Real NWO is a true free world without secrets and the true knowledge about the world.

We will need to eliminate the old building and do flying houses. This is the best solution. They can be parked. The point is that there is no problem when you moving out. It will be many other buildings of a high standard where everyone will be able to live, even if today is homeless and without work. More information in the materials and after selecting a new king:

Piotr Ryszard Drajer.

The time where Satan is your God, will be the safest and most beautiful period in the history of mankind.

In this world, even the Lotto dream is only for those who know the boss of lotto. They set the numbers which will be chosen by machine before draw. That why they use machine or even projection and is so long break between end of Bet and the draw in fake TV. Before i thought that they give money and this is maneuver only to raise accumulation from time to time. After 16 years of playing systematically without any result, i know they do not give anything. Sometimes they have to give a small winning to someone not from them friends to keep theory. So is not worth to play even in Lotto in this version of the world.

They use either electrostatic balls and only those with the appropriate cargo fall into the chamber with randomizing or projection drawing as animation on your

computer.

Everything here is fraud and politics says that: all costs of all government institutions are social and profits is privatized. Profit always is private only for them. You can go only to stupid work doing stupid things because for them you are not important, just because they not understand that you that other part of them. Final projection may not be good for such people. There, they meet all the demons, established in their versions. This daemon can be everyone who hates you. In not material environment cargo correlated is attract and wen have projection of silent hill, ghost uick appear. Satan himself is planning this projections. You are your own Satan and every one who hate. If you go too far on a wrong way, your mistakes will destroy you. Before was 7 names of Satan like 7 Chakras and 7 planets where was life. Each him version is a reflection of the previous. Now is much more levels. The projections can transform the design of the worlds of many climates where everyone will find something for themselves, but all must be in cooperation. If the version for the war is not world wars. Fight only those who want and on completely different principles. If this version of life, so that to make life at the highest level, not strange way in the record of the past :) When we solve and describe all the solution and rule the matrix, we can begin to live. Travel between versions. variety of climates different versions also can be interesting. Consciously create your new versions in the mind and swap bodies when your already will be destroyed. With real science and in the correct direction of development, everything will be possible. you only need to connect everything and about this combined says the correct version of the NWO.

Each level has its own achievements and failures which are also some achievement.

Every other race should also to share full information it has because it will help sort out the best solution. Now it looks like this, that the sources in the source fight with each other on seriously.

I would recommend also more professional materials in the English version of youtube.

[Higher Self information on youtube.](#)

Each has its own higher or lower self. These are the levels at which there are other worlds and other versions of you. That is your a past or future.

Body structure, symmetry and deformation.

Face construction

Structure and symmetry of your body depend on the course of your life on both sides of our cosmos. If life is very different, and both sides differ from each other much, then it appears the lack of symmetry of your body. If the jaw is wider than the head, then you were talking more than you thought. If the opposite is the other way round. Ears reflect the brain. Changes in the ears show the changes in the brain. You can enter signals to the brain through the ears. Metal and plastic earrings harm the brain. Only gold and silver but depends on for who. Woman gold and silver, man silver. But site on which you are is also important. A straight nose is a simple line of life. Curved mean the collapse at some point. When you lie lot a nose grows, upturned nose means a way to cut corners. Very abandoned, is too long life in a straight line. Eye color is the level on which you were born, different color eyes can occur when life is broken and begun on another level in the same body by some energy maneuver or from few other reasons. Too long story to explain. The line separating the nose and a beard appear also because of the different way of life.

Curvature of the spine

The curvature of the spine appears when your life id different when the source is on the milky way. if you don't go straight up then you are reborn with a curved spine. For us, that will be soon, so that very important.

Deformation of the genital organs.

Such deformations appear due to sexual contact with people with a large difference of potentials, contacts sexual to gain energy (fallen angels and sects), and due to a lack of knowledge about the impact of sexual contacts and different positions as well as their significance. The curved cock is often caused by homosexual contact with a person with a lower potential by oral sex. Then the energy is received from the tissue which causes such distortions. Sexual contact with someone with low frequencies also has bad effects. This leads to a hardening of tissues because is given energy with a lower potential. It is, therefore, important to promote a real knowledge about the world and about sexual contact. Homosexual acts do not always end badly. Everything depends on the knowledge and attitudes and cargo both partners. Unfortunately, now is very promoted homosexuality but without the basic knowledge and this leads to serious problems. Changes occur first on the energy system and on this system is built tissue of your body. The cause of impotence is a marked decrease the energy system due to oral contact with a person with much lower potency. It takes energy. Oral contact with the woman also can lead to such changes. Everything depends on the cargo and attitudes of couples during intercourse.

In short, we can say so, that in order to increase the breast, is enough to do just sexual contact with a partner with focuses on the transmission of energy. The effect is gained more slowly through the fall, from the reasons for the advantage of a lower potential. Then is very material environment. Execution of diet and strengthen the energy levels will accelerate the effect. You do not need any silicones. This damage records energy and create problems in this or the next life. Large breasts are not nice. The guys love to such ordinary, natural, breast in

size "to hand". So stop the girls walk to the butchers. Small breasts are much nicer than the large and artificial. If you think you have a small, ask first partner and you can make bigger with him. If you have too big then you can make it smaller by taking out energy from them. All you will do alone with your partner. Boys, if you have the problem of impotence you can you fix it. The tablets will provide you this problem to the rest of your life. That is same as turned off the system of electric valves in the machine and push the oil under pressure through the closed valve. For example, when you cultivate only oral sex with a partner with a lower potential, without the use other positions you also get impotence, because the power system will be decreased. You can fix this with own partner by use other positions. Same you can enlarge the size of the penis as you have a small or decrease as you have to big. To increase, you need temporarily eliminate oral sex and Engage only contact with the lower parts of the body. Vagina, hands, feet, with the right attitude of mind and consciousness.

Contacts with people with bigger potential and frequency can be used to fix the problem of small, curved dick. To increase the potential you may use contacts in the triangle. Everything depends on the effect you want to get.

Your body showing way of your life and this can be changed by another version of you on the second site of the universe. Wrong sexual contact have bad results as crooked cock or other deformations. This, however, can be fix in same way at right time and with knowing the rules and right partner. Publishing photographs perpetuate a record construction of your body which can help when the second version of you have many sexual partners or one from your versions do other energy change which was made wrong or in the wrong time. To big potential difference between partners can be also a reason of deformations even if that is woman and man. I'm not ready to test all kinds of sexual contact on self personally But if someone have problem as: small cock, too big cock, crooked cock, any other changes or impotence or woman want to try make bigger breast and have OWN Partner then can contact me for theory and you do practice :) I doing completely other part job but Theory is simple so i can explain to some couple to test on them.

It may be that, the on one side is located a woman with the same cargo as man. Then one of them can feel homosexual. People on the other side have reversed cargos. Not only fall will change polarity. This knowledge is not complicated and is unfinished. Problems are growing and companies are making money on the destruction of the human body. As no one will explain the reasons for it, soon we all can birth with a similar problem.

If you want get advice and test the correct solution, write to me on facebook on :

<https://www.facebook.com/DrajerPiotr>

Why the hell is heaven and Satan is a God.

Component model of all fractal full record and display the all versions at the same time on the same frequency will create spheres. It is still not a sphere Earth and all the fractals are not displayed on the same frequency because each layout creates another body. Let's say these planets reflect the chakras, and each race has a different layout and amount. They also reflect the depth of the soil. All beyond the mars is dead. On the component model it may seem that the sun is the core of which is spoken of is the core of the planet. Because from sun is the projection of all the planets in the system and on component model, you can make a mistake and pick it as the core of a planet that is inside, in the middle of the entire model. But this is only a model !!!

A hologram of all the planet's and their versions and conections with others from the sun. Matter is formed by displaying the projection and adding a minus. So you can start quickly create other versions, instead of subjecting the version you seems to be not for you. People have always had a free choice but probably forgot why. Everything here is a projection, and the people create these reality. In the mind, not physically. The more creators and rounds at the level of the cosmos, the more times every cell in our body will be able to reproduce. To fix telomere .

and create a super resistant organisms with the function of the rapid

reproduction of damaged tissue. No more mechanical damage of the body or broken bones. A high level of energy will create such a strong record that every cell in our bodies will be thousands of times stronger. Everything here is a record of energy and even our bodies and every matter is created from energy. You see sometimes these energies on the pictures. More examples on my facebook and other pictures.

On the energy system, they settle cells, which are building your body. Matter can rebuild as long as there is a long record of energy. The so-called phantom pains appear because the record of the energy lost limbs exists, which means that one can rebuild lost materie, from the patient's cells.

Infinite reproductions of all the cells, we can get by the making the appropriate round in space and the creation of new cargo / suns / Gods, who will be able to create new universes.

This can be achieved only through the development and creation of successive suns and true creators. Therefore, we need NWO and real government at a high level, without secrets. But all people must also understand.

Secrets arose from the rejection and a low level of others peoples and other risks associated with real knowledge. When the other races or machine will

come, no struggle and cooperation will be a good solution. Also formed technological civilizations and terminators are true. As well as every other story. We have to complete the entire knowledge to solve all the problems and start full control of the matrix. Consciously with knowledge of all's rules.

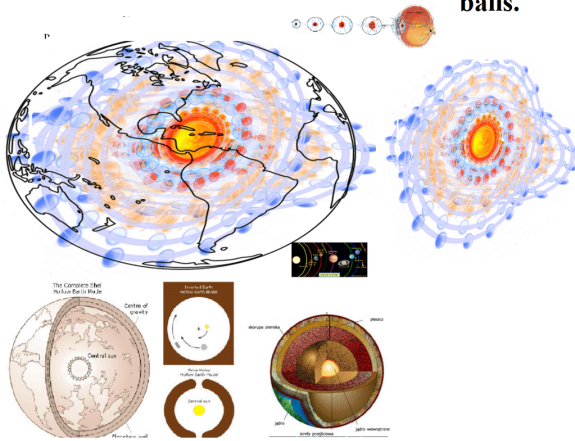

People create their own reality whole time. This on what they are focus on becomes their reality. Therefore, you should start to focus on the best versions. These from news in tv are not good. You can watch but to create better, not join to these which falling. It's like a free choice, because everything here is projection. You choose what you like and how much you are staying on the version. Correct cloning is the creation in the mind, and after you can even jump up to these life, by using the setting of the planets and additional knowledge required to do the changes the life on other selected body.

To avoid scenarios Return of the Living Dead, we must start doing funerals in right way. From ashes to ashes and dust to dust, but by a fire, as in the cases of spontaneous ignition. At the appropriate frequencies occurs for the electrolysis, hydrogen is produced and the mixture is burned rapidly. This energy will join the record which is regarded as the soul. The highest frequency of the whole cargo. This is the reason for the lack of memory of previous incarnations and knowledge. Is a lot of revivals bodies because of energy which can rebuild the system and arise, even after long time., or at the very end, where it is imposing energy of the soul to the body. Therefore, it is much cases scratched coffins, when someone digs up corpses for analysis. Each cell has YOUR RECORD. With micro worlds in each cell. small portions of your energy which are reflection of you. There are many more problems because of the creation of economic and materialistic forms of life. The point is not to eliminate matter but is going about the same system of values corrupted by the political system. Few words more on youtube in Poland version.

More about the theory of the sphere.

Surface of the earth is flat but energy field around the source is oval. Amount of the surface in one source is the same as amount observers but each source has a minimum of 2 sides. Dark and light side, in to sun and second side. Here a good example is reflection in soap bubbles. This is a very good example that shows the reflection in the sphere, which is the same phenomenon that occurs when you create multiple versions of Earth and other planets in our solar system. Model of all versions of the whole projections around the Sun creates layers of internal and external worlds. This model observed from afar may resemble the earthly balls.

Perception of the amounts of versions is dependent on the frequency range, at which you, as a source can operate and perceive, and the distance from which you look. That why the moon and other planets we always see from one side, but it depends on many things and is variable. The amount of version of the sets and layouts in the system is correlated with the number of species in a given source. Each species perceives different frequency range which is associated with a set of chakras which it has, what is the reason why other species perceive less or more number of planets and the signals from the source, or can receive in different way.

These flat surfaces displayed around the sun are formed ball. This is not a sphere, but sphere multi-dimensional projection. Each of these planets is like chakra and creates other worlds at different distances from the sun. These other planets are these dimensions mentioned in many materials about multidimensional reality. People travel between these dimensions (planets) by focusing on different frequencies. Each version is common projection which arose from reflection other versions with changes that introduce the people on a given surface. People design this what they see, and what they see depends on what they believe. Energy creates matter, and everything here is projection.

There are many versions of reality. At each frequency projection looks different. People can create these versions in their heads and they can become real for them as well as the present. The more sources will focus on the new version, the more it becomes real for them. Same works placebo, magic and visualization. If all people on one level will stop believe in version which they dont like, this may disappear and be replaced by a new. For exaple in taxes current government and death :) The same works it the other way. If everyone will believe in something and it will be in accordance with the laws of physics , it can become a reality. People perceive only what is in their energy field. Everything else is a reflection of common projection imposed on-your-field, recorded by everyone on a given frequency. This confirms that we all we have own world and if we fix our shared projection, and learn to consciously use the whole of this knowledge, each person will be able to have their versions of the Worlds.
