Following our post about the 9 ELDERLY ex puppy farm, un-housetrained Dogs that were believed to be Stolen from Moston Brook Sanctuary, Dolfyndd Farm, Llanfrynach, SA35 0AS Dyfed in WALES.

We have been sent photo's (taken months ago in the summer) of the conditions documented at this sanctuary & the disgusting, unacceptable environment these Dogs were held in. These Dogs were locked in these kennels for 23 hours a day in their freezing cold & pitch black kennels, with no pens or hatches attached - so they could NOT freely roam their kennels & an outside area. Said to be not housetrained by their owners. This means that these Dogs were subjected to live, eat & breathe in their own excrement because it was not cleared up for several hours! If at all...

These Dogs were kept locked away out of the Public view, as if they were some kind of secret... rarely being posted of their progress for rehoming on the Moston Brook page.

The person who sent these pictures, has visited the sanctuary over a period of several weeks at different times of the day. They have never witnessed a single person on site, but has heard the Dogs whimpering & howling every time they visited.

Whilst passing the basic needs of access to food, water & shelter. These Dogs were denied by the owners & the RSPCA multiple times, an affectionate home, with a warm bed, cooked meal & a place on the sofa. Especially considering these Dogs were elderly with health issues.

In light of this new information. We bdl believe that these Dogs were NOT stolen. But in fact justifiably rescued.

MORE PHOTOS/EVIDENCE IN OUR MOSTONBROOK ALBUM. PLEASE VIEW! And please join our closed group to help apply pressure in closing this place down - <https://www.facebook.com/groups/444934745965937/>

The owner of Moston Brook Sanctuary should be ashamed of the way she has allowed these Dogs to be treated & the conditions her other animals (Roughly 8 donkeys, 8 ponies, 2 alpacas & 3 sheep, 2 cats & several horses) are currently still living in. She should surrender them all to the relevant animal charities & retire her hoarding for good! We bdl proposition Mostonbook to allow us, with the help of other reputable animal charities to find the appropriate homes for these remaining animals.

We see you **MOSTONBROOK SANCTUARY EQUINE HOME OF NEGLECT!** <https://www.facebook.com/groups/hazelsdonkeys/>

As you browse through the following small selection of photographs please try to keep a few things in mind whilst you look.

This is **supposedly** a sanctuary, a safe-haven..

This is **supposed** to be a “home of rest”

This is **supposed** to be where animals can live out their days in comfort and embraced with love and affection, made part of the family.

The RSPCA have given this place the OK many times apparently..

These animals were **supposedly** 'rescued' from terrible places, taken from puppy farms... they had already lived in filth and squalor, they'd already been abused and abandoned, they'd already had enough.

This was their chance at a proper 'life'.....

Would you leave your dog here?

**THIS IS HOW THEY LIVED INSIDE ...
 MOSTONBROOK SANCTUARY - WALES,
 SA35 0AS**
 Neglected by their owners & denied freedom by RSPCA
**DO YOU AGREE THESE DOGS WERE NOW
 LIBERATED?**

This is the opposite of a safe-haven, this the opposite of sanctuary, this what we try to rescue animals from!

As more and more evidence began to come out..

Coco came into #MostonBrook Sanctuary on the 21st Feb 2013.. in what was the busiest and most frantic week ever, getting all his assessment and treatment done and finding a new home, for no mentioned reason however Coco never ends up in this loving home in Cardiff [which Hazel has said happened].. instead he ends up languishing in a tiny kennel in a shed, in a field.

Coco is recycled in bids for donations and look at me posts for the remainder of his days where he was later attacked by a bigger dog.

Despite the acknowledgement from the moment he arrived at #MostonBrook from both Helaina and Hazel that he needed a loving home and lots of affection, some 4 years later he passed away "peacefully" all alone on sawdust. In the dark in the middle of nowhere, never getting what he was promised.

From our previous post of the letters in 2015 [letters added again at the end of coco's story]. We posted of a very concerned person writing to RSPCA & Police a detailed letter of the conditions at this sanctuary. At that time, should the RSPCA have acted on behalf of those many reports and complaints. After all Hazel is KNOWN to them! Coco & Amber would've been saved.

RIP COCO, I am so, so sorry you never got to have the loving home that you truly deserved. 😞

Please share COCO's story so that he is not forgotten and he becomes a beacon of hope for the rest of the animals still at MostonBrook Sanctuary Equine Home of Rest that we desperately need to get out!

RIP COCO

The tale of GOLDIE and...wait WHERE'S AMBER?

Goldie & Amber was surrendered to Mostonbrook on the 23rd December 2014...described to be very lovely dogs but very hard to handle. But instead of Hazel Wilkinson speaking about more of their personality or needs. NO she would rather tell her followers about how she took a wrong turn in the dark and got lost? Before even uploading a single picture...

A few days later Hazel decides to update her followers that these 2 new dogs need retraining and spaying. Thankfully, she enlightens us on that's what sanctuary's do...funny that. Still describing Goldie & Amber as lovely dogs & reassuring us she will get to training soon...ah, aren't we relieved?

Finally she updates us with ONE photo throughout their whole month being at Mostonbrook... whilst she is trying to find Goldie and AMBER a new home.. ... Aren't they so beautiful and healthy girls? Don't you want to show us more.... No? You would rather tell us they are costing you £35 a week to feed them and that you need to raise more funds if you keep 'them'

But still we have hopes that they will be rehomed...right?

Thanks for posting that they don't get along with children Hazel, but how can they be around your own grandchildren? There's a video of them playing together..

After all, people as far away as the USA, England & even Ireland want to adopt these two precious girls! They need to know these things! But you decide to rehome them locally so you can monitor them...A wise decision!... Oh, what's that your shelters are badly damaged? Phew! You will be making the repairs in the summer ...

I see Helaina tried to rehome them again in March...but you neglected to mention they didn't like cats, sheep or horses? Oh my! What a splendid place for them to be! On a farm with those exact animals...

We are now in October. So looks like you never rehomed Goldie. Thank heavens for Helaina Thomas, for building Goldie a new shelter...she has so much room now! But wait, where's Amber? From the 23rd March 2015 to 8th October.. You never once mentioned she was rehomed or passed away? Not a single word from such a woman who likes to talk. WHERE'S AMBER HAZEL & HELAINA?? #whereisamber

Should the RSPCA acted in 2015 when other's reported and asked them to help. Amber could've been saved.
