MEMBER SPOTLIGHT
MEET THE PEPPER FAMILY

Hometown:
Billy-Albuquerque, NM & Jenna-Eliot, ME

Occupation:
Both are school teachers at Eagle Nest Elementary School in Eagle Nest, NM

Children:
3 boys; Porter, Ry and Delmar

Favorite Angel Fire Activities: Snowboarding, skiing, telemark skiing, mountain biking, golfing, running, hiking and watching the Angel Fire sunset from our deck.

How were you introduced to Angel Fire: Jenna's parents bought land sight unseen in the early '70s while living in the Philippines. They later traded it for a condo when family was stationed at Kirtland Air Force Base in the '80s. Jenna never forgot how much she loved New Mexico and Angel Fire even after her family moved to Maine. After graduating from college she asked her parents if they still owned the condo and she took the closest job she could in Albuquerque and drove up almost every weekend with Billy and then each boy as they joined the family.

Favorite part of living in Angel Fire: The clear, dark, star-filled night skies. The winter fun with plenty of sun. Raising boys where they can be dirty, healthy, happy kids! Our dog smiles all day long, she does not know how lucky she is but we humans do.

NEW & NOTEWORTHY

UPGRADED SNOWMAKING

Angel Fire Resort has improved its snowmaking equipment again this season, adding new snow guns from TechnoAlpin to one of the longest and most popular trails, Headin' Home. The new state-of-the-art guns will efficiently utilize air and water to cover more terrain. The mountain operations team is adding more permanent stick guns to the backside trails, such as Hallelujah, that will make snowmaking operations more efficient and will allow for a better "throw" resulting in better coverages. The resort is also adding another state-of-the-art fan gun that specializes in making large amounts of snow over greater distances. The additional equipment will allow the resort to open more runs earlier in the season.

LONGER SKI SEASON PLANNED

Angel Fire Resort is planning to extend their season a week by keeping the ski mountain open through March 24, 2019. This offers pass holders an additional seven days on the mountain and also ties into many southern states' Spring Break calendars. Several of the past winters have seen the best snow later into the season. As long as the powder continues and the weather cooperates, the resort plans to stay open the additional week.
