

# Are You A Romantic At Heart?

Are you willing to get your virtual hands dirty? Build the world you always wanted to live in, while trying to survive the endless attacks of zombies, creepers giants, mutants, and other enemies. Pocket Edition, the popular Minecraft game that has become a worldwide hit is now available on both Android and Apple mobile devices. You'll never get bored if you've got a world of adventures available to you.

The app version of Minecraft brings much of the same gameplay and many of the most popular features of the original hit to mobile devices. Anyone who has played the game on a PC will be able to quickly adapt to the Pocket Edition version. And for those who somehow missed playing the original game, make sure to clear your calendar because this is one addictive game.

## Creative's Dream

Are you ever frustrated by the restrictions of sandbox games? Welcome to Minecraft Pocket Edition and say goodbye to restrictions. In addition to fighting, building, growing and harvesting, mining and trading for the resources you need to construct whatever you want You can modify just about every aspect of the world and the way you interact with it. Is minecraft still a thing After exploring the basic game world, it is time to take things one step further by introducing customization.

- Are you a builder, but not an opponent? Take down your enemies and gain access to unlimited resources to design whatever you want by switching to the creative mode. Create to your heart's content If you want to you want to switch back to survival mode to see how your work can stand up to the mob. The God Mode allows you to become all-powerful. You can modify the world around you with commands that slash. You can change the weather or change the time of night to day, summon resources or alter the landscape to fit your playing style. Is God Mode cheating? It's up to the player to decide. But one thing is for certain that it's a lot of fun! - Get a mod for almost everything. You want to get a pet? There's a solution for that. Are you a romantic at heart? Download the mod that will let you test your flirting skills by playing NPC characters. Perhaps you'd like to build a boat, and explore. You can build it. There are mods, skins, and objects for both paid and free on the marketplace. There are thousands of mods to download. If you don't find what you're seeking Don't fret. You can always create your own. You can show off your imagination with the help of a supportive and mature modding community that offers tools and help to make modding more accessible to everyone, even non-techies.

You can play however you like without any restrictions!

Your World is Yours

Are you ready to be the ruler of the universe? You can now be the king of your own server by using the optional Minecraft Realms Add-on

Create the ultimate private cooperative society for up to 11 people where everyone works together to build an online utopia, or choose to transform your Realm into an incredibly destructive PvP Battle Royale. The choice is yours. Currently, you can choose between Realms and Realms Plus. Realms is \$3.99 per month. It allows two players to join your server. Realms Plus costs \$7.99 per month, lets up to 11 players join in the fun, and provides free items on the marketplace as well as other swag every month.
