Why we choose the XRP Ledger

CRX token was created on the XRP Ledger to give the holders the ease of transacting without the huge transaction fees that one would accrue if it was created on other networks. At fraction of a penny, transaction cost is inexpensive enough to enable a wide variety of use cases.

Our Mission

To give everyone the opportunity and access to the cryptocurrency industry using our marketplaces. By using CRX and the marketplaces it will be the platform to bring consumers and businesses to use cryptocurrencies on an everyday basis. In past few years so many projects and companies were created all to assist people to make use of cryptocurrencies through whichever platform they created. With the amount of people around the world using marketplaces to buy items new or used, we are positive that our platform will have a impact in the cryptocurrency industry.

The Project

WALLET ACCESS

CRX holders will be able to store their tokens as well as stake them to earn extra income. Holders will be able to connect their wallets to trading platforms to trade or swap the earning received from staking to grow the holdings into other projects.

MOBILE APP

Everyone makes use of a mobile device. It is only fitting to create a mobile access point to give you the freedom of accessing your wallet anywhere you go. The aim is to access the marketplaces via your application.

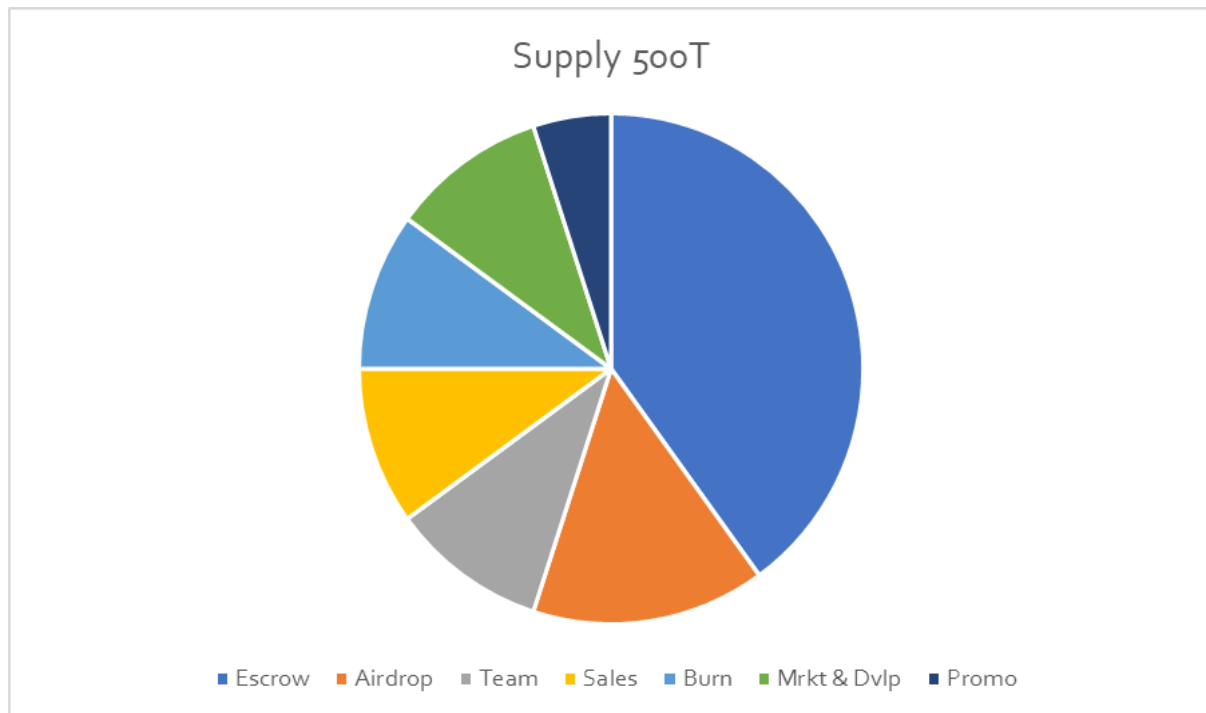

MARKETPLACES

The Muse – Our Nft marketplace designed for professional artists and the beginner starting out. A place where any art is welcome whether you take photographs or a graffiti artist.

The Xchange – A marketplace where any person or company can list products new or used for sale. Work services will also be available for listing. Locations will be added to give everyone access and offer products or services in their area.

Token Allocation

200 Trillion	Escrow
50 Trillion	Team
50 Trillion	Marketing & Development
25 Trillion	Promo
75 Trillion	Airdrop
50 Trillion	Token Sale
50 Trillion	Burn

Escrow - As sum of 200 trillion CRX will be locked away in escrow. There will be an amount of 20 trillion released each year where the amounts will be used as follow.

10 trillion allocated to future staking rewards.

5 trillion will be burned.

5 trillion to the market.

Promotions - 25 trillion to follower and holders. Special weekly incentives will be introduced to holders.

Airdrop - 75 trillion to all holders that has a Global id verified Address and meets the required 2 million CRX holding and above.

Burn - Token burn will work in conjunction with the token sale.

Token Sales – Funds will be allocated to generate extra income for holders and provision will be made to assist charities and charity projects on the XRP Ledger.

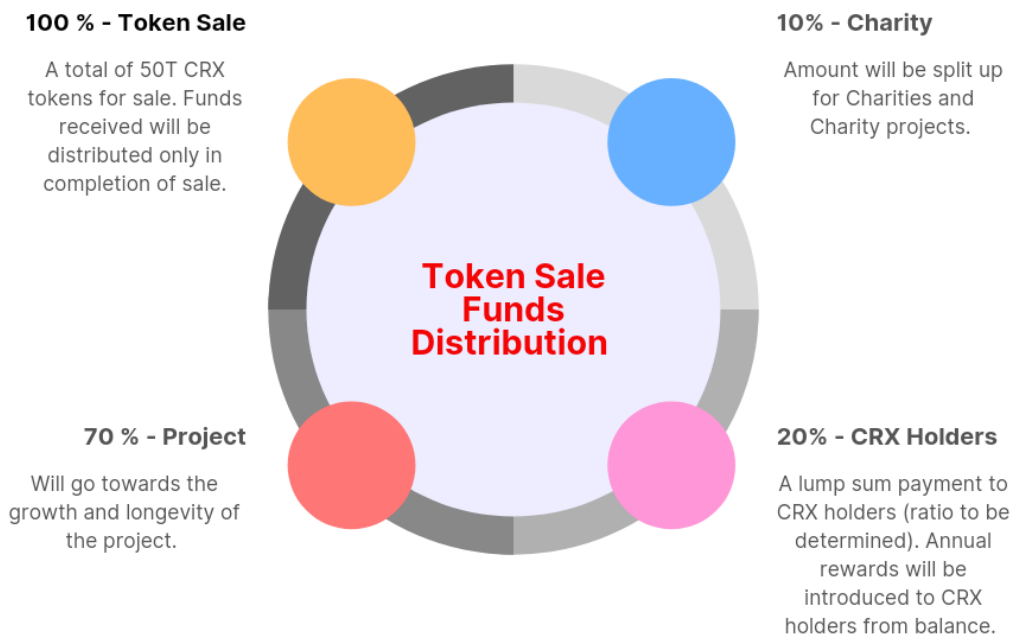

Token Sale Funds Allocation

20% Used as incentive to reward holders of CRX by form of Airdrop on annual basis.

Share ratio will be determined once token sales has been completed.

10% Distributed to charities and charity projects.

70% Towards the growth and longevity of the project

Roadmap 2022

Q1 2022

- Birth of CRX token
- Blackhole account to disable issuing of more tokens.

Q2 2022

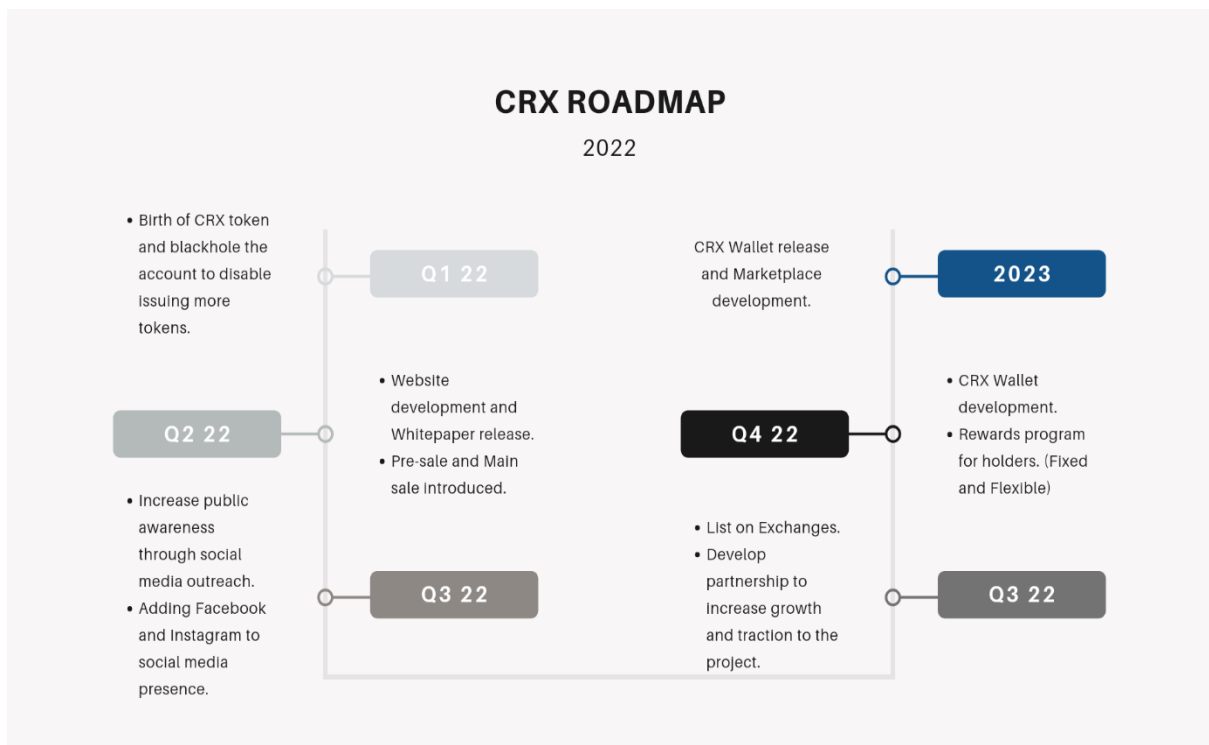

- Website development
- Whitepaper release
- Token sale introduce

Q3 2022

- Increase public awareness through social media outreach
- Add Facebook and Instagram to our social presence
- Increase token accessibility by listing on more exchanges or platforms
- Develop partnerships to increase growth and traction of the project.

Q4 2022

- CRX Wallet Development
- Rewards program for holders (Staking opportunities)

Closing

CRX and its marketplaces will offer a platform where any person or company in the world can buy or sell products in exchange for cryptocurrency as form of payment. With our project plan laid out, we hope our holders and followers see our vision and plans to make it a reality.

Thank You

Sincerely

#CRX Team
